اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

انجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

HERE COMES A 'SUPER BLUE BLOOD MOON ECLIPSE'

Biblical signs expert Mark Biltz explains what it could herald

Blood moons and eclipses have come and gone. But the signs of the times are getting more ominous than ever.

As if the total solar eclipse last August and the "blood moons" of 2014 and 2015 weren't enough, there will be a "super blue blood moon eclipse" on Jan. 31 – something that hasn't happened for 150 years.

And this rare event could herald war and turbulence on earth, according to a leading researcher of astronomical signs and how they interact with Scripture.

Rather than just looking skyward, Pastor Mark Biltz of El Shaddai Ministries, the man who discovered the "Blood Moons" phenomenon, says people need to be looking to their Bibles.

Mysterious bright flash and 'ground shaking explosion' over Russia sparks fears of a US missile strike on North Korea

- Blast of light was accompanied by 'ground shaking' over large parts of Russia
- The explosion sparked fears the US had launched a missile strike on North Korea
- Others suggested the phenomenon was a Russian military test, meteor or a UFO
- Light was strongest in three regions - Bashkortostan, Udmurtia, and Tatarstan

A mysterious bright flash turned night into day over a huge area of Russia - sparking fears the US had launched a strike on North Korea.

The explosion of light accompanied by the 'ground shaking' was also blamed on a UFO visitation or a meteor exploding in the atmosphere.

The phenomenon was seen and felt over thousands of miles in Russia, but was especially evident in three regions Bashkortostan, Udmurtia, and Tatarstan.

Russian officials and scientists immediately denied that there had been a Russian missile test or any reported space rock crashing to earth.

Asteroid warning: Space rock as big as a HOUSE on 'uncertain orbit' to skim Earth in DAYS

NASA is closely monitoring the arrival of a previously unseen asteroid that is set to brush past Earth next week at 12,300 miles per hour.

Newly discovered ASTEROID to flyby earth

The space rock had been invisible to astronomers until January 5, but scientists quickly calculated the **asteroid**, named 2018 AJ, will fly past Earth Tuesday, January 23.

But NASA admits it is not yet certain of its orbital path.

New asteroids are given a condition code of between 0 to 9 based on how certain astronomers are about its course.

Severe cold wave engulfed Bangladesh this week with record-breaking low temperatures, the coldest the country has seen since record-keeping started in 1948. At least 12 people, including 6 children, died of cold-related ailments in just 4 days.

Temperatures in parts of Bangladesh dropped to 2.6 °C (36.7 °F) on Monday, January 8, 2018, well below average for the country used to mild winters.

"It is the lowest temperature since authorities started keeping records in 1948," Shamsuddin Ahmed, head of the Bangladesh Meteorological Department (BMD), told AFP. The previous record low of 2.8 °C (37 °F) was recorded in 1968, he added.

The people of Ain Sefra were greeted by a strange sight when they woke up last Sunday: 4-12 inches of snow had fallen overnight in the northern Algerian town known as “the Gateway to the Desert”, situated between the Sahara Desert and the Atlas Mountains. This is only the third time in the last 40 years that the Sahara’s dunes have been coated with snow. The Sahara is one of the hottest places on the planet but strangely, it snowed there last year as well. Before that, it had been 37 years since Ain Sefra’s last snowfall.

Cape Town could be first major city in the world to run out of water

Jan 21, 2018 | 0 | =====

Cape Town and the surrounding region of South Africa are suffering from a severe drought. Three years of low rain levels and an unseasonably dry winter mean that average dam levels are just over a quarter full. The metro area of 3.7 million has less than 90 days' worth of water in its reservoirs, making it the first major city in the world that could run out of water. Cape Town residents and visitors can only use 13 gallons of water per day starting in February.

A massive 7.6 magnitude earthquake has struck the Caribbean Sea, prompting a tsunami warning for nearby islands including the US Virgin Islands, Puerto Rico and Jamaica.

The tremor, one of the largest to hit the Caribbean in recorded history, struck on Tuesday night at about 9.51pm just over 25 miles from the coast of Great Swan Island, belonging to Honduras.

The earthquake had a depth of 6.2 miles and rocked several Central American nations.

The Pacific Tsunami Warning Center said a tsunami advisory was put in place for hurricane-hit Puerto Rico and the US Virgin Islands and warned of possible waves up to three feet above tide level.

There were also fears waves could potentially impact the coasts of Central American nations, including Jamaica, Cuba and the Cayman Islands. However, the warnings were later canceled and in the end, no tsunami materialized.

Earth's Volcanoes Are Waking Up: DORMANT Papua New Guinea Volcano Erupts For First Time

01/08/2018

Hundreds of people are fleeing the island of Kadovar after a violent volcano has erupted for the first time in history. There have also been warnings that tsunamis could strike the island after the alarming eruption.

Mount Tavurvur, in the town of Rabaul in East New Britain province, erupted at 3 a.m. Friday morning, local time. The volcano, located in Papua New Guinea, was thought to be dormant. It has now erupted for the first time in known history, spewing ash thousands of feet into the air and forcing the evacuation of hundreds of residents. But the worst could be forthcoming, as experts now fear this surprising eruption could lead to landslides and tsunamis in the area.

Mayon volcano entered a new eruptive phase on January 13, 2018 with phreatic eruptions and lava flows from a new lava dome. It was the first eruption of this volcano since August 2014. Alert Level was raised from 1 to 3 and by January 17, more than 34 000 people living around the volcano were evacuated.

The current exclusion zone includes a Permanent Danger Zone (PDZ) that extends in a 6-kilometer (3.7 km) radius around the volcano and an Extended Danger Zone (EDZ) that extends 7 km (4.3 miles) on the southern flanks of the volcano, due to higher hazard in this area.

So far, more than 34 000 people have been evacuated, although some of them come back from time to

The dead fish, lying along more than 3km of the river, left a bad smell and local residents worried.

Nguyen No, a resident of La Ha Town, said that during the past three days, his family fished out a number of bags of dead fish from the river.

"The dead fish have different sizes, from as large as my hand, to as small as my finger. Dozens of ducks ate the dead fish and they also died," he said.

Local residents said that it was the first time the fish had died en mass in the area.

Tran Thi Pha, a resident in La Ha Town, who has worked there for 15 years, said that so far many kinds of fish lived in the river. However, in the past years, the river's water had turned turbid and the number of fish had gradually decreased.

Pha and her husband temporarily stopped their work since the fish died, as they were unsure of the reasons for the problem.

Amazon wants to put a camera and microphone in your bedroom with the UK launch of its latest Echo home device.

The camera on the £119.99 (\$129) Echo Spot, which doubles up as a 'smart alarm', will probably be facing directly at the user's bed.

The device, which is already available in the US has such sophisticated microphones it can hear people talking from across the room - even if music is playing.

However, there remain privacy concerns over using such a device in the home.

Amazon devices have previously activated when they're not wanted meaning this small device could turn into a potential spy.

Americans' outstanding credit card debt hit a new record in November, highlighting a more confident U.S. consumer but also flashing a warning signal of potential trouble down the road.

Revolving credit, mostly credit cards, increased by \$11.2 billion to \$1.023 trillion, the Federal Reserve said Monday. That nudged the figure past the \$1.021 trillion highwater mark reached in April 2008, just before the housing and credit bubbles burst. Over the past year,

Seven Ethiopian Christians have been arrested and detained in the north-western town of Chagni on suspicion of praying against the government.

A local source told World Watch Monitor the seven men, members of the Meserete Kiristos church, were followed and overheard by a local militia group when they went up a mountain to pray. When the Christians prayed "against Satan's power and kingdom" (a common choice of words in certain evangelical churches in Ethiopia), the group accused them of referring to the government.

Complaint filed with Freedom From Religion Foundation over prayer at Bradley Central High

Complaint filed with Freedom From Religion Foundation over prayer at Bradley Central High

Re: Unconstitutional Prayer at Athletic Events

The Bradley Central High

I am writing on behalf of the Freedom From Religion Foundation (FFRF) regarding a constitutional violation occurring in Bradley County Schools. It is my understanding that you represent Bradley County Schools and that we have worked with you to resolve constitutional issues in the past. I hope we can resolve this matter as well.

It is my understanding that this summer you conducted training for school system administrators regarding their constitutional duty to maintain the separation of church and state. Despite this training, a concerned district employee has reported that prayer is broadcasted over the loudspeaker before Bradley Central High School football games.

Our complaint also noted that, "In teaching compliance with some of the other religious things that are permitted in this school district." They did not provide any specifics, but I wanted to bring this statement to your attention given the recent training you conducted in the district.

As you know, the Supreme Court has specifically struck down invocations given over the loudspeaker at public school athletic events. See *Lee v. Weisman*, 505 U.S. 571 (2002); *Santa Fe Indep. Sch. Dist. v. Doe*, 530 U.S. 290, 320 (2000). Making it a school policy that authorized students to vote on whether to have a prayer at high school football games. The Court reasoned that because the football game was a school-sponsored event, hosting prayers was a constitutional violation. *Id.* at 307. Even if student-led, the Court held that prayers at a regularly scheduled school-sponsored function conducted on school property are not a subjective observer to perceive it as state endorsement of religion. *Id.* at 308.

Kenneth Copeland Acquires New Gulfstream V Jet, Seeks \$19.5M for Upgrades and Maintenance

Jan 19, 2018 | 0 ● | ★★★★★

Thanks to the support of his deep-pocketed partners, Texas-based televangelist Kenneth Copeland of Kenneth Copeland Ministries has acquired a new multimillion-dollar Gulfstream V jet that he says will help him do the Lord's work and help him avoid having to contend with "demons" that travel on commercial airlines. Copeland's ministry announced last Friday the acquisition of the "debt free" jet, which hit the market with a \$36 million price tag in 1998. The ultra-long-range business jet can

Rev. Graham: 'Darkness Is Spreading,' 'Forces of Evil' Working to Destroy Moral Society

By Michael W. Chapman | January 16, 2018 | 1:26 PM EST

Evangelical leader Franklin Graham, son of Pastor Billy Graham, said, "darkness is spreading rapidly" across the globe -- the sins of pornography, sexual abuse, drugs, religious persecution -- and that the "forces of evil are" are doing all they can to "destroy the foundations of a morally healthy society." He added that the light of Truth, which is Jesus Christ, will dispel the darkness but believers need to help spread this truth in their everyday lives.

"It's our responsibility as believers to let our light shine before men, and to honor and glorify God by our good works and godly life, regardless of how evil the culture has become," said Rev. Graham in his January commentary in *Decision* magazine, which is published by the Billy Graham Evangelistic Association (BGEA).

Former Teacher Has Certificates Suspended for Speaking Against Sin of Homosexuality on Facebook

By Heather Clark on January 9, 2018 · 42 Comments

NEWARK, N.J. — The New Jersey Department of Education has suspended the teaching certificates of a former high school teacher who came under fire seven years

ago for speaking against the sin of homosexuality on Facebook.

As previously reported, Jenye "Viki" Knox, 56, first came under fire in June 2011 after she posted comments on Facebook decrying the promotion of the homosexual lifestyle Union High School.

The school had reportedly erected a display in acknowledgment of "Gay, Lesbian, Bisexual, Transgender Month," which featured popular homosexual celebrities.

School Agrees to Pay \$800,000 After Transgender Student Born Female Is Denied Use of Boys' Bathrooms

Jan 12, 2018 | 0 | ★★★★★

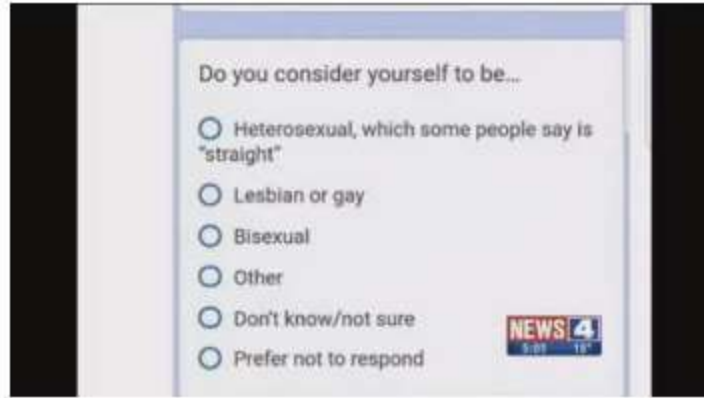

A school board in Wisconsin has agreed to pay \$800,000 to settle a lawsuit in the case of a transgender former student born female who was initially denied the request to use boys' bathrooms. The Kenosha Unified School Board voted 5-2 Tuesday night in favor of the \$800,000 settlement, Kenosha News reported. Lawyers said that \$650,000 of that sum will go toward attorney's fees. The student, Ash Whitaker, a biological female who identifies as a male, filed the lawsuit in 2016.

Parents of Students at Middle School Concerned After State Survey Asks Children About Their 'Sexual Orientation,' 'Gender Identity'

By Heather Clark on January 16, 2018 · 8 Comments

BOURBON, Mo. — Some parents at a middle school in Missouri have expressed objection after a survey from the state Department of Mental Health asked students about their so-called "sexual orientation" and "gender identity."

The Missouri Student Survey, also known as the Safe and Drug Free Schools and Communities Survey, is sent to schools every other year to understand the issues that students face, from bullying to drug use to suicide.
