

# تعليق على بعض الاحداث العالمية

## والعلامات حتى 6 فبراير 2018

Holy\_bible\_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

انجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لننتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

### Criminal Record Removal

**A fireball brighter than the Moon was recorded over southern Spain at 05:47 UTC (06:47 local time) on January 29, 2018. The event lasted up to 6 seconds before the object disintegrated in a bright flash.**

The event began at an altitude of 101 km (62.7 miles) over the province of Jean, moving quickly in a northeasterly direction. It ended at a height of about 41 km (25.4 miles) over the province of Albacete.

According to the preliminary analysis performed by Prof. Jose M. Madiedo of the University of Huelva, researcher responsible for the SMART Project, object's entry speed was estimated at 180 000 km/h, causing it to become incandescent, thus generating spectacular light phenomenon.

"The rock was completely destroyed in the atmosphere, so no fragment would have fallen to the ground in the form of a meteorite," Madiedo concluded.

THE Earth's magnetic poles could be about to flip, sparking chaos and making large parts of the planet uninhabitable, it has emerged.

Experts have warned that the change is extremely likely with the magnetic field weakening by 15 per cent over 200 years.

[Why this ad? ▾](#)

Following unprecedented road conditions across Morocco on January 20, 2018, when 5 000 km (3 100 miles) of roads were closed due to what authorities described as 'exceptional' snowfall, heavy snow arrived to the country's southern regions on January 29, for the first time in 50 years.

To address the unprecedented road conditions earlier this month, the Moroccan Ministry of Equipment, Transport, and Logistics mobilized 117 snow plows, acknowledging that the blockages disproportionately affected rural areas and promising huge investment in rural roads. The minister also made a public reminder that, before getting behind the wheel, Moroccans can use the application "MaRoute" to access the most recent information about the state of the roads across the country, the

## Gaua volcano alert level raised, major unrest reported

Posted by TW on January 31, 2018 in category Volcanoes

[Follow @TheWatchers\\_](#)

Dump Cash For Bitcoin

The Vanuatu Meteorology and Geohazards Department (VMGD) raised the Volcanic Alert Level of Gaua volcano from Level 1 to Level 2 on January 31, 2018. The decision restricts visitors from approaching the volcanic cone. A long period of dormancy of this volcano ended in 1962 with an eruption on its SE flank. Since then, the volcano erupted 15 times, including its last eruption in 2011.

Observations performed from December 2017 to January 2018 confirm that the activity at Gaua volcano consists of ongoing volcanic steam cloud which may contain volcanic gases, VMGD said today. These observations and seismic analysis confirm that the volcano activity has increased to the major unrest state.

Alert Level for Gaua volcano was at Level 1 since December 21, 2010. Based on its slight increased seismic activity and observation of ongoing volcanic gas emission and steam plumes in December 2017

## They find more than 200 dead seagulls on the beach of Tunquén

By The Dynamo | January 19, 2018

Residents of Tunquén, municipality of Algarrobo, were surprised to see a little over 200 dead seagulls on the beach. For now the experts and officials of the Agricultural and Livestock Service (SAG) are investigating the causes of the massive death, but ruled out that it was due to human intervention.

These are Franklin gulls, which come from the United States but migrate to the south during this time. Of the total, only 8 survived and are currently treated in the clinic of the University Santo Tomás in Viña del Mar. There they receive hydration treatment, oral feeding by probes and necessary medication.

The experts pointed out that birds have lesions on legs and wings, and that they may have died as a result of some poisoning.

However, the NGO Animalex thinks that there was interference from third parties. "There is enough evidence to determine that there was a human intervention. According to the new law of responsible tenure we would be able to review this criminal complaint," announced Juan Carlos Oróstica, president of the animal organization.

J-2 intelligence report warns of new dangers to low earth orbit satellites

BY: Bill Gertz [Follow @BillGertz](#)

January 30, 2018 5:00 am

China and Russia are developing anti-satellite missiles and other weapons and will soon be capable of damaging or destroying all U.S. satellites in low-earth orbit, according to the Pentagon's Joint Staff.

The Joint Staff intelligence directorate, known as J-2, issued the warning in a recent report on the growing threat of anti-satellite (ASAT) weapons from those states, according to officials familiar with the assessment.

The report concludes that "China and Russia will be capable of severely disrupting or destroying U.S. satellites in low-earth orbit" in the next several years,

## Iran 'Mass Producing' Drones Strapped with Smart Bombs

BY: [Adam Kredo](#) [Follow @kredod](#)

February 5, 2018 1:51 pm

Defense Minister Amir Hatami / Getty Images

Iran announced on Monday that it has begun mass-producing a new weaponized drone that carries smart bombs capable of precision strikes, according to the Islamic Republic's military leaders.

Iran, which has engaged in a massive military buildup since receiving billions of dollars in cash windfalls as a result of the landmark nuclear deal, says that these advanced new drones will be delivered to the Iranian Revolutionary Guards Corps, or IRGC, which has been coordinating war efforts across the Middle East, including most controversially in Syria, where Iranian-backed forces have attacked U.S. troops.

The new drones, dubbed the Mohajer 6, are "equipped with the smart Qa'em precision-striking bombs and different electro-optical explorers and different warheads, [and] can trace, intercept and destroy the target," Iranian Defense

It is not yet known which group shot the plane down.

@QalaatAlMudiq

A Russian Sukhoi-25 fighter jet has been shot down in a rebel-held area near Idlib in north Syria, reports say.

The Syrian Observatory for Human Rights monitoring group said the pilot ejected and was killed, but this has not yet been confirmed, according to the [BBC](#).

## Syrian rebels say they shot down a Russian jet, captured pilot: sources

REUTERS ON FEBRUARY 3, 2018 • ( LEAVE A COMMENT )

MAN (Reuters) – Syrian rebels said on Saturday they had brought down a Russian warplane in an area of northern Syria that has seen heavy air strikes, and two rebel sources said they had captured the pilot who was badly injured.

A rebel source said the Sukhoi plane was shot down over Khan al-Layl town near the city of Saraqeb, close to a major highway that has come under fierce air attack and attempts to advance on the ground by the Syrian army and Iranian-backed militias.

Two rebel sources said the pilot was badly injured after escaping the crash by parachute. A third rebel source said he was killed. There was no immediate comment from the Russian or Syrian militaries.

## 'Hezbollah is growing stronger - but the IDF is prepared'

Chief of Staff speaks at event marking 1997 'helicopters disaster,' addressing threats in North. 'Hezbollah has advanced weapon systems.'

Contact Editor Mordechai Sones, 30/01/18 22:27

Eizenkot (Flash 90)

IDF Chief of Staff Gadi Eizenkot spoke today at the Har Vagai School near Kibbutz Dafna at a ceremony marking 21 years since the tragic "helicopters disaster" in which 73 IDF soldiers were killed. The tragedy occurred when two IAF helicopters collided in northern Israel while transporting soldiers into southern Lebanon.

## 'The Palestinians can go to hell, they betrayed the Arab world'

Saudi blogger slams Palestinian Authority in viral video, calling PA 'ungrateful dogs'.

Arutz Sheva Staff, 02/02/18 12:22Contact Editor

While the Kingdom of Saudi Arabia is still nominally allied with the Palestinian Authority, a long-time client of the oil-rich custodian of Islam's holiest cities, recent reports suggest ties between the two have been cooling in recent years.

Covert cooperation with Israel against the common foe of Iran, along with the support of some Palestinian Arab factions of the Tehran regime, have encouraged the Saudi leadership to push the PA to accept a negotiated peace with Israel, even on terms less favorable than previous offers.

## Lab-bred mosquitoes to fly near Miami Zika

AP Associated Press - January 30, 2018

MIAMI (AP) — Thousands of bacteria-infected mosquitoes will be flying near Miami to test a new way to suppress insect populations that carry Zika and other viruses.

According to a statement from the Kentucky-based company MosquitoMate, the first mosquitoes will be released in the city of South Miami. The test is in collaboration with the Miami-Dade County Mosquito Control and Habitat Management Division.

MosquitoMate infects male *Aedes aegypti* mosquitoes with the naturally occurring *Wolbachia* bacteria. Any offspring produced when the lab-bred mosquitoes mate with wild female mosquitoes won't survive to adulthood.

Male mosquitoes don't bite, and *Wolbachia* isn't harmful to humans.

A similar trial began near Key West last spring. Hurricane Irma's landfall in the Florida Keys interrupted the final weeks of

## Cancer 'vaccine' eliminates tumors in mice, researchers

January 31, 2018, Stanford University Medical Center

Vehicle Non-treated CpG Non-treated

Scientists devised a pinpointed immunotherapy regimen that eradicated tumors throughout the body in mice. Credit: Sagiv-Barfi et al., *Science Translational Medicine* (2018)

Injecting minute amounts of two immune-stimulating agents directly into solid tumors in mice can eliminate all traces of cancer in the animals, including distant, untreated metastases, according to a study by researchers at the Stanford University School of Medicine.

The approach works for many different types of cancers, including those that arise spontaneously, the study found.

## The number of people using Facebook daily in North America dropped for the first time

- Facebook reported 184 million daily average users in Q4 2017, down from 185 million in Q3.
- It is the first such drop since Facebook began reporting these numbers in its earnings report.
- It suggests that Facebook's most lucrative market has become saturated in terms of usage, which means it will have to add more ads, or charge more for ads, to keep growing.

Matt Rosoff | @mattrosoff  
Published 14 Hours Ago | Updated 22 Mins Ago

The number of people in the U.S. and Canada who check Facebook every day dropped between the third and fourth quarter of 2017, the first such quarterly drop in company history.

Facebook usage in North America has been largely flat for the last several years, leaving international growth to pick up the slack. But the drop suggests that Facebook usage has reached a saturation point in its first and most lucrative market, and could foretell similar usage drops around the world.

The drop could also be a result of a steady drumbeat of negative press about Facebook, including concern over foreign governments using Facebook posts to divide the U.S. electorate during the 2016 election

## Pool Found at Ancient Christian Site May Be Where Ethiopian Eunuch Was Baptized in Book of Acts

Feb 4, 2018 | 0 ● | ★★★★★

Archaeologists in Israel have made another discovery connected to stories in the Bible, as they found a large 1,500-year-old pool at an ancient Christian site near Jerusalem where the Ethiopian eunuch, as mentioned in the Book of Acts, might have been baptized. The pool the archaeologists have unearthed is one among several that were built during the Byzantine era dating back to between the 4th and 6th centuries A.D. at Ein Hanniya Park between 2012 and 2016, according to World Israel News. "The most significant finding in the excavation is a large

A A

The mayor of Stockton, California, is leading an experiment with "universal basic income," which is set to start by giving low-income residents \$500 a month, no questions asked.

Mayor Michael Tubbs calls his city "ground zero" for issues like wage stagnation, rising housing prices and loss of middle-class jobs that affect the nation.

The Central Valley city went bankrupt in 2012, and for decades it has been trying to diversify its agriculture-based economy.

"I feel that as mayor it's my responsibility to do all I could to begin figuring out what's the best way to make sure that folks in our community have a real economic floor," Tubbs said.
