والعلامات حتى 17 ابريل 2018

Holy_bible_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

Solar storm could strike Earth this week: What you need to know

By Jennifer Earl | Fox News

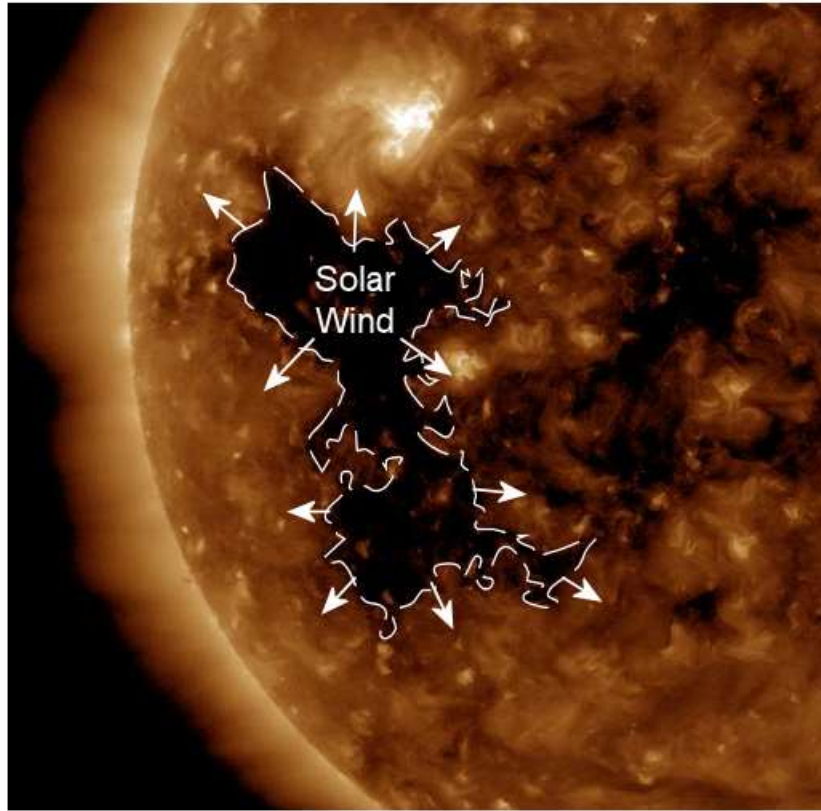

[f](#) [t](#) [v](#) [c](#) [p](#) [e](#)

A solar storm — a disturbance in Earth's magnetic field caused by changes in solar wind — is forecast to hit Earth this week.
(REUTERS/NASA/SDO/Handout)

بقعة شمسية أخرى عملاقة تظهر على سطح الشمس

ANOTHER HOLE IN THE SUN'S ATMOSPHERE: A new hole is opening in the sun's atmosphere, and it is spewing a stream of solar wind into space. This extreme ultraviolet image from NASA's Solar Dynamics Observatory shows the opening, which stretches more than 600,000 km from top to bottom:

Researchers call this a "coronal hole"—a region where the sun's magnetic field opens up and allows solar wind to escape. Why is the hole dark? Because much of the hot glowing gas that used to be there is gone.

Solar wind flowing from this hole is expected to reach Earth on April 20th. [G1-class](#) geomagnetic storms and high-latitude auroras are possible at that time. Sky watchers between 50° and 60° N latitude should also be alert for [STEVE](#), which tends to appear in that latitude range during springtime geomagnetic storms. **Free:** [Aurora Alerts](#)

Earth Has Near Miss With Asteroid Spotted Just Hours Earlier

Apr 16, 2018 | 0 | *****

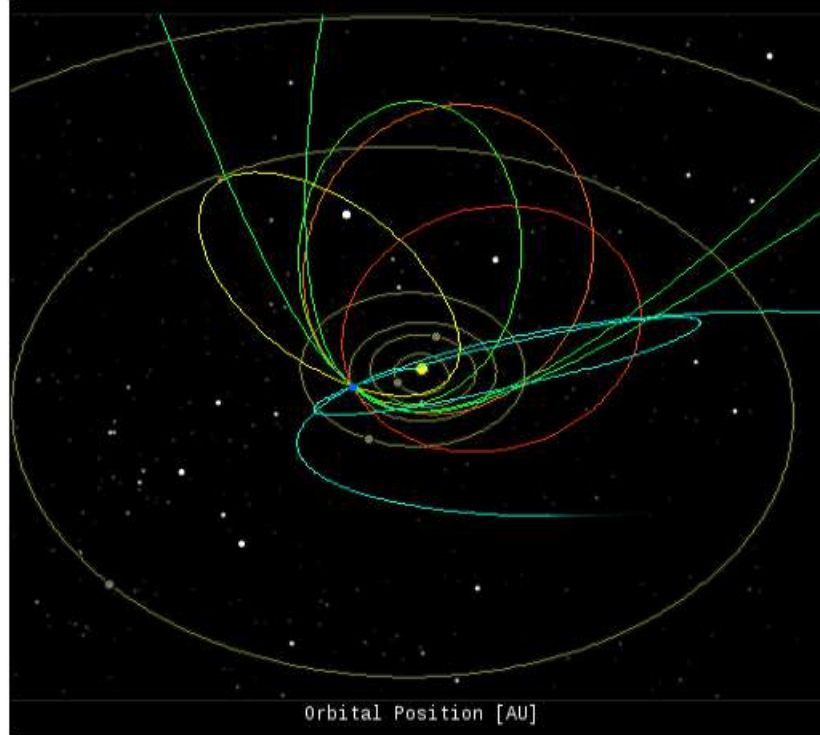

An asteroid came alarmingly close to striking the Earth on April 15, just hours after the large space rock was spotted flying through the solar system. According to EarthSky.org, the 150-foot asteroid wasn't located until April 14 by the Catalina Sky Survey in Arizona. The object, labeled 2018 GE3, passed within 119,500 miles of the Earth around 2:41 a.m. Eastern Time on Sunday morning. While it doesn't sound like a short distance, 2018 GE3 was twice as close to the Earth as the moon is, which has an average orbit

استمرار تزايد الاشعة الكونية التي تضرب الأرض بنسبة 13%

Actually, it was Tracy Stewart and Brian Elkington of West Valley City, UT, who did the sponsoring. They are the parents of two young scientists, Maxwell and Timothy Elkington, who wanted to fly Capt. Underpants and his sidekick Mousy to the edge of space. Tracy and Brian sponsored the launch of an Earth to Sky balloon with cosmic ray sensors onboard--and Capt. Underpants went along for the ride.

And a wild ride it was. The payload traveled more than 111,000 feet above Earth's surface, experiencing temperatures as low as -60 C and air pressures less than 0.2% of sea level. The cosmic ray dose rate at the apex of the flight (circled in red) was more than 100 times greater than on the Earth below:

After the balloon exploded, as planned, the payload parachuted back to Earth, landing in a rugged canyon near Panamint Butte on the verge of Death Valley. The recovery team hiked 14 miles to recover the payload. Capt. Underpants and Mousy survived the harrowing trip with a big grin and brought back great cosmic ray data for the students to analyze.

Is a massive tremor on the way? Ring of Fire activity returns as a series of earthquakes shake California and Alaska

- Near the end of January, a slew of Ring of Fire activity took place in many places
- Alaska experienced an earthquake and a volcano erupted in the Philippines
- At the time, the UN tweeted that the Pacific Ring of Fire was 'active'
- Now, eight earthquakes have shaken the US with several close to the Ring of Fire
- Three earthquakes struck in California with others in Alaska, Nebraska, Texas

By PHOEBE WESTON FOR MAILONLINE

A series of earthquakes shook the US yesterday with several hitting worryingly close to the Ring of Fire, sparking fears a massive tremor could be on the way.

The most powerful of this latest cluster - which also shook Alaska and **California** - came in Perry, Oklahoma, where a 4.3 magnitude tremor struck.

This follows on from a flurry of earthquakes in California at the weekend, with

New earthquake swarm at Yellowstone? More than 89 earthquakes hit near Old Faithful Geyser in Wyoming within 24 hours and their number increases every hour

By Strange Sounds - Apr 12, 2018 1

Like 910

Is this the **second earthquake swarm of 2018 at Yellowstone?** There is at least something going on. Within 24 hours, more than 89 small quakes have hit a region situated 32 km east of Old Faithful Geyser in Wyoming and their number is increasing each hour now. The earthquakes are aligned forming a fissural dike next to Yellowstone Lake. This swarm seems to indicate an intrusion of magma inside the Caldera of the Park.

The earthquake swarm began on April 11, 2018 with approximately 25 earthquakes rattling 32km east of Old Faithful Geyser in Wyoming:

Dead dolphin found on Harrison County beach

Published: Sunday, April 1st 2018, 12:44 pm MDT

Updated: Sunday, April 1st 2018, 1:40 pm MDT

By Joyce Philippe, Digital Content Producer [CONNECT](#)

Twenty-eight dolphins have been found on the beach this year in South Mississippi. (Photo Source: WLOX)

HARRISON COUNTY, MS (WLOX) - An adult female dolphin was found dead on the Long Beach and Pass Christian line Sunday afternoon.

This marks the 28th dead dolphin found in South Mississippi in 2018. It's a higher number than usual, according to Eric Pulis from The Institute for Marine Mammal Studies.

He expects to see more appear in the upcoming weeks. "This is dolphin stranding season, it lasts last throughout spring," said Pulis.

The dolphin sighting was reportedly called in by the public. It later was brought to IMMS for a necropsy.

Thousands of dead fish are floating in Lake Champlain, and nobody knows why

Updated Apr 1; Posted Apr 1

By **Ben Axelson**, baxelson@nyup.com.
NYup.com

Something smells fishy on the shores of Lake Champlain in Washington County.

Thousands of dead fish are floating on the water and washing up on the shore in the area of South Bay in Whitehall, but nobody knows why, [WTEN-TV](#) reported.

"When the sun comes up, it starts smelling a little bad," Bill Jones, who lives in Whitehall, told the station. He says the mass of fish deaths occurs every year, but what killed them is a mystery.

Locals have theories, however. Barry Lane, who also has a house on the shore, says the masses of dead fish show up wherever the wind blows.

Dozens of **dead** song thrush **birds** were found in the area of Basarbovo monastery near Rousse. The Regional Food Safety Directorate investigates the **dead birds** for bird flu.

This is the second such case within just two weeks in the Rousse region. Walking past the Basarbovo Monastery, Maria Zlatanova's family was struck by dozens of **dead** birds. The woman admits that she has never seen such a mass death of birds.

I walked yesterday around Basarbovo and on both sides of the road there were countless **birds** that died, within 200-300 meters there were 40 to 50 **dead birds**, stunningly bleak thing to see, "Maria Zlatanova told BNT.

According to ornithologists, the probable cause of the death of the thrushes is the cold. The situation was similar in the "Lipnik" forest park where about a week ago dozens of **birds** were also found dead. Maria Zlatanova, however, suggests that they might have been sick.

Last updated 17:40, April 6 2018

GEORGE HEARD/STUFF

Hundreds of dead eels found in Kaputone Creek in Belfast, north Christchurch, were rare and of a species declining in number.

Hundreds of fish found dead in a north Christchurch stream were of a rare species that is declining in number and regarded as being at risk.

About 800 fish and eels were discovered in a 4-kilometre section of Kaputone Creek in Belfast on Wednesday.

Mass pilot whale stranding on West Coast

JONATHAN GUILDFORD

Last updated 16:47, April 5 2018

DOC

DOC staff, Makaawhio iwi members and local people cared for whales on Wednesday night and Thursday morning.

All 38 pilot whales stranded on a remote West Coast river mouth have now died.

It was initially believed 32 whales had washed up near Haast, in South Westland, but an aerial survey of the area revealed a further six whales on the beach.

Department of Conservation (DOC) spokeswoman Jose Watson said 38 whales had stranded in total – 33 on the south side of the Okuru River and five to the north.

The Centers for Disease Control and Prevention (CDC) late last week announced a close to a *Salmonella* outbreak investigation tied to prepared chicken salad sold in Midwestern grocery stores. A total of 265 people in eight states were sickened during this outbreak, including 1 death and 94 hospitalizations.

That's 95 more cases, and one more state, since the CDC's previous outbreak update on Mar 8.

The vast majority of illnesses occurred in Iowa, which reported 240 cases. Other states reporting illnesses were Illinois (10), Nebraska (5), Minnesota (4), and South Dakota (3). Indiana, Mississippi, and Wisconsin each reported 1 case.

Fareway grocery stores across the upper Midwest sold the tainted chicken salad from Jan 4, 2018, to Feb 9, 2018. Triple T Specialty Meats, the producer of the chicken salad based in Ackley, Iowa, recalled 20,630 pounds of ready-to-eat chicken salad products that may have been contaminated with *Salmonella* Typhimurium on Feb 21.

The Centers for Disease Control and Prevention (CDC) today reported that 45 more people in 19 states have fallen ill with *Salmonella* poisoning since the CDC's last update on Mar 15.

The agency has now confirmed 132 cases in 32 states tied to the use of kratom, an herbal alternative to opioids. Thirteen states have reported their first infections, bringing the number of affected states to 38.

Forty percent of patients (38 of 96 with available information) have required hospitalization, but no deaths have been reported in this outbreak, the CDC said.

The update comes just days after the US Food and Drug Administration (FDA) issued a mandatory recall for all powdered kratom products from Triangle Pharmedicals, the first-ever mandatory recall issued by the FDA for a food product. The FDA issued the recall after the Las Vegas-based company failed to voluntarily recall kratom products.

On Apr 3, FDA Commissioner Scott Gottlieb, MD, said, "This action is based on the imminent

Investigations surrounding MERS-CoV cases detected in hospitals should cast a wide net when testing health workers and other contacts, regardless of contact type or symptom level, researchers from Saudi Arabia reported yesterday, based on their experiences with a 2017 hospital outbreak in Riyadh.

In another MERS-CoV (Middle East respiratory syndrome coronavirus) research development, a case series of seven children with the disease sheds more light on clinical patterns in this age-group, affirming that the disease is typically milder in kids than in adults.

The World Health Organization (WHO) Eastern Mediterranean regional office said today in its overview of MERS-CoV cases for March that the global total at that point was 2,189 cases, 782 of them fatal. The vast majority are from Saudi Arabia.

In March, the country reported seven MERS-CoV cases and one death. The illnesses included a hospital case-cluster from Riyadh consisting of six cases and three deaths. Illness onsets ranged from Feb 23 to Mar 3, and an investigation into the virus transmission is still under way, the WHO said.

Syrian port of Tartus

Russia has moved at least 11 navy ships deployed in Syria out to sea in the event of a U.S. military strike, which appears to be imminent in the wake of an exchange of threats between President Trump and Russian officials.

Trump replied early Wednesday to a Russian threat to shoot down any U.S. missiles in Syria with a tweet: "Get ready Russia, because they will be coming, nice and new and 'smart!'"

Israel: Syria continues developing chemical weapons

In an unusual statement, Foreign Ministry condemns alleged poison gas attack in Douma, saying 'attack shows clearly that Syria continues to possess lethal chemical weapons capabilities and even to manufacture new ones.'

Itamar Eichner, Yoav Zitun | Published: 04.10.18, 10:02

Israel's Foreign Ministry issued a condemnation Monday night to the [alleged poison gas attack in Douma](#), noting that despite the fact Syrian President Bashar Assad has committed to getting rid of his chemical arsenal, he continues using the weapons he has before as well as developing new capabilities.

•Follow Ynetnews on [Facebook](#) and [Twitter](#)

"The Syrian regime continues to perpetrate crimes against humanity in using these outlawed weapons," the ministry said in a statement. "The latest attack joins a long series of similar attacks using chemical weapons perpetrated by the regime since Assad undertook to disarm from such weapons. The attack shows clearly that Syria continues to possess lethal chemical weapons capabilities and even to manufacture new ones."

"In so doing Syria is grossly violating its obligations and the decisions of the international community in this matter," the ministry charged further.

To conclude, we asked a straightforward question: *with the return of John Bolton, is war imminent in Syria?*

"Jordan is a major player bordering southwestern Syria but has been silent as the Russian-backed Syrian regime expanded territorial gains from terrorist groups in the eastern Ghouta region. Now, Jordan seems like it is preparing for a conflict with Syria, as the United States Armed Forces have recently unloaded large amounts of tanks and personnel carriers. Nevertheless, with the return of John Bolton, is war imminent on the Jordan-Syria border?"

Urgent Prayer Alert: Israeli Military on High Alert Amid Iran Threats

9:46AM EDT 4/13/2018

Barry Segal

(U.S. Air Force/ Airman 1st Class Tristan Biese)

Israel's military was put on high alert amid heightened tensions along the northern border and with Iran threatening to avenge an airstrike on a Syrian air base believed to have killed 14 people, including 7 Iranian military personnel.

Russia, Syria and Iran have all said Israel carried out the Monday, April 9, 2018, missile barrage on the T-4 Air Base near Palmyra in central Syria. American sources also confirmed that Israel had conducted the strike and that they were notified of it in advance. Israeli officials refused to comment on the strike.

Following the assault, a top adviser to Iran's Supreme Leader Ayatollah Ali Khamenei threatened Israel: "The crimes will not remain unanswered," Ali Akbar Velayati said during a visit to Syria. Iran's Foreign Ministry also accused Israel of "flagrant" aggression in Syria following the attack. Israeli officials did not appear to be taking the threat of a retaliatory attack—either by Iran or its proxy, the Hezbollah terrorist group—lightly. On Tuesday, April 10, 2018, Defense Minister

ATHENS (Sputnik) – Greek border security personnel fired warning shots as a Turkish helicopter approached the Greek islet of Ro in the eastern Mediterranean, a Greek law enforcement source told Sputnik on Tuesday.

"There were warning shots. This is an absolutely legitimate reaction on our part ... These were the actions, which should have been taken under the existing modus operandi. The helicopter was flying about one mile away from the base at a low altitude. It was a Turkish Coast Guard helicopter," the source said.

Humans will be genetically modified for the first time in Europe as scientists get the go-ahead to use DNA-splicing therapy to treat blood disorder

- A blood disorder known as beta thalassaemia could be cured using this therapy
- The disorder reduces the production of haemoglobin which carries oxygen
- Scientists plan to cut away the component which is repressing the production of haemoglobin

Humans will be genetically modified for the first time in Europe after regulators have given the go ahead to trial DNA-splicing therapy.

A destructive blood disorder known as beta thalassaemia, which reduces the production of haemoglobin, could be cured using this therapy.

Haemoglobin carries the oxygen the body needs to its cells and without sufficient amounts those with the disease can be left with bone deformities, anaemia, slow growth, fatigue and shortness of breath.

Scientists at the biotech company Crispr hope that they can alter the body's code to stop the genetic mutation and restore healthy levels of haemoglobin.

JAPAN TO LIFT BAN ON GROWING HUMAN ORGANS IN ANIMALS

Government panel recommends benefits outweigh risks

The World's 10 Toughest Buildings Popular ...

A Japanese government-commissioned expert panel has greenlighted controversial scientific experiments to grow human organs inside the bodies of animals as early as this fall.

Under the auspices of the Education, Culture, Sports, Science and Technology Ministry, the panel produced a report on research involving the development of human organs in the bodies of pigs and other animals. In the report, the panel concluded it would allow researchers to implant an animal embryo (a fertilized egg) containing human cells into an animal's womb and have the animal give birth.

One method being considered for growing human organs inside animal bodies involves injecting human induced pluripotent stem (iPS) cells into an animal embryo and then returning the embryo to an animal's womb to be birthed. The embryos are genetically modified to prevent

Cory Gardner Fears Zuckerberg Hearings Could Lead To Government Regulation Of The Internet [VIDEO]

NICK GIVAS

Media And Politics Reporter

11:40 AM 04/10/2018

Republican Sen. Cory Gardner of Colorado fears congressional hearings with Facebook CEO Mark Zuckerberg could lead to further government regulation of the internet.

Gardner thinks politicians will take advantage of the [Facebook](#) situation and use it as a way of increasing their power over a free and open internet.

"I think it treads on some very tenuous ground," Gardner said on "America's Newsroom" Tuesday. "There may be some people who wish to look at the opportunity to have regulation of the internet. Regulation over speech

MYSTERY 'TRUMPET SOUNDS FROM SKY' IN HAWAII

See video that captures unusual and unexplained phenomenon

A A

Shippins News has posted online a video that contains sounds that are described as possibly being from "tidal waves, methane explosions, underground earthquakes, or shifting sand dunes."

Or not.

"Although it's probable that these 'weird apocalyptic' booming sounds seemingly coming from the skies have an earthly origin, USGS scientist David Hill says that it's also possible some of these noises originate from above," the report explains.

PJ Media describes it as a "video recording of eerie trumpet sounds from Hawaii."

Night

Some, the posting explains, are speculating "that the end times and the Second Coming of Jesus Christ are imminent."

وتقرير يوضح ان تم سماع أصوات غريبة في العالم ما بين ابواق وغيرها في سنة 2017 تعدى

111 حادثة في مناطق مختلفة وايام مختلفة وكلهم مسجلين فيديو وفي سنة 2016 163 حالة

وفي 2016 64 وسنة 2014 التي سجل فيها 21 مرة وقبل هذا اقل بكثير

Mystery Booms and Rumbings

Do you feel the mysterious booming noises around the world?

Loud bangs and shaking are actually quite common around the world.

So why are these loud explosion noises and rumbings being heard so often around the world?

An alien invasion? Some exploding meteors?, Earthquakes? Or just signs of major Earth changes happening deep within our Planet and soon dooming the world? **What are these mysterious rumbling noises?**

First you should look for man-made sources like jet sonic booms (actually not permitted over inhabited areas), military and police trainings (and they will not always tell you they are guilty), **underground tunnel** constructions, blasting, fire, explosions (e.g., tannerite).

You may also know that **earthquakes produce loud booms**. So if you live in an earthquake prone area, a **fracking area**, or near a volcano you may experience these loud rumbling noises.

كاميرات التجسس قريبا قد تعرف ما تفكر فيه وما تشعر به عن طريق فحص الجسم

Spy cameras could soon know what we're thinking and feeling simply by scanning our BODIES - and there may be no way to opt-out

- The claims were made by Dolby Labs' chief scientist Poppy Crum at Ted 2018
- She studies people's reactions as they watch films using scanning techniques
- Future devices could be set up in public spaces to harvest this valuable data
- There will be no way for us to opt out or ditch this passive technology, she warns

The data we share with companies online has become a hot-button issue, but new technologies could soon be scanning us as we go about our day.

That's the claim made by a neuroscientist, who believes that devices in the real world will start gathering unprecedented levels of information about us.

Our bodies give off various signals that can be scanned and analysed by advanced computer systems, revealing everything from our current mood to our overall health.

A coin minted to celebrate Israel's 70th birthday has Donald Trump's profile superimposed over King Cyrus on one side and the third temple on the other. It's called the temple coin.

"The fact that Orthodox Jews wanted to honor Trump for recognizing Jerusalem as the capital of Israel and they minted this coin—a one-half silver shekel—is as if they are confirming this word given by Christians as valid," says Warren Marcus, the executive producer of *It's Supernatural! With Sid Roth*.

The Chinese government issued a notice declaring that all who are religiously affiliated in the Henan Province must register with the government in Anyang, the northernmost city in the region.

The order declares that Christians, Buddhists, Taoists, and Muslims must register; however, according to a source that spoke to ChinaAid, the communist government is only going after those who identify as Christians.
