اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيق اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعه سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

NORTH KOREA AND AVIATION RADIATION: For the past 4 years, Spaceweather.com and Earth to Sky Calculus have been flying radiation sensors onboard airplanes to map the distribution of cosmic rays around our planet. [Our database](#) currently contains more than 17,000 GPS-tagged radiation measurements spanning 5 continents and 43,000 feet of altitude. Yesterday, we realized we could use this database to investigate a current event—namely, the possibility of a radiation leak from North Korea.

Above: Earth to Sky Calculus X-ray/gamma radiation sensors onboard a plane flying near N. Korea.

North Korea recently surprised observers by announcing a suspension of its underground nuclear testing program. Geologists in China quickly offered an explanation: Mount Mantap, which sits atop of the test site, had collapsed. The mountain crumbled in Sept. 2017 minutes after the North Korean regime exploded a 100 kiloton prototype weapon. According to the South China Morning Post, the China Earthquake Administration believes the collapse may have created a "chimney" that allows the escape of radioactive materials.

Threat of nuclear weapons use growing, UN warns

By Nina LARSON
Geneva (AFP) April 23, 2018

A top UN official sounded the alarm Monday over a new, looming arms race and warned that the risk that devastating nuclear weapons could be used was on the rise.

"The threat of the use, intentional or otherwise, of nuclear weapons is growing," the UN's representative for disarmament affairs, Izumi Nakamitsu, told a preliminary review meeting of the Nuclear Non-Proliferation Treaty (NPT).

The United States, which holds one of the world's largest nuclear arsenals, also warned the conference that the prospects for progress on disarmament was currently "bleak".

The NPT, negotiated at the height of the Cold War nearly a half century ago, seeks to prevent the spread of atomic weapons while putting the onus on nuclear states to reduce their stockpiles.

Speaking at the opening of the Geneva meeting, Nakamitsu warned that "the world today faces similar challenges to the context that gave birth to the NPT."

Netanyahu turns up volume as Iran deadline nears

Jerusalem (AFP) April 23, 2018 - Israeli Prime Minister Benjamin Netanyahu fresh call Monday for an overhaul of the Iran nuclear deal as US President Trump's deadline for further Iranian concessions edged closer.

Trump has threatened to tear up the 2015 agreement that lifted sanctions exchange for curbs to its nuclear activity, unless it curbs its ballistic missile programme by May 12.

"Israel will not allow regimes that seek our annihilation to acquire nuclear weapons," Netanyahu told an audience of diplomats in a speech in Jerusalem.

"This is why this deal has to be either fully fixed or fully nixed," he said in English.

North Korea's nuclear site collapse may be reason Kim Jong Un ceased bomb tests, scientists say

North Korea's nuclear test site has collapsed after the region sustained damage from five nuclear blast trials, Chinese scientists said Wednesday — leading many to believe it may be the reason why Kim Jong Un suddenly announced the rogue regime would freeze its nuclear and missile tests.

Reports surrounding Punggye-ri test site collapsing have been swirling for months after Kim ordered his scientists to conduct the regime's sixth nuclear test last September. A research team led by Wen Lianxing, a geologist with the University of Science and Technology of China in Hefei, determined the collapse was from that blast, which tore a hole in Mount Mantap, South China Morning Post reported.

Russia's new nuclear drone submarine could be capable of causing 300ft-high tsunamis, able to wipe out coastal cities, experts say.

The existence of the drone, believed to be the Status-6 system - also known as 'Putin's doomsday machine' - was confirmed by the Russian President himself in his annual state-of-the-nation speech in Moscow last month.

Experts say a 50 megaton underwater nuclear bomb would be able to create tsunami waves reaching more than 320ft - the 'Status-6' is allegedly able to carry

US Commerce Secretary calls China 2025 plan 'frightening'

by Staff Writers
Washington (AFP) April 24, 2018

China's plan to transform itself into the global technology nexus is a "frightening" one that puts American intellectual property at risk, US Commerce Secretary Wilbur Ross said Tuesday.

"It's a huge, huge problem," Ross told a gathering of fabric industry executives about the repeated theft of technology. "And it's not going away."

He said Beijing's development plan -- Made in China 2025 -- maps out the country's strategy to dominate "every hot industry" from space to telecommunications to robotics to electric cars.

"They have been the factory floor of the world, now their vision is to be the technology center for the world," Ross said.

"What they are really trying to do is take their immense trade surplus from the conventional industries of today...and plow them into semiconductor research and every kind of research you can imagine."

Washington last month threatened steep tariffs on \$50 billion in Chinese goods, because of policies it says aim to steal technology, and also filed a complaint at the World Trade Organization.

That ratcheted up tensions between the two countries and they have exchanged increasingly severe tariff threats.

But US President Donald Trump on Tuesday confirmed that Treasury Secretary Steven Mnuchin and US Trade Representative Robert Lighthizer would travel to Beijing in "a few days" at China's request.

Iranian Naval Commander Threatens To Sink US Ships, Create "Catastrophic Situation" If Trump Kills Deal

President Donald Trump offered some of his most bellicose rhetoric yet about Iran on Tuesday when he said Iran would have "bigger problems than they have ever had before" if the country's leadership dared to restart its nuclear program following a US pull-out of the JCPOA (otherwise known as the Iran deal), per the *Times of Israel*.

And today, a top Iranian general hit back at Trump with an aggressive threat to sink US Navy ships, while warning that the US would find itself in a "catastrophic situation" if it withdraws from the deal and reimposes economic sanctions.

"The actual information that the Americans have about us is much less than what they think they have. When will they figure this out? When it is too late," the Revolutionary Guard Corps's navy commander, Admiral Ali Fadavi, told Iranian television on Saturday.

"They will definitely figure it out when their ships are sunk, or when they find themselves in a catastrophic situation," Fadavi threatened in an interview with IRINN TV, according to a translation by the Middle East Media Research Institute.

New York, April 26, IRNA – Iran's Permanent Representative to the United Nations reaffirmed his country's longstanding solidarity with the Palestinian people, saying he Israeli occupation of Palestinian land is the core and central to all conflicts in the Middle East.

In a statement at the Security Council Open Debate on "Situation in the Middle East, including the Palestinian Question" on Thursday, Gholamali Khoshroo added that no political theater by the US and Israeli regime can cover up the aggressive and expansion policies of this regime and its behavior towards its neighbors as the main source of threat to the peace and security in this region.

Israel will hit Tehran if Iran attacks Tel Aviv

Reuters • April 26, 2018

RIYADH (Reuters) - Israel would retaliate against any Iranian attack on Tel Aviv by striking Tehran, Israel's defense minister said in remarks published on Thursday, as the arch-foes faced off over Syria.

The comments by Avigdor Lieberman were an unusually explicit Israeli threat to take military action within Iranian territory, and followed a surge of unprecedented confrontations between the countries' forces in civil war-torn Syria.

"Israel doesn't want war ... but if Iran attacks Tel Aviv, we will hit Tehran," Avigdor Lieberman told the Arabic-language, Saudi-owned news website Elaph, which is based in London.

Defense minister says Russian air defense systems already deployed in Syria but don't act against Israel, warning that if Syria uses advanced S-300s to attack IAF aircraft, Israel will retaliate; also rejects Nasrallah accusations about killing Arab scientists.

"What's important to us is that the defensive weapons the Russians are giving Syria won't be used against us," Lieberman told Ynet. "If they're used against us, we'll act against them."

Russia's daily Kommersant newspaper, citing unnamed military sources, reported earlier on Monday that Russia might start supplying the anti-aircraft missile systems to Syria in the near future.

Russia Warns Israel Do Not Destroy S-300 Missile Defense Systems Or Will Be 'Catastrophic For All Sides'

Russian officials said to warn of 'catastrophic' result if Israel strikes S-300s

Russia may begin delivering its powerful S-300 missile defense system to Syria in the near future, despite opposition from Israel and other Western powers, the Russian daily Kommersant reported Monday, citing anonymous government sources.

The sources told the newspaper that if Israel tried to destroy the anti-aircraft batteries — as analysts have indicated Israeli likely would — it would be “catastrophic for all sides.”

Moscow [announced](#) last week that it was considering reversing its longtime policy against supplying the S-300 system to the regime. The statement came following a series of airstrikes against Syrian targets by the United States, United Kingdom and France earlier this month in response to an alleged chemical weapons attack by Syrian dictator Bashar Assad.

“A few years ago at the request of our partners, we decided not to supply S-300s to Syria,” Russian Foreign Minister Sergey Lavrov told the BBC last week. “Now that this outrageous act of aggression was undertaken by the US, France and UK, we might think how to make sure that the Syrian state is protected.”

Lavrov’s comments to the BBC indicated that the impetus for Russia to reverse its decision and give Assad the S-300 was not the airstrike allegedly conducted by Israel on April 9, but the American-French-British attack on April 13.

According to Kommersant’s report, Russia will not be selling Assad the S-300 system, but rather providing it at no cost as part of a military aid package in order to hasten the delivery.

Beirut (AFP) - Missile strikes on central Syria killed 26 pro-regime fighters, most of them Iranians, a monitor said Monday, in a raid that bore the hallmarks of Tehran's archfoe Israel.

The Syrian regime, which denounced a "fresh aggression" after the strikes, meanwhile continued to flush out armed groups from the capital with more deals to transfer fighters to the country's north.

For years, the international community and the U.S. government have described the West Bank in Israel as "occupied."

That is, governed by Israel even though Palestinians claim ownership.

But just days ago, the U.S. State Department discontinued that description.

The agency's new "Country Reports on Human Rights Practices for 2017," released Friday, assesses human rights in nearly 200 countries.

University of Texas to Treat Masculinity as a 'Mental Health' Issue

BY TONI AIRAKSINEN APRIL 27, 2018

💬 1445 COMMENTS

The Counseling and Mental Health Center at the University of Texas at Austin recently launched a new program to help male students “take control over their gender identity and develop a healthy sense of masculinity.”

Treating masculinity as if it were a mental health crisis, “MasculinUT” is organized by the school’s counseling staff and most recently organized a poster series encouraging students to develop a “healthy model of masculinity.”

The program is predicated on a critique of so-called “restrictive masculinity.” Men, the program argues, suffer when they are told to “act like a man” or when they are encouraged to fulfill traditional gender roles, such as being “successful” or “the breadwinner.”

Are You an Alpha or a Beta Male? Take Our 20-Question Quiz and Find Out

Though you might enjoy “taking care of people” or being “active,” MasculinUT warns that many of these attributes are actually dangerous, claiming that “traditional ideas of masculinity place men into rigid (or restrictive) boxes [which]... prevent them from developing their emotional maturity.”

انت لا تعرف متى ستكون منهم
