## والعلامات حتى 8 مايو 2018

Holy\_bible\_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيق اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعه سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

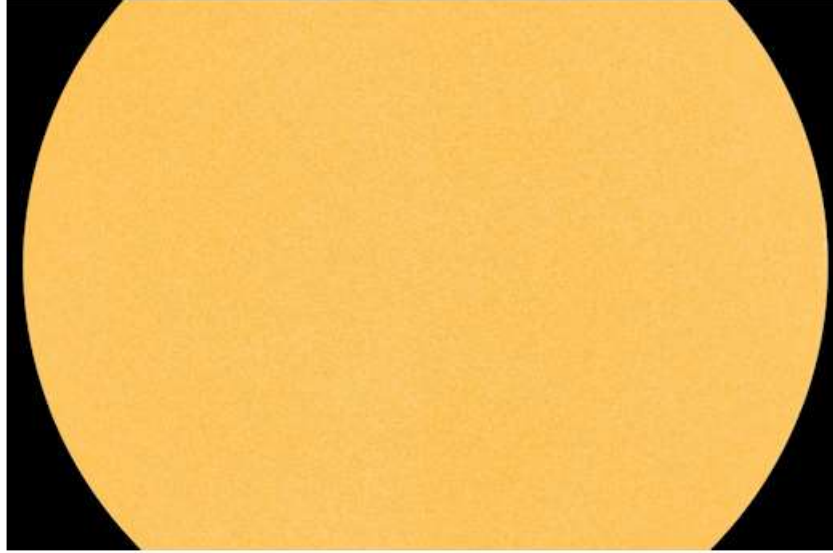

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

**SUNSPOTS VANISHING FASTER THAN EXPECTED:** Sunspots are becoming scarce. Very scarce. So far in 2018 the sun has been blank almost 60% of the time, with whole weeks going by without sunspots. Today's sun, shown here in an image from NASA's Solar Dynamics Observatory, is typical of the featureless solar disk:

The fact that sunspots are vanishing comes as no surprise. Forecasters have been saying for years that this would happen as the current solar cycle ("solar cycle 24") comes to an end. The surprise is how fast.

"Solar cycle 24 is declining more quickly than forecast," [stated](#) NOAA's Space Weather Prediction Center on April 26th. This plot shows observed sunspot numbers in blue vs. the official forecast in red:

Another active day for severe Kansas weather delivered large hail, powerful winds and at least one brief tornado. Storms packed a lot of energy when they fired up in central Kansas, but diminished as they moved east. By the time stormy weather arrived in the Wichita area, the primary concern was blinding rain and potential flooding concerns.

Severe dust storms across northern India have killed more than 100 people, destroyed homes and left hundreds without electricity.

Billowing clouds of thick dust and sand frequently blow across the region during the dry season, but the death toll from this week's storms has been unusually high.

There were 73 confirmed deaths in Uttar Pradesh state, most in Agra district where the Taj Mahal is located. Another 36 died in Rajasthan and two each in

**YELLOWSTONE NATIONAL PARK, Wyo.** -- Yellowstone National Park geologists have reported the third eruption from the world's largest active geyser in the past six weeks. The National Park Service says a park visitor reported seeing a rare eruption of Steamboat Geyser on Friday.

Park geologists compared the report with seismic activity and the discharge of water and concluded the eruption probably started at 6:30 a.m.

The geyser also erupted on March 15 and April 19.

All three eruptions were smaller than the last major eruption that occurred on Sept. 3, 2014.

Activity on Kilauea volcano has soared over the last two days, with 250 earthquakes striking when the crater floor collapsed.

Hawaii's Civil Defense team have told residents in the Big Island to get their emergency plans in place in case the volcano blows.

Terrified locals in the Puna area, about 30 miles from the volcano's peak, spotted the cracks which emerged as a result of magma flowing beneath a main road.

A small ash cloud was produced rising up to 6.7 km (22 000 feet) above sea level, drifting to the southeast.

A few small earthquakes were also recorded at the volcano during the previous several days.

In response to increased activity, the Alaska Volcano Observatory (AVO) raised the Aviation Color Code to Orange.

Explosions from Cleveland typically produce relatively small volcanic ash clouds that dissipate within hours; however, more significant ash emissions are possible.

Cleveland volcano is monitored with a limited real-time seismic network, which inhibits AVO's ability to

## Yellow fever threatens South Florida after Zika scare

By Larry Barszewski Sun Sentinel (TNS) 17 hrs ago 2

The Zika scare of 2016 could lead to a yellow fever panic this year if South Florida residents let down their guard when it comes to protecting themselves from disease-carrying mosquitoes.

There hasn't been a yellow fever outbreak in the United States in more than 100 years, but state health officials are concerned that a large outbreak in Brazil and others in South and Central America could lead to infected travelers bringing the disease to South Florida, which has the right mosquitoes and climate for it to spread.

The disease is deadlier than the Zika virus. Zika raised alarms because many infected pregnant women gave birth to infants having microcephaly, a condition that causes abnormally small heads and developmental defects. Yellow fever can kill. Brazil reported 1,131 cases and 338 deaths attributable to yellow fever from July to March.

Most people infected with yellow fever will get symptoms so minor they won't realize they have been infected. Even for those who do notice, the symptoms such as fever, chills and headaches don't make it stand out from many other illnesses.

But for about 15 percent of the infected, the initial symptoms pass and then come back with a vengeance within a day, causing internal bleeding and jaundice — the yellowing of the skin that gives the fever its name — the failure of the liver and other organs. Of those, up to half die, usually within a week or two.

# Tick, mosquito-borne infections surge in United States: CDC

3 MIN READ

NEW YORK (Reuters) - The number of Americans sickened each year by bites from infected mosquitoes, ticks or fleas tripled from 2004 through 2016, with infection rates spiking sharply in 2016 as a result of a Zika outbreak, U.S. health officials said on Tuesday.

The U.S. Centers for Disease Control and Prevention said that some 96,075 diseases caused by bites by mosquitoes, ticks and fleas were reported in 2016, up from 27,388 in 2004, in an analysis of data from the CDC's National Notifiable Diseases Surveillance System.

# Putin, Macron diverge on Iran deal as Trump decides

By Laurence BENHAMOU  
Paris (AFP) April 30, 2018

Russian President Vladimir Putin and French leader Emmanuel Macron launched a joint defence of the Iranian nuclear deal on Monday but expressed differences on how to move forward as US President Donald Trump weighs up whether to scrap it.

The Kremlin said Putin and Macron were both calling for "strict observance" of the hard-fought 2015 agreement after a phone call between the two leaders.

Macron's office however said that while the pair agreed on the need to "preserve the gains from the agreement", the French leader was also pushing for international talks on a potential wider deal.

"The president expressed his desire for discussions on controlling (Iran's) nuclear activity after 2025, in close cooperation with Russia, other permanent members of the UN Security Council, European and regional powers," the French statement said.

Trump has a May 12 deadline to decide on whether or not to walk away from the deal, which he has derided as "insane" partly because its restrictions on Iran's nuclear activities begin expiring in 2025.

## As deadline looms, Trump slams 'horrible' Iran deal

Washington (AFP) April 30, 2018 - US President Donald Trump once more attacked the Iran nuclear deal as "horrible" Monday, as he faces a May 12 deadline to decide on the fate of the accord.

"In seven years, that deal will have expired and Iran is free to go ahead and create nuclear weapons," Trump told a joint press conference with his Nigerian counterpart Muhammadu Buhari.

"That is not acceptable," Trump charged. "This is an agreement that wasn't approved by too many people. And it's a horrible agreement for the United States."

Israeli defense officials have told their American and Russian counterparts that if Iranian-backed forces attack Israel from inside Syria, Jerusalem will not hold back from retaliating with direct strikes against Tehran or other targets in Iran.

The officials delivered the message ahead of a national security statement expected Monday from Israeli Prime Minister Benjamin Netanyahu in response to Iranian threats to hit Israel after recent strikes on Tehran-backed assets in Syria, according to a report by Haaretz, an Israeli newspaper.

In 20 to 40 years from now, would-be parents will be able to choose from dozens of already artificially created embryos before having a child based on their preferred criteria and potential, says a bioethicist and author of the book, "The End of Sex and the Future of Human Reproduction."

Henry Greely, a Stanford University law professor, is the author who sees in ongoing research the future potential to choose children with less potential for future disease, more for athleticism or even a preferred eye color.

A few months ago, North Korea's dictator, Kim Jong-un, was firing missiles over Japan and threatening to send nuclear bombs in our direction.

But last week, the young leader dropped a different kind of surprise on the world: He met with South Korean president Moon Jae-in on April 27 and announced that the 67-year-old Korean conflict is over. "I came here to put an end to the history of confrontation," Kim Jong-un told Moon in a meeting on the border town of Panmunjom.

"There will be no more war on the Korean peninsula, and a new age of peace has begun," the two leaders said in a joint statement. Kim Jong-un, who has built the fourth largest army in the world, with 1.18 million soldiers, says he will now

CHRISTIAN TODAY

At least 15 people including a Catholic priest were killed in Bangui, Central African Republic (CAR) on Tuesday, when unidentified gunmen opened fire on a church service.

The gunmen attacked Notre Dame de Fatima church, launching grenades and gunfire on the congregation during its morning mass.

'Filled with panic, some Christians began to flee until bullets and grenades began to fall in the parish grounds, trapping those who remained in the compound,' Moses Aliou, a priest at the church, told Reuters. Trapped congregants were forced to escape the area through a hole made in the church wall by police.

A 14-year-old male eighth grader at Tavares Middle School in Lake County, Florida brought home a printed note last Friday, given to him by his teacher, encouraging him to participate in the "Day of Silence."

GLSEN, which stands for the Gay, Lesbian and Straight Education Network, designated Friday, April 27 as "a student-led national event where folks take a vow of silence to highlight the silencing and erasure of LGBTQ people at school."

Some of the GLSEN coercion includes allowing students "supportive" of "Day of Silence" to refrain from verbal participation in classroom instruction, while those who do not participate in "Day of Silence" must prepare to answer class questions.

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.».

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.

وأیضا استعدوا فقد تسلموا وديعتكم في أي وقت فهناك 150 ألف شخص يموتوا في اليوم الواحد

انت لا تعرف متى ستكون منهم

المسيح اقترب فاصنعوا ثمار تليق بالتوبة واستعدوا لاستقبال العريس.

والمجد لله دائما
