## والعلامات حتى 22 مايو 2018

Holy\_bible\_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيق اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

An asteroid will narrowly miss striking the planet tonight, the closest an asteroid of this size has been to Earth in the last 300 years. EarthSky reports the asteroid is 197 to 427 feet, or "as big across as a city block," Dr. Erin Ryan, an asteroid expert at NASA's Goddard Space Flight Center, tells NBC News. # Earth's Magnetic Field Is Drifting Westward, and Nobody Knows Why

By Stephanie Pappas, Live Science Contributor | May 15, 2018 07:17pm ET

MORE

Earth's magnetic field protects us from the solar wind by deflecting the charged particles. And for some reason, the field has been drifting westward.

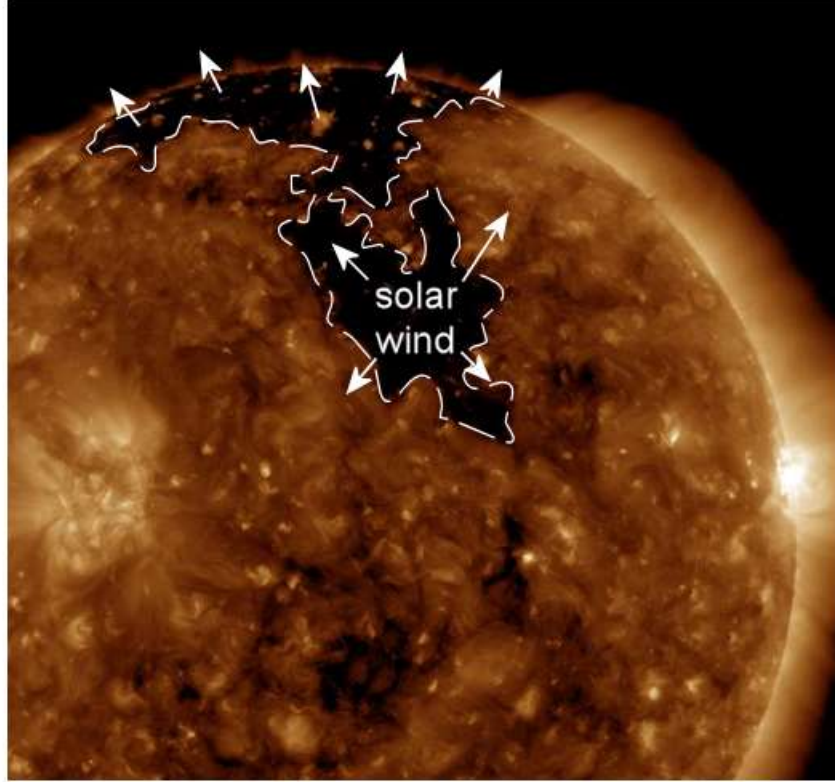

Credit: CLAUS LUNAU/Getty

Over the 400 years or so that humans have been measuring Earth's magnetic field, it has drifted inexorably to the west. Now, a new hypothesis suggests that weird waves in Earth's outer core may cause this drift.

**Flash floods affecting Afghanistan over the past 7 days have claimed lives of at least 34 people and left 4 injured. Severe weather hit the country following an unusually dry winter.**

Hashmat Khan Bahaduri, spokesman for the Afghanistan Natural Disaster Management Authority (ANDMA), said that flooding affected 11 provinces (Samangan, Takhar, Kapisa, Baghlan, Badakhshan, Badghis, Ghor, Panjshir, Sari Pul, Ghazni and Parwan), destroyed 240 homes and damaged 624. Around 600 animals have also been killed and 80 ha (197 acres) of agricultural land severely damaged.

Bahaduri added that floods came after an unusually dry winter that has led to drought in many areas, underlining Afghanistan's vulnerability to natural disasters.

## Ring Of Fire On Alert After Philippines Earthquake: California Is Warned

*Authored by Mac Slavo via SHTFplan.com,*

After a 5.2 magnitude earthquake struck the Philippines, the Ring of Fire was put on alert. After dozens of earthquakes rocked Hawaii this month, followed by a volcanic eruption, many fear the Ring of Fire has become much more active, which has prompted scientists to warn California.

The recent and strong Philippines earthquake struck 113 miles from Davao, which is home to about 1.2 million people. No tsunami threat has been issued for the Philippines, however, which is made up of more than 7,500 islands. The lack of tsunami warning has slightly calmed the fears of those living in the vicinity of the quake, but those who reside near the Ring of Fire are on alert.

Hawaii's Kilauea volcano, which could be set to unleash its biggest eruption yet in the coming week, along with the 5.2 magnitude earthquake in the Philippines has scientists looking more closely at the densely populated state of California. According to *The Express UK*, the Pacific Ring of Fire volcanoes are more explosive than the ones located in the island state of Hawaii. With Hawaii experiencing widespread devastation at the hands of the Kilauea volcano, geologists are now warning that California could be the next in line for an explosive eruption.

## Hawaii Volcano In A CHAIN Of 169 Volcanoes, 50 Are Ready To BLOW

The Kilauea volcano in Hawaii is not the only one people should be concerned about. In fact, the volcano is in a long chain of 169 others and of those, 50 are poised to explode, said scientists.

The United States Geological Survey (USGS) lists a total of 169 volatile volcanoes across the Western US, Hawaii, and Alaska. [The US volcanoes have been active to varying degrees](#) over the years but the ongoing eruption in Hawaii has reminded people of the unexpected dangers of mother nature; especially considering scientists say that at least 50 of the fiery mountains listed have been deemed by the USGS to be a "high priority" for the scientific monitoring for an eruption.

According to the USGS, "volcanic unrest is persistent" in Alaska and Hawaii. The Hawaiian Islands are at the end of a chain of volcanoes that formed more than 70 million years ago.

The day after, the same water main broke up again forming a huge sinkhole, that narrowly swallowed up a nearby house. **The deaths of more than 700 ring neck pheasants from botulism, at an Ourimbah property, have prompted a warning from biosecurity experts to report unusual symptoms and behaviour in domestic poultry.**

Greater Sydney Local Land Services District Veterinarian, Dr Aziz Chowdhury, said botulism was a rare condition caused by a toxin found in the environment, often spread by wild birds, rotting carcasses or other contaminated material. "It is characterised in poultry by paralysis of the neck and limbs, and generally impacts multiple birds very quickly," he said. Dr Chowdhury praised the vigilance of the affected landholders, Dermott and Marion Devlin, who reported the deaths immediately.

Navarre resident Robin Otto has woken up to something very strange all week long.

When stepping out onto Navarre Beach, which Otto's home overlooks, she said she's spotted "about 50-100" dead birds within a one-mile radius just west of Public Access 37-C.

Otto said that on Thursday alone she counted 61 dead birds in that radius. A resident of Navarre Beach since 1985, she said she's never seen anything like it.

"I've seen, like, four different species of birds, predominantly two different types," Otto said. "When the tide goes out, it takes some of them out with it. There are so many that people are starting to bury them so people aren't stepping on them. They range anywhere from what appear to be babies to adults. Just extremely odd."

Otto, who said she's been snapping photos all week, said she reported the peculiar issue to the Navarre Beach Department as well as the Florida Fish and Wildlife Conservation Commission.

# Fish kill affects 100 hectares of fishponds in Bulacan

By **Kristen Roz Mateo** - May 7, 2018

CITY OF MALOLOS—A fish kill has affected about 100 hectares of fishponds in Obando, Bulacan.

Wilfredo Cruz, regional director of the Bureau of Fisheries and Aquatic Resources (BFAR) for Central Luzon, said the fish die-off started manifesting last Saturday right after an earthquake was felt in the area.

Cruz surmised the earthquake could have released ammonia gas from the ground into the fishponds and suffocated the fish with depletion of oxygen.

A BFAR team has been sent to the area to assess the situation and come up with assistance to affected fishpond operators, Cruz added.

He said they recommend that the dead fishes be buried at least 1-meter deep in the ground to prevent them from spreading diseases caused by decaying body parts.

The death toll from an outbreak of the Ebola virus in the Congo has hit 26 with fears it could spread to neighboring countries.

The country's government has agreed to increase emergency-response funding to over \$4 million, AP reported. Ebola victims are being provided with free health care. Some 4,000 vaccines were ordered Saturday – but officials may struggle to keep them cold enough to remain effective.

## Drug-resistant bacteria found in 25% of migrants to Europe

Filed Under: [Antimicrobial Stewardship](#)

Chris Dall | News Reporter | CIDRAP News | May 18, 2018

A new review of research on migrant populations in Europe has found that more than a quarter are infected or colonized with antibiotic-resistant bacteria, with evidence suggesting that the pathogens are being acquired along the migration route or in host countries.

The findings are from a review and meta-analysis of observational studies on antimicrobial resistance (AMR) in migrants conducted by researchers from Imperial College London and published yesterday in the *The Lancet Infectious Diseases*. The researchers also found that the prevalence of AMR carriage or infection was even higher among refugees and asylum seekers and in high-migrant community settings. But they did not find high rates of AMR transmission from migrants to host populations.

The findings come amid a recent wave of immigration that has brought more than 2 million migrants to Europe since 2015, an influx that's been driven in part by conflicts and instability in the Middle East and Africa. The authors of the study suggest that the poor conditions that many migrants are exposed to in transit and in host countries—including crowded refugee camps and detention centers with poor sanitation and little access to healthcare—may promote the spread of antibiotic-resistant bacteria. The role of these settings in the spread of infectious diseases has been highlighted in previous studies.

Russia and China moved Thursday to extend their economic influence in Iran, while Europeans are finding it harder to ignore efforts by Washington to isolate Tehran economically.

In one of the most concrete moves yet against renewed US efforts to choke off Iran economically, a Russian-led trade bloc signed an interim trade deal with Iran and signalled plans to negotiate a free trade zone.

Meanwhile, Iran's oil minister said that Chinese state-owned oil company CNPC was ready to replace Total on a major gas field project in Iran if the French energy giant pulls out.

The fate of Total's participation in the gas project demonstrates the difficulty the European Union faces in resisting Washington's move as European firms stand to lose much more from busting US sanctions.

Earlier this month US President Donald Trump's controversially pulled Washington out of an international deal with Iran that placed limits on its nuclear programme in return for easing economic sanctions.

China, Russia and EU members Britain, France and Germany were also signatories of the 2015 pact, opposed Washington's abandonment of the deal which Iran had respected.

But companies around the world now face a difficult choice as Washington has previously slapped huge fines on firms which bust US sanctions.

US President Donald Trump tried to put his summit with Kim Jong Un back on track Thursday, offering the North Korean leader guarantees of staying in power if he abandons nuclear weapons.

As prospects for a historic summit next month between the two leaders dimmed, Trump told reporters that if the meeting were to go ahead successfully, Kim "will get protections that will be very strong."

"He'd be in his country and running his country. His country would be very rich."

But the pledge came barbed with a warning that if diplomacy fails, Kim could suffer the same fate as Libya's Moamer Kadhafi, who was overthrown and killed by rebels.

Trump's comments came as Pyongyang appeared to cool to the idea of the sit-down in Singapore on June 12, denouncing US demands for "unilateral nuclear abandonment."

Trump suggested Kim's apparent about-face may have been at the behest of Chinese leader Xi Jinping.

"It could very well be that he's influencing Kim Jong Un," Trump said, citing a recent meeting between the pair,

# Cross Removed From Michigan Hillside Following Complaint

By Heather Clark on May 17, 2018 · 25 Comments

## JACKSON, Mich.

— A cross that has stood on a Michigan hillside since 1950 has been removed following a complaint from a local resident who asserted that crosses shouldn't be displayed on

state property.

While the cross is displayed atop Sackrider Hill in the Waterloo Recreation Area, it belongs to the Grass Lake Ministerial Association, which holds a permit to erect the display on state property. Residents who hike up the hill will find it at the top overlooking I-94.

According to a YouTube video by Brian Kruger, who hosts a local "Guess What I Found Series" to highlight landmarks in the area, local congregations have held a sunrise service every year atop the hill since the 1930's. Evangelist George Bennard, who penned the hymn "The Old Rugged Cross," was a participant of one of the services.

A longtime licensed clinical social worker who was ordered to be a "social worker first, Catholic second" and then fired because of her biblical beliefs about marriage is suing the agency that dismissed her.

The suit was filed by the Thomas More Law Center on behalf of Kathleen Lorentzen.

Lorentzen had asked permission from her former employer, HealthSource Saginaw in Michigan, for permission to refer a homosexual duo to another counselor for "marriage" counseling.

She then was fired.

Seventh-graders at a West Virginia public school were asked to write the Islamic declaration of faith in Arabic calligraphy in a social-studies class, drawing outrage from a Christian parent.

Parent Rich Penkoski contacted Principal Ron Branch at Mountain Ridge Middle School in Gerrardstown about the assignment, which was part of a world-religions unit, the Christian Post reported.

The assignment was included in a packet sent home with students of information about the history of Islam, the prophet Muhammad and the five pillars of the religion.

Just over two months ago, as winter landed its final blows of snow in New York City, Michael A. Walrond Jr. of Harlem's 10,000-member First Corinthian Baptist Church landed an ideological blow of his own in traditional Christendom. Walrond, who was named "One of the Lord's Foot Soldiers" by Newsweek magazine, told his congregants that the belief that anyone who doesn't believe in Jesus is going to hell is "insanity."

In an apparent competition among American public school boards to see which sex-education program can be made the most graphic and politically correct, there's likely a new leader.

In a stunning development, the Fairfax County School Board in Northern Virginia is considering teaching children there is no such thing as "biological sex" and also that "clergy" are not to be trusted if students have questions.

## رسالة بولس الرسول الي أهل رومية 13

13: 11 هذا وأنكم عارفون الوقت انها الان ساعة لنستيقظ من النوم فان خلاصنا الان أقرب مما

كان حين امنا

13: 12 قد تناهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلباقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيرا للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف
