اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيق اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعه سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترت فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترت لكيلا يقال عني كاذب وانشتر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

Ozarks shaken by massive boom, meteor explosion suspected, US

A massive boom was heard and felt over much of the Ozarks shortly after noon (local time) on June 6, 2018. The National Weather Service said their working theory is a meteor exploding high in the atmosphere.

"I felt the ground shake and wondered what in the world?" said Willow Springs resident Lloyd Ebert, adding he saw a contrail near the edge of a cloud 'that looked like smoke all around it.'

Mike Griffin, a meteorologist at the NWS Springfield office said they got a call from the Little Rock office that they were getting many reports from the Mountain Home area about a very loud, shaking boom.

"We talked to the Howell County dispatch center and they were taking a tremendous amount of calls."

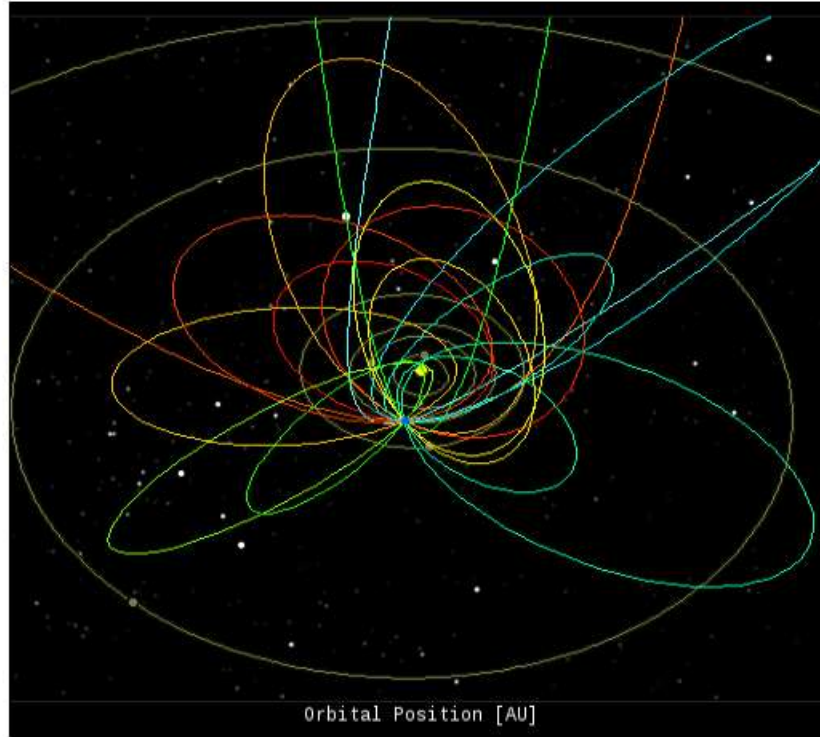

"I checked with the USGS and they had nothing registered as an earthquake, so that can be ruled out,"

Hurricane Bud, now swirling off the west coast of Mexico, is forecast to strengthen into a Category-2 hurricane and impact both Mexico and the Southwest U.S. over the next few days.

While rainfall from Bud or its remnants would be beneficial to the drought-stricken Southwest, it could also cause flash floods if too much rain falls too quickly, according to [AccuWeather](#). The worst drought in the U.S. is in the Southwest, with the most severe conditions in Arizona, New Mexico, Utah and Colorado.

As of 8 p.m. ET, Bud had winds of 80 mph and was moving to the northwest at 9 mph. It was located about 235 miles from Manzanillo, Mexico, the [National Hurricane Center](#) said. A tropical storm watch has been posted for portions of Mexico's west coast from

'Nobody is left': Guatemala volcano ravaged entire families

Sonia Perez D. And Mark Stevenson 7 hrs ago

ESCUINTLA, Guatemala - Lilian Hernandez wept as she spoke the names of aunts, uncles, cousins, her grandmother and two great-grandchildren — 36 family members in all — missing and presumed dead in the explosion of Guatemala's Volcano of Fire.

"My cousins Ingrid, Yomira, Paola, Jennifer, Michael, Andrea and Silvia, who was just 2-years-old," the distraught woman said — a litany that brought into sharp relief the scope of a disaster for which the final death toll is far from clear.

What was once a collection of verdant canyons, hillsides and farms resembled a moonscape of ash, rock and debris on Tuesday in the aftermath of the fast-moving avalanche of super-heated muck that roared into the tightly knit villages on the mountain's flanks, devastating entire families.

Two days after the eruption, the terrain was still too hot in many places for rescue crews to search for bodies or — increasingly unlikely with each passing day — survivors.

Violent eruption at Fuego volcano, Guatemala, at least 62 killed and 300 injured

A major eruption started at Guatemalan Fuego volcano around 16:00 UTC (10:00 local time) on June 3, 2018. The eruption ejected volcanic ash up to 10 km (32 800 feet) above sea level and produced massive lava and pyroclastic flows in its most violent eruption in more than 40 years. At least 62 people were killed and 300 injured. The death toll is expected to rise.

It was Fuego's second major eruption this year and the most violent since 1974. Lava and pyroclastic flows descended down the mountain and into nearby communities while volcanic ash rained down on communities up to 30 km (18 miles) from the volcano.

"It's a river of lava that overflowed its banks and affected the small town of El Rodeo. There are injured, thousands of people have been evacuated, and the situation is very serious," said a local official.

Residents of the Sverdlovsk region discovered hundreds of dead birds covering the roadsides of a highway near Nizhny Tagil in Russia. But what exactly caused these birds falling from the sky is still unknown. Biologists suggest that the weird spring weather, much colder than usual, may be responsible.

Taiwan conducting war games simulating repelling Chinese attack amid heightened tensions

 Our Foreign Staff, The Telegraph • June 7, 2018

Fighter jets, helicopters and thousands of troops in Taiwan fought back a simulated Chinese invasion Thursday as the self-ruled island faces increasing military and diplomatic pressure from Beijing.

Relations between Taipei and Beijing have deteriorated since President Tsai Ing-wen was elected in 2016, as her government refuses to acknowledge that Taiwan is part of "one China".

Live-fire drills began Monday with troops simulating surprise air and coastal assaults to reflect increased military threats from China, which sees Taiwan as a renegade province to be brought back into the fold - by force if necessary.

Tsai watched Thursday's session of the ongoing "Han Kuang" (Han Glory) exercise involving 4,100 soldiers, attack helicopters and fighter jets from an air base in Taichung.

Thursday's scenario simulated the enemy bombing of an airfield and a paratrooper attack, with air and ground troops deployed to take back the

Iran's supreme leader warns Europe of nuclear 'dream'

by Staff Writers
Tehran (AFP) June 4, 2018

Iran's supreme leader Ayatollah Ali Khamenei on Monday warned European leaders against their "dream" of Tehran continuing to curb its nuclear programme while finding itself under new economic sanctions.

"From some European countries we get the message that they expect the Iranian people to both tolerate the sanctions, deal with the sanctions, and go along with them and give up our nuclear energy activities and continue with the restrictions," he told an audience in a Tehran suburb.

"I would tell these countries that they should be aware that this is a dream that will never come true."

Khamenei was speaking nearly a month after President Donald Trump announced the United States was pulling out of the landmark Iran nuclear deal.

The remaining partners -- Britain, China, France, Germany and Russia -- have scrambled to save the 2015 accord as the US readies to reimpose sanctions on Tehran.

"The people of Iran and the government of Iran will never tolerate both suffering from sanctions and nuclear restrictions," said Khamenei.

Europe under pressure as Iran 'nears nuclear red line'

By Clare BYRNE with Eric RANDOLPH in Tehran
Paris (AFP) June 6, 2018

French Foreign Minister Jean-Yves Le Drian warned Iran on Wednesday that its plan to increase its uranium enrichment capacity took it close to a "red line", as Europe sought to protect its companies from a nuclear standoff between the US and Tehran.

Iran confirmed Wednesday that it was in "preparatory works" to restart nuclear activities in the event that a 2015 accord with world powers on limiting its atomic programme falls apart.

In such a scenario, Iran could "restart its activities without any limits," Iran's ambassador to the International Atomic Energy Agency Reza Najafi told reporters on the sidelines of a meeting of the IAEA's board in Vienna.

The announcement piled pressure on France, Britain and Germany, who are scrambling to save the deal after the US sensationally pulled out a month ago.

Le Drian called Iran's announcement that plans to boost its enrichment capacity "inopportune".

"It is always dangerous to flirt with red lines," he said, while emphasising that these plans did not constitute a breach of the accord.

Iran 'preparing activities' in case nuclear deal fails

Vienna (AFP) June 6, 2018 - Iran said Wednesday it was in "preparatory works" to restart nuclear activities in the event of the failure of the 2015 accord between Iran and world powers.

In such a scenario, Iran could "restart its activities without any limits," Iran's ambassador to the International Atomic Energy Agency (IAEA) Reza Najafi told reporters on the sidelines of a meeting of the IAEA's board in Vienna.

The future of the deal -- known as the Joint Comprehensive Plan of Action (JCPOA) -- has been thrown into doubt after President Donald Trump announced last month that the US would withdraw from the accord and re-impose sanctions.

The preparatory works mentioned by Najafi refer to steps to boost uranium enrichment capacity by producing new centrifuges, as outlined on Tuesday by Vice President Ali Akbar Salehi, who heads the Iranian Atomic Energy Organisation.

Iran said Wednesday it was in "preparatory works" to restart nuclear activities in the event of the failure of the 2015 accord between Iran and world powers.

In such a scenario, Iran could "restart its activities without any limits," Iran's ambassador to the International Atomic Energy Agency (IAEA) Reza Najafi told reporters on the sidelines of a meeting of the IAEA's board in Vienna.

The future of the deal -- known as the Joint Comprehensive Plan of Action (JCPOA) -- has been thrown into doubt after President Donald Trump announced last month that the US would withdraw from the accord and re-impose sanctions.

The preparatory works mentioned by Najafi refer to steps to boost uranium enrichment capacity by producing new centrifuges, as outlined on Tuesday by Vice President Ali Akbar Salehi, who heads the Iranian Atomic Energy Organisation.

Najafi said that in addition Iran had notified the IAEA of a plan to restart activity at its uranium conversion facility in Isfahan to produce the UF₆ feedstock for centrifuges.

The IAEA confirmed on Tuesday that it had "received a letter from Iran on 4 June informing the Agency that there is a tentative schedule to start production of UF₆".

However, Najafi emphasised that the measures do "not mean that right now Iran will start any activities contrary to the JCPOA".

The remaining signatories to the pact have been scrambling to find ways to preserve the accord since Trump's announcement.

Tehran, June 8, IRNA – Iran's minister of culture described the International Quds Day as a day to fight a big lie named Israel.

'Quds is the symbol of an oppressed nation that has been suffering from homelessness, war, difficulties and pain for seventy decades,' Minister of Culture and Islamic Culture Abbas Salehi told reporters during the Quds Day rally in Tehran.

The Quds Day is the day of defending truth and confronting a big lie named Israel that has been existing in the region on a false basis, he said.

He also described the day as an opportunity to defend the first Qibla of the Muslims and marking the day mean they have kept it as their priority, the minister said.

Imam Khomeini, the late founder of the Islamic Republic of Iran, on August 7, 1979, designated the last Friday of the holy month of Ramadan as the Quds Day and the day of Islam's life.

More than a decade of steadily rising rates have made suicide the nation's 10th leading cause of death and one of only three causes of death — including Alzheimer's disease and drug overdoses — that are increasing in the U.S., according to the Centers for Disease Control and Prevention. The bug, which was active for ten days in May, changed the default audience on some users' posts to "public" without their consent. That means some Facebook users who thought they were only posting to friends or within the social network could have published posts visible to the public.

Appeals Court Rejects Atheist's Attempt to Remove 'In God We Trust' From American Currency

By Heather Clark on June 4, 2018 · 10 Comments

CINCINNATI, Ohio

— A federal appeals court has rejected an atheist's continued attempts to have the motto "In God We Trust" removed from American

currency, concluding that the printed phrase is not compelled speech and agreeing with a lower court ruling that the complainants in the case have ample alternatives to cash if the motto bothers them that much.

"Plaintiffs' complaint does not allege that anyone has ever attributed the motto to them. And the Supreme Court has strongly suggested that the motto's inscription on currency does not compel speech," wrote the Sixth Circuit Court of Appeals.

"Though access to credit or bank accounts is not universal, not one of the plaintiffs alleges that his or her financial situation forecloses access to credit or checks. Plaintiffs therefore have not plausibly alleged that they lack a feasible alternative to cash for engaging in commerce," it said.

INDIANAPOLIS — A teacher is fighting for his job after he says [the district forced him to resign over its transgender student policy](#).

John Kluge, the former orchestra teacher at Brownsburg High School in Indiana, said the school district's requirement that teachers call transgender students by their preferred names, rather than those given at birth, goes against his religious beliefs. The requirement, Kluge said, violates his First Amendment rights.

"I'm being compelled to encourage students in what I believe is something that's a dangerous lifestyle," he said. "I'm fine to teach students with other beliefs, but the fact that teachers are being compelled to speak a certain way is the scary thing."

Advocates for the LGBTQ community say that using a person's preferred name is an issue of respect, not religion or politics.

"This is not a request for advocacy," said Sam Brinton, head of advocacy and government affairs for [The Trevor Project](#), a national nonprofit focused on suicide prevention in LGBTQ youth. "This is a request for respect."

وكما قلت هو اخبرنا لكي لا نخاف

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

بطرس الأولى 3: 14

وَلَكِنْ وَإِنْ تَأَلَّمْتُمْ مِنْ أَجْلِ الْبِرِّ، فَطُوبَاكُمْ. وَأَمَّا خَوْفُهُمْ فَلَا تَخَافُوهُ وَلَا تَضْطَرُّوْا،

بل نؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْنَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ».

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.

وأیضا استعدوا فقد تسلموا وديعتكم في أي وقت فهناك 150 ألف شخص يموتوا في اليوم الواحد

انت لا تعرف متى ستكون منهم

المسيح اقترب فاصنعوا ثمار تليق بالتوبة واستعدوا لاستقبال العريس.

والمجد لله دائما
