## والعلامات حتى 24 يوليه 2018

Holy\_bible\_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقه اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقه لان وقتها جميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذارى انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

10: 21 ثم قال لهم تقوم امة على امة ومملكة على مملكة

11: 21 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من السماء

25: 21 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج تضج

26: 21 والناس يغشى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

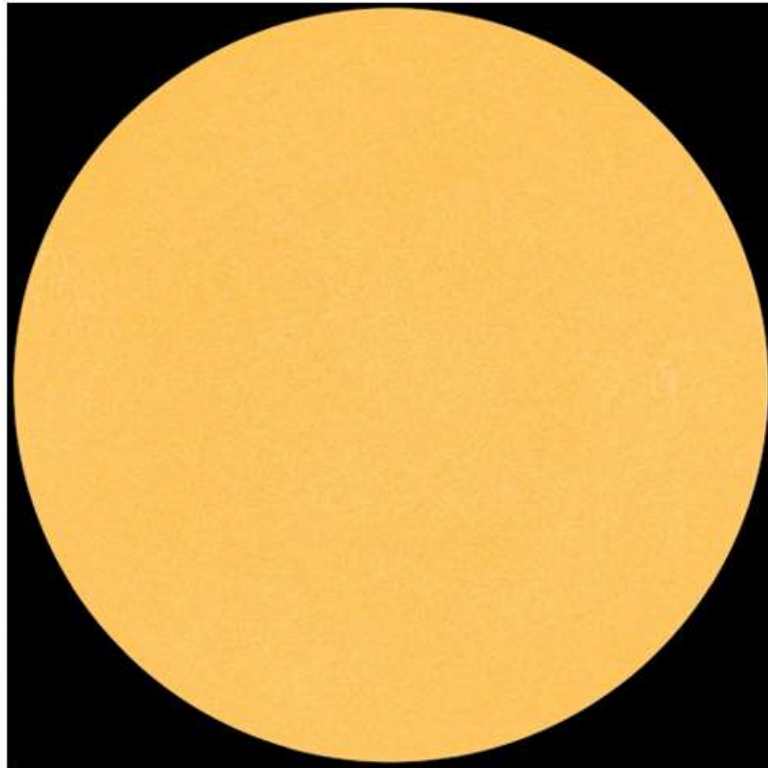

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَاَنْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ».

**THREE WEEKS WITHOUT SUNSPOTS:** The sun has been blank for 21 days—3 whole weeks without sunspots. To find an equal number of consecutive spotless days in the historical record, you have to go back to July-August 2009 when the sun was emerging from an unusually deep solar minimum. Solar minimum, welcome back!

Above: The spotless sun photographed by NASA's Solar Dynamics Observatory

Solar minimum is a normal part of the solar cycle. Every 11 years, sunspot production sputters. Dark cores that produce solar flares and CMEs vanish from the solar disk, leaving the sun blank for long stretches of time. These quiet spells have been coming with regularity since the sunspot cycle was discovered in 1843.

However, not all solar minima are alike. The last one in 2008-2009 surprised observers with its depth and side-effects. [Sunspot counts dropped](#) to a 100-year low; [the sun dimmed](#) by 0.1%; [Earth's upper atmosphere collapsed](#), allowing space junk to accumulate; and the pressure of [the solar wind flagged](#) while cosmic rays (normally repelled by solar wind) surged to [Space Age highs](#). These events upended the orthodox picture of solar minimum as "uneventful."

**UNPREDICTABLE GREEN COMET:** On July 1st, Comet PANSTARRS (C/2017 S3) exploded. Its green atmosphere ballooned in size, large enough to swallow Jupiter twice, and its brightness increased 16-fold. Barely a week later, the comet fizzled, dimming almost as much as it had brightened. Then it exploded again! On July 15th Comet PanSTARRS regained all it had lost and more. Michael Jaeger of Jauerling, Austria, captured the comet's newly-formed tail on July 20th:

"The comet is already fading again, and it seems to have lost much of its tail on July 21st," Jaeger says.

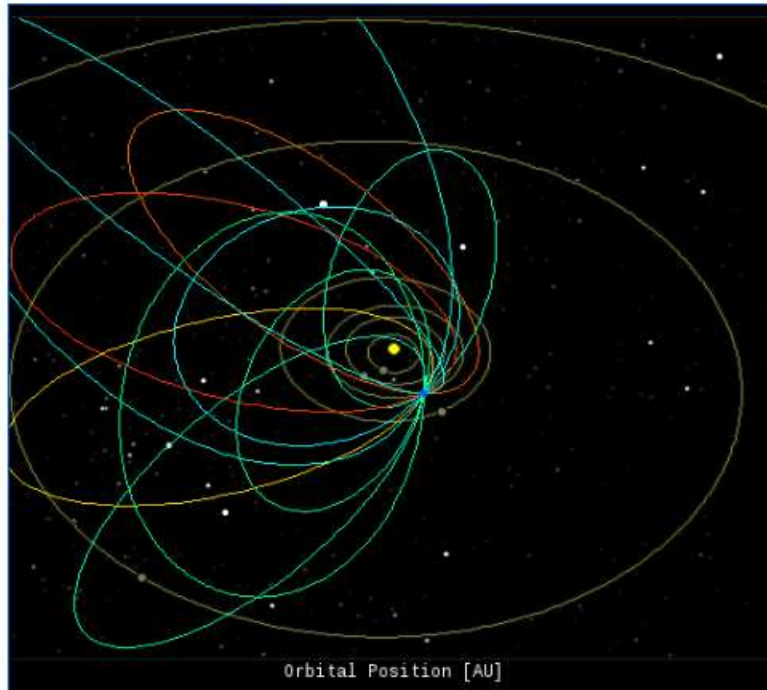

Why is Comet PanSTARRS so unpredictable? Probably because it has never felt the heat of the sun before. The comet is arriving from the Oort cloud, a vast reservoir of fresh comets in the outermost solar system. This is its first time among the inner planets. Unfamiliar warmth is making veins of fresh ice

## After deadly floods, now dangerous heatwave kills at least 8 in Japan – Thousands suffer from exhaustion and man gets stuck in tarmac (video)

This summer 2018, Japan is experiencing dramatic natural disasters, one after the other. After **deadly floods, dramatic landslides and a strong quake 10 days ago**, now a deadly heatwave is currently sitting over the country and doesn't seem to decrease in intensity. Two people died and about 2,000 people suffered heatstroke or exhaustion on Sunday, as a heatwave continued scorching Japan during a three-day weekend. The weather agency warned people to take measures to prevent heatstroke and exhaustion, as the hot weather is expected to continue through next Sunday.

At least 52 people have died and 20 are still missing after heavy rains caused severe floods in Nigeria's northern state of Katsina over the past few days, local officials confirmed Wednesday, July 18, 2018. In the country's south, heavy rains in the state of Ogun claimed lives of 11 people.

More than 500 houses were destroyed by the flood in Katsina State, Aminu Waziri, head of the State Emergency Management Agency said today. At least 52 people have died, 27 were injured, 20 are missing and at least 5 000 are displaced.

Following the heavy rainfall on Saturday, July 15, water from the main river in the area moved in a reverse direction and came back to Jibia town, causing the flooding, state governor Aminu Masari

After 19 days with no measurable rain, Reagan National Airport in Washington, D.C. saw intense thunderstorms on July 17, 2018, and a record-breaking 66.8 mm (2.63 inches) of rain in just 42 minutes.

A new daily rainfall record was set at Ronald Reagan Washington National Airport for July 17 with 84.8 mm (3.34 inches) of rain in 24 hours, breaking the previous record of 52 mm (2.05 inches) set on July 17, 1945.

However, an extraordinary 66.8 mm (2.63 inches) of the total fell in just 42 minutes.

The total was also the biggest single-day rainfall for the airport since

Scandinavia is experiencing exceptionally warm temperatures, over 11 °C (20 °F) above average, for more than a month. Above-average temperatures combined with drought, lightning, and human negligence to cause what Swedish authorities are describing as the country's most serious wildfire situation in modern times. The heatwave is expected to continue, particularly in northern Scandinavia.

Heat arrived early to Scandinavia this year, with the hottest May on record in Sweden, disappointing June, and an unusually hot July. The temperatures are exceptionally high even in the Arctic Circle, pushing well above 30 °C (86 °F) or 8 - 11 °C (14 - 20 °F) above the long-term average.

(Bloomberg) — North Texas smashed a 93-year-old daily heat record Thursday, with the mercury climbing to 108 degrees Fahrenheit (42 Celsius) in the Dallas-Fort Worth area.

“Delay walking your dog until sunset” during the heat wave, the National Weather Service said in a message posted on Twitter. “Our infrared thermometer measured 136 degrees this afternoon on the sidewalk. These temperatures are hot enough to burn Fido’s paws.”

Texas was set to break its power-demand record for the second day in a row, according to the Electric Reliability Council of Texas, the state’s grid operator. “It’s insanely hot here,” said Ercot spokeswoman Leslie Sopko. “You can only be outside if you’re in a

Ten seismic events have been detected in the Newdigate, Surrey area of the United Kingdom, between Dorking and Gatwick airports near London, since April 1, 2018. Magnitudes of this cluster of events range from 1.5 to 3.0. There are fears that quakes might be caused by nearby fracking operations.

According to the British Geological Survey (BGS), the ninth and tenth events took place at around 04:00 and 13:30 UTC on July 18 with magnitudes of 2.0ML and 2.6ML, respectively. The quakes hit at a shallow depth between 500 m (1 640 feet) and 2 km (1.2 miles).

Dr. Stephen Hicks from Southampton University said a 0.4 aftershock had been measured after the second quake.

## Volcanic eruption causes damage, disruption on Vanuatu's Ambae island

Source: Xinhua 2018-07-19 17:31:07

SUVA, July 19 (Xinhua) -- All roads to west Ambae in Vanuatu where the Manoro volcano has been erupting seriously since late last year, have been cut due to massive mud flows.

According to Vanuatu's Daily Post newspaper website on Thursday, the Ambae Island was now accessible only by sea or by air.

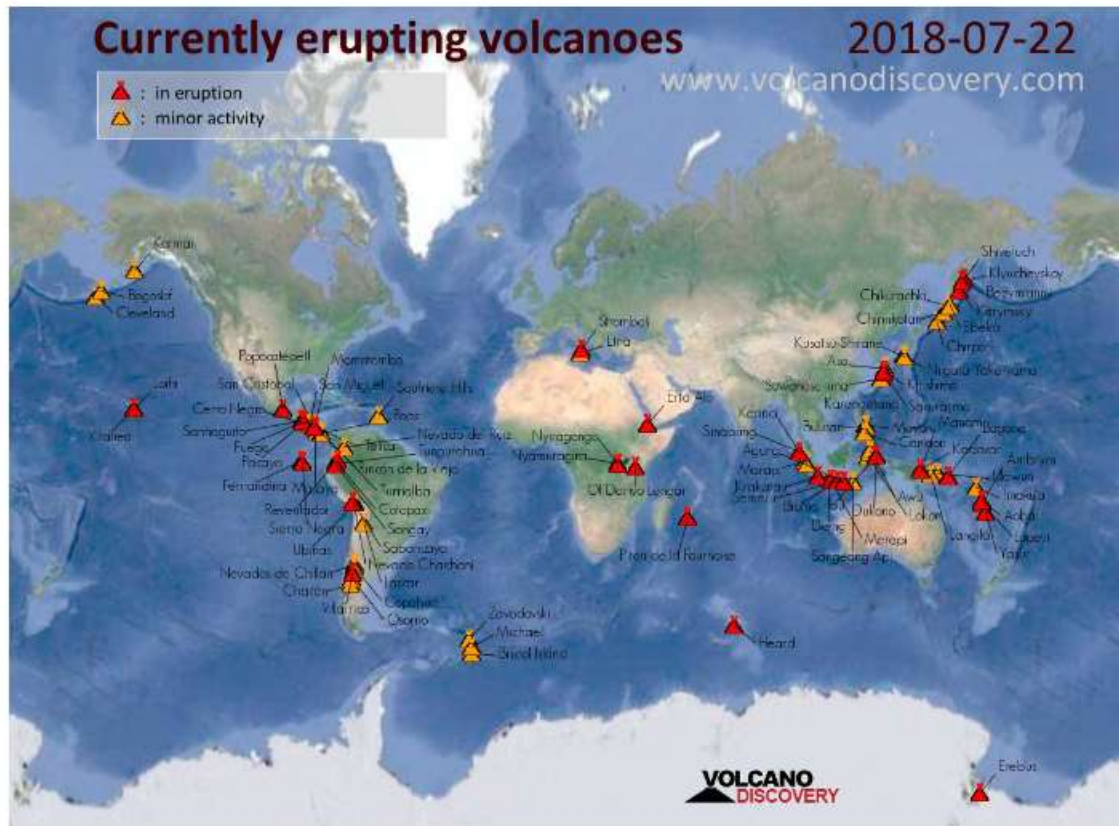

An exclusive peek into the mouth of the volcano showed frightening signs after a team trekked up to the summit of mount Lombenben and flew a drone directly over the smoking crater to take pictures.

The team that trekked eight hours to get to the site reported that the landscape on the summit and its approaches had been completely transformed by a month of ashfall. They reported widespread damage and massive disruption to the local population on Ambae Island.

In May this year, there were reports of outbreak of infectious diseases on Vanuatu's volcanically active Ambae Island.

The island's Manoro volcano, a large and geologically active volcano, has been erupting since late last year, and thick ashfalls and acid rain have forced many people to flee their homes.

ST. LOUIS- Health officials are warning against eating crab meat from Venezuela, as it's been tied to diarrhea, vomiting and fever.

[Food and Drug Administration](#) and [Centers for Disease and Control](#) said fresh crab meat from Venezuela carries a bacteria known as *Vibrio parahaemolyticus*.

The crab meat is commonly found in plastic tubs and might be labeled as "pre-cooked", it has sickened at least a dozen people nationwide.

At least four people have been hospitalized.

## Putin tests nuclear-powered missile with 'unlimited range' days after meeting Trump

Jul 20, 2018 | 0 | \*\*\*\*\*

Vladimir Putin has tested a nuclear-powered cruise missile with "unlimited range" just days after meeting with Donald Trump. The pair met in Finland last week. The meeting went so well that on Monday Trump said he saw no reason why Russia would attempt to interfere with the 2016 presidential election.

That is despite the CIA and FBI both agreeing that the Kremlin did interfere. Trump has since backtracked on his comments. Tonight a White House spokesperson said Donald Trump is set to invite Vladimir Putin to Washington.

A bird was sent from Gaza into Israel with a flammable substance attached to it.

The falcon was found Monday near the Besor River, the longest river in the Negev. A harness with explosive material was attached to the animal's leg.

Thousands of fires have been set in southern Israel in recent months by arson attacks originating from Gaza. Terrorists started the fires by attaching firebombs to kites and helium balloons and sending the devices over the border with Israel.

Col. (res.) Rabbi Moshe Hagar, head of the pre-military preparatory program at Beit Yatir, said that what was heard in the name of the chief of staff, according to which [firing on launchers of incendiary balloons is contrary](#) to the IDF's moral and operational system, is fundamentally wrong.

He added that Israel is being dragged into an unnecessary war of attrition. "Even during the first intifada, when they started with the stone throwing, this lasted for three years with hundreds of dead. Only after three years did Bogey [Moshe] Ya'alon and Ehud Barak change the rules of engagement after realizing that this was the only way to eradicate the intifada."

"Even in the case of Gaza, it is absolutely justified to open fire on the balloon launchers," says Rabbi Hagar in an interview with *Arutz Sheva*.

The Great Recession continues to take a grim toll: Since 2009, a growing number of Americans have died from **liver disease** and **liver cancer**.

The increase among 25- to 34-year-olds is especially troubling because the deaths are due to cirrhosis, a disease caused by **excessive drinking**, the authors of a new study said. The researchers suspect the economic downturn in 2008 prompted people to comfort themselves with alcohol.

"These are **deaths of despair**," said lead researcher Dr. Elliot Tapper, an assistant professor of gastroenterology at the University of Michigan.

Australian researchers said Wednesday they have developed a blood test for melanoma in its early stages, calling it a "world first" breakthrough that could save many lives.

The scientists, from Edith Cowan University, said the new test could help doctors detect the skin cancer before it spreads through a person's body.

"Patients who have their melanoma detected in its early stage have a five-year survival rate between 90 and 99 percent," lead researcher Pauline Zaenker said in a statement.

She added that survival rates fell to less than 50 percent if the cancer spread in the body.

"This is what makes this blood test so exciting as a potential screening tool

## Chinese Authorities Break Into Church for Third Time, Arrest Over 30 Churchgoers

Jul 20, 2018 | 0 | ★★★★★

The Bible Reformed Church, a place of worship located in China's Guangdong province, again served as the target of a government break-in on Sunday. Officials from the communist regime's Food and Drug Administration as well as some members of the police were the ones who gained entry into the church, and upon doing so made arrests and questioned churchgoers.

## Wyoming Air Force Base to Replace Bible on POW/MIA Table With 'Generic Book of Faith' Following Complaint

By Heather Clark on July 21, 2018 · 10 Comments

**CHEYENNE, Wy.** — A commander at an Air Force base in Wyoming has decided to replace a Bible on a “missing man” table meant to honor prisoners of war and soldiers missing in action with a “generic book of faith” filled with blank pages following receipt of a complaint lodged by the Military Religious Freedom Foundation

(MRFF).

According to a [post](#) on the MRFF website, 31 individuals at the F.E. Warren Air Force Base contacted the organization in May to complain about the inclusion of the Bible on the POW/MIA table, set up in the dining facility.

MRFF asserts that more than half (19) of the complainants identify themselves as Protestants or Catholics, with the remaining being Jewish, Hindu, Muslim, Buddhist, atheist, humanist, deist or agnostic.

[As previously reported](#), according to the National League of POW/MIA Families, the Bible is traditionally present at missing man tables, and “represents the strength gained through faith to sustain us and those lost from our country, founded as one nation under God.” The display additionally includes a place setting, a rose and a candle.

## UK Mayor Resigns After Being Harassed Over Facebook Posts About Homosexuality, Gender Dysphoria

By Heather Clark on July 17, 2018 - 10 Comments

**FERRYHILL, U.K.** — The mayor of a town in the United Kingdom has resigned after being harassed with threatening and profane comments over his Facebook posts on the issues of homosexuality and transgenderism.

Richard Smith was elected in May to serve as the mayor of Ferryhill in Northeast England. He has served as pastor of Immanuel Christian Fellowship since 2003, a church that regularly hosts a free food distribution for those in need. Smith was also active in the military for eight years.

However, a local “drag queen” recently became upset about some of Smith’s Facebook posts that mentioned homosexuality and transgenderism. For one of the posts, Smith shared an article on homosexuality from the website Desiring God, and wrote above the link, “Read it all before you judge my stance on not just this sin, but all sin. ## DAYS OF LOT: College Class to 'Denaturalize' Heterosexuality Teaches Students to 'Disdain Nature'

Jul 19, 2018 | 0 | ★★★★★

The University of Massachusetts-Boston is teaching a course in political theory with the expressed aim of denaturalizing heterosexuality, among its other stated goals. The class fulfills a mandatory diversity requirement at the school. The College Fix reported Wednesday that the advanced political science course, "Queer Political Theory," according to an online description in the 2017-18 undergraduate catalog, says that its "primary aims are the de-naturalization of (hetero)sexuality and (hetero)normative gender categories, identities, and expression." The course is taught by Professor C. Helke Schotten, who

has authored several related publications, among them *Queer Terror: Life, Death, and Desire in the Settler Colony*; *To Exist is to Resist: Palestine and the Question of Queer Theory*; *Men, Masculinity, and Male Domination: Rethinking Feminist Analyses of Sex Work*; *Homonationalism: From Critique to Diagnosis, or, We Are All*

فلهذا اطلب أن نصلي ونستعد ونعد زيت لمصايحنا لاستقبال العريس بالصلاة والصوم وخدمة  
أبناء الله وتنقية القلب والاستعداد بلبس العرس.

رسالة بولس الرسول الي أهل رومية 13

11:13 هذا وأنكم عارفون الوقت انها الان ساعة لنستيقظ من النوم فان خلاصنا الان أقرب مما  
كان حين امنا

13: 12 قد تنهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلياقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيرا للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب انظروا لا ترتاعوا لأنه لا بد ان تكون هذه كلها ولكن ليس المنتهى بعد

بطرس الأولى 3: 14

وَلَكِنْ وَإِنْ تَأَلَّمْتُمْ مِنْ أَجْلِ الْبِرِّ، فَطُوبَاكُمْ. وَأَمَّا خَوْفُهُمْ فَلَا تَخَافُوهُ وَلَا تَضْطَرُّوْا،

بل نؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.».

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.

وأیضا استعدوا فقد تسلموا وديعتكم في أي وقت فهناك 150 ألف شخص يموتوا في اليوم الواحد

انت لا تعرف متى ستكون منهم

المسيح اقرب فاصنعوا ثمار تليق بالتوبة واستعدوا لاستقبال العريس.

**والمجد لله دائما**
