## والعلامات حتى 7 اغسطس 2018

Holy\_bible\_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيق اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعه سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

10: 21 ثم قال لهم تقوم امة على امة ومملكة على مملكة

11: 21 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من السماء

25: 21 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج تضج

26: 21 والناس يغشى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقَلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثًا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَاَنْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ».

Mars will make its closest approach to earth in 15 years on Tuesday, giving stargazers a great opportunity to see the Red Planet. At just 35.8 million miles from Earth as it makes its way around the sun, Mars will appear bigger and brighter than usual, NASA reports. Every 26 months or so, Mars swings by Earth at varying distances as both planets make elliptical orbits around the sun. NASA notes

A mysterious fireball exploding with the power of a small nuclear bomb, which was detected not far from the US air base in Greenland, has alerted a NASA space explorer. Another called for calm, saying it's not a Russian strike.

The curious tweet was released by Ron Baalke, a space explorer at NASA's Jet Propulsion Laboratory, in late July. "A fireball was detected over Greenland on July 25, 2018 by US government sensors at an altitude of 43.3 km," he wrote. The energy from the blast was estimated to be 2.1 kilotons.

UPPER LAKE, Calif. (AP) — Firefighters struggling to contain destructive Northern California wildfires found themselves facing a new blaze that erupted Tuesday and drove through a rural area near a national forest.

About 60 homes in an old ranching and farming area near Covelo, which is about 180 miles (290 kilometers) north of San Francisco, were ordered evacuated as the blaze erupted late in the afternoon. Gusty winds quickly drove it through about a square mile of brush and grasslands, oak, pine and timber near Mendocino National Forest, Mendocino County Undersheriff Matthew

## Record-breaking heat brings unprecedented destruction, Fuels California fires

Jul 31, 2018 | 0 | ★★★★★

The northern Sacramento Valley was well on its way to recording the hottest July on record when the Carr fire swept into town last Thursday. It was 113 degrees, and months of above-average temperatures had left the land bone-dry and ready to explode. Within a few hours, hundreds of structures were lost and six people killed. The destruction adds to California's worst wildfire year on record — dozens dead since October, with more than 10,000 structures lost from San Diego to Redding.

REDDING (CBS SF) — It's the kind of finding one would suspect from National Weather Service investigators along Tornado Alley in the wake of a deadly storm front.

But it wasn't. It was the measurement of the wind generated during the height of the firestorm **that ripped through Redding last week**, killing six people and damaging hundreds of homes.

On Thursday, NWS researcher combed through the wreckage left behind and determined a fire whirl — commonly known as a fire tornado — roared through the area between 7:30 p.m and 8 p.m. on July 26th.

## Massive California wildfire becomes fifth largest in state history

By Dan Whitcomb

Reuters August 5, 2018

By Dan Whitcomb

LOS ANGELES (Reuters) - A massive, out-of-control Northern California wildfire that destroyed 68 homes and forced thousands to flee has become the fifth largest in state history, officials said on Sunday, as crews battled high temperatures and strong winds.

The Mendocino Complex Fire, made up of two separate conflagrations that merged near Ukiah, north of Sacramento, exploded by 25 percent overnight and had blackened nearly 400 square miles as of Sunday morning, the California Department of Forestry and Fire Protection said.

"The Mendocino Complex Fire has charred more than 254,000 acres, making it the fifth largest blaze in California's history," AccuWeather said on its website. "Firefighters will continue to face local gusty winds and building heat this week."

The Mendocino is one of 17 major wildfires burning across California that prompted U.S. President Donald Trump on Sunday to declare a "major disaster" in the state, ordering federal funding to be made available to help recovery efforts.

"Assistance can include grants for temporary housing and home repairs, low-cost loans to cover uninsured property losses and other programs to help individuals and business owners recover from the effects of the disaster," the White House said in a written statement.

MADRID (AFP) - Europe sweltered Saturday in intense heat with temperatures due to hit near-record highs of 46 degrees Celsius (115 degrees Fahrenheit) in Portugal, while elsewhere high temperatures melted the asphalt or saw police dogs fitted with shoes.

Here is a roundup:

The heatwave was expected to reach its peak on Saturday, said Paula Leitaó of the Portuguese Institute for Sea and Atmosphere (IPMA), with the city of Setúbal not far from Lisbon due to reach highs of 46 C during the day.

By way of comparison, this is not far off the 48 C expected in California's notoriously parched and scorching Death Valley, one of the hottest places on earth, according to US forecaster AccuWeather.

'Gate to HELL opens' in Russian farmer's field

It measures 32 metres (105 feet) across and is 50 metres (164 feet) deep - enough to swallow a 16 storey building.

Police were called to the scene after they were alerted by the worried farmer.

Cops taped off an area around the hole to prevent people from going too close in case it get bigger and they fell in.

A police spokesman said: "The ground collapsed in an agricultural field, which belongs to a private farmer, and is only two kilometres (1.2 miles) away from nearby homes.

## Unprecedented Algae Bloom in Florida called "ecological disaster.", Marine life perishing on large scale

Aug 3, 2018 | 1 🌟 | ★★★★★

In South Florida this summer, one ecological scourge has piled on top of another. First came the red tide, a flotilla of microorganisms that dyed the sea rust and eventually stretched out along 100 miles of the Gulf Coast. Oxygen-starved fish, eels, dolphins and turtles littered beaches, in numbers too vast to count. In one marina, so many fish went belly up that they appeared to pave a walkway across the water.

The foul siege reached from Sarasota nearly to the tip of Florida by early June, when ecological insult No. 2 arrived. A green film of cyanobacteria appeared, as it regularly does in summer, in vast Lake Okeechobee. But this year the bacteria also spilled over into rivers and canals, which carried the toxic green sludge east to the Atlantic Ocean

Black-legged (deer) ticks, primary vectors of debilitating Lyme disease, are found across much of Texas and commonly encountered by spring turkey hunters. Research in 2014 found 45 percent of deer ticks tested in Texas carried the spirochetal bacterium causing Lyme disease.

If you thought you were safe from Lyme disease because you don't live in New England, where the tick-borne illness first appeared, think again. Now, all 50 states plus the District of Columbia have residents who have tested positive for Lyme, a bacterial infection that can cause a wide variety of symptoms, including joint aches,

# Growing US unease with China's new deep space facility in Argentina

by Staff Writers  
Moscow (Sputnik) Aug 01, 2018

China is expanding its presence in Latin America filling the gap left by the US, Argentinian foreign studies analyst Gustavo Cardozo told Sputnik. Besides solidifying its positions on the continent, China is seeking to become a major space power, according to the analyst.

China's space base in Argentina's Patagonia is making Washington feel unease amid Beijing's consistent expansion in Latin America, once considered the US' backyard.

"The isolated base is one of the most striking symbols of Beijing's long push to transform Latin America and shape its future for generations to come - often in ways that directly undermine the United States' political, economic and strategic power in the region," remarked Ernesto Londono, an editorial writer for The New York Times.

However, according to Gustavo Cardozo, an analyst at the Argentine Center for International Studies (CAEI), the Chinese endeavor is pursuing far more ambitious goal: Beijing is seeking to become a major space power.

"China has a very serious intention to go into space and compete strategically with the United States," Cardozo told Sputnik Mundo. "This military base allows not only to control outer space, because the Argentine Patagonia and southern Chile are very good regions in terms of visualizing the cosmos."

The construction of the Chinese base for deep space research in Argentina was negotiated between the government of the country's former President Christina Fernandez de Kirchner (2007-2015) and the administration of Chinese President Xi Jinping. The 50-year contract was officially signed in April 2014 and was approved by the Argentinian parliament in February 2015.

The U.S. military has participated in the civil war between government forces and Muslim rebels in Syria, as has Russia.

Now it looks like China is stepping in.

In a report in the Al-Watan daily newspaper in Saudi Arabia, Chinese Ambassador to Syria Qi Qianjin said there is that possibility.

China, he said, "is following the situation in Syria, in particular after the victory in southern (Syria), and its military is willing to participate in some way alongside the Syrian army that is fighting the terrorists in Idlib and in any other part of Syria."

The comments were captured by the [Middle East Media Research Institute](#) just as the Syrian regime army was preparing to launch a campaign against rebels in Idlib, in northern Syria.

WASHINGTON (AP) — U.S. officials say the Trump administration is staffing up a Middle East policy team at the White House in anticipation of unveiling its long awaited but largely mysterious Israeli-Palestinian peace plan.

The National Security Council last week began approaching other agencies seeking volunteers to join the team, which will work for President Donald Trump's Mideast peace pointmen Jared Kushner and Jason Greenblatt, according to the officials. The team, which is being set up to organize the peace plan's public presentation and any negotiations that may ensue, will comprise three units: one concentrating on its political and security details, one on its significant economic focus and one on strategic

Ali Mahwood-Awad Irsan orchestrated the killings of his son-in-law – a convert to Christianity – and his daughter's friend, who had encouraged the marriage, the Houston Chronicle reported.

"Honor and shame, that's what this is all about," special prosecutor Ann Emmons told the jury at the end of a five-week trial in Houston.

"You heard him say honor is a big deal to him. And the only way to clean that honor is to kill."

The Houston paper said it took only 35 minutes for the jury to convict Irsan in the deaths of Coty Beavers and Gelareh Bagherzadeh.

Council members of Parkersburg, West Virginia, hold a meeting.

A Wisconsin-based atheist organization has filed a lawsuit against a West Virginia city over the local government's practice of opening official meetings with a reciting of the Lord's Prayer.

The Freedom From Religion Foundation filed the suit on Tuesday against the City of Parkersburg in the U.S. District Court for the Southern District of West Virginia. In their complaint, the FFRF stated that Parkersburg cannot open its City Council meetings with the Lord's Prayer nor can they encourage attendees to participate.

## Crosses Being Removed, Covered in Scottish Chapels Due to Offended Non-Christians at Funeral Services

Aug 5, 2018 | 0 | ★★★★★

A Scottish government report has revealed that Christian crosses are being removed inside chapels during funeral services so as to not be offensive to atheists and non-Christians. The Scottish Inspector of Crematoria revealed in the July 20 report on practices and issues surrounding funerals services in the country that there are concerns over the "lack of inclusive space" for people not of the Christian faith. "There have also been concerns raised over the presence of Christian religious symbols, particularly the

# Canadian Man Becomes a Woman to Save Money on His Car Insurance

07-30-2018 - Steve Warren

A man in Alberta, Canada wanted to buy a new car. He wanted a Chevrolet Cruze with all of the options. However, he couldn't believe how high his insurance bill would go with his new car purchase.

In his early 20s, the man also had an accident and a ticket or two on his driving record that helped set a high insurance premium quote to the tune of \$4,500 a year. He then asked his insurance company what the cost would be if he were a woman. He was told the cost would be \$3,400. That's when he decided to become a woman to save almost \$1,100 a year. However, he didn't have hormone treatments or surgery.

Five-year-olds in Scotland will be told in classrooms that their gender is "what you decide," according to draft educational guidelines set to be implemented next year in Scottish public schools.

The guidelines were created by the National Health Service, Education Scotland — the state education agency — and the government, [The Scotsman](#) reported. The guidelines also further the notion that a medical professional "assigns" the sex of babies at the time of birth.

## رسالة بولس الرسول الي أهل رومية 13

13: 11 هذا وأنكم عارفون الوقت انها الان ساعة لنستيقظ من النوم فان خلاصنا الان أقرب مما كان حين امنا

13: 12 قد تناهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلياقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيرا للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف

انجيل متى 24

بطرس الأولى 3: 14

وَلَكِنْ وَإِنْ تَأَلَّمْتُمْ مِنْ أَجْلِ الْبِرِّ، فَطُوبَاكُمْ. وَأَمَّا خَوْفُهُمْ فَلَا تَخَافُوهُ وَلَا تَضْطَرُّوْا،

**بل نؤمن**

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

**ثالثا لنتنبه ونستعد**

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَاَنْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ».

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.

وأیضا استعدوا فقد تسلموا وديعتكم في أي وقت فهناك 150 ألف شخص يموتوا في اليوم الواحد  
انت لا تعرف متى ستكون منهم

المسيح اقترب فاصنعوا ثمار تليق بالتوبة واستعدوا لاستقبال العريس.
