## والعلامات حتى 28 اغسطس 2018

Holy\_bible\_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيق اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

# A 'Fireball' 40 Times Brighter Than the Moon Shoots Across Alabama Skies

By Mindy Weisberger, Senior Writer | August 20, 2018 09:58am ET

MORE

This past weekend, a fiery meteor about 40 times brighter than the full moon streamed across the skies over Alabama during the early hours of Friday (Aug. 17).

The event took place at 12:19 a.m. local time, according to NASA Meteor Watch, which captured video of the event and shared the footage to [Facebook](#), dubbing the meteor the "Alabama Fireball."

Six NASA cameras in the region captured the blazing object — a small asteroid measuring approximately 6 feet (2 meters) in diameter, a NASA representative wrote in the Facebook post. The fireball was big enough and bright enough to be easily seen by the naked eye, even through clouds, and it triggered "every camera and sensor operated by the Meteoroid Environment Office in the region," according to NASA. [[Space-y Tales: The 5 Strangest Meteorites](#)]

The meteor was first spotted at an altitude of 58 miles (93 kilometers) above Turkeytown, Alabama. From there, it burned [a fiery trail](#) in the sky as it headed west at an estimated 53,700 mph (86,422 km/h), disintegrating about 18 miles (29 km) over Grove Oak, Alabama, NASA reported.

"We are still assessing the probability of finding meteorites on the ground," a representative wrote in the post.

# NASA asteroid WARNING: Asteroid bigger than Pyramids to skim Earth NEXT WEEK

NASA has revealed a "potentially hazardous" asteroid larger than the Great Pyramids of Giza will make a "close approach" to Earth early next week.

The barreling **Asteroid** 2016 NF23 will skim past the planet Earth shortly after 1am UK time on Wednesday, August 29.

The monstrous space rock is flying towards the planet at a breakneck speed of more than 20,000mph or nine kilometres per second.

At this incredible speed, Asteroid NF23 moves faster than the long-retired Concord aircraft which reached cruise speeds of 1,354 mph (2,179 km/h).

**SURPRISE GEOMAGNETIC STORM:** On Saturday night, [a crack](#) opened in Earth's magnetic field. Solar wind poured in to fuel a strong [G3-class](#) geomagnetic storm. Ayumi Bakken photographed the resulting outburst of auroras over Fairbanks, Alaska:

"It was an amazing display, even through bright moonlight," says Bakken.

At the peak of the storm, Northern Lights spilled across the Canadian border into US states such as [Michigan](#), [New York](#), [Montana](#), [Wisconsin](#), and [Indiana](#). At the same time, Southern Lights were photographed from several locations in [New Zealand](#).

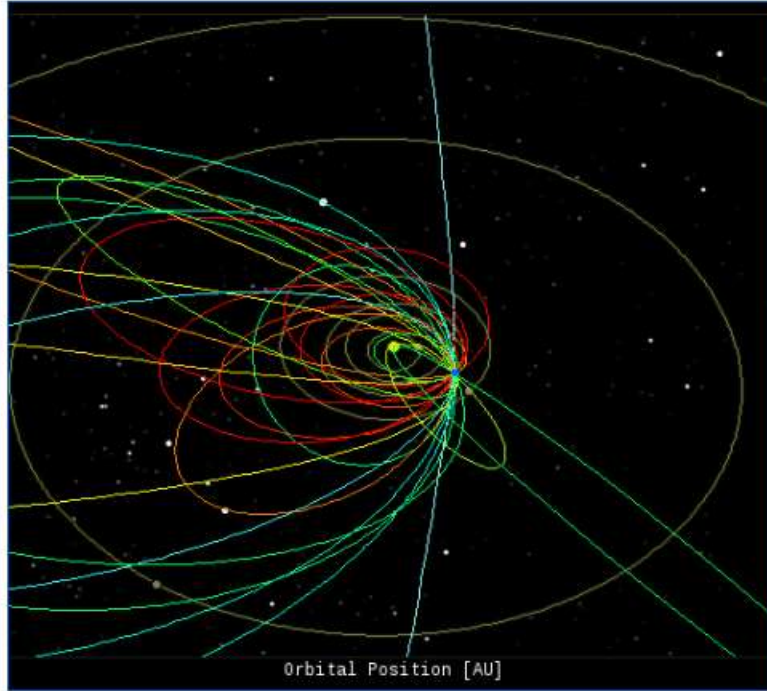

Forecasters did not see this coming. The stage was set for the storm when a minor CME arrived with little fanfare on Aug. 25th. First contact with the CME barely registered in solar wind data, and Earth's magnetic field was unperturbed. The action began only after Earth entered the CME's wake, where strong [south-pointing magnetic fields](#) opened a crack in our planet's magnetosphere. A surprise geomagnetic storm ensued. **Free:** [Aurora Alerts](#).

## More floods threaten Hawaii as tropical Storm Lane drifts away

By Jolyn Rosa and Terray Sylvester, Reuters • August 26, 2018

By Jolyn Rosa and Terray Sylvester

HONOLULU (Reuters) - Tropical Storm Lane, greatly diminished from the major hurricane it once was, drifted away from the Hawaiian coast on Saturday, but lingering showers threatened to trigger more flooding and landslides.

The National Weather Service (NWS) lifted all remaining tropical storm warnings and watch advisories for Hawaii as trade winds finally began to nudge Lane off to the west.

But a flash flood watch remained in effect for Oahu, home to the state capital Honolulu and 70 percent of Hawaii's 1.4 million residents, through Sunday morning, emergency management officials said.

Civil defense officials on the Big Island said more rain and flooding were also possible there, and a high-surf advisory was posted through the day for south- and east-facing shores of all the islands.

Israel's natural water reserves are at a deficit of 2.5 billion cubic meters – the largest in 100 years, Israel's Water Authority said Sunday.

The extreme deficit is down to the drought which has been plaguing Israel for the past five years, with some of the country's streams and rivers on the brink of reaching historically low levels of waterflow.

CARACAS, Aug 21 (Reuters) - A major earthquake of magnitude 7.3 struck the northern coast of Venezuela on Tuesday and shook buildings as far away as the capital, Caracas, the U.S. Geological Survey said.

The quake was centered near the town of Carupano, an area of poor fishing communities and was felt as far away as neighboring Colombia to the east and nearby island nations like Trinidad and Tobago, and St. Lucia, to the west and north.

There were no immediate reports of injuries or damage, Venezuelan Interior Minister Nestor Reverol said in an internet broadcast on Tuesday.

The U.S. Pacific Tsunami Center said the quake could cause small tsunami waves along the coast near the epicenter, 23 miles (37 km) southwest of the town of Carupano.

USGS Geophysicist Jessica Turner said the quake's depth, 76.5 miles (123.11 km) below the surface, would dampen some of the shaking but not enough to prevent damage.

"A 7.3 magnitude quake is going to cause some damage particularly as in this area

YELLOWSTONE NATIONAL PARK, Wyo. – While concerns about a [potential eruption of the supervolcano](#) beneath this iconic park may garner the most alarming headlines, a more likely hazard in the coming decades is a large earthquake.

"The biggest concern we have for Yellowstone is not with the volcano, it's with earthquakes," said Michael Poland, scientist-in-charge at the Yellowstone Volcano Observatory, a consortium of eight organizations led by the U.S. Geological Survey. "This is an underappreciated hazard in the Yellowstone area. There can and there will be in the future magnitude-7 earthquakes."

# Vietnam reports three outbreaks of highly pathogenic bird flu: IE

Reuters Aug. 3, 2018, 10:23 AM

PARIS (Reuters) - Vietnam has reported three outbreaks of highly pathogenic H5N6 bird flu among backyard birds, the Paris-based World Organisation for Animal Health (OIE) said on Friday, citing a report from the Vietnamese farm ministry.

The first outbreak was detected on July 28 in a backyard flock of 2,400 birds in the province of Nghe An. It directly killed 90 birds.

On the same day, it was detected in the province of Hai Phong in a flock of 4,720 birds, where it killed 500 birds.

And on July 30 the virus was detected in another backyard in Hai Phong with 5,500 birds where it had killed 1,000 of them.

Birds that were not killed have been slaughtered, it said.

BEACHGOERS were greeted with an unpleasant sight - and smell - when hundreds of thousands of dead fish were found washed up along the shore.

Visitors to Seaford described the sight as "odd" and "scary" and said they had never seen anything like it.

Sherrie Fox, 54, of Medina Place, Hove, went to the beach on Sunday with her boyfriend.

She said: "It was a very hot day. We got to Seaford Head at about 1.30pm and saw dead fish and jellyfish along the beach.

"As far as my eyes could see, it was a long line of dead silver fish. We saw some flopping around trying to get back into the water.

## Ebola outbreak now at 105 cases, and bordering countries are on alert

Lena Sun and Lenny Bernstein, The Washington Post

Published 4:16 pm PDT, Friday, August 24, 2018

MPONDWE, Uganda - On Tuesdays and Fridays, an estimated 19,000 people stream down the hill from Congo's North Kivu province to cross the border into this small town, many of them headed to a sprawling open-air market.

In recent weeks, crossing the border has become more difficult as Ugandan health authorities have beefed up precautions against the spread of the Ebola virus. An outbreak centered in North Kivu is responsible for 105 confirmed or suspected cases, including 67 deaths, according to Robert Redfield, director of the U.S. Centers for Disease Control and Prevention, who has just returned from the area.

Uganda is determined to keep the deadly hemorrhagic fever from spreading to its side of the border. Before travelers are allowed through, they must step in small tubs of chlorinated water to disinfect their shoes, and their temperatures are taken with no-touch thermometer guns aimed at their temples.

Uganda moved quickly, imposing the precautions a week after the latest outbreak was declared Aug. 1. It has found six suspected cases at this crossing, but laboratory tests cleared them all.

# Chinese Military Joining Russians for Nuclear War Games

Pentagon closely watching Beijing, Moscow forces in upcoming Vostok-18 exercise

BY: Bill Gertz Follow @BillGertz

August 24, 2018 5:00 am

Russia and China will hold a large-scale military exercise next month that will include simulated nuclear weapons attacks, according to American defense officials.

The People's Liberation Army will send more than 3,200 troops, 900 pieces of military equipment, and 30 aircraft to Russia for the exercise known as Vostok-18, or East-18, the Chinese Defense Ministry said, noting the exercises will involve practicing maneuver defense, live firing of weapons, and counterattack.

"We urge Russia to take steps to share information regarding its exercises and operations in Europe to clearly convey its intentions and minimize and potential misunderstanding," Pentagon spokesman Eric Pahon said when asked about Vostok-18.

Additionally, the joint Russian-Chinese exercises scheduled for Sept.

11 through 15 will include military forces from Mongolia for the first time.

Mongolia, aligned with the Soviet Union until 1990, in recent years has sought closer ties to the United States, despite being located between Russia and China.

A Pentagon official said the Vostok war games will be closely watched by U.S. intelligence agencies because they are expected to include the simulated use of nuclear weapons. "It's their strategic messaging," the official said of both Russia and China.

"For nearly 20 years Vostok has been the Russian proving exercise for developing its new 'escalate to deescalate' tactical nuclear doctrine involving the use of new, very small nuclear weapons fired mainly by artillery," said Rick Fisher, senior fellow at the International Assessment and Strategy Center.

Russia's new doctrine of rapidly escalating future conflicts by resorting to nuclear arms shortly after the outbreak of hostilities is a major concern for the Pentagon. The doctrine has been cited by Pentagon officials as one of the reasons Moscow was identified as a major strategic competitor in the new national defense strategy.

# Beijing to launch satellite network to monitor South China Sea traffic

by Staff Writers  
Beijing, China (Sputnik) Aug 20, 2018

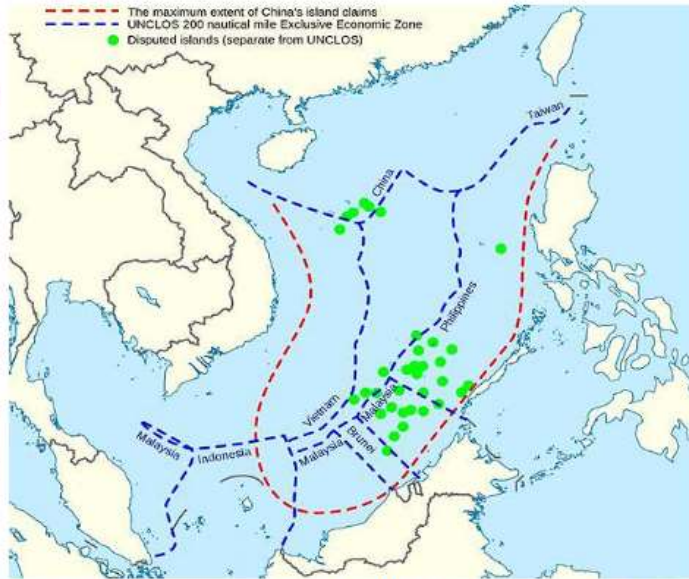

Officials in China's Hainan province are preparing to send a series of satellites into space starting in 2019 in order to keep track of "every reef and ship" within the contested waters of the South China Sea.

The project is headed by the Sanya Institute of Remote Sensing in Hainan and has been sponsored by the provincial government, according to the China News Service. In total, 10 satellites will be launched into low-Earth orbit by the end of 2021.

According to the institute, the first three Hainan-1 optical satellites will be sent off into orbit sometime during the second half of 2019 and will be followed by three more Hainan-1 satellites and two Sanya-1 multispectral remote-sensing satellites in 2020. The final two, both Sansha-1 synthetic aperture radar satellites, will go up in 2021.

A state report issued on the project noted that Hainan-1 satellites would "monitor every reef and ship within the South China Sea" to offer "accurate and quick response" in emergency situations.

"The combination of cameras and automatic identification systems will allow us not only to monitor ships lawfully sailing in the South China Sea, but also to detect and track illegally operating ones," Yang Tianliang, director of the Sanya Institute, told the China News Service on Wednesday.

Rupert Hammond-Chambers, president of the US-Taiwan Business Council, told Sputnik Thursday that the new satellites "will provide the PRC [China] with a greater degree of actionable intelligence which is likely to be employed in undermining counter claims and efforts by other countries to establish their sovereignty."

In a statement marking the 49th anniversary of the arson attack on the Al-Aqsa Mosque, Hamas stressed that the heart of the conflict with Israel lies in the goal of "liberating the land of Palestine and the holy sites of Islam and Christianity, chief among them the city of Al-Quds and the Al-Aqsa Mosque."

Hamas said that "the liberation of the Al-Aqsa Mosque will only take place by paying a price, and that the Hamas movement and all the elements of our (Palestinian) people can continue to struggle with all means until the liberation of Palestine, Al-Quds, the return of the refugees and the establishment of an independent Palestinian state with Jerusalem as its capital."

# US accuses China of 'destabilizing' cross-Strait ties with El Salvador move

by Staff Writers  
Washington (AFP) Aug 24, 2018

The United States on Thursday accused China of destabilizing cross-Strait relations following the announcement this week that El Salvador would end diplomatic ties with Taipei in favor of Beijing.

"The United States will continue to oppose China's destabilization of the cross-Strait relationship and political interference in the Western Hemisphere," the White House said in a statement.

"This is a decision that affects not just El Salvador, but also the economic health and security of the entire Americas region," it also said of Tuesday's announcement, reiterating that the US would reevaluate its ties with the Central American country as a result.

Taiwan and China have been engaged for years in a diplomatic tug-of-war in developing countries, with economic support and other aid often used as bargaining chips for diplomatic recognition.

Beijing sees self-ruling, democratic Taiwan as part of its territory to be brought back into the fold and has not ruled out using force to do so.

Relations between Taipei and Beijing have worsened since Tsai Ing-wen came to power in 2016 as her government refuses to acknowledge that Taiwan is part of "one China".

As a result, China has stepped up its poaching of Taiwan's dwindling official allies.

El Salvador became the fifth diplomatic loss under Tsai's presidency and the third this year.

Abu Bakr al-Baghdadi

Islamic State (ISIS) jihadist group leader Abu Bakr al-Baghdadi called on Muslims to wage "jihad" in a purported new audio recording released on Wednesday, according to AFP.

The Telegram message on the occasion of the Muslim holiday of Eid al-Adha is the first known to be released since another [was broadcast in September](#) last year, and comes as ISIS has lost most of its territory in Iraq and Syria.

"Those who forget their religion, patience, jihad against their enemies, and their certainty in the creator's promise lose and are disgraced," the leader said in the recording.

Two persons have been killed and one seriously wounded in a knife attack in the Paris suburb of Trappes.

ISIS has claimed responsibility for the attack, according to *Reuters*.

It was later revealed, however, that the two persons murdered are the attacker's mother and sister. Now police are checking the possibility that the incident is criminal in nature.

Police told *Le Parisien* that the attacker was in a pavilion shouting, "Allahu Akbar," and threatened that "If you enter I smoke you all."

Abdel Fattah Al-Sisi

Egyptian President Abdel Fattah Al-Sisi has signed a new law tightening the government's control of the internet, *CNN* reported Sunday.

Sisi signed the legislation on Saturday, according to the report.

Aimed at combating extremism, the Anti-Cyber and Information Technology Crimes legislation prohibits the "promotion of the ideas of terrorist organizations" and allows authorities to block websites deemed by judges to be threats to national security.

It also bans the dissemination of information on the movement of security forces and imposes strict punishments for hacking government information systems, according to the state-run *Al-Ahram* newspaper.

## EU takes on TRUMP: Brussels defies US and gives Iran £18M to OFFSET sanctions

THE European Union agreed 18 million euros (\$20.6 mln) in aid for Iran on Thursday, including for the private sector, to help offset the impact of United States sanctions and salvage a 2015 deal that saw Tehran limit its nuclear ambitions.

## Gallons Of Oil Are Flowing Out Of A Bible In Georgia – Is This An “End Times Miracle” Or A Cruel Hoax?

For the last 18 months, gallons of oil have been flowing out of a Bible in Georgia, and some are calling this “an end times miracle”. You may be tempted to think that this is some sort of a stunt to make money, but that isn’t happening. In fact, the owner of the Bible actually gives away vials of the oil for free, and people are allowed to freely dip their hands into it. The oil has been submitted to a chemist for testing, and he confirmed that it is oil, but it doesn’t appear to be any sort of oil that is produced by man. So could it be possible that this is a real miracle, or is this just some sort of cruel hoax?

For quite some time, believers have been gathering in the prayer room of a gift shop in Dalton, Georgia for prayer and worship. In January 2017, oil

## Hardcore Atheist Receives Visitation From Jesus on His Deathbed

A pastor who has preached hundreds of funerals for more than 20 years is convinced a dying man with no belief in spiritual things was visited by the Lord Jesus Christ, stirring the man to tell his wife and two adult children "I got God" the day before he passed away in a hospital bed.

"With all of my heart, I believe he had a visitation from the Lord because, prior to that day, neither he nor his wife wanted to hear anything—I mean nothing—about God," says Pastor Becky Salgado, who recently shared the story with Lead Pastor Jonathan Wiggins and his church staff.

Another pastor at Rez.Church says she, too, had a supernatural encounter with a

An Iranian flag flutters in front of the United Nations headquarters in Vienna, Austria, June 17, 2014.

An Iranian court has sentenced 12 Christians to one year in prison for holding worship meetings and evangelizing — crimes that Iran considers to be "propaganda activities."

The Iranian Christian news agency [Mohabat News](#) reports that a Christian convert known as Payam Kharaman and 11 other Christians who were arrested in Bushehr in April 2015 were sentenced for the crime of promoting what the Iranian authorities call Zionist propaganda that goes against the Islamic Republic's Shia Muslim-controlled system.

A new compilation of data gives insight into the African Islamist insurgency's reach, tactics, and evolution. It reveals a far higher victim count than previous estimates.

**Nigeria's fight against Boko Haram remains one** of the region's **deadliest conflicts** despite a major military offensive to contain the African Islamist militant group and support from international partners. A new study of the conflict offers fresh perspective on how lethal it has been, especially for civilians, and the pattern behind Boko Haram's attacks. Since 2009, the Boko Haram insurgency has killed tens of thousands and displaced millions, and violence by militants and security forces continues daily.

The study shows that though Boko Haram's territorial control is now limited to some small villages and pockets of countryside, a shift in tactics has helped the group stay a threat to millions. It has turned to suicide bombings, which accounted for almost a third of all casualties in the first half of 2018, and has

Pro-family activists in California are asking citizens to urge Democratic Gov. Jerry Brown to veto a bill some critics say would effectively ban the sale of the Bible in the state.

AB 2943 classifies as "consumer fraud" any financial transaction – such as selling a book or charging for a seminar – related to counseling people to overcome same-sex attractions.

The bill has been disputed hotly for months and last month was delayed voluntarily in the state Senate. But now the Senate has voted 25-11 to adopt it, sending it back to the Assembly where Senate changes must be approved.

It then could go to the governor.

The legislation comes amid the release of a [Liberty Counsel study](#) showing that such therapies overwhelmingly are effective.

The study is "Effects of Therapy on Religious Men Who Have Unwanted Same-Sex Attraction," and authors Paul Santero, Neil Whitehead and Dolores Ballesteros, all PhDs, found the American Psychological Association and other organizations "have formally claimed that sexual orientation change therapies should not be used because they are probably ineffective and may cause harm."
