

تعليق على بعض الاحداث العالمية

والعلامات حتى 25 سبتمبر 2018

Holy_bible_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيق اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعه سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

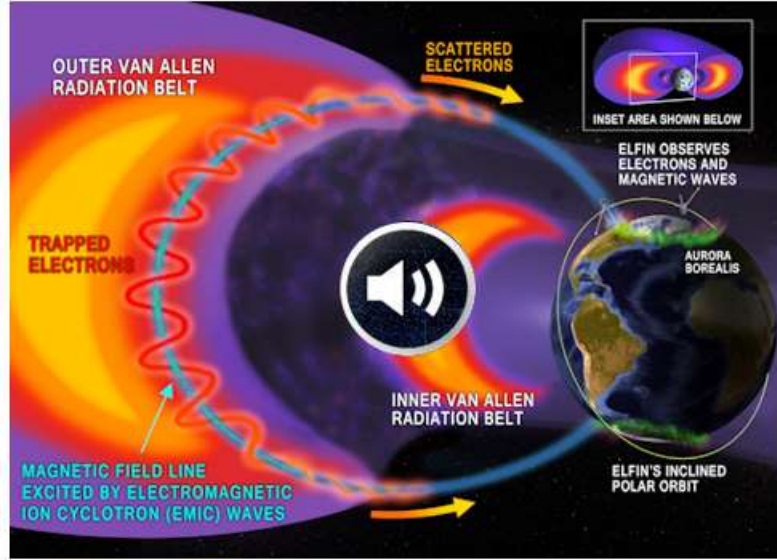

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

علامات في السماء

نشر ستلايت بناه طلبة لرصد الالكترونات القاتلة من الفضاء للأرض

STUDENT-BUILT SATELLITES TRACK KILLER ELECTRONS: Last Saturday, a Delta II rocket blasted off at dawn from Vandenberg AFB in California. Soon thereafter NASA reported the successful deployment of the ICESat-2 satellite, designed to make 3D laser images of Earth's surface. Here's what most news stations did *not* report: A pair of tiny satellites were tucked inside the rocket, and they were successfully deployed as well. Built by students at UCLA, [ELFIN-A](#) and [ELFIN-B](#) are now orbiting Earth, monitoring the ebb and flow of "killer electrons" around our planet.

"We've just received our first downlink of data from ELFIN-A," reports Ryan Caron, Development Engineer at UCLA's Department of Earth, Planetary, and Space Sciences. Click to listen:

That may sound like ordinary static, but the signal is full of meaning. As mission controllers turn on ELFIN's science instruments, the static-y waveforms will carry unique information about particles raining down on Earth from the inner Van Allen Radiation Belt.

NASA asteroid WARNING: Giant lorry-sized Asteroid RH6 to skim Earth TONIGHT

AN ASTEROID the size of a 44-tonne lorry will zip past the planet tonight, astronomers at NASA's Jet Propulsion Laboratory (JPL) have warned.

اليابان ترسل 2 انسان الى مذنّب ويهبطوا عليه لاستكشاف سطحه

ROBOTS LAND ON ASTEROID RYUGU: This weekend, Japan made history by deploying two rovers on the surface of a near-Earth asteroid. The mechanical explorers dropped from their mothership, [Hayabusa2](#), less than 100 meters above Ryugu, and now they are hopping across the space rock's cratered landscape. This picture was taken by Rover-1A in mid-hop:

Hopping is necessary because the asteroid's gravity is too weak for simple rolling. Instead of wheels, the rovers have rotating motors inside that allow them to shift their momentum and, thus, make little jumps across the asteroid's rugged surface. Mission controllers are taking great care that the rovers, which measure 18 cm by 7 cm and weigh only 1 kg, do not fly into space.

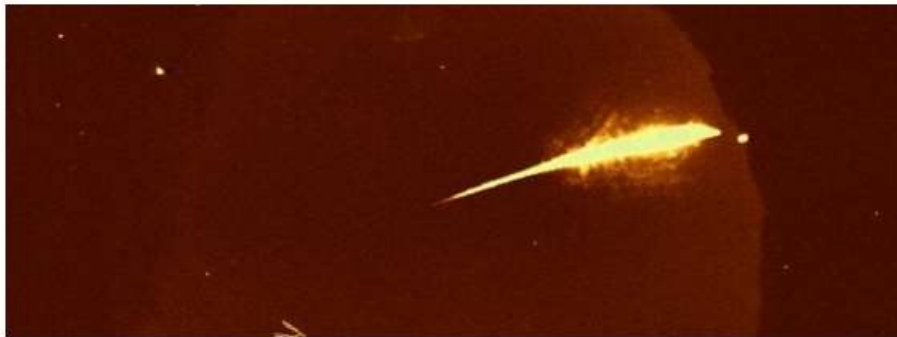

As historic as this achievement is, it is only the beginning: Rover-1A and 1B are on a reconnaissance mission for two more robots slated to land later this year. In October, Hayabusa2 will release MASCOT (Mobile Asteroid Surface Scout), a larger lander made by the German Aerospace Center. MASCOT will be followed, in turn, by another Japanese robot.

Bright fireballs streak over Texas and Alabama

Posted by TW on September 24, 2018 in categories [Editors' picks](#), [Meteor activity](#)

[Follow @TheWatchers_](#)

A bright fireball streaked through the night sky over Texas at 03:18 UTC on September 19, 2018. At 03:10 UTC on September 23, another bright fireball was observed over Alabama.

The American Meteor Society (AMS) received 76 [reports](#) about a fireball seen over Oklahoma, Texas, New Mexico, Kansas and Arkansas at 03:18 UTC on September 19. The object entered our atmosphere west of Dallas and ended near Lubbock.

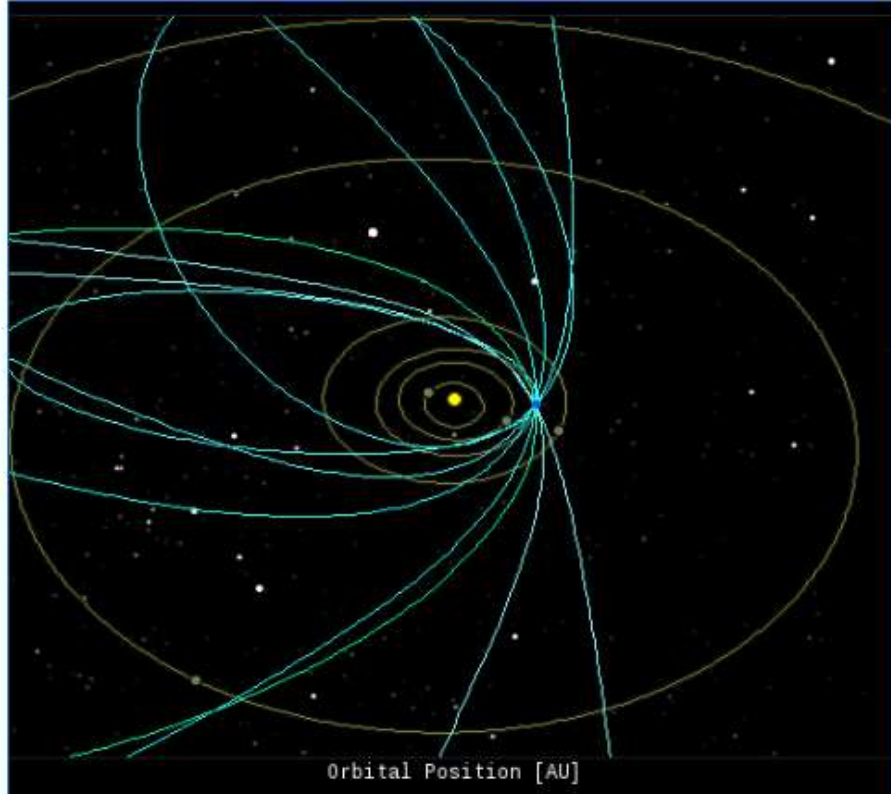

3 people reported delayed sound and 2 concurrent.

Northern Ireland sets new all time record for strongest September wind gust

Posted by TW on September 20, 2018 in categories [Editors' picks](#), [Severe storms](#)

[Follow @TheWatchers_](#)

Northern Ireland has set its new record for strongest September wind gust with 146 km/h (91 mph) measured on September 19, 2018.

Storm Ali wreaked havoc across Ireland and UK on September 19 and produced a wind gust of 146 km/h (91 mph) in Killowen in County Down, Northern Ireland. This is now officially the strongest wind gust measured in Northern Ireland in September since records began in 1880s.

Ali is the first named storm of the 2018/19 season, closely followed by the second storm of the season, named Bronagh, on September 20 and 21. Forecast models suggest a third storm will form in the

800 farmers suffer extensive crop loss after hailstorm wreaks havoc across 6 villages, Uganda

Posted by TW on September 18, 2018 in category [Severe storms](#) [Follow @TheWatchers_](#)

More than 800 farmers in Ugandan Buwunga Sub-county suffered extensive crop loss after severe storm accompanied by strong winds and huge amounts of hail swept over six villages on September 15, 2018.

According to Daily Monitor, residents said the storm began at about 17:00 local time, destroying plantations of rice, watermelon, cassava, maize, beans, groundnuts, soybeans and bananas among others. When their reporter visited the affected villages 17 hours later, ice pellets were still visible on the ground.

"All my hopes are gone! The hailstorms have taken me to zero and I don't know where I will get food," one of the farmers said.

Duke Energy says dam breached at North Carolina plant and coal ash may be flowing into Cape Fear River

- A Duke Energy dam containing a 1,100-acre reservoir in North Carolina is breached, and may be causing coal ash to flow into the nearby Cape Fear River.
- Hurricane Florence brought rain measured in feet to North Carolina, followed by rising rivers and standing water in fields.
- The president of Duke Energy's North Carolina operations, David Fountain, told CNBC earlier this week that the impact from Hurricane Florence has been the most severe he's ever experienced.

Terrifying 'Fire Tornado' Sucks Firehose Into The Sky Then Melts It In Midair

Ed Marza , HuffPost • September 18, 2018

A terrifying moment for Canadian [firefighters](#) was caught on video last month when a 200-foot-tall fire tornado literally sucked a hose into the sky and then melted it before their eyes.

"Fire tornado destroyed our line," wrote Instagram user M.C. Schidlowsky, who was part of the fire crew. "It threw burning logs across our guard for 45 minutes and pulled our hose 100 plus ft. in the air before melting it. That's definitely a first."

The tornado itself reached 200 feet, she added.

Severe thunderstorm, large hail and destructive tornado hit Ottawa, 85 000 homes without power, Canada

Posted by TW on September 22, 2018 in categories [Featured articles](#), [Severe storms](#), [Tornadoes](#)

[Follow @TheWatchers_](#)

Severe thunderstorms accompanied by large hail and a destructive tornado swept through eastern Ontario and into Quebec during the afternoon hours of September 21, 2018. The storm left widespread power outages, three seriously injured people of which one is in critical condition and more than 60 damaged homes. Several homes were completely destroyed.

The storm produced winds gusts of up to 100 km/h (62 mph), hail the size of golf balls and a tornado which affected dozens of buildings, downed trees, and ripped shingles off roofs.

Contact with puppies at six pet store companies in 18 states led to infections that sickened more than 100 people, according to a new report from the Centers for Disease Control and Prevention. The cause of the illness was *Campylobacter*, an infectious disease that causes diarrhea, fever, and abdominal cramps.

According to the CDC, *Campylobacter* causes an estimated 1.3 million diarrheal illnesses in the United States each year. The majority of cases occur due to eating raw or undercooked poultry, or to eating something that touched the bacteria.

For the second consecutive month, a Colorado-based meat producer that ships nationwide is recalling thousands of pounds of ground beef for a possible E. coli contamination.

According to a notice issued Wednesday by the United States Department of Agriculture Food Safety and Inspection Service, Cargill Meat Solutions is recalling approximately 132,000 pounds of ground beef products made from the chuck portion of the cow.

Russia promises RETALIATION on Israel for 'shot down' plane in Syria -Middle East on BRINK

RUSSIA has promised retaliation after Israeli airstrikes created a "dangerous situation" by performing unannounced attacks in Syria, resulting in a Soviet reconnaissance plane being accidentally shot down by Syrian Air Defence systems, the Kremlin has announced.

ISRAELI F-16's ****INTERCEPTED**** BY RUSSIAN WAR PLANES OVER LEBANON; Forced back to Israel

Category: World News

⌚ Saturday, 22 September 2018 14:00

💬 7 Comments

UPDATED 3:55 PM EDT (SEE BOTTOM) -- Russian jets reportedly intercept Israeli planes over Lebanon. Two Russian SU-34 planes challenged Two Israeli Air Force (IAF) F-16s in Tripoli, Lebanon's skies **AND FORCED THEM TO RETURN TO ISRAEL** despite mechanism to avoid conflicts between Moscow and Jerusalem

There has been no official confirmation from Russia or Israel.

It was the first time in months that Russian planes had entered Lebanese airspace from Syria.

Israeli jets reportedly often fly over Lebanese airspace conducting reconnaissance missions. Reports have also said that many of Israel's attacks on targets in Syria have been launched from Lebanese airspace.

Earlier this month Prime Minister Benjamin Netanyahu said he had no reason to believe the Kremlin would try to limit Israel's freedom of operation in the region. It now appears Netanyahu was wrong.

In light of the heavy Russian presence in Syria, Israel in September 2015 **set up a mechanism** with Moscow — involving work groups led by the deputy chiefs of both militaries — to avoid conflicts and potentially fatal misunderstandings.

Khan al-Ahmar

The Arab League on Sunday urged the international community to exert immediate pressure on Israel to halt the demolition of the illegal Bedouin outpost of Khan Al-Ahmar.

Khan al-Ahmar was built in the 1990s on land belonging to the Israeli town of Kfar Adumim, east of Jerusalem. The encampment is home to some 170 Bedouin, who have expanded the community in recent years with the aid of foreign governments.

S. Korea launches its first missile-capable submarine

by Staff Writers
Seoul (AFP) Sept 14, 2018

South Korea launched its first ever missile-capable attack submarine on Friday, despite a recent diplomatic thaw with the nuclear-armed North.

The \$700 million, 3,000-tonne Dosan Ahn Chang-ho submarine is capable of firing both cruise and ballistic missiles and the first of three planned diesel-electric boats to go into service in the next five years.

It represented a "leap forward in the country's" defence industry, President Moon Jae-in told a launch ceremony at the Daewoo shipyard where it was designed and built.

"Peace through power is the unwavering security strategy of this government."

Moon will head to Pyongyang next week for a third summit with the North's leader Kim Jong Un, as US-led efforts to persuade Pyongyang to give up its nuclear weapons have stalled.

"We have set off on a grand journey toward the denuclearisation of the Korean peninsula," Moon said.

"But peace is not given gratuitously," he added. "Peace through power is the unwavering security strategy of this government."

The new submarine is fitted with six vertical launch tubes and features indigenous sonar and combat management systems.

US sanctions Chinese military unit for buying Russian jets, missiles

by Staff Writers
Washington (AFP) Sept 20, 2018

The United States expanded its sanctions war against Russia to China on Thursday, announcing punitive measures against a Chinese military organization for buying Russian fighter jets and missiles.

Stepping up pressure on Moscow over its "malign activities," the US State Department said it was placing financial sanctions on the Equipment Development Department of the Chinese Ministry of Defense, and its top administrator, for its recent purchase of Russian Sukhoi Su-35 fighter jets and S-400 surface-to-air missiles.

Officials said it was the first time a third country has been punished under the CAATSA sanctions legislation for dealing with Russia, and signaled the Trump administration's will to risk relations with other countries in its campaign against Moscow.

They also said that the US could consider similar action against other countries taking delivery of Russian fighter jets and missiles. US ally Turkey is currently talking with Moscow about an S400 deal.

"The ultimate target of these sanctions is Russia," a senior administration official told journalists, insisting on anonymity.

© GETTY IMAGES NORTH AMERICA/AFP/File | The United States announced a new raft of measures that would punish third countries for dealing with Moscow

MOSCOW (AFP) - Moscow and Beijing lashed out Friday at Washington's new anti-Russian sanctions that also target China for the first time, warning the United States could face consequences.

The United States is "playing with fire", Russia's deputy foreign minister Sergei Ryabkov said, while Beijing voiced "strong indignation" over the move.

United in their resentment of America's global influence, China and Russia have sought in recent years to tighten up their ties and this month conducted week-long joint military drills, Moscow's largest ever war games.

Russians who refuse to take down information posted online that has been judged "false" by a court could be sentenced to up to a year in prison

Russians who refuse to take down online information that has been judged "false" by a court could be sentenced to up to a year in prison under a bill approved by MPs Tuesday in a key second reading.

Deputies in parliament's lower house voted to approve the measure that would apply to individuals on social media as well as to those working for media groups.

Senators and President Vladimir Putin still have to sign off on the bill following a formal third reading in parliament.

The law comes in the context of an ongoing crackdown on internet freedoms in Russia, where social media remains one of the few places the opposition can organise.

Greece uses high-tech drones to fight tax evasion in holiday hot spots

 **Reuters** September 24, 2018

ATHENS (Reuters) - Greece are using drones to buzz over boats running day trips on the Aegean at the start of a new effort aimed at cracking down on rampant tax evasion at holiday hotspots.

With the black economy by some accounts representing about a quarter of national output in a country which depends hugely on tourism, Greek authorities are turning to high-tech to stamp out undeclared earnings.

Finance ministry tax inspectors and the coast guard launched the drones project on Santorini, an island highly popular with tourists, to check on whether operators offering short day trips were issuing legal receipts to all their passengers.

Based on data from the drones, authorities were able to establish how many passengers were on board, then cross-referenced it with declared receipts and on-site inspections.

"We used the drones for the first time on an experimental basis to monitor how many tourists were on board," said an official at the Independent Authority for Public Revenue.

"The results were excellent", he added.

Trump Announces New Tariffs on Chinese Imports

10% tax on \$200 billion in Chinese imports will take effect next week, rise to 25% at year's end; more threatened

By Jacob M. Schlesinger and Vivian Salama

Updated Sept. 18, 2018 4:09 a.m. ET

WASHINGTON—President Trump said Monday he will impose new tariffs on about \$200 billion in Chinese goods and threatened to add hundreds of billions more as part of his campaign to pressure Beijing to change its commercial practices, escalating trade tensions between the world's two largest economies.

The 10% tax on Chinese imports will take effect on Sept. 24 and will rise to 25% at the end of the year, according to administration officials. The tariffs will affect thousands of goods ranging from luggage to seafood, extending...

The source of child pornography was traced to an IP address used at the observatory and a source within the building observed a computer with "not good" images on it, the warrant

بروفيسور في جامعة السويد يتم التحقيق معه والعديد من الاتهامات لأنه فقط قال ان الرجل

والمرأة مخلفين بيولوجيا فغضب عليه مجتمع الشواذ

A retraction is needed, activists claim.

After all, an investigation already is under way into the "anti-feminism" and "transphobia" of a university professor.

All because he said there are biological differences between men and women.

RT.com reported professor Germund Hesslow of the neurophysiology department at Lund University in Sweden was accused by a student of making offensive statements in a lecture.

So far, he's refused to back down.

The report said it was during a course on heritage and environment at the school that he cited "empirical research which supports the idea that there are differences between men and women which are 'biologically founded' and therefore genders cannot be regarded as 'social constructs alone.'"

But that, the student complained, violates the Swedish "value base," which emphasizes and affirms concepts such as egalitarianism, individual freedom and equality of the sexes.

هذا ما فعلوه في الأطفال يشوههم جسديا ونفسيا

فلهذا اطلب أن نصلي ونستعد ونعد زيت لمصاييحنا لاستقبال العريس بالصلاة والصوم وخدمة

أبناء الله وتنقية القلب والاستعداد بلبس العرس.

رسالة بولس الرسول الي أهل رومية 13

13: 11 هذا وأنكم عارفون الوقت انها الان ساعة لنستيقظ من النوم فان خلاصنا الان أقرب مما كان حين امنا

13: 12 قد تنهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلياقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيرا للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

بطرس الأولى 3: 14

وَلَكِنْ وَإِنْ تَأَلَّمْتُمْ مِنْ أَجْلِ الْبِرِّ، فَطُوبَاكُمْ. وَأَمَّا خَوْفُهُمْ فَلَا تَخَافُوهُ وَلَا تَضْطَرُّوْا،

بل نؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.».

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.

وأيضاً استعدوا فقد تسلموا وديعتكم في أي وقت فهناك 150 ألف شخص يموتوا في اليوم الواحد

انت لا تعرف متى ستكون منهم

المسيح اقترب فاصنعوا ثمار تليق بالتوبة واستعدوا لاستقبال العريس.

والمجد لله دائماً
