## والعلامات حتى 23 اكتوبر 2018

Holy\_bible\_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

انجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لننتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

**COMING SOON, THE COMET OF THE YEAR:** Astronomers are calling Comet 46P/Wirtanen the "comet of the year." Two months from now, on Dec. 16th, the kilometer-wide ball of dirty ice will come within 11.5 million km of Earth—making it one of the [10 closest-approaching comets](#) of the Space Age. Comet 46P/Wirtanen will probably become a naked eye object for several weeks during the holidays. Here's what it looks like now:

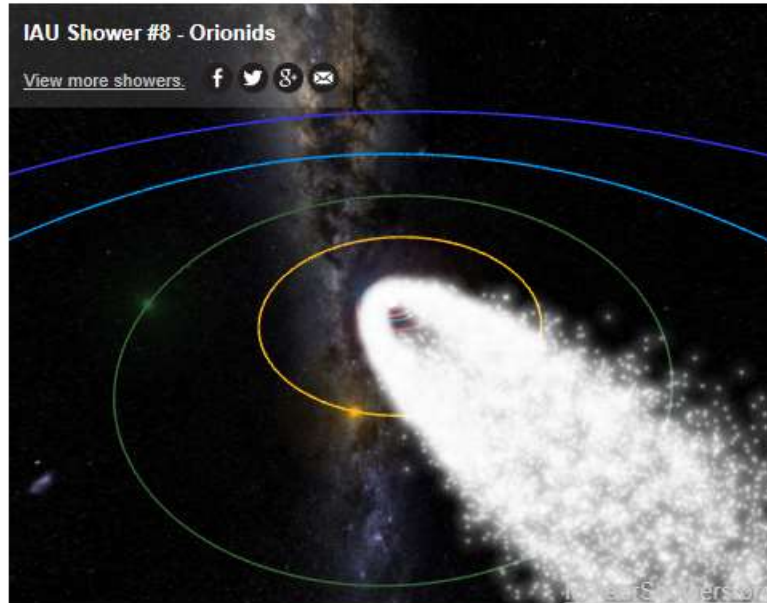

Yasushi Aoshima of Ishikawa, Japan, took the picture using a 12-inch telescope. It shows the comet's green atmosphere which is, impressively, almost twice as wide as the planet Jupiter. The green color comes from diatomic carbon (C<sub>2</sub>)—a gaseous substance common in comet atmospheres that glows green in the near-vacuum of space.

**METEORS FROM HALLEY'S COMET:** Earth is entering a stream of debris from Halley's Comet, source of the annual Orionid meteor shower. At least four bright Orionid fireballs streaked across the USA last night, according to [NASA cameras](#), with more expected this weekend. Programmer [Ian Webster](#) created this interactive visualization of Comet Halley's dusty debris stream cutting across Earth's orbit:

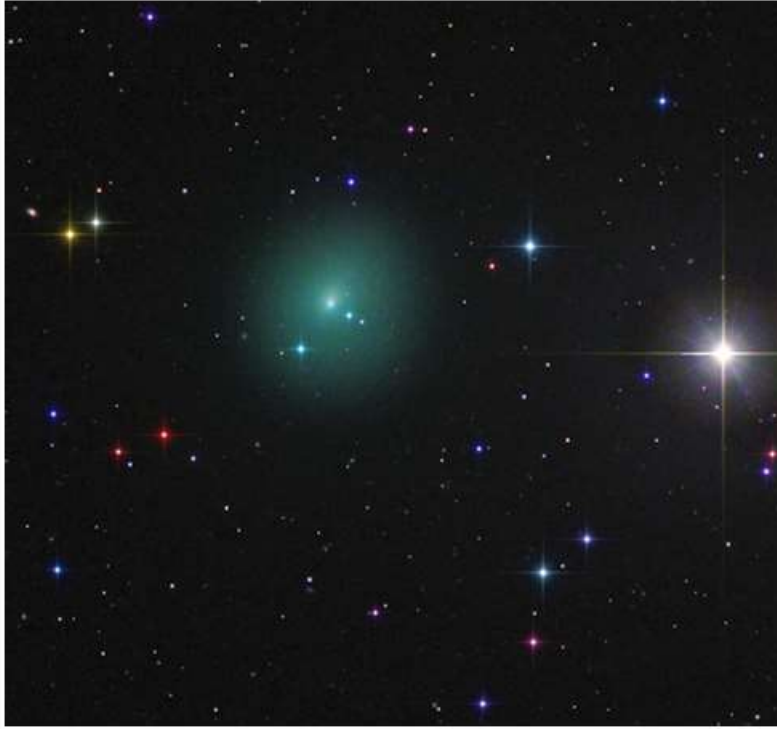

Forecasters expect the meteor rate to peak on **Oct. 21-22** when Earth passes through the densest part of the stream. Most years, this would mean 20 to 25 Orionids per hour. This year, however, the shower's peak nearly coincides with the full Moon. Lunar glare could reduce the visible meteor rate 3-fold. The best time to look is during the hours before local sunrise when the constellation Orion is high in the southern sky and the Moon is low in the east: [sky map](#).

مذنب اخضر كبير سيقترب من الأرض 16 ديسمبر

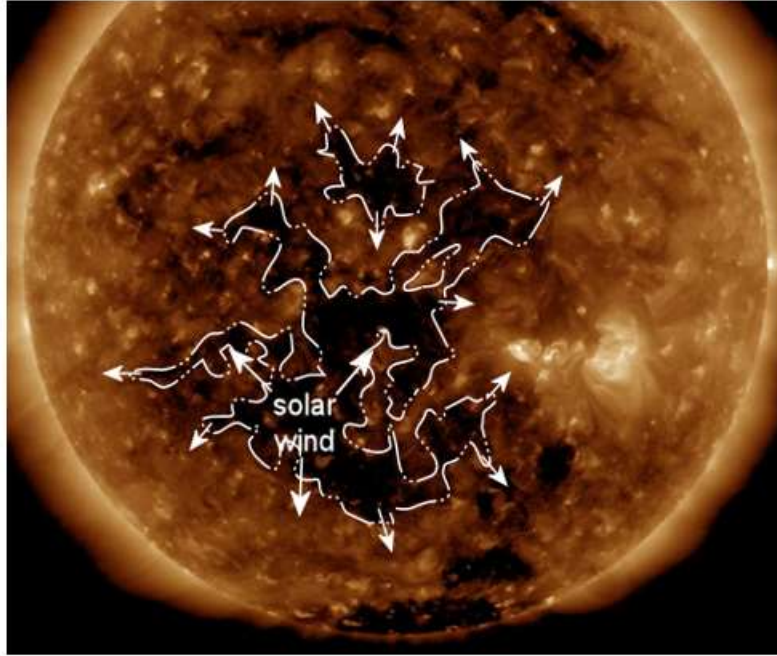

**SOMETHING WICKED-GREEN THIS WAY COMES:** A green ball of gas wider than the planet Jupiter is approaching Earth. It's name is "Comet 46P/Wirtanen." Italian astronomer Rolando Ligustri photographed the verdant orb on Oct. 18th using a remote-controlled telescope in Australia:

Deep inside that green ball is a furiously vaporizing nugget of dirty ice. The frozen nucleus of 46P/Wirtanen is only about 1 km wide, but astronomers say it is "hyperactive." As many as  $1.7 \times 10^{28}$  water molecules per second have been observed emerging from the comet's core. Mixed with the water vapor is diatomic carbon ( $C_2$ )—a gaseous substance common in comet atmospheres that glows green in the near-vacuum of space.

**A HOLE IN THE SUN'S ATMOSPHERE:** An irregular hole in the sun's atmosphere is turning to face Earth, spewing a ragged stream of solar wind toward our planet. Estimated time of arrival: **Oct. 24**. NASA's Solar Dynamics Observatory took this false-color UV image of the structure on Oct. 20th:

This is a "coronal hole"—a place where the sun's magnetic field opens up and allows solar wind to escape. Coronal holes look dark because the glowing-hot plasma normally contained there is missing. In this case, it is en route to Earth.

High-latitude sky watchers should be alert for auroras when the gaseous material arrives. A bright full Moon on Oct. 24th will add its luminosity to that of any geomagnetic storm, creating some nice landscape photo-ops around the Arctic Circle. **Free:** [Aurora Alerts](#).

## Near Earth Asteroids

Potentially Hazardous Asteroids (PHAs) are space rocks larger than approximately 100m that can come closer to Earth than 0.05 AU. None of the known PHAs is on a collision course with our planet, although astronomers are finding [new ones](#) all the time.

On October 19, 2018 there were **1936** potentially hazardous asteroids.

## Floods in Niger claim 45 lives since June: UN

2018-10-17 05:43

Forty-five people have died in the arid west African country of Niger in flooding since June, and nearly 209 000 have been affected, the UN said on Tuesday.

The rains destroyed nearly 17 400 homes, killed more than 33 000 livestock and damaged crops, the Office for the Coordination of Humanitarian Affairs (OCHA) said.

Nearly 8 000 hectares of millet, maize and bean fields were inundated, it said.

The government had given a far lower figure, citing 469 people affected.

The three-month rainy season is coming to an end but it has caused flooding in many areas, including in the desert north.

WASHINGTON - President Donald Trump said Saturday he would pull out of a Cold-War era treaty with Russia that limited the number of missiles in each country.

Trump said Moscow had violated the Intermediate-Range Nuclear Forces Treaty and he would halt the agreement.

"We're going to terminate the agreement and we're going to pull out," Trump said when leaving a rally in Nevada Saturday afternoon. He said the U.S. would pull out "and then we are going to develop the weapons" unless Russia and China agree to a new deal, though China isn't currently a party of the agreement.

"Russia has violated the agreement. They have been violating it for many years," the president said. "And we're not going to let them violate a nuclear agreement and go out and do weapons and we're not allowed to."

Trump made the revelation as his National Security Adviser John Bolton was headed to Russia, Azerbaijan, Armenia and Georgia. His first stop is scheduled in Moscow, where he'll meet with Russian leaders, including Foreign Minister Sergei Lavrov and Security Council Secretary Nikolai Patrushev.

US President Donald Trump threatened Russia and China that Washington intends to build up its nuclear arsenal until "people come to their senses."

The president said his words were directed towards Moscow and Beijing, as he prepared to unilaterally leave the Intermediate Nuclear Forces in Europe (INF) treaty. The US president implied China should be part of any new nuclear arms control treaty.

"*Russia has not adhered to the agreement*," neither in form or in spirit, Trump told reporters outside the White House on Monday, before departing for a campaign rally in Texas.

# Koreas and UN Command discuss demilitarising border

by Staff Writers  
Seoul (AFP) Oct 16, 2018

The two Koreas and the US-led United Nations Command held talks Tuesday on demilitarising a section of the heavily fortified border dividing the peninsula, as a diplomatic thaw gathers pace.

"The three parties examined the progress in removing landmines at the Joint Security Area (JSA)...and discussed other practical matters regarding steps toward disarming the area," Seoul's defense ministry said in a statement.

The JSA, also known as the truce village of Panmunjom, is the only spot along the tense, 250-kilometre (155-mile) frontier where troops from the two countries stand face to face.

It was a designated neutral zone until the "axe murder incident" in 1976, when North Korean soldiers attacked a work party trying to chop down a tree inside the Demilitarized Zone (DMZ), leaving two US army officers dead.

South and North Korea -- which are technically still at war -- agreed to take measures to ease military tensions on their border at a meeting in Pyongyang last month between President Moon Jae-in and Kim Jong Un.

Paris (AFP) Oct 15, 2018 - South Korean President Moon Jae-in said Monday that world powers needed to reassure North Korea's Kim Jong Un that he had taken the right decision in committing to scrap his nuclear weapons programme.

Moon, who has met Kim three times this year, is on a seven-day tour of Europe where he is expected to update leaders in Paris, Rome and Brussels on the rapidly thawing relations between Seoul and Pyongyang.

Moon, who met with French President Emmanuel Macron on Monday, said the UN Security Council needed to play an "active role" in helping convince the reclusive North Korean leader to fully abandoned his atomic programme.

# Koreas, UN Command agree to demilitarise part of border

by Staff Writers  
Seoul (AFP) Oct 22, 2018

The two Koreas and the US-led United Nations Command agreed Monday to demilitarise a section of the heavily fortified border dividing the peninsula by this week, as a diplomatic thaw gathers pace.

"The three parties agreed to carry out measures to withdraw firearms and guard posts at the Joint Security Area (JSA) by October 25," Seoul's defence ministry said in a statement following trilateral talks.

They will then conduct a "three-way joint verification" for the following two days, it added.

The JSA, also known as the truce village of Panmunjom, is the only spot along the tense, 250-kilometre (155-mile) frontier where troops from the two countries stand face to face.

It was a designated neutral zone until the "axe murder incident" in 1976, when North Korean soldiers attacked a work party trying to chop down a tree inside the Demilitarized Zone (DMZ), leaving two US army officers dead.

South and North Korea – which are technically still at war – agreed to take measures to ease military tensions on their border at a meeting in Pyongyang last month between President Moon Jae-in and Kim Jong Un.

Earlier this month, the two sides began removing landmines at the JSA – which is now often used for talks between the two Koreas -- as part of the deal, which was confirmed "complete" at Monday's talks.

The September summit was the third this year between the leaders as a remarkable rapprochement takes hold on the peninsula.

"Some in the international community still labor under the misimpression that the Iranian regime might be a responsible international actor, or might abide by the laws of a civilized society. Some think Tehran might care more about a better life for the people of Iran than about the forcible spread of the regime's power and influence. Many, many things about the Iranian regime contradict this premise. One of the most glaring is the continued use of children to fight and die in Iranian aggression abroad," Haley said.

The incoming government in Quebec, Canada wants to prohibit government employees from wearing religious symbols while at work.

The Coalition Avenir Quebec's platform specifically notes that the province's educators are included: "Religious signs will be prohibited for all persons in position of authority, including teachers."

*Reason* reports new leader François Legault claims the provision is merely to ensure neutrality. "[W]e want to make sure that a policeman or a policewoman doesn't show a religious sign in case the man or woman in front of him is from another religion," he said.

## Atheist Group Sues IRS for Exempting Churches From Requirement to File Annual Informational Form

By Heather Clark on October 15, 2018 · 8 Comments

**MADISON, Wisc.** — One of the nation's most conspicuous professing atheist groups has filed a lawsuit against the Internal Revenue Service (IRS) after its charity Nonbelief Relief lost its tax-exempt status for not filing form 990 for three consecutive years. The organization contends that the government wrongly shows preferential treatment to churches in automatically exempting them from the requirement, but punishing other non-profits by enforcing the mandate to file the annual informational form.

Pastor Russell Davis speaks to the Dawson County High School football team in Georgia in a video posted to Facebook on Sept. 7, 2018.

A Georgia pastor is no longer allowed to lead a public high school football team in prayer after a video of one of his prayers was seen by thousands online.

Dawson County Schools has responded to a complaint from one of the nation's largest atheist legal groups by barring Pastor Russell Davis from leading the Dawson County High School football team in prayer.

The decision comes as a [video](#) of Davis praying with the Falcons players and coaches was posted to Facebook on Sept. 7 and has been seen over 73,000 times as of Thursday afternoon. In the video, Davis prayed for the players to be able to "unite people together" and to know that God has purpose in their lives.

"The Word says when they came out they compelled Him to carry the cross, and then Jesus went to the hill and He won victory on the cross," Davis says in the video. "Your goal tonight is not to die on the cross. It is not to die on the field of battle. We're calling you out tonight to carry their cross."

The death of Jesus has been portrayed countless times in many famous movies, from "Ben Hur" and "The Gospel of John" to "The Passion of the Christ."

But now, a controversial ad is showing the Son of God agreeing to become an organ donor while He's being crucified.

The spot commences with two soldiers asking Jesus, who is nailed to the cross, if he thought about becoming an organ donor.

"Is this really the best time to bring this up?" Jesus answers.

One soldier responds: "We get it. No one wants to talk about death. But you know, not all of us are going to the eternal paradise, and your organs could save the lives of up to six people."

"Obviously I would do it. I am Jesus," says the Savior.

The proportion of BBC employees who are LGBT, 11 percent, is far greater than the general British population's estimated 2 percent.

But now the iconic news organization is launching a campaign to stamp out the last bit of "heteronormative culture," which regards traditional male-female sexuality as normal.

In its [LGBT Culture and Progression report](#), BBC Pride chiefs Karen Millington and Matt Weaver said the news organization has adopted 10 recommendations to help employees, or future employees, who are "genderqueer, bisexual, gay, lesbian, transgender, non-binary, pansexual, intersex, asexual, queer, questioning or an ally."

Its campaign will directly affect the BBC's news reporting.

One of the adopted recommendations is to "empower our content, news and radio teams to cover LGBT stories and portrayal, and routinely increase the incidental portrayal of LGBT identities."

That appears to mean that not only will LGBT issues be covered with more and better reports, "LGBT identities" will routinely be inserted into
