اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيق اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

Something's Happening to the Sun Right Now, Here's What It Means for Earth

11-13-2018 - Benjamin Gill

[f](#) [t](#) [e](#) [+17](#)

Scientists say Earth's atmosphere is about to get hit by some record cold – but it's not because of anything caused by humans. It's because of a lack of sunspots which means a major decrease in ultraviolet waves coming in our direction.

Dr. Tony Philipps of [SpaceWeatherArchive.com](#) says there have been practically no sunspots in 2018, and that's causing earth's upper atmosphere to cool down and even shrink. He cites some experts from NASA.

THE LEONID METEOR SHOWER: Earth is approaching a stream of debris from comet Tempel-Tuttle, source of the annual Leonid meteor shower. Forecasters expect the shower to peak on **Nov. 17th** and **18th** with as many as 15 meteors per hour visible in bright moonlight.

IAU Shower #8 - Orionids

[View more showers](#)

The Leonids are famous for storming. As often as a few times each century, Earth hits a dense filament of Tempel-Tuttle's dusty debris, causing thousands of meteors per hour to stream out of the constellation Leo. Such a display in 1833 kickstarted modern meteor astronomy with an outburst of 100,000 Leonids per hour. Many readers remember the [Leonid fireballs of 1998](#) and the [full-fledged storms](#) of 1999, 2001 and 2002.

2018 is not a storm year, however. Earth will thread the needle between dense filaments, scooping up a relative pittance of diffuse dust. Each speck will hit Earth's upper atmosphere at ~72 km/s (160,000 mph) producing a swift meteor emerging from a radiant in the constellation Leo. The best time to look is during the hours before dawn on Saturday, Nov. 17th, and Sunday, Nov. 18th, when the Lion is high in the eastern sky.

A SUNSPOT FROM THE NEXT SOLAR CYCLE: Over the weekend, a small sunspot materialized, then, hours later, vanished again. Such an occurrence is hardly unusual during solar minimum when sunspots are naturally small and short-lived. However, this ephemeral sunspot was noteworthy because its magnetic field was reversed. Here is a Nov. 17th magnetic map from NASA's Solar Dynamics Observatory with visible sunspots inset:

CHICO, California -- At least 71 people are now dead from a Northern California wildfire, and officials say they have a missing persons list with over 1,000 names on it in an ever-evolving accounting of the victims of the nation's deadliest wildfire in a century.

The list of the people who are unaccounted for is at 1,011, although officials say some of those numbers could be duplicates.

The high number of missing people probably includes some who fled

CHICO, Calif. (AP) — Northern California crews battling the country's deadliest wildfire in a century were bracing for strong winds, with gusts up to 50 miles per hour, creating the potential to erode gains they have made in containing a disaster that has killed at least 76 and leveled a town.

Even as hundreds of searchers sift through the rubble in the town of Paradise looking for the dead, nearly 1,300 people remain unaccounted for more than a week after the fire sparked in Butte County, Sheriff

Humanity is facing a long, cold winter which could see temperatures across the planet plunge to depressing lows.

That's the warning from a Nasa scientist who fears sunspot activity on the surface of our star has dropped so low that it could herald the arrival of a uniquely grim mini Ice Age.

'We see a cooling trend,' Martin Mlynchak of Nasa's Langley Research Center **told Space Weather**.

'High above Earth's surface, near the edge of space, our atmosphere is losing heat energy.'

GUATEMALA CITY (AFP) - Guatemalan authorities on Monday declared a red alert after the Fuego volcano erupted again, forcing about 200 residents to flee.

A fiery glow rose from the crater of Fuego which is erupting for the fifth time this year, one month after the last one and following a June 3 rain of rocks, ash and toxic gases that left almost 200 people dead and 235 missing.

A spokesman for Guatemala's disaster management agency CONRED, David de Leon, said 214 residents who live on the slopes of Fuego, mostly in the southern municipality of Escuintla, were moved to safe zones and more will follow.

He said about 2,000 people in total have been asked to leave the area of the 3,763-meter (12,246-foot) volcano, 35 kilometers (22 miles) from Guatemala City.

A MASSIVE underground volcano in southern Italy could be heading towards a catastrophic eruption would would have disastrous consequences for the city of Naples, and the 1.5 million people who live there, a new study has shown. A team led by Francesca Forni from the Institute of Geochemistry and Petrology in Switzerland has been studying 23 previous eruptions at the Campi Flegrei caldera, concluding the magma reservoir underneath the area, which they described as "one of the most hazardous regions on Earth" may be building up in advance of a massive explosion. Their research, published in the journal Science Advances involved detailed analysis of rocks, minerals and glass samples from each of the eruptions in an effort to detect changes in magmatic temperature and water content throughout the region's

Dead birds found at Bengaluru's Kasavanahalli Lake

A large number of Indian cormorants, a fish-eating bird, have been found dead on the Kasavanahalli Lake, sparking fears about increasing pollution level in the water body. Curiously, no fish deaths have been reported so far.

Ashutosh Sharma, an activist, who has planted nearly 6,000 plants near the lake in the last five years

said, "For the last one week, around 15-20 birds, including cormorants, ducks and migratory birds, must have died. When I took dead birds to a bird hospital on Bannerghatta Road, doctors suggested it could be due to pollution."

Activists said the inlet and outlet pipes of the lake were closed by BBMP to help builders who developed apartments on the periphery of the lake in clear violation of the laws that restrict any construction up to 75 metre near the lake.

"Since there are no inlet and outlet pipes, the water remains stagnant and has become polluted, leading to bird deaths. Kasavanahalli Lake is one of the most

Jennie-O recalls 91,000 pounds of raw turkey amid salmonella outbreak

[f Share](#) / [T Tweet](#) / [Reddit](#) / [F Flipboard](#) / [Email](#)

NEW YORK — Jennie-O Turkey is recalling more than 91,000 pounds of raw turkey in an ongoing **salmonella outbreak**. The recall is the first tied to an outbreak the U.S. Department of Agriculture says is widespread and likely affects a number of different producers in the industry. So far this year, the outbreak has resulted in one death and 164 reported illnesses in 35 states. About half of those sickened had to be hospitalized.

Regulators did not say how many of those people were exposed to products sold by Jennie-O, a subsidiary of food industry giant Hormel. They say additional products from other companies could be named as their investigation continues.

Professor's Research Targets Parasitic Infections

Nov 17, 2018

Professor Jennifer Shepherd with a student. Courtesy of Gonzaga University

Professor Jennifer Shepherd, chair of the chemistry and biochemistry department at Gonzaga University, has been researching since 1998 to find new ways to treat parasitic infections, a Third World epidemic. The effort is a marathon, not a sprint. Shepherd's work is a profile in persistence, dedication and tenacity as each hard-won breakthrough brings her a step closer to better, more effective treatments.

North Korea tests new 'ultramodern tactical weapon': KCNA

by Staff Writers
Seoul (AFP) Nov 16, 2018

North Korean leader Kim Jong Un has overseen the testing of a "newly developed ultramodern tactical weapon", Pyongyang's state media reported Friday, in a move that will raise the temperature over denuclearisation talks.

It marked the first official report of a weapons test by North Korea since it began a delicate diplomatic process with Washington over its nuclear and missile programme.

"Kim Jong Un... visited the test ground of the Academy of Defence Science and supervised a newly developed ultramodern tactical weapon test," said the official Korean Central News Agency.

It said the test was successful but did not specify the type of device involved.

Pyongyang's suspension of testing for nuclear weapons and ballistic missiles has been key to this year's rapid diplomatic developments and North Korean-US negotiations, and has been repeatedly praised by President Donald Trump.

US says 'confident' N. Korea's Kim will fulfill commitments

Washington (AFP) Nov 16, 2018 - The United States remains confident that denuclearization "promises" made during a historic summit between Donald Trump and North Korea's Kim Jong Un will be fulfilled, a State Department spokesperson said Thursday.

The comments came after state media in Pyongyang said Kim had supervised the testing of a "high-tech" new weapon that Yonhap news agency called successful.

Prime Minister Binyamin Netanyahu defended his government's handling of the recent conflict with Hamas, and the decision to accept an Egyptian-brokered ceasefire with the terror group following two days of rocket attacks on southern Israel.

Speaking at an event in honor of Israel's first premier, David Ben Gurion, Netanyahu said the government must sometimes make "fateful decisions" regarding Israel's security, even when they go against public opinion.

"At critical moments, Ben Gurion made fateful decisions – sometimes against what the majority of the public wanted. But in the long-run, those decisions turned out to be correct."

Hamas' recent rocket barrage foiled Israeli dreams for normalized ties with Arab states, the adviser to the Iranian Speaker of Parliament said on Saturday, according to *i24news*.

"This [Hamas missile strikes] shows that normalization of Arab-Israeli relations, declarations of Quds [Jerusalem] as the Israeli capital and the [US-led] 'Deal of the Century' are dreams that will not come true and the Zionist regime will not attain them," Hossein Amir-Abdollahian said.

US President Donald Trump's plan for Mideast peace "only seems practical on paper," Abdollahian argued.

Amor Ftouhi

A native of Tunisia who was living in Canada was convicted Tuesday of an act of terrorism for the stabbing of a police officer at the international airport in Flint, Michigan.

Amor Ftouhi, who faces a maximum of life in prison, was convicted by a jury after only an hour of deliberation, WXYZ-TV reported.

He allegedly entered Bishop International Airport on June 20, 2017, walked up to Lt. Jeff Neville and stabbed him with a knife while yelling "Allahu Akhbar."

Often mistranslated "God is great," the phrase is Arabic for "Allah is the greatest," or "Allah is supreme" over all other gods.

Vladimir Putin spoke with students about science in an open lesson on September 1, the start of the school year in Russia. He told them that "the future belongs to artificial intelligence," and whoever masters it first will rule the world.

"Artificial intelligence is the future, not only for Russia, but for all humankind. It comes with colossal opportunities, but also threats that are difficult to predict. Whoever becomes the leader in this sphere will become the ruler of the world," Russian President Vladimir Putin said.

However, the president said he would not like to see anyone "monopolize" the field.

During the 45-minute open lesson (the standard academic hour in Russia), Putin also discussed space, medicine, and the capabilities of the human brain, pointing out the importance of cognitive science.

"The movement of the eyes can be used to operate various systems, and also there are possibilities to analyze human behavior in extreme situations, including in space," Putin said, adding that he believes these studies provide unlimited opportunities.

The open lesson was attended by students and teachers from 16,000 schools, Rossiyskaya Gazeta reports. The total audience exceeded one million.

China's broad definition of 'illegal' content includes works that 'endanger national unity', 'leak state secrets' and 'disturb social order'

China is raising the cash rewards paid to citizens for reporting pornographic and "illegal" publications to authorities, government regulators said Friday.

Starting December 1, people can rake in up to 600,000 yuan (\$86,000) for reporting illegal content, online or otherwise, double the 300,000 yuan under previous guidelines.

What counts as "illegal" content in China is broadly defined, but includes work that "endangers national unity", "leaks state secrets", and "disturbs social order" – umbrella terms that are also sometimes used when authorities punish or silence Chinese dissidents and rights campaigners.

Pence: US won't back down on China tariffs, even if it means a cold war

by Robert Donachie | November 13, 2018 04:44 PM

Vice President Mike Pence said that President Trump's administration won't back down from its ongoing trade dispute with China, claiming that if it takes a cold war to get a new deal done, "then so be it."

"We really believe we are in a strong position either way. We are at \$250 billion [in tariffs] now; we can more than double that," Pence said Tuesday. "I don't think it's a matter of promises. We're looking for results. We're looking for a change of posture."

The Trump administration has slowly levied tariffs on Chinese imports to squeeze out demands from the Chinese government in

A Catholic bishop who refused the Chinese communist government's demand that he join the state-controlled church has been seized by authorities.

The government's move comes amid charges by supporters of the underground church that the Vatican is caving to Beijing.

Bishop Peter Shao Zhumin was arrested the morning of Nov. 9 by police who are keeping him for what authorities call a "vacation period," reports the Daily Caller, citing the Catholic News Service.

Although Zhumin was appointed by the Vatican, the Chinese government does not recognize him because he refused to join the state church under the control of the Chinese Communist Party, the Patriotic Association.

His "vacation" will consist of "10 or 15 day" of interrogation and indoctrination in which authorities will try to force him to become independent of Rome.

AsiaNews said authorities have attempted to indoctrinate him at least five times in the past two years.

Number of Witches in U.S. on the Rise, May Surpass 1.5 Million

By Michael W. Chapman | November 16, 2018 | 5:59 PM EST

A report in the *Christian Post* contends that the number of witches (and Wiccans) has dramatically increased since the 1990s, to the degree that there may be at least 1.5 million witches in the United States, which is higher than the 1.4 million mainline Presbyterians.

"[T]he practice of witchcraft has grown significantly in recent decades; those who identify as witches has risen concurrently with the rise of the 'witch aesthetic,'" reported the *Christian Post* in October, citing data from Quartz, a Trinity College study, and the Pew Research Center.

Between 1990 and 2008, the number of Wiccans in the United States grew from 8,000 to 340,000, according to three religious surveys conducted by Trinity College in Connecticut. In addition, the Pew Research Center reported in 2014 that 0.4% of the

With Jeff Rohrer, you have to expect the unexpected.

When the 6-foot-3, 235-pound former **Dallas Cowboys** linebacker approached our table in the corner of a dimly lit Beverly Hills restaurant a couple of weeks ago, he was dressed like a stereotypical straight guy, clothes on the baggy side, carrying an

Check Male, Female or Non-Binary? DC Schools to Give Families Third Option for Child Gender

11-13-2018 - Steve Warren

In the latest effort to push forward an LGBTQ agenda in education, the Washington, DC school district will become the first school district in the nation to let families select "non-binary" – rather than male or female – when indicating the gender of their child on enrollment forms.

The policy is set to go into effect for the 2019 school year, according to

Pop singer Céline Dion is launching a new line of children's clothing, and she announced the partnership with Nununu with a creepy, Orwellian advertisement.

فلهذا اطلب أن نصلي ونستعد ونعد زيت لمصاييحنا لاستقبال العريس بالصلاة والصوم وخدمة
أبناء الله وتنقية القلب والاستعداد بلبس العرس.

رسالة بولس الرسول الي أهل رومية 13

13: 11 هذا وأنكم عارفون الوقت انها الان ساعة لنستيقظ من النوم فان خلاصنا الان أقرب مما

كان حين امنا

13: 12 قد تناهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلباقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيرا للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

بطرس الأولى 3: 14

وَلَكِنْ وَإِنْ تَأَلَّمْتُمْ مِنْ أَجْلِ الْبِرِّ، فَطُوبَاكُمْ. وَأَمَّا خَوْفُهُمْ فَلَا تَخَافُوهُ وَلَا تَضْطَرُّوْا،

بل نؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَاَنْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.

وأیضا استعدوا فقد تسلموا وديعتكم في أي وقت فهناك 150 ألف شخص يموتوا في اليوم الواحد

انت لا تعرف متى ستكون منهم

المسيح اقترب فاصنعوا ثمار تليق بالتوبة واستعدوا لاستقبال العريس.

والمجد لله دائما
