اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيق اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعه سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

Upcoming Blood Moon in January could mark beginning of apocalypse, claims Christian pastor

■ Popular Christian pastor Paul Begley has outlandishly claimed that the blood moon in January could mark the beginning of an apocalypse

By : Nirmal Narayanan Dec 15, 2018 13:48 IST

NASA/ Lynette Cook

Paul Begley, a popular Christian pastor has claimed the upcoming blood moon which will happen in January 2019 could mark the beginning of an apocalypse. As per Paul Begley, the January 21 blood moon that will coincide with the Supermoon is an indication that the end time is nigh.

THE MYSTERY OF ULTIMA THULE: When NASA's New Horizons spacecraft flew past Pluto three years ago, mission scientists watching the first close-up images were shocked. Despite being stuck in the deep freeze of the Solar System 6 billion km from the sun, Pluto was not the frozen-stiff world many expected it to be. The geography of the dethroned 9th planet was alive with [mountain ranges](#), [windswept dunes](#), [bladed terrain](#) and much more. In one quick flyby, New Horizons turned planetary science on its head.

Get ready to be shocked again. New Horizons is less than 2 weeks away from a new world even more mysterious than Pluto.

Above: A speculative artist's concept of Ultima Thule with a small moon

Its name is "[Ultima Thule](#)" (2014 MU69), which means means "beyond the borders of the known world." Indeed, the little space rock is profoundly unknown. Located almost a billion kilometers farther from the sun than Pluto, Ultima Thule has never been much more than a faint speck of light in telescopes. It inhabits the distant Kuiper Belt where, seemingly, almost anything is possible.

"Really, we have no idea what to expect," says New Horizons principal investigator Alan Stern, of the Southwest Research Institute. "Will it have an atmosphere? Will it have rings? Will it have moons? Any of that could be possible, and soon we'll know the answers."

ULTIMA THULE'S FIRST PUZZLE: NASA's New Horizons spacecraft is 12 million km from [Ultima Thule](#) and closing fast. On New Year's Day, it will fly by the mysterious Kuiper Belt Object three times closer than it buzzed Pluto in 2015 revealing ... no one knows what. In fact, the mysteries have already begun.

Long range images of Ultima Thule reveal that it has no light curve. In other words, its brightness is constant.

Above: An artist's concept of Ultima Thule, a double-lobed object in the Kuiper Belt

"It's really a puzzle," says New Horizons Principal Investigator Alan Stern of the Southwest Research Institute. And here's why:

Last year, [astronomers watched](#) a distant star pass behind Ultima Thule. Starlight winked in and out in [a pattern](#) suggesting an elongated object with two bulbous lobes. Ultima Thule could be a binary system. You would expect the reflected brightness of such an object to vary as it rotates in the sunlight. Yet

SOMETHING NEW! We have developed a new predictive model of aviation radiation. It's called **E-RAD**—short for Empirical RADiation model. We are constantly flying radiation sensors onboard airplanes over the US and around the world, so far collecting more than 22,000 gps-tagged radiation measurements. Using this unique dataset, we can predict the dosage on any flight over the USA with an error no worse than 15%.

E-RAD lets us do something new: Every day we monitor approximately 1400 flights criss-crossing the 10 busiest routes in the continental USA. Typically, this includes more than 80,000 passengers per day. E-RAD calculates the radiation exposure for every single flight.

Mystery over dead fish

2018-11-29 16:13

The Witness

An intensive investigation is under way to determine the reason for scores of dead fish being found floating in the Msunduzi River on Wednesday.

Msunduzi Municipality, the Duzi-uMngeni Conservation Trust (Duct) and Umgeni Water are scrambling to find the cause of the mass deaths.

The dead fish were seen floating in the Duzi, and washed up on rocks in the river in a popular hiking area in Ashburton on Wednesday morning by a local resident who asked not to be named.

She told *The Witness* she was on her morning walk when she came across the fish floating belly up in murky water.

Another resident, who also regularly walks in the area, said she had not seen any dead fish on Sunday.

The issue was reported to Duct, who in turn reported it to the Msunduzi Municipality.

The Witness met Duct pollution control officer Sanele Vilakazi near the site on Wednesday morning, and walked down to the area where the dead fish had been spotted.

When *The Witness* arrived at the scene on Wednesday dead fish were clearly visible along the banks of the river in a bushy area as well as further downstream on rocks below a ledge where the water flowed strongly.

The stench of rotting fish was almost overpowering.

There were too many dead fish to count.

Up to 319 people dead as Congo Ebola outbreak worsens

By Bethlehem Feleke and Susan Scutti, CNN

Updated 5:24 AM EST, Wed December 19, 2018

(CNN) — One of the deadliest Ebola outbreaks in history continues to worsen in the Democratic Republic of Congo with as many as 319 people now dead.

The Ministry of Health said Tuesday that 542 Ebola cases had been recorded in the province of North Kivu -- 494 of which have been confirmed. Of the 319 believed to have died from the virus so far, 271 have been confirmed.

On average, Ebola -- which causes fever, severe headache and in some cases hemorrhaging -- kills about half of those infected, but fatality rates in individual outbreaks have varied.

Putin lays out plans to develop missiles if US leaves treaty

By Anna SMOLCHENKO
Moscow (AFP) Dec 18, 2018

Russian President Vladimir Putin on Tuesday laid out plans for Moscow to develop mid-range missiles banned under a Cold War treaty with the United States if Washington abandons the deal.

Tensions have raged over the fate of the Intermediate-Range Nuclear Forces treaty (INF), with US President Donald Trump promising to walk away from the agreement and Putin threatening a new arms race.

Washington this month said it would withdraw from the INF within 60 days if Russia did not dismantle missiles that the US claims breach the deal.

The bilateral agreement forbids ground-launched short- and intermediate-range missiles, but not those launched from the air or sea.

Speaking at a defence ministry meeting, Putin said Russia's seaborne Kalibr and air-launched Kh-101 cruise missiles – as well as cutting-edge hypersonic Kinzhal (Dagger) missiles – would be converted for ground launch if Washington ditches the INF treaty.

"It probably won't be very difficult to conduct appropriate research and development and put them on the ground if need be," he said.

Putin says open to third nations joining nuclear treaty

Moscow (AFP) Dec 18, 2018 - Russian President Vladimir Putin suggested Tuesday he was open to the idea of other countries joining a key Cold War treaty limiting mid-range nuclear arms or to starting talks on a new agreement.

The president spoke after Washington this month said it would withdraw from the Intermediate-Range Nuclear Forces treaty (INF) within 60 days if Russia did not dismantle missiles that the US claims breach the deal.

At a defence ministry meeting, Putin repeated accusations that Washington had itself violated the bilateral treaty and suggested other countries join the US-Russia agreement in a bid to salvage it.

Russia says will build up Arctic military presence

by Staff Writers
Moscow (AFP) Dec 18, 2018

Russia will build up its military presence in the Arctic over the next year, the defence minister said Tuesday, as Moscow seeks to assert its influence in the strategic region.

The announcement comes after years of increased activity in the Arctic, which Moscow has declared a top priority due to its mineral riches and military importance.

"We'll finish building infrastructure in 2019 to accommodate air defence radar units and aviation guidance points on the Sredny and Wrangel Islands, and on Cape Schmidt" in the Russian Arctic, Defence Minister Sergei Shoigu said.

He said accommodation for military personnel and further aviation infrastructure had been completed elsewhere in the Arctic, at a defence ministry meeting also attended by President Vladimir Putin.

Russia has opened a string of military and scientific bases in the Arctic in recent years, with interest in the region growing as rising temperatures open up shipping routes and make hitherto inaccessible mineral resources easier to exploit.

Putin has made several trips to the Arctic and last year said further exploration and extraction of raw materials from the area was "extremely important".

NATO this year held its biggest military exercises since the end of the Cold War near Russia's Arctic border with Norway. Finland accused Moscow of jamming GPS signals in the region during the manoeuvres.

China said Wednesday it opposed the "weaponisation" of space as it criticised US President Donald Trump's orders to create a new command centre for controlling military space operations.

"China has consistently proposed the peaceful usage of space, and opposes the weaponisation of space and a space arms race," said Chinese foreign ministry spokeswoman Hua Chunying at a press briefing.

"We oppose even further turning space into the new battleground," she added.

On Tuesday, Trump ordered the creation of "Space Command", a new organisational structure within the Pentagon that will have overall control of military space operations.

Report: Turkish forces deployed on northern Syrian border

Erdogan announced military efforts to remove ISIS and YPG forces from Syria; Erdogan spoke with Trump over the weekend, delays offensive due to US withdrawal from Syria; Netanyahu responds to Erdogan's anti-Semitism; ISIS gaining control in Hajin region.

Turkey reportedly deployed forces to its border with northern Syria near an area controlled by Kurdish forces on Saturday, days after its president announced military efforts to remove remaining ISIS and YPG factions from the region.

Arab reports claim tanks and soldiers were deployed on Saturday evening following confirmation from President Recep Tayyip Erdogan that Turkey would delay an offensive on YPG forces as the United States withdraws from Syria.

President Trump announced last week that the United States will withdraw its over 2,000 soldiers from Syria, the President reporting his Administration's plans to also withdraw half of US troops from Afghanistan. Defense Secretary Jim Mattis resigned on Thursday citing his disapproval of the withdrawal from Syria.

Erdogan reportedly spoke with Trump centered on Syria over the weekend and assured him that Turkey would finish destroying remaining ISIS factions in Syria. Details of their call were not released to the public, but a White House official claimed Erdogan gave Trump his word.

Stocks ended sharply lower Monday in a holiday-truncated session, putting key equity benchmarks on track to log their worst month and a year in a decade. The S&P 500 **SPX, -2.71%** slipped 2.7% to end near 2,352, based on preliminary numbers. The Dow Jones Industrial Average **DJIA, -2.91%** shed 644 points, or 2.9%, to end near 21,794. The Nasdaq Composite **COMP, -2.21%** was down 2.2% to finish around 6,193. The Dow recorded its fifth session with a 2% decline in December, its most in a month since Sep. 2011. Equities saw no respite after developments from Washington put concerns of political instability back on investors' agendas. In an attempt to ease investors' fears, Treasury Secretary Steven Mnuchin called CEOs of the nation's biggest banks over market liquidity. But his efforts may have amplified the market selloff. Investors also highlighted reports President Donald Trump had discussed the possibility of firing Federal Reserve Chairman Jerome Powell. Mnuchin, however, said Trump denied having made such remarks.

Authorities have arrested a Christian pastor for showing a film titled "Jesus Christ," charging him with attempting "forced conversions" in India.

The minister, identified only as Pastor Sojan, was arrested and detained by police Dec. 9 in Bakhtiyarpur village in the Patna district of India's Bihar state, [reported Asia News](#).

Sajan George, president of the Global Council of Indian Christians, told Asia News the pastor "was just showing a movie."

"Minorities are even more vulnerable and intimidated by the majority and its false accusations," he said.

Asia News said the villagers accused the pastor of attempted force conversions and had police arrest him.

Police then took the pastor back to his home village of Barh and ordered him not to return to Bakhtiyarpur.

It was 40 years ago this week that China opened its doors to the world and launched a series of ambitious reforms that would create one of the world's largest economic engines.

"China is now the world's second largest economy, the biggest manufacturer, top trader of goods, and the second largest consumer of goods and recipient of foreign investment," Chinese President Xi Jinping said during a speech in Beijing celebrating the 40th anniversary of the landmark reforms.

OPP, Ala. — One of the nation's most conspicuous atheist groups, which says that it works to maintain the separation of Church and State, has lodged a complaint after a police department in Alabama posted a status this week noting that there have been five local murders this year—all committed by youth—and remarking that such evil is occurring because men have "turned away from God."

According to reports, the Opp Police Department posted a notice to Facebook on Tuesday advising that a young man had been killed on Sunday, and a mother also died after being shot on Monday night. It noted that there

How it could be **ILLEGAL** to say 'he' or 'she': Failing to use transgender terms could land Australians in court under proposed laws

- Transgender reforms put forward by Tasmania's Labor opposition and Greens
- May include a provision forcing people to name others by preferred pronoun
- Bill passed lower house and must now pass the state's 15-member upper house
- Dr Greg Walsh from University of Notre Dame said reforms largely 'admirable'
- But he slammed dictating how people use pronouns 'completely unacceptable'
