اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

Galahs and other birds 'falling out of the sky' as Biosecurity SA tests for toxins

ABC Radio Adelaide By [Malcolm Sutton](#)

Updated 19 Dec 2018, 10:20pm

A large number of dead galahs have shown signs of possible poisoning after "literally falling out of the sky" in South Australia's Lower Lakes region.

Milang local and wildlife carer Sarah Hope said she first noticed a dead pink and grey galah in her backyard on November 27.

She told [ABC Radio Adelaide](#) that large numbers started turning up dead in the town and adjacent to Lake Alexandrina after clearly suffering a "horrific" end.

"A lot of people in the area, including those who come here for holidays, are distraught by seeing these animals literally falling out of the sky," Ms Hope said.

"It's absolutely horrific. They go down so fast and you can see how their claws are balled up because they can't hold onto the branch any more and fall out of the trees.

"They're literally face down on the ground."

Ms Hope sent two of the dead birds to Biosecurity SA which delivered a pathological report indicating a "significant congestion of organs, which commonly occurs with poisons/toxicity".

Dead fish found floating on surface of Bengaluru's Seegehalli lake in large numbers

| Mirror Now

Updated Dec 30, 2018 | 19:50 IST | Mirror Now Digital

Thousands of dead fish were found floating on the surface of Seegehalli lake in Bengaluru, less than three months after a similar sight was reported from the city's Madiwala lake.

Bengaluru: For the second time in less than three months, water bodies in Bengaluru can be seen bearing the brunt of the city's growing population. Locals residing near the Seegehalli lake woke up on Saturday morning to the sight of thousands of dead fishes floating on the banks of the lake. A similar instance was reported at the city's Madiwala lake earlier this year.

Speaking to Bangalore Mirror, Balaji Ragotham who is one of the lake's guardians said that water samples have been sent to a laboratory in order to determine what might have led to the deaths of the fishes. "I was taken by surprise as we make all efforts to keep our lake and surroundings clean", he added.

Congo's Ebola outbreak exceeds 600 cases, WHO says

DPA | JAN 04, 2019 | 11:15 AM

VIENNA There are now more than 600 confirmed or probable cases of Ebola in Congo, the World Health Organization (WHO) said on Friday.

The majority of new cases occurred in cities and urban areas in eastern North Kivu province, where an Ebola outbreak was declared in August.

Numerous militia groups are fighting for control over the country's rich natural resources in the province, hampering efforts to combat the epidemic in the impoverished nation.

Mass protests that erupted in recent days over a delay in Congo's presidential elections have also frustrated the work of aid officials.

A hospital was attacked in city of Beni, for example, which resulted in fewer Ebola vaccines being handed out, the WHO said, adding that a further deterioration in security would undermine the fight against the life-threatening hemorrhagic fever.

According to the latest figures, 560 cases of Ebola have been confirmed and 48 other cases are considered likely. This Ebola outbreak is the second-worst ever recorded, the WHO said.

WW3: 'Miscalculation' may catapult West and Russia into catastrophic conflict, says expert

'Miscalculations' between Mr Putin's Russia and the West may prove disastrous, said Mr Pantucci (Image: GETTY)

THE West is at risk of tumbling into a dangerous confrontation with Russia – not because of Vladimir Putin's recent boasts about hypersonic missiles and other high-tech weaponry, but rather as a result of a dangerous "miscalculation" which each side makes about the other's intentions.

Raffaello Pantucci, director of international security studies at the Royal United Services Institute, made his remarks days after Mr Putin claimed tests on new **hypersonic weapons** which would dramatically cut the time needed to launch attacks on long-distance targets had been a "complete success". During a visit to Russia's National Defence Management Centre, he added: "It's a big moment in the life of the armed forces and in the life of the country. Russia has obtained a new type of strategic weapon."

Kalibr missile firing

Russia is deploying long-range, precision cruise missiles to the western Atlantic that American defense officials say will allow Moscow to target Washington and other East Coast cities with conventional or nuclear attacks.

Moscow is adding Kalibr land attack cruise missiles to both warships and missile submarines that Moscow plans to use in Atlantic patrols near the United States, sorties that were once routine during the Cold War.

The new sea-based Kalibr deployments are expected in the coming months, according to officials familiar with intelligence reports of the Russian maritime operations.

The land-attack version of the Kalibr, known as the SS-N-30A by NATO, is a relatively new weapon and was showcased for the first

time by Moscow in attacks on Syria that began in 2015

Russia has stated that over 100 Kalibr missile strikes were carried out against Islamic terrorists and other anti-Syrian government rebels.

The Office of Naval Intelligence in 2015 said the Kalibr is deployed on Russia's new Sverodvinsk-class nuclear attack submarine as well as older submarines and surface warships. A total of 32 Kalibrs can be launched from missile tubes on the new submarine.

China tests its own 'Mother of All Bombs'

by Staff Writers
Beijing (AFP) Jan 4, 2019

China has tested its most powerful non-nuclear weapon, dubbed the "Mother of All Bombs" by official media in a reference to a US munition used in Afghanistan.

In a short video published on the website of state arms manufacturer Norinco, the massive bomb drops on to a plain and produces a gigantic ball of fire and black smoke.

On social networks Wednesday, the official Xinhua news agency described the bomb for the first time, calling it the "Chinese version of the 'Mother of all Bombs'".

The bomb -- whose strength is only second to that of a nuclear weapon, according to the agency -- was dropped by a Chinese H-6K bomber.

No details on the date, location or range of the bomb blast were provided.

In 2017 the US dropped the most powerful conventional bomb in its arsenal, dubbed the "MOAB" -- the "Mother of All Bombs" -- in an attempt to destroy a tunnel network being used by the Islamic State (IS) group in the east of Afghanistan.

US president Donald Trump said at the time he was "proud" of his troops and congratulated them on their success.

The Chinese bomb is five to six metres long (16 to 20 feet), but weighs less than the American version, according to military analyst Wei Dongxu, who was quoted by the semi-official Global Times daily on Friday.

"The massive explosion that was generated would easily wipe out land fortifications," said Wei.

China will not give up use of military force over Taiwan: Xi

by Staff Writers
Beijing (AFP) Jan 2, 2019

China will not give up the use of military force as an option to ensure the reunification of Taiwan, President Xi Jinping said Wednesday, while insisting the island would ultimately be reunified with the mainland.

Beijing "reserves the option of taking all necessary measures" against outside forces that interfere with peaceful reunification and Taiwan independence separatist activities, he said.

In a speech commemorating the 40th anniversary of a message sent to Taiwan in 1979, in which Beijing called for unification and an end to military confrontation, Xi described unification under a "one country, two systems" approach that would "safeguard the interests and well-being of Taiwanese compatriots".

China still sees Taiwan as part of its territory to be reunified, despite the two sides being ruled separately since the end of a civil war on the mainland in 1949.

Taiwan considers itself a sovereign state, with its own currency, political and judicial systems, but has never declared formal independence from the mainland.

SPACE WAR

In space, the US sees a rival in China

By Ivan Couronne
Washington (AFP) Jan 6, 2019

During the Cold War, US eyes were riveted on the Soviet Union's rockets and satellites. But in recent years, it has been China's space programs that have most worried US strategists.

China, whose space effort is run by the People's Liberation Army, today launches more rockets into space than any other country -- 39 last year, compared to 31 by the United States, 20 by Russia and eight by Europe.

On Thursday it landed a space rover on the dark side of the Moon -- a first by any country -- and plans to build an orbiting space station in the coming decade. In the decade after that, it hopes to put a Chinese "taikonaut" on the Moon to make the first moonwalk since 1972.

China now spends more on its civil and military space programs than do Russia and Japan. Although opaque, its 2017 budget was estimated at \$8.4 billion by the Organization for Economic Cooperation and Development.

That's far less than the \$48 billion the United States spends on its military and civilian space programs, says analyst Phil Smith of consulting firm Bryce Space and Technology. But it is more than double Russia's civilian space budget, which has been slashed to \$3 billion.

Overcoming a lag of several decades, China's leaders have very methodically replicated the stages of space development achieved by other great nations: a first satellite in 1970, its first manned space mission in 2003, the first docking of a manned spacecraft to an orbiting module in 2012, and activation of the BeiDou satellite navigation system, China's answer to GPS.

"If they continue on this trajectory, they're going to quickly eclipse Russia in terms of their space technology capabilities," said Todd Harrison, an expert on military space programs at the Center for Strategic and International Studies in Washington.

Eyeing China, US to hold missile drill in Japan's Okinawa: report

by Staff Writers
Tokyo (AFP) Jan 3, 2019

The US military will this year conduct its first ever missile drill around the Japanese island of Okinawa, according to a report Thursday, as Washington seeks to counter an increasingly assertive China.

The US military has told its Japanese counterpart it plans to deploy surface-to-ship missiles in the strategically important Okinawa this year for the first such drill by Japan's key ally, the Sankei Shimbun reported, without citing sources.

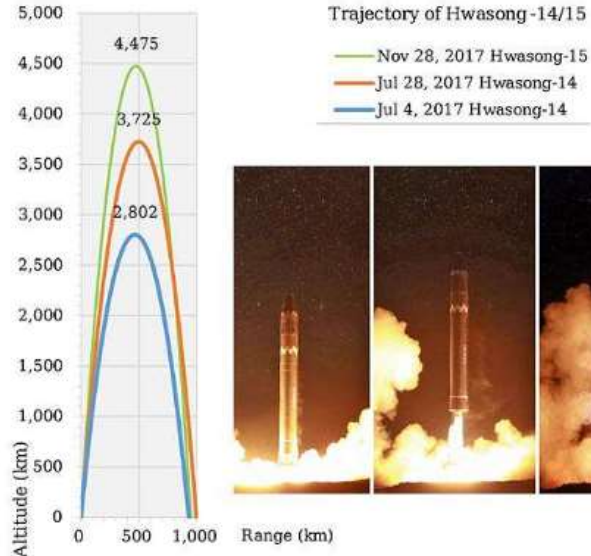

The drill would involve a mobile rocket launcher seen as a counter-measure to potential attacks from Chinese surface-to-sea ballistic missiles, the paper said.

In recent years, Chinese warships have frequently sailed through waters near Okinawa, where the majority of US troops in Japan are based.

Experts say China's increasingly active maritime activities are part of a plan to establish control of waters within the so-called "first island chain" that links Okinawa, Taiwan and the Philippines.

Some analysts believe Beijing seeks to end US military dominance in the western Pacific by exerting control of the second island chain that links Japan's southern Ogasawara island chain, the US territory of Guam, and Indonesia.

China's rapid military build-up has unnerved Asian neighbours, with Japan's defence chief last year saying China had been "unilaterally escalating" its military activities in the previous year.

The signs clearly say, as so many rabbis and experts have confirmed, that we are living in prophetic times preceding the messiah.

2018 saw a host of "End of Days" events and [predictions](#) actualized. In January, snow fell on the Sahara – the world's hottest desert – paralleling prophecies of Isaiah. In May, President Trump moved the US embassy to Jerusalem, many likening the American leader to Cyrus, the Persian King who ended the Babylonian exile and paved the way for the Second Temple in Jerusalem. In September, an entirely red female calf was born (which later died, though there are two more candidates that will be checked in the coming week), the prophesied tenth and final of its kind before the messiah, enabling Israel to become ritually pure and reinstate the Temple Service. In November, nations gathered in Israel for an interfaith conference about the Temple Mount. Throughout the year, Jerusalem saw a spike in inbound-tourism, breaking all-time records of tourists, many Christian. We call it tourism, but prophets talked about it as Biblical prophecy.

SOMETIMES, THE simplest of gestures carries weight. In 2015 Abdel-Fattah al-Sisi became the first president of Egypt to attend a Christmas mass. He has done so each year since, and will probably do so again on January 7th, the date on which Egypt's Coptic Christians celebrate the birth of Jesus. The long-

Atheists Demand Cross Removed Based on Fake 'Wall of Separation'

9:00AM EST 1/8/2019 | EDDIE HYATT

(Photo by Aaron Burden on Unsplash)

An atheist group, the American Humanist Association, filed a lawsuit to have the Peace Cross in Bladensburg, Maryland, removed because, they claim, it violates the Constitution. This 40-foot cross, which was erected in 1925 to honor WWI soldiers, has never posed a problem until now—a reflection of the anti-Christian bias that has emerged in our culture.

A Maryland judge agreed with the atheists, saying in her ruling that the presence of the cross, maintained by tax money, "breaches the 'wall of separation between Church and State.'" The suit has worked its way through the lower courts and is now headed for the Supreme Court.

A newborn calf with just one eye is being worshipped as a god in eastern India.

The little cow, whose appearance is due to a birth defect, was born in the Bardhaman district of West Bengal.

In video footage shared online, the one-eyed calf, which also does not have a muzzle, can be seen sticking out its tongue and gasping for breath.

New York City Parents Can Now Give Their Newborn Gender 'X'

3:00PM EST 1/2/2019 | TRE GOINS-PHILLIPS/FAITHWIRE

New York City Mayor Bill de Blasio (REUTERS/Andrew Kelly)

New York City residents will now be offered three options for describing their sexuality on their birth certificates: male, female and "X."

The law, which was [approved in October](#) by New York City Mayor Bill de Blasio (D), went into effect Tuesday, giving residents the opportunity to change the sex descriptors on their birth certificates to "X" if it reflects their "true gender identity." Parents can likewise give newborns the same identifier.

New York City joins California, Oregon and Washington state by allowing a third, undesignated option on birth certificates, according to [The Associated Press](#). New Jersey is enacting a similar policy in February. 🔥

فلهذا اطلب أن نصلي ونستعد ونعد زيت لمصاييحنا لاستقبال العريس بالصلاة والصوم وخدمة
أبناء الله وتنقية القلب والاستعداد بلبس العرس.

رسالة بولس الرسول الي أهل رومية 13

13: 11 هذا وأنكم عارفون الوقت انها الان ساعة لنستيقظ من النوم فان خلاصنا الان أقرب مما

كان حين امنا

13: 12 قد تناهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلباقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيرا للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

بطرس الأولى 3: 14

وَلَكِنْ وَإِنْ تَأَلَّمْتُمْ مِنْ أَجْلِ الْبِرِّ، فَطُوبَاكُمْ. وَأَمَّا خَوْفُهُمْ فَلَا تَخَافُوهُ وَلَا تَضْطَرُّوْا،

بل نؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْتَضِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.».

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.

وأیضا استعدوا فقد تسلموا وديعتكم في أي وقت فهناك 150 ألف شخص يموتوا في اليوم الواحد

انت لا تعرف متى ستكون منهم

المسيح اقترب فاصنعوا ثمار تليق بالتوبة واستعدوا لاستقبال العريس.

والمجد لله دائما
