## والعلامات حتى 22 يناير 2019

Holy\_bible\_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيق اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

#### EARTH'S SHIFTING MAGNETIC POLES ARE CONFUSING YOUR PHONE:

Pick up your cell phone and look at it. That rectangular marvel of modern technology contains thousands of lines of code. Among them is the [World Magnetic Model](#) (WMM)—a program that helps your phone navigate. And it's in a bit of trouble. Researchers have announced that the WMM needs an emergency update because Earth's magnetic field is changing.

### Magnetic Motion

Earth's north magnetic pole is racing away from Canada toward Siberia. The green line traces the pole's surprising and accelerating motion in recent decades.

Savvy backcountry hikers have long known that compass needles don't really point north. The magnetic north pole is displaced hundreds of miles from the true north pole and, to make matters worse, it wanders unpredictably from year to year. To find true north in the continental USA, you have to correct compass directions by as much as 20 degrees using a special "declination table."

The World Magnetic Model is a computer program that makes this correction for you. It improves the navigation of devices ranging from nuclear submarines to common smartphones.

The ominously-named Apophis asteroid could have hundreds of opportunities to hit the Earth over the course of the next century, Russian scientists have warned.

Named after the Ancient Egyptian god of evil, darkness and destruction, Apophis 99942 is expected to come within 37,600km (23,363 miles) of the Earth, just a tenth of the distance between our planet and the moon, in 2029.

Researchers from the Department of Celestial Mechanics at St. Petersburg State University have [warned](#) that the 370-meter-wide near-Earth orbit space rock could smash into the

Back-to-back snowstorms are set to wallop the Big Apple on Thursday and Saturday evenings — and the icing on top will be Sunday's wind chills of as low as minus-20 degrees.

One to 3 inches of snow will blanket the city overnight Thursday, making for a slippery Friday morning commute, meteorologists warned.

An earthquake was detected in the waters offshore of Ocean City on Tuesday night.

The United States Geological Survey reported the earthquake, which had a magnitude of 4.7. The earthquake occurred approximately 136 miles east-southeast off the coast of Maryland at about 6:30 p.m.

Despite the far distance from shore, it is possible an earthquake of this magnitude could be felt on land. USGS showed about 160 people — most in Maryland, Delaware and Virginia — reported feeling effects from the earthquake as of 7:30 a.m. on

Lapseki ilçesi Çardak beldesindeki Kum Adası sahiline yüzlerce gümüş balığı vurdu. Sahili kaplayan ölü gümüş balıklarını gören amatör balıkçılar ve vatandaşlar, şaşkına döndü. Kum Adası sahilinde balık tutan amatör balıkçı Sermin Bayraktar (50), "Burada balık tutuyordum. Kıyıya vurmuş bu balıklar yoktu. Soğuk ve sıcak su dalgalanması neden olmuş olabilir. Hani balıkların kulağına kar suyu kaçtı derler ya, bu balıklar da sersemlediği için karaya vurmuş olabilir. Kıyıya vurmuş bir sürü balık var" dedi.

Gümüş balıklarının ölü olarak sahile vurmasının sebebinin deniz suyu sıcaklığındaki ani değişiklik ya da büyük bir balığın gümüş sürüsünü sıkıştırması olabileceği düşünülüyor.

Many spectacled flying foxes were found dead around Cairns, a city in Queensland

**Over two days in November, record-breaking heat in Australia's north wiped out almost one-third of the nation's spectacled flying foxes, according to researchers.**

The animals, also known as spectacled fruit bats, were unable to survive in temperatures which exceeded 42C.

In the city of Cairns, locals saw bats toppling from trees into backyards, swimming pools and other locations.

Wildlife rescuers found surviving animals clumped together, usually on branches closer to the ground.

## Ebola outbreak in Eastern Congo is moving toward a major city

Jan 20, 2019 | 0 ● | ★★★★★

(VOX) – At least 680 people have been infected with the Ebola virus in the Democratic Republic of Congo. It's the second-largest Ebola outbreak in history, with 414 deaths so far, and the first Ebola outbreak in an active war zone, DRC's eastern North Kivu and Ituri provinces. But it could get worse: Health officials this week are concerned that Ebola appears to be spreading in the direction of Goma, a major population center in DRC.

Just this week, DRC's health ministry confirmed four cases of the deadly virus in Kayina, a town in North Kivu, where fighting among rebel and militia groups has repeatedly interrupted the painstaking work of health workers who are responding to the outbreak. Kayina happens to be halfway between Butembo, currently one of the outbreak's most

West Nile Virus found in ruffed grouse

ISON — West Nile virus was detected in three of 16 ruffed grouse that found sick or dead and submitted by the public to the state Department of Natural Resource for testing from October through December 2018.

NEXT

→

At this time there is no evidence to confirm that West Nile virus or any other factor is having population-level impacts on ruffed grouse in Wisconsin, DNR officials said. Ruffed grouse populations are known to rise and fall over a nine-to-11-year cycle, so declines are not unexpected, though the 2017 decline occurred before the cycle would typically predict.

Of these 16 birds, 10 were negative for any viral infection, three were positive for Eastern Equine Encephalitis virus, one was positive for WNV and two were positive for both EEEV and WNV. Of the six birds that tested positive for EEEV or WNV, three showed signs of clinical disease, which may or may not have eventually resulted in death.

# Nuclear arms treaty faces collapse after failed US-Russia talks

By Ben Simon  
Geneva (AFP) Jan 15, 2019

The survival of a key nuclear arms control treaty was cast further in doubt Tuesday after the US and Russia blamed each other for pushing the agreement to the brink of collapse.

Senior diplomats from both countries met in Geneva amid widespread concern over the fate of the bilateral Intermediate-Range Nuclear Forces Treaty, which successfully put an end to a mini-arms race after it was signed in 1987.

US President Donald Trump said in October that his country would pull out of the deal unless Russia stops violating it.

Russian President Vladimir Putin has threatened to develop nuclear missiles banned under the treaty if it is scrapped.

"The meeting was disappointing as it is clear Russia continues to be in material breach of the Treaty and did not come prepared to explain how it plans to return to full and verifiable compliance," US Under Secretary for Arms Control and International Security, Andrea Thompson, said in a statement.

"Our message was clear: Russia must destroy its noncompliant missile system," she said.

Thompson will be in Brussels on Wednesday, where she plans to brief NATO allies on the INF talks.

# US slams Russia over missile treaty

by Staff Writers  
Brussels (AFP) Jan 16, 2019

The US on Wednesday accused Russia of dishonesty and evasiveness over a controversial missile system the West says breaches a key arms control treaty.

US Under Secretary of State Andrea Thompson said talks in Geneva aimed at saving the Cold War era Intermediate-Range Nuclear Forces treaty (INF) did not "break new ground" and there was no sign Russia would come back into compliance with the accord.

The 1987 treaty, seen as a key prop of international arms control, is in danger of collapse, with the US vowing to pull out unless Russia takes steps to dismantle a new nuclear-capable cruise missile system that Washington and NATO says violates the accord.

Russian offers of inspections of the nuclear-capable 9M729 cruise missile system were totally inadequate, Thompson said, adding that the Kremlin had demanded to be allowed to inspect US systems in return.

"Disappointingly but unsurprisingly we weren't able to break any new ground" in the Geneva talks, Thompson told reporters after briefing NATO allies in Brussels.

"They paid lip service to transparency... they continued to dodge questions, they continue to offer false information regarding the missile's capabilities and the testing activity."

The US has given Russia until February 2 to take steps to come back into compliance, but Thompson said there was no indication they would do so.

Russia denies it is in breach of the treaty and Foreign Minister Sergei Lavrov said his side had come up with "constructive proposals" in Geneva.

## Missile Defense Review To Feature Space-Based Interceptors To Counter Iran, North Korea

by Tyler Durden

A space-based series of sensors that would coordinate with missile interceptor sites in the continental US to counter ballistic missiles threats posed by countries like North Korea and Iran? This is but one of the jaw dropping newly proposed defense technologies that will be highlighted as part of a long-awaited report on the status of the country's missile defense capabilities to be unveiled during President Trump's visit to the Pentagon Thursday.

The president will make the visit to reveal the **Missile Defense Review**, which studies and assesses US missile defense capabilities and needs under in order to inform the White House's Pentagon funding request for the upcoming fiscal year 2020 budget. Crucially, it's expected to outline changes in America's missile defense strategy toward Russia and China, as well as present key avenues of upcoming research, such as futuristic and experimental advanced tech systems like **laser intercept capabilities and space-based detection systems**.

The congressionally mandated review is the first of its kind to be undertaken since 2010, and though it was scheduled to be released in late 2017, it was finally completed in October of last year — pushed back in part due to the administration's desire to expand the scope of the study from ballistic missile defense to all missile defense.

Likely the most provocative and headline grabbing part of the review will be space related defense. According to [ABC News](#):

# China takes lead in some military tech: Pentagon

By Thomas WATKINS  
Washington (AFP) Jan 15, 2019

China is on the cusp of fielding some of the world's most advanced weapons systems -- and in some cases already has surpassed its rivals, a Pentagon assessment released Tuesday found.

An unclassified report by the Defense Intelligence Agency says Beijing has made enormous military strides in recent years, thanks partly to domestic laws forcing foreign partners to divulge technical secrets in exchange for access to China's vast market.

As a result of "acquiring technology by any means available," China now is at the leading edge on a range of technologies, including with its naval designs, with medium- and intermediate-range missiles, and with hypersonic weapons -- where missiles can fly at many times the speed of sound and dodge missile-defense systems.

"The result of this multifaceted approach to technology acquisition is a PLA (People's Liberation Army) on the verge of fielding some of the most modern weapon systems in the world," states the report, entitled "China Military Power."

"In some areas, it already leads the world."

China's increasing military might means it has advanced capabilities in the air, at sea, in space and in cyberspace that will "enable China to impose its will in the region," the report notes.

A particular focus for Beijing has been the prospect of an eventual conflict with Taiwan, which China sees as part of its territory.

Beijing has said it will not hesitate to use force if Taipei formally declares independence, or in the case of external intervention -- including by the United States, the island's most powerful unofficial ally.

A number of Iranian officials have stated in recent years that one of the prime objectives of its radical Islamic regime is to destroy Israel.

Now, however, one Iranian official insists the country's leaders have been misunderstood

Iranian Foreign Minister Mohammad Javad Zarif said in a recent interview that the remarks were merely an affirmation that "Israel would eventually disappear if it continued its present policy."

The comments from Zarif came during a Dec. 23, 2018, interview with the French weekly *Le Point*.

The interviewer, in response to Zarif's claim, quoted a statement made by former Iranian president Ahmadinejad at the U.N. against Israel.

## FBI: Man Wanted to Attack White House With Anti-Tank Rocket

ATLANTA (AP) — A [Georgia](#) man accused of plotting to use an anti-tank rocket to storm into the White House was arrested in a sting Wednesday after he traded his car for guns and explosives, authorities said.

Hasher Jallal Taheb, 21, of Cumming was arrested Wednesday and is charged with attempting to damage or destroy a building owned by the United States using fire or an explosive, U.S. Attorney Byung J. "BJay" Pak said.

[ [SEE: Cartoons on President Donald Trump](#) ]

It wasn't immediately clear whether Taheb had an attorney who could comment on the allegations.

A local law enforcement agency contacted the FBI in March after getting a tip from someone who said Taheb had become radicalized, changed his name and planned to travel abroad, according to an FBI agent's affidavit filed in court.

The affidavit says Taheb told a confidential FBI source in October that he planned to travel abroad for "hijra," which the agent wrote refers to traveling to territory controlled by the Islamic State. Because he didn't have a passport, he couldn't travel abroad and told the FBI source that he wanted to carry out an attack in the U.S. against the White House and the Statue of Liberty.

An Atlanta-area man has been accused of plotting to destroy the White House and other government buildings in Washington, D.C.

The Atlanta Journal Constitution reported the suspect is Hasher Jallal Taheb of Cumming, Georgia.

The report said all threats were neutralized and the suspect, who was arrested in Gwinnett County and briefly appeared in court Wednesday, apparently was working alone.

The FBI's criminal complaint accuses him of plotting terror in Washington.

It explained a community member contacted law enforcement last march to warn that Taheb was radicalized.

Then in August, an FBI informant reached out to him when he apparently put his vehicle up for sale.

"Taheb allegedly said he planned to travel to 'hijra,' a term said to refer to Islamic State territory and he was selling the car to fund the trip. But he didn't have a passport," the report said.

# Strange Sounds and mysterious booms are increasing again rattling homes around the world in January 2019... And nobody seems to know why!

By **Strange Sounds** - Jan 15, 2019 14

A mysterious noise from the sky is continuing to baffle people all over the world – as well as giving those who hear it sleepless nights. Sounding like a trumpet or a collective from a brass section of an orchestra, a selection of videos shot from the Canada to Ukraine, via the U.S., Germany and Belarus show strange goings on above us. And the eerie sounds have been continuously heard at all different times and locations for almost a decade. Here the last reports for January 2019:

A recent wave of four Biblical plagues has many wondering if the remaining six are about to strike since, according to Jewish tradition, all of the plagues that struck Egypt will reappear before the final redemption.

## Exposing Demonic Roots of New Paganism That's Reshaping America

5:00PM EST 1/15/2019 | RON ALLEN

(Pexels/Heorhii Heorhichuk)

Last week, *New York Times* columnist Ross Douthat wrote a provocative article entitled "Post-Christian Paganism Begins to Emerge" where he sees a new pagan religion beginning to take shape in America.

While 40 percent of Americans now claim to have had a religious awakening, double the number from the 1950s, there has been a splintering of the Christian consensus which prevailed in the 1950s. At the same time, the spiritless secularism that is so prevalent in modern times has not met the spiritual needs which are built into all humans. Douthat sees a new belief system arising which mixes spirituality into a secular world view.

## Sculpture honoring Saudi Arabia to be removed from Ground Zero

By **Chris Perez**

January 14, 2019 | 8:42pm | Updated

Somebody thought it would be a good idea to install a 9-foot-tall statue — paying tribute to Saudi Arabia and displaying its flag — near the 9/11 Memorial earlier this month, and New Yorkers are not happy.

As a result, Port Authority officials have decided to remove the art exhibit and place it somewhere else after receiving countless complaints from social media users and local victims groups — who are outraged since 15 of the 19 attackers on September 11 were Saudi citizens.

503 people are talking about this

"We have been in contact with the 9/11 Memorial and various stakeholders, and in full collaboration with the artist will relocate the exhibit from its current location," the agency said in a statement Monday. "We believe this solution respects the unique sensitivities of the site and preserves the artistic integrity of the exhibit."

Many of the victims' families and survivors have sued Saudi Arabia under the claim that its employees had willfully helped the 9/11 hijackers. The Middle East nation, however, has denied its involvement.

Large numbers of young adults who frequently attended Protestant worship services in high school are dropping out of church.

Two-thirds of young people say they stopped regularly going to church for at least a year between the ages of 18 and 22, a new LifeWay Research survey shows.

That means the church had a chance to share its message and the value of attending with this group, but it didn't stick, said Scott McConnell, executive director of LifeWay Research.

## Definitive Proof There Really Is a War Against Christianity

8:00AM EST 1/15/2019 | JONATHAN BERNIS

(GETTY IMAGES/ISTOCK-SEZER60)

If we turn our backs and look the other way while anyone is being persecuted, we are in great danger of being persecuted ourselves. Yet I have heard many people, especially Christians, say that the struggles taking place in the Middle East do not concern them. "This is between the Muslims and the Jews," they say. "Let them work it out."

As a Jew who grew up with a deep awareness of the Holocaust and the fact that the world stood by, watched and did almost nothing, I am very sensitive to this issue. As followers of the Lord, we cannot sit back and allow indifference and apathy to numb us to the realities our brothers and sisters are facing far from our homes. We must speak out and be their advocates.

The truth is, what's going on in the Middle East today concerns all people of faith, and especially Christians. To put it as bluntly and clearly as I possibly can: Christians in the Middle East are being persecuted, tortured and killed in unprecedented numbers. If we Americans remain silent or refuse to do anything about it, we are standing on the side of their enemies.

As society continues to evolve – and some critics might argue 'devolve' – into a more progressive understanding of gender and sexuality, the stakes couldn't be higher. To the dismay of many parents, this societal tug-of-war over transgenderism is playing out on today's college campuses like never before – and is hitting young women particularly hard.
