والعلامات حتى 12 فبراير 2019

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت . بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيق اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعه سابقا .

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لننتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

Nasa plans to knock an [asteroid](#) out of orbit by launching a spacecraft to deliberately crash into it in what is thought to be the first ever test of a planetary defence system.

The ambitious mission is set to prove whether the Earth could be defended if an asteroid was on course to devastate the planet by smashing into its surface.

A VISITOR FROM BEYOND THE KUIPER BELT: On Feb. 12th and 13th, Comet Iwamoto (C/2018 Y1) will make a rare visit to the inner solar system, passing by our planet only 0.3 AU (45 million km) away. Last night in Jauerling, Austria, amateur astronomer Michael Jäger photographed the green comet approaching in the constellation Virgo:

Discovered in Dec. 2018 by Japanese amateur astronomer Masayuki Iwamoto, this comet is a visitor from beyond the [Kuiper Belt](#). It comes from the realm of [Extreme Trans-Neptunian Objects](#) (ETNOs) more than 5 times as far from the sun as Pluto. This means it could be a relative of other strange ETNOs such as Sedna, 2012 VP113 ("[Biden](#)"), and 2015 TG387 ("[Goblin](#)").

Comet Iwamoto has a highly elliptical 1371-year orbit, so it doesn't visit us very often. Its last passage through the inner solar system was around 648 AD (unrecorded), and its next won't happen until 3390 AD. Therefore, if you want to see the comet, now is the time to look.

Thousands of birds have been found dead at one of Western Australia's most important inland wetlands.

A Department of Primary Industry and Regional Development veterinarian arrived at Lake Gregory in the East Kimberley earlier this month to take sample, and found a number of wild birds in "poor conditions with low body weights".

On a department inspection, it was found several thousand birds had died at the wetland, but the cause of death remains a mystery.

Australia horse deaths: Wild animals perish at dried-up waterhole

Rangers found the horses in a dried-up waterhole in the Northern Territory

An extreme heatwave in Australia has led to the deaths of more than 90 wild horses in the outback, authorities say.

Rangers found dead and dying animals in a dried-up waterhole near Alice Springs, in the Northern Territory, last week.

About 40 of the animals had already died from dehydration and starvation. Surviving horses were later culled.

It comes amid record-breaking heat, with temperatures hitting 49.5C north of Adelaide in South Australia.

UN experts say North Korea shielding missiles at airports

By Carole LANDRY
United Nations, United States (AFP) Feb 5, 2019

North Korea's nuclear and ballistic missile programs remain intact and Pyongyang is using airports and other facilities to shield its weapons from possible US military strikes, according to a UN panel of experts.

The panel said in a report seen by AFP on Tuesday that sanctions against North Korea were "ineffective," with Pyongyang still able to acquire illegal shipments of oil products, sell banned coal and violate an arms embargo.

"The Democratic People's Republic of Korea's nuclear and ballistic missile programs remain intact," said the report, using the official name for North Korea.

"The panel found that the DPRK is using civilian facilities, including airports for ballistic missile assembly and testing with the goal of effectively preventing 'decapitation' strikes."

The confidential report was sent to the Security Council as President Donald Trump prepares for a second summit this month with leader Kim Jong Un that the United States hopes will yield concrete progress in dismantling Pyongyang's weapons programs.

The Trump administration has led the drive at the United Nations to impose a series of tough economic sanctions on North Korea in response to its nuclear tests and missile launches in 2017.

But North Korea has resorted to illegal transfers of oil, fuel and coal using a network of ships at sea to circumvent the UN-imposed measures aimed at depriving Pyongyang of revenue to build up its weapons programs.

"These violations render the latest United Nations sanctions ineffective by flouting the caps on the DPRK's import of petroleum products and crude oil as well as the coal ban imposed in 2017," said the report.

US vows to remain 'relentless' to deter Iran missile program

by Staff Writers
Washington (AFP) Feb 8, 2019

The United States on Thursday vowed to remain "relentless" in pressuring Iran to deter its missile program after the Islamic Republic unveiled a new ballistic weapon days after testing a cruise missile.

Iran's Revolutionary Guards unveiled a new ballistic missile with a range of 1,000 kilometres (620 miles), their official news agency Sepah News reported.

The move was the latest show of military might by the country as it celebrates the 40th anniversary of the Islamic Revolution at a time of heightened tensions with the United States.

"Iran's blatant disregard for international norms must be addressed," State Department deputy spokesman Robert Palladino said in a statement.

"We must bring back tougher international restrictions to deter Iran's missile program," he added.

"The United States will continue to be relentless in building support around the world to confront the Iranian regime's reckless ballistic missile activity, and we will continue to impose sufficient pressure on the regime so that it changes its malign behavior - including by fully implementing all of our sanctions."

Tehran reined in most of its nuclear program under a landmark 2015 deal with major powers but has kept up development of its ballistic missile technology.

The European Union (EU) on Monday welcomed [the new mechanism](#) to trade with Iran while bypassing US sanctions, but also warned the Islamic Republic over its ballistic missile program, *AFP* reports.

In a statement on Iran that has been the subject of more than a week of wrangling in Brussels, the EU restated its commitment to saving the 2015 nuclear deal with Iran and took aim at Washington for abandoning the pact and reimposing sanctions.

The bloc hailed the creation last week by France, Britain and Germany of a system to allow firms to trade with Iran without falling foul of US sanctions as vital to supporting legitimate business and said the "resolve to complete this work is unwavering".

Europe not to be trusted: Iran leader

by Staff Writers
Tehran (AFP) Feb 8, 2019

Iran's supreme leader Ayatollah Ali Khamenei said Friday that Europe "cannot be trusted", a week after the EU launched a trade mechanism to bypass US sanctions on Tehran.

"These days there's talk of the Europeans and their proposals. My advice is that they shouldn't be trusted, just like the Americans," he said at a meeting with air force officials, his website reported.

"I'm not saying we shouldn't have relations with them. This is about trust," he added.

Britain, France and Germany last week launched a special payment mechanism called INSTEX to help save the 2015 nuclear deal between Iran and world powers.

It would allow Tehran to keep trading with EU companies in spite of US sanctions renewed after Washington quit the accord last year.

Tehran has cautiously welcomed INSTEX as a "first step", but US officials said the new entity would not have any impact on efforts to exert economic pressure on Iran.

Khamenei also accused Europe of hypocrisy over human rights, criticising France's treatment of protesters in Paris.

"They (anti-riot police) attack protesters in Paris streets and blind them, then they have the audacity to make human rights requests of us," he said.

Mossad, MI6 smuggled Iranian nuclear scientist to the UK - Report

By HAGAY
HACOHEN
02/10/2019

The Iranian scientist was allegedly involved in the 2012 assassination of Mostafa Ahmadi Roshan in Tehran and was able to enter the UK using the migrant crises as a cover, reports the Daily Mail.

Mossad, British secret services and the CIA extracted an Iranian nuclear scientist out of Tehran and provided him with a safe haven in the US, the Daily Mail reported on Sunday.

The Iranian scientist is thought to have been smuggled into the UK on an inflatable boat alongside other Iranian migrants who crossed over to Lydd at the beginning of 2019.

The plan is said to have been drawn up in October when the Mossad helped the 47-year-old technician escape to Turkey, and from that location he joined the flux of Iranian immigrants attempting to reach the UK.

The BBC reported that the influx of Iranian migrants into the UK has increased recently due to a decision by the Serbian government to accept Iranian tourists without asking for a visa. This was meant to increase tourism and trade between the Islamic Republic and Serbia but also enabled some Iranians to escape into Europe.

"It was determined infiltrating him into a group of fellow migrants preparing to cross the Channel by boat offered one solution," a British secret service official told the Daily Mail.

Once in the UK, the man was questioned about the current status of the Iranian nuclear program and flown to the US. The scientist reportedly also helped with the 2012 assassination of another Iranian nuclear scientist, Mostafa Ahmadi Roshan. The Mossad has long been suspected of standing behind the assassination.

The Russian government will not be moving its embassy in Israel from Tel Aviv to Jerusalem, Russia's ambassador said Thursday night, despite signals from Moscow that Russia has shifted its stance on the Israeli capital.

How the Church Is Final Force Resisting Rise of Antichrist, One-World Government

9:00AM EST 2/5/2019 | STEPHEN STRANG

(Pixabay/Antrianas)

It's no secret the United States is steadily losing its biblical base. Just look at how many Americans rejoiced in New York's recent ungodly law legalizing abortion up until the day of birth. The more our nation loses its God-honoring element, the closer it draws to spiritual death—and the only force resisting this downward spiral is the church, says preacher Dr. Rodney Howard-Browne.

But this isn't a recent trend. Howard-Browne says the demise of America started in 1877 with a man named Cecil John Rhodes, a lifetime member of the Masonic Order. Rhodes wanted to form a secret society with one goal: to bring the whole world under the control of the British empire, establishing a one-world government. Since then, a strong and single-focused institution has infiltrated American society, and it has everything to do with money.

President Donald Trump called upon Congress to pass legislation that would prohibit late-term abortion past the time when science has shown an unborn baby can feel pain.

“Let us work together to build a culture that cherishes innocent life,” the president said during his State of the Union Address Tuesday evening. “And let us reaffirm a fundamental truth: all children — born and unborn — are made in the holy image of God.”

Trump contrasted the “beautiful image of a mother holding her infant child” with the “chilling displays” of New York legislators after Democrat Gov. Andrew Cuomo signed into law a bill that denies “personhood” to unborn babies and makes abortion on demand a

The Supreme Court on Thursday temporarily blocked a Louisiana abortion regulation that was expected to close all but one or two of the abortion clinics in the state.

The case, *June Medical Services vs. Gee*, has been closely watched as an early test of whether the high court would stand behind its precedents in the area of abortion or begin to make it easier for

UK Mom Arrested for Calling Transgender Activist a Man

02-11-2019 - Emily Jones

UK officials arrested a woman after she called a transgender activist a biological man on Twitter.

The Daily Mail reports that three officers showed up to the home of Kate Scottow in Hitchin, Hertfordshire and arrested her in front of her children on Dec. 1. The 38-year-old was reportedly detained for several hours, processed, and is currently under investigation.

Scottow was arrested after Stephanie Hayden, a biological man who identifies as a woman, told police that the mother of two had harassed him by calling him a man.

فلهذا اطلب أن نصلي ونستعد ونعد زيت لمصاييحنا لاستقبال العريس بالصلاة والصوم وخدمة

أبناء الله وتنقية القلب والاستعداد بلبس العرس.

رسالة بولس الرسول الي أهل رومية 13

13: 11 هذا وأنكم عارفون الوقت انها الان ساعة لنستيقظ من النوم فان خلاصنا الان أقرب مما كان حين امنا

13: 12 قد تنهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلياقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيرا للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

بطرس الأولى 3: 14

وَلَكِنْ وَإِنْ تَأَلَّمْتُمْ مِنْ أَجْلِ الْبِرِّ، فَطُوبَاكُمْ. وَأَمَّا خَوْفُهُمْ فَلَا تَخَافُوهُ وَلَا تَضْطَرُّوْا،

بل نؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.».

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.

وأیضا استعدوا فقد تسلموا وديعتكم في أي وقت فهناك 150 ألف شخص يموتوا في اليوم الواحد

انت لا تعرف متى ستكون منهم

المسيح اقترب فاصنعوا ثمار تليق بالتوبة واستعدوا لاستقبال العريس.

والمجد لله دائما
