اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت . بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيق اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعه سابقا .

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لننتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

Nasa releases picture of mysterious 'dragon' aurora rearing its head in the sky

Jasper Hamill Tuesday 19 Feb 2019 10:48 am

Nasa has released incredible pictures of an unusual 'dragon' aurora roaring silently in the sky over Iceland.

The stunning natural wonder was caused by particles emitted from the sun which smash into the atmosphere to cause a dramatic light display.

Nasa wrote: 'Have you ever seen a dragon in the sky? Although real flying dragons don't exist, a huge dragon-shaped aurora developed in the sky over Iceland earlier this month.

'The aurora was caused by a hole in the Sun's corona that expelled charged particles into a solar wind that followed a changing interplanetary magnetic field to Earth's magnetosphere.

ATMOSPHERIC COSMIC RAYS ARE INCREASING: Cosmic rays in the stratosphere are intensifying for the 4th year in a row. This finding comes from a campaign of almost weekly high-altitude balloon launches conducted by the students of Earth to Sky Calculus. Since March 2015, there has been a ~13% increase in [X-rays and gamma-rays](#) over central California, where the students have launched hundreds of balloons.

The grey points in the graph are Earth to Sky balloon data. Overlaid on that time series is a record of neutron monitor data from the [Sodankylä Geophysical Observatory](#) in Oulu, Finland. The correlation between the two data sets is impressive, especially considering their wide geographic separation and differing methodologies. [Neutron monitors](#) have long been considered a "gold standard" for monitoring cosmic rays on Earth. This shows that our student-built balloons are gathering data of similar quality.

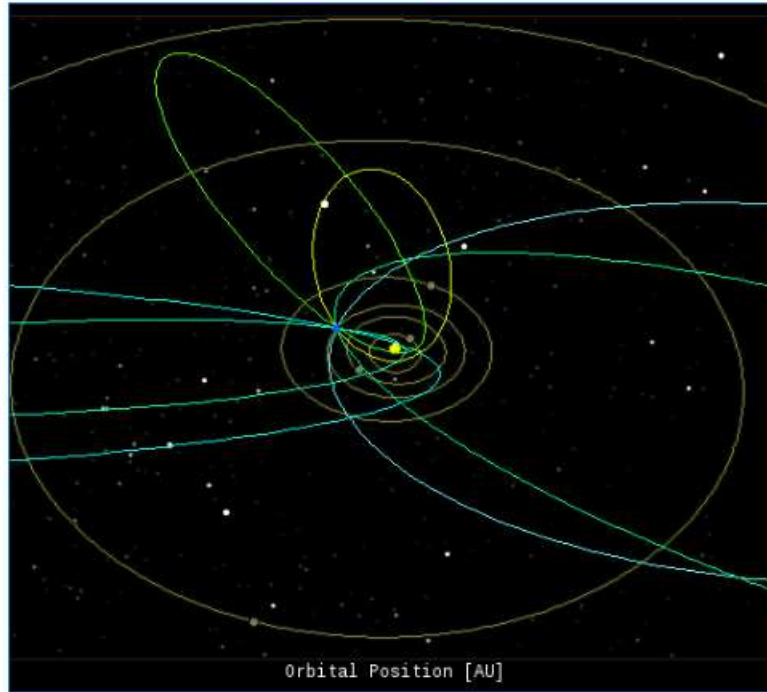

Why are cosmic rays increasing? The short answer is "Solar Minimum." Right now, the 11-year solar cycle is plunging into one of the deepest minima of the Space Age. The sun's weakening magnetic field and flagging solar wind are not protecting us as usual from deep-space radiation. Earth to Sky balloon launches in [multiple countries](#) and [US states](#) show that this is a widespread phenomenon.

Scientist warns Yellowstone volcano eruption would 'Tear Out' guts from America

Feb 20, 2019 | 0 | ★★★★★

OPINION (Express) – Yellowstone volcano is a dormant monster waiting to erupt and violently tear America apart just like Godzilla, a prominent scientist has warned. Yellowstone volcano is the biggest natural disaster threat facing the US and scientists are in awe of its potential destructive force. Fears of Yellowstone roaring back to life were heightened following the release of a report outlining the risk of supervolcanoes erupting in the near future. The report, dubbed Extreme Geohazards: Reducing the Disaster Risk and

Increasing Resilience, found a 10 percent chance of a supervolcano somewhere on Earth erupting by the end of the century. In the wake of the dire volcano report, renowned physicist Dr Michio Kaku warned Yellowstone volcano is

The number of dead cattle on a remote Western Australia property is expected to double to 2,000, a peak industry group warned today, as evidence surfaced of an earlier incident at the same site.

WA Government officers have **destroyed more than 300 head of cattle on the Yandeyarra Reserve**, 100 kilometres south of Port Hedland, and have warned the number might exceed 1,000 after their **condition deteriorated following a lack of food and water**.

A four-metre-long (13.12ft) oarfish was found on Monday tangled in a fishnet off the port of Imizu is the latest in the spate of unexplained deaths. The creatures, which can grow up to as long as much as 11 metres, are believed to be an indicator of doom in Japanese mythology. The fish apparently come to the surface and beach themselves when an earthquake is nearing. Scientific theories support the lore, as bottom-dwelling fish are susceptible to movements in seismic fault lines and act uncharacteristically before an earthquake.

Dead fish in Pavana river spurs concern

PIMPRI CHINCHWAD:

Thousands of dead fish were found floating on the surface of Pavana river in the past five days, prompting the PCMC's environment department to draw water samples to ascertain the reason.

Pavana river originates from Western Ghats in Maval taluka. The civic body has built a bund on the river near Kejudevi temple in Thergaon. It has also developed a boat club and garden for revellers.

Jayashribai Rathod, a construction worker who washes clothes near the bund, said, "PCMC and the government need to take urgent steps to reduce the pollution in the water body to prevent such mass deaths of fish."

Putin threatens to target West with new missiles

Russian President Vladimir Putin threatened to deploy new missiles against Western capitals as he delivered a state of the nation address Wednesday aimed at boosting falling approval ratings.

But while he took a combative tone with the West, he reached out to Russians with promises of improved living conditions.

The longtime Russian leader warned Washington against deploying any new missiles in Europe following the collapse of a key Cold War-era treaty, saying Moscow would consider it a "serious threat".

"I'm saying this clearly and openly, Russia will be forced to deploy weapons that can be used... against the decision-making centres that are behind the missile systems which threaten us," Putin said.

The United States and Russia raised fears of a new arms race when they announced earlier this year they were pulling out of the Intermediate-Range Nuclear Forces (INF) treaty, a 1987 deal that limited medium-range missiles.

Washington was the first to announce its withdrawal, accusing Moscow of

Brussels (AFP) Feb 20, 2019 - NATO on Wednesday condemned as "unacceptable" threats by Russian President Vladimir Putin to deploy new missiles against Western capitals, as a key Cold War arms control treaty crumbles.

The Russian leader struck a combative note in a state of the nation address, warning Washington against deploying new missiles in Europe after the collapse of the Intermediate-Range Nuclear Forces (INF) treaty, saying Moscow would install its own weapons targeting "decision making centres".

"Russian statements threatening to target Allies are unacceptable. We call on Russia to focus on returning to compliance with the Intermediate-Range Nuclear Forces Treaty," NATO deputy spokesman Piers Cazalet said in a statement.

Pompeo dismisses Putin missile threat as 'bluster'

by Staff Writers
Washington (AFP) Feb 24, 2019

US Secretary of State Mike Pompeo dismissed Sunday a threat by Russian leader Vladimir Putin to deploy new missiles against Western capitals as "bluster" designed to divide Washington and its allies.

In a speech last week, Putin warned the US against deploying any new missiles in Europe after the collapse of a key Cold War-era treaty, saying Russia would respond by deploying weapons targeting "decision-making centers."

But in an interview with CNN, Pompeo said Putin's comments amounted to an empty threat and the Russian leader was trying to divert attention away from Moscow's violations of the Intermediate-Range Nuclear Forces (INF) treaty.

"The Russians violated that treaty... Now it's time to figure out how to move forward and come up with something the Russians will actually live by," said Pompeo.

"His bluster is aimed at trying to convince the world, to drive a wedge between the United states and Europe when everyone is fully on board.

"The Europeans were fully supportive of our decision, and we'll move forward together in ensuring the security of the United States' people."

"NATO is a defensive alliance, which stands ready to defend all members against any threat. We do not want a new arms race, and allies have repeatedly called on Russia to verifiably destroy its intermediate-range missiles."

The US announced earlier this month it was withdrawing from the INF treaty saying Russia had been in breach of the agreement for several years by deploying a new missile system. Russia, which insists the system complies with the INF, said it would pull out too.

NATO chief Jens Stoltenberg has said several times in recent weeks that the alliance would not deploy any new land-based nuclear weapons in response to the Russian missiles.

US military conducts observation flight over Russia

by Staff Writers
Washington (AFP) Feb 21, 2019

The US military is conducting a surveillance flight over Russia as part of an international agreement, the Pentagon said Thursday.

The flight falls under the Open Skies Treaty, an international accord aimed at promoting military transparency through reciprocal, unarmed observation flights over each of the 34 signatory countries' terrains.

Due to tensions with Russia, this is the first Open Skies flight there since November 2017, Pentagon spokesman Lieutenant Colonel Jamie Davis said.

"Russia is aware of the flight," he said.

"Six Russian Federation observers are on board the US aircraft to monitor all phases of the flight."

The flight, which is due to end Friday, is being conducted with an unarmed OC-135B aircraft.

In December, the US and other nations conducted an "extraordinary" Open Skies flight over Ukraine in a mission to show support for Kiev following Russia's seizure of three Ukrainian naval vessels in the Sea of Azov.

The Open Skies Treaty has 34 national members and gives countries "the right to gather information about the military forces and activities of other" signatory countries, the Pentagon said.

Disarmament efforts must include China as well as US, Russia: Merkel

By Damon WAKE
Munich, Germany (AFP) Feb 16, 2019

China must be involved in international disarmament efforts, German Chancellor Angela Merkel said Saturday, amid rising concern about Beijing's missile arsenal and the suspension of a key US-Russia arms treaty.

Fears that the web of agreements limiting the proliferation of nuclear warheads and other weapons could be in jeopardy have grown since Washington and Moscow announced their withdrawal from the Intermediate-Range Nuclear Forces (INF) treaty.

But Merkel's call to launch a fresh push for disarmament and to include rising military power China met with a brisk rebuff from a top Beijing official -- and was simply ignored by senior US and Russian figures.

"Disarmament is something that concerns us all and we would of course be glad if such talks were held not just between the United States, Europe and Russia but also with China," Merkel told the Munich Security Conference.

Washington began pulling out of the INF treaty this month in response to Moscow's deployment of a new missile system the US and NATO say violates the accord, prompting Russia to announce its own withdrawal.

Neither US Vice President Mike Pence nor Russian Foreign Minister Sergei Lavrov responded to Merkel's call in their speeches at the conference.

EU, Germany reject US call to leave Iran nuclear deal

by Staff Writers
Munich, Germany (AFP) Feb 15, 2019

Germany and the EU on Friday rejected an appeal by US Vice President Mike Pence for Europeans to withdraw from the Iranian nuclear deal and isolate Tehran.

Foreign Minister Heiko Maas defended the 2015 agreement under which Iran drastically scaled back its nuclear programme in return for sanctions relief.

EU diplomatic chief Federica Mogherini said the bloc was determined to preserve the "full implementation" of the deal, saying it was vital to European security.

"Together with the Brits, French and the entire EU we have found ways to keep Iran in the nuclear agreement until today," Maas told the Munich Security Conference.

A day earlier, Pence accused Tehran of planning a "new Holocaust" with its opposition to Israel and regional ambitions in Syria, Lebanon, Iraq and Yemen.

Maas said that "our goal remains an Iran without nuclear weapons, precisely because we see clearly how Iran is destabilising the region".

Without this agreement, "the region will not be safer and would actually be one step closer to an open confrontation," he added.

Speaking at the same conference, Mogherini said the deal must be preserved, insisting that for Europe "it's a matter of security".

"So you can count on the fact the European Union and its member states will continue to serve the interests of security and non-proliferation... preserving the full implementation" of the deal, Mogherini said.

Woman Fights for Free Speech After 'Jesus Loves You' Valentines Banned by College

02-20-2019 - Crystal Woodall

One young woman's lengthy battle to spread the Gospel at Northeast Wisconsin Technical College is now dragging into its fifth year.

Since 2014, Polly Olsen has handed out Valentine's Day cards with biblically themed messages to students and staff on campus. During that time, she has often been met with resistance in the form of the school's public assembly policy, which forbids the "displaying of signs or mass distribution of literature with offensive content or that is likely to or intended to cause a disruption."

A New York City Muslim cleric told his congregants in a sermon they must not befriend or engage in any alliances with Christians and Jews.

The exhortation by Abul Baraa Muhammad Abdullah Amreeki was based directly on verses from the Quran, pointed out Jihad Watch Director Robert Spencer in a post Wednesday.

The imam cited Quran 5:51 in a sermon posted to YouTube on Jan. 25, according to the Middle East Media Research Institute, or MEMRI.

"O you who have believed, do not take the Jews and the Christians as allies," the verse reads, according to an English interpretation of the original Arabic. "They are allies of one another. And whoever is an ally to them among you – then indeed, he is of them. Indeed, Allah guides not the wrongdoing people."

Worse Than New York: Radical Abortion Law Will Make Illinois the 'Abortion Capital of America'

02-22-2019 - Emily Jones

Illinois is considering its most radical abortion bills yet. If passed, pro-life advocates say they could turn the state into the abortion haven of the Midwest, and maybe even "the abortion capital of America."

The Reproductive Health Act (HB 2495 and SB 1942) enshrines abortion as a "fundamental right" and provides that a "fertilized egg, embryo, or fetus does not have independent rights under the law."

'Endorse Same-Sex Relationships' OR ELSE! Philly Forcing Catholic Agency from Foster Care

Feb 25, 2019 | 0 | *****

OPINION (CBN News) – Catholic Social Services in Philadelphia has been caring for foster children and placing them in homes for a solid century. But the city abruptly announced in March last year the agency can't do that any longer. Much like the rest of the country, Philadelphia faces a challenge in finding homes for these children. In March, the city put out an urgent call for 300 new foster homes. At the same time, however, it demanded Catholic Social Services endorse same-sex relationships or get ousted from its contract to do foster care for the city.

"Catholic Social Services has been serving the city of Philadelphia for over a hundred years, and they've been doing that consistent with their religious mission since then. But the city has said, 'If they want to continue working, they have to endorse same-sex relationships,' which is the one thing they're not able to do, consistent

13: 12 قد تنهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلياقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيرا للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.
