## والعلامات حتى 26 مارس 2019

Holy\_bible\_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت . بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيق اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعه سابقا .

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

انجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لننتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

## All Sky Fireball Network

Every night, a network of [NASA all-sky cameras](#) scans the skies above the United States for meteoritic fireballs. Automated software maintained by NASA's Meteoroid Environment Office calculates their orbits, velocity, penetration depth in Earth's atmosphere and many other characteristics. Daily results are presented here on [Spaceweather.com](#).

On Mar. 23, 2019, the network reported **15** fireballs.  
(15 sporadics)

In this diagram of the inner solar system, all of the fireball orbits intersect at a single point—Earth. The orbits are [color-coded](#) by velocity, from slow (red) to fast (blue). [\[Larger image\]](#) [\[movies\]](#)

## Near Earth Asteroids

Potentially Hazardous Asteroids (PHAs) are space rocks larger than approximately 100m that can come closer to Earth than 0.05 AU. None of the known PHAs is on a collision course with our planet, although astronomers are finding [new ones](#) all the time.

On March 26, 2019 there were **1967** potentially hazardous asteroids.

# More Than 1,000 Feared Dead: Cyclone Idai Could be Deadliest Storm to Ever Strike Mozambique

03-19-2019 - Dale Hurd

More than 1,000 people are feared dead after Cyclone Idai slammed into Mozambique four days ago.

Now it's a race against time as aid is being rushed into the African nation.

Cyclone Idai could prove to be the deadliest storm in generations to hit this poor nation of 30 million people. It has submerged entire villages and left bodies floating in rapidly rising floodwaters that have created "an inland ocean" some 30 miles wide, endangering many thousands

A lot of us have been watching Mt. Popocatepetl for a very long time. Could it be possible that we are now on the verge of the most destructive volcanic eruption in the modern history of North America? On Monday night at precisely 9:38 p.m., a massive explosion at Mt. Popocatepetl sent a column of volcanic ash nearly a mile into the sky.

A "yellow alert warning" has been issued by the authorities, and they are ordering everyone to stay at least 12 kilometers away from the crater. They are stressing that the threat has not passed, and as you will see below, an evacuation plan is in place in case

Wildlife experts are raising their concerns after eight marine mammals washed up along the Dorset coast during a three-week period.

Since February 4, six dolphins and porpoises, and two seals, have been discovered dead by the public and conservation experts are worried the deaths could be linked to a nearby oil well drilling that started this month.

**Ganjam:** Even as the district administration and forest officials have started taking steps for safe mass nesting of Olive Ridley turtles and subsequent hatching of eggs, carcasses of turtles found lying on the beach here have belied their claims.

The matter came to the fore after locals noticed dead turtles on the beach at the mouth of river Rushikulya at Purunabandh near Ganjam town Sunday.

# Invasion Of Tiny Poisonous Toads Pose Danger To Children, Pets

March 21, 2019 at 2:04 pm Filed Under: Local TV, talkers

**PALM BEACH GARDENS, Fla. (CBS Local)** — Thousands of poisonous toads have seemingly come out of nowhere to overrun a community in Florida, posing a potential danger to children and pets, according to an expert.

They started appearing last week in a neighborhood in Palm Beach Gardens and now seem to be everywhere, swarming swimming pools, sidewalks and the street outside Jenni Quasha's home.

Drinking sugary drinks increases your chances of dying - especially from heart disease, according to a long-term study of men and women in the US.

The recent finding from Harvard researchers was published in the American Heart Association's journal *Circulation*.

The study, led by Harvard T.H. Chan School of Public Health, covered nearly 120,000 people over a period of decades and a list of their lifestyle habits, including how frequently they drank sugary beverages such as sodas and other sugary drinks - including sports drinks with sweeteners like high fructose corn syrup or sucrose.

## Blood pressure medication cancer scare: 43 more lots recalled

Mar 18, 2019 | 0 | \*\*\*\*\*

**(WHAS 11)** – Forty-three more lots of a blood pressure medication have been recalled because of concerns they may contain trace amounts of a potentially cancer-causing impurity. It's the latest in a series of recalls since last July, which has seen a spike in recent weeks. Legacy Pharmaceutical Packaging, LLC, announced Friday it was recalling the lots of Losartan Tablets USP because they may contain N-Nitroso N-Methyl 4-aminobutyric acid (NMBA), a potential human carcinogen.

Legacy said there was a possible process impurity or contaminant in an active pharmaceutical ingredient (API), manufactured by another company, Hetero Labs Limited. The nationwide recall involves 40 repackaged lots of Losartan Tablets USP 25mg, 50mg, and 100mg, and three prepackaged lots of Losartan Tablets USP 50mg. Losartan

## US accuses Russia, China of undermining space peace push

by Staff Writers  
Geneva (AFP) March 19, 2019

The US on Tuesday accused Russia and China of raising the risk of conflict in space, notably by developing anti-satellite weapons, as diplomats held talks on a treaty to keep space peaceful.

The closed-door negotiations in Geneva involving experts from 25 governments -- including the US, China and Russia -- are aimed at laying the groundwork for a legally-binding text to prevent an arms race in outer space.

Beijing and Moscow pushed for the discussions that run through March 28, which experts have said may show results despite the grim climate for disarmament diplomacy.

But addressing the United Nations Conference on Disarmament, US assistant secretary of state Yleem Poblete questioned whether China and Russia were sincerely committed to the talks.

## Shanahan: Space Force needed to ensure 'margin of dominance'

by Sommer Brokaw  
Washington (UPI) Mar 21, 2019

U.S. Acting Defense Secretary Patrick Shanahan said the U.S. needs a Space Force to maintain the nation's "dominance" in space, and protect the systems the military and country depend on.

The Space Force is needed to maintain the edge the United States has over its closest competitors in space technology and capability, Shanahan said.

The issue came about as Shanahan was speaking Wednesday at the Center for Strategic and International Studies about the Defense Department's reorganization to support space.

"My goal and the department's goal is to grow what we call our 'margin of dominance' in space," Shanahan said.

"This margin is now contested," he added. "What is vital is that we protect a \$19 trillion economy and the systems our military runs on."

The process to establish a Space Force began 18 months ago after a conversation Shanahan had with Reps.

## NATO condemns Russian 'build-up' in Crimea

by Staff Writers  
Brussels (AFP) March 18, 2019

NATO on Monday condemned what it called Russia's "ongoing and wide-ranging military build-up in Crimea" on the fifth anniversary of Moscow's annexation of the Ukrainian peninsula.

As Russia celebrated what it terms its "reunification" with Crimea, NATO hit out at Moscow over its plans to further militarise the Black Sea.

The annexation of Crimea in March 2014 and Russia's role in the Ukraine conflict sent ties between NATO and Moscow plunging to post-Cold War lows.

NATO said there would be no return to "business as usual" with Moscow until there was a "a clear, constructive change in Russia's actions".

"We condemn Russia's ongoing and wide-ranging military build-up in Crimea, and are concerned by Russia's efforts and stated plans for further military build-up in the Black Sea region," NATO's ruling North Atlantic Council said in a statement.

The statement said NATO would never recognise Russia's annexation of Crimea and urged Moscow to return the territory to Ukraine.

Iranian leaders announced on Monday the construction of two new nuclear plants, and it remains unclear if the Trump administration views this as crossing a red line since its abandonment of the landmark nuclear deal, which included provisions permitting Iran to work on heavy water nuclear reactors that could provide a plutonium-based pathway to a bomb.

On the same day it announced these new nuclear reactors, which are being built in conjunction with Russia, Iran announced it would be filing papers accusing the United States of "crimes against humanity."

The new nuclear moves are rattling congressional Iran hawks, who have been critical of a series of waivers issued by the Trump administration permitting Iran to continue engaging in nuclear research, including at an underground site that once housed the regime's nuclear weapons program.

It remains unclear if the Trump administration will move to block this activity and sanction any international company that aids Iran in the construction of the new nuclear reactors.

"If the State Department is even considering waivers for Iran to expand its nuclear program, if those are even a little bit in play, you have to ask yourself what else is already a done deal and why that isn't public yet," one veteran Republican official, reflecting the views of many Iran hawks, told the *Washington Free Beacon*.

"You also have to ask yourself if the State Department knows that Republicans won the last presidential election or whether we're all just going to

## US sanctions Iran nuclear researchers, warns of future work

by Staff Writers  
Washington (AFP) March 22, 2019

The United States on Friday imposed sanctions on Iranian nuclear researchers, saying it wanted to warn young scientists to steer clear of any future effort to build a bomb.

Sanctioning 14 individuals and 17 entities, US officials acknowledged that the nuclear work was in the past but said Washington wanted to make the targeted figures "radioactive."

Secretary of State Mike Pompeo on Twitter called the sanctions part of the "maximum pressure campaign" on Iran as the United States tries to roll back the clerical regime's regional influence.

"We'll be relentless in denying Iran the ability to engage in WMD proliferation and all its outlaw activities," said Pompeo, who is on a Middle East tour to build a united front against Iran.

President Donald Trump last year pulled out of an international accord negotiated under his predecessor Barack Obama, under which Iran drastically scaled back its nuclear program, and instead imposed sweeping sanctions.

# U.S., Israel announce successful test of 'David's Sling'

by Ed Adamczyk  
Washington (UPI) Mar 20, 2019

The United States and Israel announced the successful completion of testing of an advanced missile interception system known as "David's Sling."

The test series completed Tuesday in southern Israel was the sixth series of David's Sling tests, and the Missile Defense Agency, a division of the U.S. Defense Department, and the Israel Missile Defense Organization each called the tests a success.

David's Sling was developed by the U.S. company Raytheon and Israel's Rafael Advanced Defense Systems, it employs two-stage Stunner interceptor missiles. Repeated testing has proven the system's ability to destroy large torrents of high-caliber rockets and short-range ballistic missiles, Raytheon said.

The system is an element of Israel's multi-tier layered missile defense architecture, offering mid-tier regional missile defense with a hit-to-kill defense against tactical ballistic missiles, medium- to long-range rockets, enemy planes, drones and cruise missiles.

Officials from the Gaza-based Hamas terrorist organization claim that the rocket fired on central Israel early Monday morning was accidentally launched, denying the incident was a deliberate attack on Israel.

Hamas leaders told Egypt, which has often served as a mediator for talks between Israel and the terror group, that the rocket fired from Gaza which struck a home in the Sharon region of central Israel had been launched by accident.

Arab media outlets have reported that Hamas promised Egypt it would investigate the incident.

## Insulting Putin May Now Land You in Jail Under a New Russian Law

Stepan Kravchenko

(Bloomberg) -- President Vladimir Putin signed laws punishing online media and individuals for spreading “[fake news](#)” or material that’s considered [insulting](#) to Russian officials.

Prosecutors can now complain about online publications to the state communications watchdog, which has powers to block access to the websites if their owners fail to remove the material promptly. Publications found guilty of spreading “unreliable socially significant information” may face fines of as much as 1.5 million rubles (\$23,000).

Individuals also face fines and up to 15 days in jail if they publish material online that expresses “clear disrespect for society, the state, the official state symbols of the Russian Federation, the Constitution of the Russian Federation and bodies exercising state power.”

The measures were attacked during their passage through parliament by the Presidential Human Rights Council, which warned of their potential use as methods of repression against critics of the authorities. Putin signed the legislation after thousands of people protested in Moscow earlier this month against Kremlin plans to establish a “Sovereign internet” that would route online traffic mostly through domestic servers and exchanges.

The FBI and local authorities are warning parents about two "virtual kidnapping" cases in which the suspects demanded a large ransom payment for the return of their child.

As it turns out, no one was abducted in either case. But it didn't stop one father from Laguna Beach, California from paying \$5,000 to the suspect.

## Shocking 'Terminator-like' liquid metal developed by scientists

Scientists have developed a liquid metal that is able to stretch horizontally and vertically, as well as change shapes, much like the T-1000 robot featured in 'Terminator 2: Judgement Day.' The research highlights how liquid metals such as gallium, when mixed with nickel or iron, are able to be manipulated into different shapes, thanks to the use of magnets. While the T-1000 is still far off, future applications can include robots.

While Secretary of State Mike Pompeo's video tour from Jerusalem omits Muslim sites, Al-Aqsa mosque and the Dome of the Rock, it does include a model of the Third Temple some Jewish groups want in place of it.

The iconic mosque and shrine are located on Temple Mount, one of the holiest sites in the world for Muslims, Christians and Jews. The video posted by the State Department shows

A miracle story is emerging after a tornado struck Paducah, KY last week, devastating a church building where 40 preschool kids and 10 church staff were going about their day.

The miracle? No one was killed or injured even though the roof was ripped off. The only room that survived unscathed was the room they were in.

SAN ANTONIO (WOAI) - A San Antonio councilman made a motion Thursday to ban Chick-fil-A from the airport.

District 1 City Councilman Roberto Treviño made a motion Thursday to approve the Food, Beverage and Retail Prime Concession Agreement with Paradis Lagardère at the San Antonio International Airport, but that the agreement exclude Chick-fil-A.

"With this decision, the City Council reaffirmed the work our city has done to become a champion of equality and inclusion," Treviño said. "San Antonio is a city full of compassion, and we do not have room in our public facilities
