اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت . بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيق اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعه سابقا .

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

انجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لننتبه ونستعد

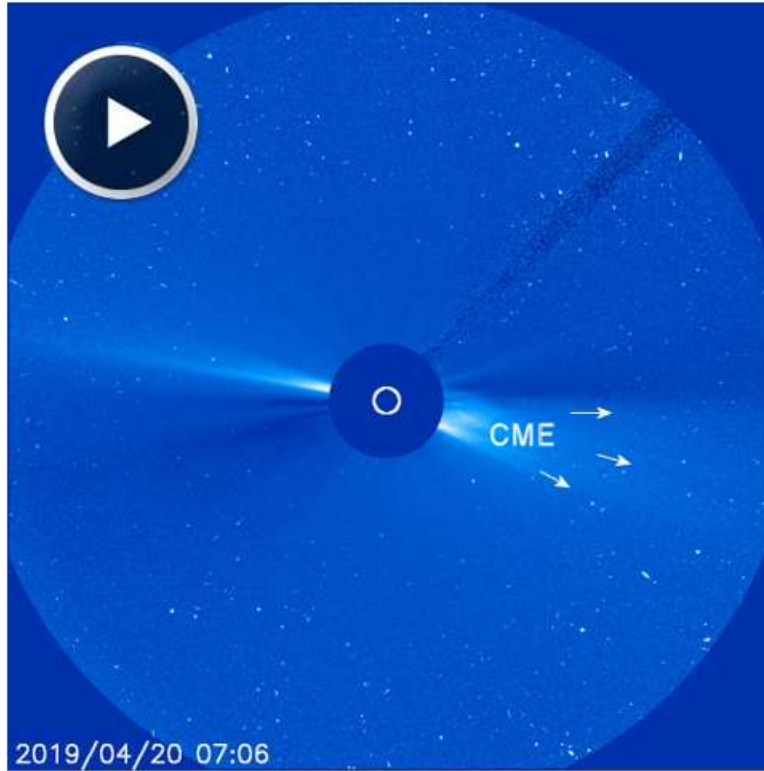

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

CORONAL MASS EJECTION: Big sunspot AR2738 is rotating over the sun's western limb today. Just before it vanished for a 2-week trip around the sun's farside, the sunspot unleashed a parting shot: a [B8-class](#) solar flare and a coronal mass ejection (CME). The Solar and Heliospheric Observatory recorded the CME as it shot out into space:

This CME will not hit Earth. Nevertheless, the explosion was mildly geoeffective. Energetic electrons accelerated by the blast followed [the sun's curved magnetic field](#) back toward Earth, causing a slight enhancement of the radiation environment around our planet—already subsiding. See you again in two weeks, AR2738!

SOLAR WIND, INCOMING: A [southern hole](#) in the sun's atmosphere is facing Earth and spewing a stream of solar wind in our direction. NASA's Solar Dynamics Observatory took this extreme ultraviolet image of the opening on April 21st:

This is a "coronal hole," a region where magnetic fields peel back and allow solar wind to escape. The gaseous material is emerging at speeds near 500 km/s (1.1 million mph), and should reach Earth on **April 23-24**. Minor geomagnetic unrest and polar auroras are possible on those dates. **Aurora Alerts:** [SMS Text](#).

Flooding from the spring thaw and rain has affected more than 2,300 homes in Quebec and 1,500 residents have been evacuated, according to the latest numbers by Urgence Québec.

Soldiers across the province were filling and stacking sandbags as officials warned floodwaters are likely

to keep rising this week due to warming temperatures, combined with rain.

Hundreds of volunteers and municipal workers are also working to protect properties.

Urgence Québec said Sunday there were five major floods affecting residents in 51 different municipalities, including in the Montreal region, where officials are keeping a close eye on Mille-Îles River and

Hundreds of fish found dead in Ingham Lake

 7:08 pm

IOWA NEWS

 April 2, 2019

(KTIV) – Hundreds of fish have been found dead on Ingham Lake, in Emmet County, Iowa.

According to the Estherville News, hundreds of carp and crappie were washed to the shore of the lake.

The Iowa Department of Natural Resources says, “fish kills have become a focus of public attention.”

More than four feet of snow and ice kept sunlight from reaching plants, which produce the oxygen for the lake.

The Iowa DNR says lake kills like this one happen even when plants are producing oxygen.

Long-term residents of Estherville say it happens once every five to 10 years.

Photos of thousands of dead minnows in Pelican Lake circulated on social media have raised concerns, but the chair of the lake's health committee said it's nothing to be concerned about.

"So far, if it's the minnows that we've seen, that would even be a fraction of a per cent. It's tiny. The lake is 7,000 acres and we're talking about a spot that was a few hundred square feet. ... It's OK, we were out testing on Friday, oxygen on the lake is fine," said Trevor Maguire, chair of the Healthy Lake Committee.

The photos were posted in the Facebook group Manitoba Ice Fishing and show thousands of dead minnows — and a few larger fish — washed up on the shore of the lake. Attempts to reach the user who posted the photos were unsuccessful.

The minnows may have died while trying to swim upstream. Maguire said they won't know more until more ice thaws, but they may have

Over 200 migratory birds found dead in Mah; bird flu ruled out

By Staff | Updated: Tuesday, April 2, 2019, 14:39 [IST]

YouTube 210K

Aurangabad, Maharashtra, Feb 24 (UNI) Over 200 migratory 'shank' birds of red and green variety, were found dead in a lake at Gandheli near here in Central Maharashtra even as the animal husbandry department ruled out any symptoms of bird flu in them.

A post-mortem report, conducted by the Animal Husbandry department (AHD), has revealed that the birds died of pneumonia, AHD Deputy Commissioner J M Doiphode said adding "no symptoms of bird flu were found in the migratory birds." However, samples of their viscera have been sent to the disease investigation section of the state government laboratory at Aundh in Pune and Bhopal-based High Security Animal Disease Laboratory, he said.

A sample of live bird is also being sent to the Bhopal laboratory, Mr Doiphode added.

The AHD team has also collected water samples to verify the doubts whether the birds died of contaminated water, he said.

The Ebola Outbreak In Congo Is Close To Becoming A Global Emergency

by Tyler Durden

Authored by Dagny Taggart via The Organic Prepper,

In recent months, public health experts have claimed the deadly Ebola virus outbreak that has been ravaging the Congo will not become a global health threat.

However, recent events and updates paint a less optimistic picture.

Last week, the World Health Organization issued a [statement](#) on the ongoing Ebola outbreak in North Kivu and Ituri provinces of the Democratic Republic of the Congo.

If this Ebola outbreak isn't stopped soon, it could become a global threat.

The recent spike of cases increases the threat that the deadly virus will spread to other countries and efforts must be redoubled to stop it, the WHO said last Friday after a meeting of its expert committee.

On April 12, the WHO claimed that while the ongoing Ebola outbreak in Congo is of "deep concern" the situation does not yet warrant being declared a global emergency.

But don't get too comfortable.

Here are a few concerning excerpts from the statement:

USS Ross tracked by Russian fleet after entering Black Sea

by Allen Cone
Washington (UPI) Apr 16, 2019

The USS Ross, an Arleigh Burke-class guided-missile destroyer, has been deployed to the Black Sea where Russia's fleet is monitoring its movement.

The Ross, which began its northbound transit of the Dardanelles Strait on Sunday, according to the U.S. Navy, is the fourth U.S. ship to visit the Black Sea since the start of the year.

The USS Donald Cook went to the area in February, the second time the Arleigh Burke-class guided-missile destroyer entered the region in 2019. In January, the USS Fort McHenry, an amphibious warship, entered the Black Sea.

The Ross will "conduct maritime security operations and enhance regional maritime stability, combined readiness and naval capability with NATO allies and partners in the region," according to a U.S. Navy news release Tuesday.

The United States works with NATO allies and partners in the Black Sea under Operation Atlantic Resolve.

"Our allies in the Black Sea continue to play a key role in maintaining security in the European theater," said Cmdr. Dave Coles, commanding officer of Ross. "The crew and I look forward to enhancing our interoperability in a dynamic environment as well as experiencing the rich history and culture in this region."

The Dardanelles Strait serves as a vital transportation bridge between the Black Sea and the Mediterranean Sea.

Activity detected at North Korea nuclear site: US monitor

by Staff Writers
Seoul (AFP) April 17, 2019

Activity has been detected at North Korea's main nuclear site, suggesting Pyongyang may be reprocessing radioactive material into bomb fuel since the collapse of a summit with Washington, a US monitor said Wednesday.

The possible signs of fresh reprocessing activity last week come after a February summit between US President Donald Trump and North Korean leader Kim Jong Un ended abruptly without agreement on Pyongyang's nuclear programme.

Since then North Korea has said it was mulling options for its diplomacy with the US and Kim said last week he was open to talks with Trump only if Washington came with the "proper attitude".

The Center for Strategic and International Studies said satellite imagery of the Yongbyon nuclear site on April 12 showed five railcars near its uranium enrichment facility and radiochemistry laboratory.

"In the past these specialized railcars appear to have been associated with the movement of radioactive material or reprocessing campaigns," the Washington-based monitor said.

North Korea's Kim to meet Putin as tensions rise with US

By Theo Merz with Kang Jin-kyu in Seoul
Moscow (AFP) April 18, 2019

North Korea's leader Kim Jong Un will visit Russia for talks with Vladimir Putin this month, the Kremlin said Thursday, as tensions between Washington and Pyongyang spiked higher.

The Kremlin announced the talks just hours after North Korea launched a blistering attack on US Secretary of State Mike Pompeo, demanding he be removed from negotiations over its banned nuclear programme.

Pyongyang also claimed to have tested a new kind of weapon with a "powerful warhead".

The Kim-Putin meeting would be the first between the two leaders, as Moscow seeks to play a role in another global flashpoint.

The Kremlin said Putin had invited Kim and that the meeting would take place "in the second half of April" but provided no further details.

Russia, South Korean and Japanese media had reported this week that preparations were underway for a summit in Russia's Far East.

Russia has relatively warm ties with Pyongyang and provides some food aid, and Putin has long expressed his readiness to meet with the regime leader.

The campaign will target "the crime and conspiracy that aim at liquidating the Palestinian cause under the so-called century deal," said Shaath in a statement.

He added that "we've seen this plan advancing through the US recognition of Jerusalem as Israel's capital, disregarding the Palestinian refugees issue, and recognizing Israeli settlements and Israel's sovereignty over the Golan Heights."

Everybody knows what it's like to suffer alongside a loved one in crisis.

That includes Chrissy Metz.

And, the "This Is Us" star said, that's what drew her to the role of Joyce Smith in the new movie "Breakthrough," releasing Wednesday (April 17) in time for Easter weekend.

"Breakthrough" dramatizes the true story of Smith, whose 14-year-old son, John, fell through the ice on a frozen Missouri lake in 2015. John spent more than 15 minutes underwater and another 43 minutes with no signs of life — until his mother began to pray over him in the emergency room.

Three weeks later, John walked out of the hospital on his own and without brain damage — something his doctor described to NBC News at the time as a "bonafide miracle."

(CBN News) – The blaze that engulfed and destroyed a large part of Notre Dame cathedral in Paris has now been fully extinguished. The world watched in horror Monday as the cathedral went up in flames. Distraught Parisians gathered all around as the iconic structure glowed bright red and smoke filled the skies. Some bowed to pray in the streets as firefighters battled the blaze. "It was just heartbreaking to watch. The ladders were not tall enough.

The hoses were not strong enough," said eye witness John Dickas in an interview with ABC News. The heat from the flames felt even on the opposite side of the river Seine. At the height of the fire, the cathedral spire that marked the Paris skyline, toppled from the intense flames. One witness posted this cell-phone video of a group of

276 mostly Christian schoolgirls were abducted by Boko Haram in late April 2014.

It's been nearly a year since a Muslim terrorist threatened that the rest of the 276 mostly Christian schoolgirls who were abducted five years ago in Nigeria never would come home.

Now parents of many of girls who are still missing demand action by the Nigerian government, reports reports Joseph Farah's G2 Bulletin.

Hamsatu Allamin, founder of the Jire Dole Network, spoke recently to mark the fifth anniversary of the kidnapping of the girls by Boko Haram terrorists from a secondary school in Chibok in northeast Nigeria.

Of the 276 abducted, about 160 have escaped or been rescued.

But more than 100 remain in the hands of the terrorists. And last year, a captured terrorist told police the rest of the girls never will return, having been "indoctrinated and married to Boko Haram fighters."

Discrimination against Jews and Christians has surged in the United States in the last few years, even as reported attacks against Muslims and gays has gone down slightly.

That's according to a new survey by Pew Research.

"The public sees widespread discrimination against several racial, ethnic and religious groups in the U.S. And while most of these views are little changed over the last several years, the share of Americans saying Jews face discrimination in the U.S. has increased substantially since late 2016," the report said.

"Today, 64 percent of Americans say Jews face at least some discrimination – a 20-percentage-point increase from 2016; the share saying Jews face 'a lot' of discrimination has nearly doubled, from 13 percent to 24 percent. Democrats remain more likely than Republicans to say there is discrimination against Jews, but the shift in these views

Only 46 percent of self-identified Christians in Britain believe that Jesus Christ died on the cross on Good Friday and rose from the dead on Easter Sunday, according to a BBC poll released on Palm Sunday at the beginning of Holy Week. Those who do believe in Jesus's death and Resurrection were less likely to find a wide array of sins "unforgivable."

فلهذا اطلب أن نصلي ونستعد ونعد زيت لمصاييحنا لاستقبال العريس بالصلاة والصوم وخدمة

رسالة بولس الرسول الي أهل رومية 13

13: 11 هذا وأنكم عارفون الوقت انها الان ساعة لنستيقظ من النوم فان خلاصنا الان أقرب مما كان حين امنا

13: 12 قد تنهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلياقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيرا للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف

وَلَكِنْ وَإِنْ تَأَلَّمْتُمْ مِنْ أَجْلِ الْبِرِّ، فَطُوبَاكُمْ. وَأَمَّا خَوْفُهُمْ فَلَا تَخَافُوهُ وَلَا تَضْطَرُّوْا،

بل نؤمن

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.

وأیضا استعدوا فقد تسلموا وديعتكم في أي وقت فهناك 150 ألف شخص يموتوا في اليوم الواحد
