اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيق اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

NASA Chief Warns of Potential 'Major Asteroid Strike on Earth in Our Lifetime'

04-30-2019 - Steve Warren

NASA and various scientific experts are participating in their latest drill this week, examining what federal agencies would do in case an asteroid struck our planet.

If you think this sounds like the good premise for a science fiction movie, NASA administrator Jim Bridenstine would probably agree with you. However, Bridenstine thinks Earth could face the real possibility of such a catastrophic event within our lifetime.

Hubble Spots Giant 'Buckyballs' Jiggling Like Jell-O in Space

By [Mindy Weisberger](#), Senior Writer | April 30, 2019 03:40pm ET

These spherical molecules of carbon – known as buckyballs – jiggle, shimmy and shake, as though they were made of jelly.

Credit: NASA/JPL-Caltech

The Hubble Space Telescope recently spied new evidence of a peculiar molecule: wiggly buckyballs, which have intrigued astrophysicists since they were discovered in space nearly a decade ago.

Dubbed Buckminsterfullerene, these supersize molecules are made of 60 carbon atoms linked together in pentagons and hexagons to form a hollow sphere. The shape of these structures is much like a soccer ball, or like the geodesic domes designed by 20th-century architect Richard Buckminster Fuller (the inspiration for the molecule's name).

Buckyballs were first spotted in space in the form of a gas in 2010, and then as particles in 2012. And now, Hubble has spotted the first evidence of charged buckyballs hiding in the thin plumes of gas and dust that drift between stars, known as the interstellar medium,

Is a Mega-Tsunami About to Crash Into the East Coast of the United States?

Someday, a giant meteor will slam into the Atlantic Ocean, and the colossal tsunami that is produced will wipe out most of the people that are living along the east coast. System Off Florida May Be 2019's First Named Atlantic Storm

(Bloomberg) – The Atlantic hurricane season's official start is a month away, but the waters off Florida are already churning.

A patch of low pressure swirling over the northwest Bahamas has a 20 percent chance over the next five days of becoming the first tropical storm of 2019, the National Hurricane Center in Miami said. Either way, the system will probably dump heavy rains across Florida and the Bahamas.

"May storms are not all that uncommon," said Jim Rouiller, chief meteorologist at Energy Weather Group. "As far as energy production is concerned there is not one worry."

Flooding from Michigan to the South damages homes, sends Mississippi River to 157-year-high in Davenport, Iowa

By **Strange Sounds** - May 3, 2019 0

Scatter severe thunderstorms stretching from Texas to Ohio Valley brought tornadoes and flooding across several states. The storms overturned trucks, damaged homes and forced many to seek high ground. At least seven people are dead as a result of storms and flooding since Monday. The Mississippi River ticked above levels reached in 1993 in Davenport, Iowa, the highest level there in 157 years. The city's downtown area remained under water Friday, days after a temporary levee gave way. Michigan Gov. Gretchen Whitmer declared a state of emergency Thursday for Wayne County. At least 3,000 homes have been damaged in Wayne County from flooding.

Abstract

Background

Emerging evidence indicates that plant miRNAs can present within human circulating system through dietary intake and regulate human gene expression. Hence we deduced that comestible plants miRNAs can be identified in the public available small RNA sequencing data sets.

Results

In this study, we identified abundant plant miRNAs sequences from 410 human plasma small RNA sequencing data sets. One particular plant miRNA miR2910, conserved in fruits and vegetables, was found to present in high relative amount in the plasma samples. This miRNA, with same 6mer and 7mer-A1 target seed sequences as hsa-miR-4259 and hsa-miR-4715-5p,

Trump says he welcomes China, Russia help over NKorea

By Sebastian Smith with Kang Jin-kyu in Seoul
Washington (AFP) April 26, 2019

President Donald Trump on Friday welcomed Russian and Chinese help with North Korean nuclear negotiations, despite Kim Jong Un accusing the US of "bad faith" at a first summit with Vladimir Putin.

"I appreciate that Russia and China are helping us," he told reporters at the White House.

Putin's first summit with Kim on Thursday was seen as a response to the failure of a Kim-Trump meeting in Hanoi in February, where talks broke down without agreement.

But Trump indicated that he does not see China and Russia as rivals in the struggle to get North Korea to give up its nuclear arsenal.

"China is helping us because I think they want to. They don't need nuclear weapons right next to their country," Trump said.

"I think we're doing very well with North Korea. A lot of progress is being made," he added.

"I appreciated President Putin's statement yesterday. He wants to see it done also. I think there is a lot of excitement for getting a deal done with North Korea."

Kim left his summit with Putin indicating that he has cooled on the much-touted bid by Trump to woo his country into a non-nuclear future.

North Korea has fired several short-range projectiles eastward from the city of Wonsan on its east coast, according to South Korea's Joint Chiefs of Staff, which initially misidentified the objects as missiles.

The projectiles went off at 9:06 a.m. on Saturday from the east coast town of Wonsan in the direction of the Sea of Japan (known in the Korean peninsula as the East Sea), Yonhap news agency reported, quoting South Korea's Joint Chiefs of Staff (JCS), which initially misidentified the objects as ballistic missiles. The projectiles flew between 70 and 200km.

Raytheon shoots down drone with lasers, microwaves in Air Force test

by Ed Adamczyk
Washington DC (UPI) May 01, 2019

A U.S. Air Force exercise involving high-energy microwaves and guided lasers to shoot down drones was a success, contractor Raytheon announced.

Dozens of unmanned aerial targets were defeated in the tests at White Sands Missile Range, N.M., a Raytheon statement released on Tuesday said.

The event expanded on previous directed energy demonstrations, including a U.S. Army exercise in 2017 and a previous Air Force test in January.

The high energy laser system uses invisible beams of light to shoot down aerial targets, and the high-powered microwave bursts disrupt drone guidance systems. Its primary advantages are speed and a low cost per engagement. The weapons have been mounted on all-terrain vehicles specially made by Minnesota's Polaris Industries for the military.

"After decades of research and investment, we believe these advanced directed energy applications will soon be ready for the battlefield to help protect people, assets and infrastructure," said Dr. Thomas Bussing, Raytheon Advanced Missile Systems vice president.

Raytheon and the U.S. Air Force Research Laboratory have partnered on a \$2 million contract to test and demonstrate high-power microwave and counter-UAV [unmanned aerial system] technologies.

Missile contracts surge as US exits arms treaty: study

By Nina LARSON
Geneva (AFP) May 2, 2019

Washington has signed more than \$1 billion in new missile contracts in the three months since it announced plans to withdraw from a key Cold War-era arms treaty, campaigners said Thursday.

"The withdrawal from the INF Treaty has fired the starting pistol on a new Cold War," warned Beatrice Fihn, who heads the Nobel Peace Prize-winning International Campaign to Abolish Nuclear Weapons (ICAN).

US President Donald Trump announced last October that his country would leave the Intermediate-Range Nuclear Forces (INF) agreement concluded between the US and the former Soviet Union in 1987.

Washington, which accused Russia of violating the treaty through a new missile system, began the official process of withdrawing from the pact in February.

Russian President Vladimir Putin responded by saying Moscow would also leave the INF treaty, which is considered the cornerstone of global arms control.

In the three months following the October announcement, the US government "proceeded to arrange no less than \$1 billion in new missile contracts", according to a report by ICAN and another anti-nuclear campaign group, PAX.

The report detailed over \$1.1 billion in new contracts with six mainly US companies.

US defence contractor Raytheon saw the biggest windfall, tallying 44 new contracts worth some \$537 million.

Lockheed Martin meanwhile scooped up 36 new contracts, worth \$268 million, while Boeing grabbed four new contracts totalling \$245 million, the report found.

Iraqi premier warns IS weakened, not defeated

by Staff Writers
Berlin (AFP) April 30, 2019

Iraqi Premier Adel Abdel Mahdi said Tuesday the Islamic State group had been militarily weakened but not defeated, as the recent deadly Sri Lanka bombings had shown.

An IS propaganda video released Monday with a purported appearance by the jihadist group's elusive supremo Abu Bakr al-Baghdadi showed him in what appeared to be a "very simple and isolated" location, Mahdi said on a visit to Berlin.

"One and a half years ago Daesh (IS) controlled large areas in Iraq and Syria, and now Baghdadi appears in an isolated, unknown location," he said about the world's most wanted man.

"He did not seem to be among his followers like the first time in Mosul", he said, referring to a 2014 video in which Baghdadi announced the birth of the Islamic State group's much-feared "caliphate" across swathes of Iraq and Syria.

After losing its last remaining territory in the Syrian town of Baghouz in March, "IS has not completely disappeared but suffered painful blows", the Iraqi premier said at a joint press conference with German Chancellor Angela Merkel.

Mahdi cautioned that IS "will try to rebuild trust among its fighters, will try to launch further operations" like the Sri Lanka April 21 attacks which killed more than 250 people.

"Daesh was broken, but if little cells are left, it could reactivate and resurface and commit painful attacks," he added, according to interpreted remarks.

Similarly, Merkel said the video was a sign that "we will remain occupied for some time to come with the question of how IS can finally be defeated."

The Islamic Jihad commander in Gaza Ziad Nahala responded Thursday to the revelation regarding the commander of the northern brigade of the organizations' military wing Baha al-Atta earlier this week. They believe the publication of his name is an indication that Israel will assassinate him if terror attacks continue.

"We will respond with all our might to any killing of our member regardless of their rank, occupation or organization affiliation," Nahala said and threatened to "strike major cities in retaliation regardless of prior agreements. We will have not red lines."

GAZA/JERUSALEM, May 4 (Reuters) - Gaza militants fired dozens of rockets into Israel on Saturday, drawing a wave of Israeli air strikes that killed a Palestinian baby and a gunman, as hostilities flared across the border for a second day.

The escalation began on Friday when a sniper from the Palestinian Islamic Jihad militant group fired at Israeli troops across the border wounding two of them, according to the Israeli military. A retaliatory Israeli air strike then killed two militants from the Islamist Hamas group that rules Gaza.

Two other Palestinians protesting near the frontier were also killed by Israeli forces.

Mark Zuckerberg, 34, unveils his latest venture: a universal basic income for all Canadians

Mark Zuckerberg steps down as CEO of Facebook to launch a new type of social program alongside his wife, Priscilla, in various countries around the world. Both strong advocates for a guaranteed income, Mark and Priscilla have rolled out the program through their Chan Zuckerberg Initiative, a non-profit organization that seeks to promote equal opportunity. As more and more jobs are threatened by robots, they claim to have come up with a plan to eventually introduce a universal basic income - which is basically a minimum salary that will be paid to all people. Though it seems like a great idea, it will be expensive. How expensive? At least \$43 billion.

When asked for further information, and how they would benefit from this, the couple went on to say that "the tax credits and benefits alone would make this venture

Anti-Semitic attacks spike, killing most Jews in decades

By ARON HELLER Associated Press May 1, 2019 Updated 14 hrs ago 54

FILE - In this April 29, 2019, file, photo, Hannah Kaye, center, the daughter of Lori Kaye, who died when a man opened fire during Passover service inside a synagogue, sits on the ground with her aunt, Randi Grossman, as the last shovels of dirt cover her mother's grave during funeral services, in San Diego. Israeli researchers reported Wednesday, May 1, 2019, that violent attacks against Jews spiked significantly last year, with the largest reported number of Jews killed in anti-Semitic acts in decades, leading to an "increasing sense of emergency" among Jewish communities worldwide.

The historicity of the Bible, or the Christian book's acceptability as a history, is a controversial and contested field study. Few archaeological discoveries have so far supported many of the Old Testament's narratives as history. But a groundbreaking study of an ancient stone tablet may have overturned a thousand years of Old Testament understanding.

Despite a majority of researchers questioning the accuracy of the Book of Exodus, some believe that Jews's flight from Egypt did indeed take place – and that new evidence of this is poised to “seriously shift” the frame of discussion.

Researchers from the Doubting Thomas Research Foundation (DTRF), which investigates the historicity and evidence of Biblical accounts, say they may have found the route to the Promised Land taken by the Israelites under Moses' leadership.

Filmmaker Ryan Mauro of the DTRF had made three trips to Saudi Arabia, which he

Prophetic Dream: Witches Are Infiltrating Churches at Alarming Rate

Witches are infiltrating the church right now at a level Christians have never seen before, says Andy Sanders.

In an interview with *Charisma News*, Sanders—an author and prophetic voice—says this is because the devil has lost some ground in the church and U.S. government.

"I had several dreams and times when God came to me, saying, 'You need to start preparing and warning the body of Christ that witches are on the loose,' he says. "They're no longer sleeping and just camping out anymore."

He recalls an instance when a witch infiltrated a church he was pastoring. One of the members was put on staff against the previous pastor's will. Over the years, that person

Suicide is at a 19-year-high among kids ages 10 to 17, and some are suggesting it's tied to the release of the Netflix drama "13 Reasons Why" which showed a girl ending her life.

Researchers admit they cannot prove the connection, but they do say there were 195 more youth suicides than would have been expected in the nine months after the show came out in March 2017.

This important story has been out for some days now, but I waited before writing. Why? It's because I did not want to write yet another article on transanity. Another article on extreme transgender activism. Another article on the world being turned upside down.

But this is too urgent. Too disturbing.

In a totalitarian regime, it's a parents' worst nightmare.

I'm talking about government intervention. About hostile, outside forces coming right into your home and usurping your authority. About the courts forbidding you from parenting your child. And, worse still, threatening to punish you if you dare try.

NASHVILLE, Tenn. — Four “transgendered” people have filed suit against the State of Tennessee in an effort to obtain a court order that would allow them to have their birth certificate changed to reflect their “gender identity.”

“For transgender people, the sex designation on their original birth certificate is inaccurate because they were assigned the incorrect sex at birth. Correcting the sex designation on their birth certificate is thus critically important for transgender people,” [the lawsuit](#), filed by Lambda Legal on Thursday, reads.

Four VA School Systems Claim 'Thousands' of Transgender Students in Landmark Case

04-30-2019 - Emily Jones

Four schools in northern Virginia claim there are "thousands of students in Virginia public schools who...identify as transgender" and should be allowed to use whatever bathroom they choose.

The Washington Post reports that the Alexandria, Arlington, Falls Church, and Fairfax County school boards filed a friend-of-the-court brief on behalf of Gavin Grimm, a biological girl who sued her school board in Gloucester County, Virginia in 2015 after being denied access to the boys' restroom.

Second 'Drag Queen Story Hour' Reader in Houston Exposed as a Convicted Child Sex Offender

04-30-2019 - [Steve Warren](#)

The Houston, Texas group known as the Houston MassResistance activists have exposed a second "drag queen" as a convicted child sex offender, who was involved in reading stories to children at a local library.

[LifeSite News](#) reports the man was convicted of multiple sexual assaults against four young children (ages 4, 5, 6, and 8) in 2004. He was incarcerated and is listed as a "high-risk sex offender."

Meet the 10-year-old who is not a boy or a girl: 'I am who I am'

Xander Martin is a lot like any other 10-year-old. The Bowie native likes to read, play with animals, and climb fences. But this pre-teen is also non-binary, meaning Xander doesn't identify as either a boy or a girl. Now Xander wants you to understand what this means.

'Downright Sickening': CA Preps Graphic Sex Ed with Bondage, 'Blood Play', and K-3 Gender Queer

05-01-2019 - Heather Selis

The state of California is poised to adopt a no-holds-barred K-12 **health curriculum** that teaches children as young as kindergarten about gender identity issues and talks explicitly with high school students about every imaginable sex act.

The State Board of Education has been taking public comment on the curriculum for months and despite protests from various parent and conservative groups, it appears it will adopt it this month.

فلهذا اطلب أن نصلي ونستعد ونعد زيت لمصاييحنا لاستقبال العريس بالصلاة والصوم وخدمة

أبناء الله وتنقية القلب والاستعداد بلبس العرس.

رسالة بولس الرسول الي أهل رومية 13

13: 11 هذا وأنكم عارفون الوقت انها الان ساعة لنستيقظ من النوم فان خلاصنا الان أقرب مما كان حين امنا

13: 12 قد تنهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلياقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيرا للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

بطرس الأولى 3: 14

وَلَكِنْ وَإِنْ تَأَلَّمْتُمْ مِنْ أَجْلِ الْبِرِّ، فَطُوبَاكُمْ. وَأَمَّا خَوْفُهُمْ فَلَا تَخَافُوهُ وَلَا تَضْطَرُّوْا،

بل نؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.».

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.

وأيضا استعدوا فقد تسلموا وديعتكم في أي وقت فهناك 150 ألف شخص يموتوا في اليوم الواحد

انت لا تعرف متى ستكون منهم

المسيح اقترب فاصنعوا ثمار تليق بالتوبة واستعدوا لاستقبال العريس.

والمجد لله دائما
