اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت . بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيق اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعه سابقا .

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترت فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترت لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

انجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَأَن تُوْمِنُونَ.

ثالثا لننتبه ونستعد

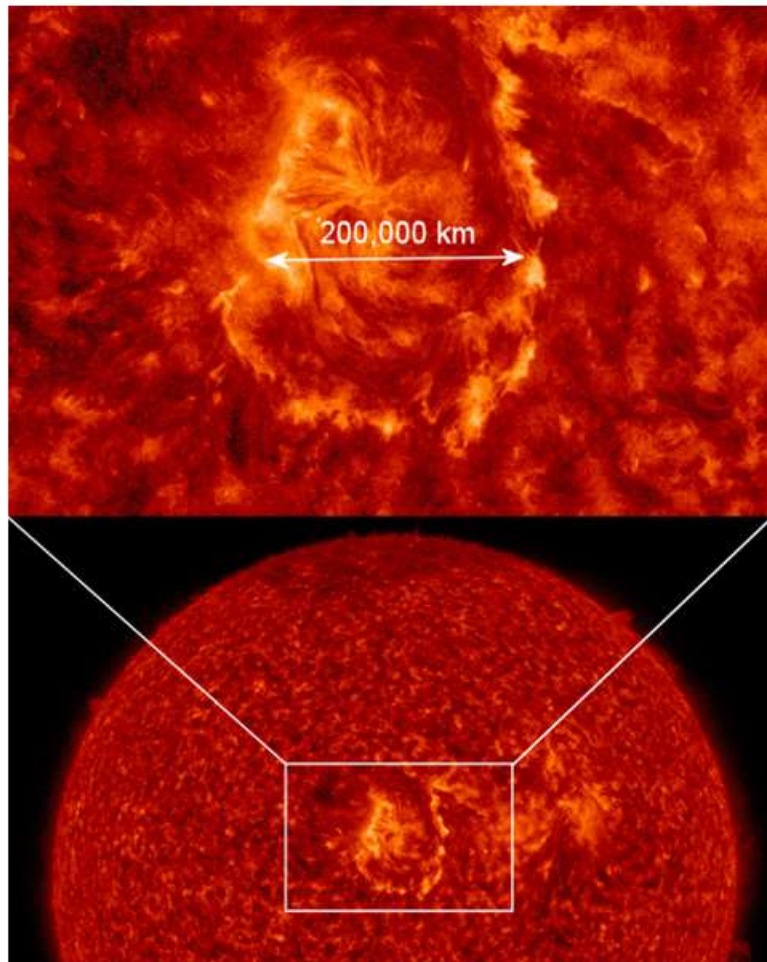

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

MULTIPLE CMEs ARE COMING: Three and possibly four CMEs are en route to Earth following a series of explosions near sunspot AR2741. The most potent so far occurred on **May 12th** when a filament of magnetism surrounding the sunspot became unstable and erupted. The blast zone was more than 200,000 km in diameter.

Similar eruptions on **May 10th** (twice) and **May 13th** have combined with this one to produce a train of faint coronal mass ejections (CMEs) heading in our direction. The incoming CMEs are lightweights compared to the bright massive CMEs typically seen during Solar Maximum. However, their combined effect could rattle Earth's magnetic field.

China's Chang'E 4 mission discovers new 'secrets' from the far side of the moon

by Chinese Academy of Sciences

A lunar lander named for the Chinese goddess of the moon may have lessened the mystery of the far side of the moon. The fourth Chang'E probe (CE-4) was the first mission to land on the far side of the moon, and it has collected new evidence from the largest crater in the solar system, clarifying how the moon may have evolved. The results were published on May 16, 2019, in *Nature*.

Most people have never heard of a volcano in Germany. Well, the caldera of Laacher See was formed after the Laacher volcano that erupted between 12,900 and 11,200 years ago. The estimated **Volcanic Explosivity Index** value was that of 6, which means that this eruption was 250 times larger than the eruption of Mount St. Helens back in 1980. Remains of

Dead fishes wash ashore in Zamboanga

ZAMBOANGA CITY: Thousands of dead fish were washed ashore in the southern Philippine port city of Zamboanga and suspected to have died from lack or low level of dissolved oxygen.

Mayor Maria Isabelle Climaco Salazar has dispatched a team of experts from the Office of the City Agriculturist, Office of the City Environment and Natural Resources and members of the Bureau of Fisheries and Aquatic Resources (BFAR) to investigate the fish kill, which occurred late on Wednesday.

Salazar inspected the shorelines and ordered the immediate clean-up of the area, and warned villagers against consuming the dead fish, mostly rabbitfish or spine foot fish locally known as danggit, saying the team of experts were still processing water samples and fish taken from the western coastline.

It came as a huge surprise to visitors on the downstream end of Sathanur reservoir to see thousands of fish washed ashore on Friday morning.

Dead fish were washed ashore for a stretch of about 400 metres. Alerted by the locals, officials of the Public Works Department and Department of Fisheries here visited the spot and collected the dead fish.

Sources said the dead fish would be sent to Fisheries College and Research Institute to ascertain the exact reason for their mysterious death. Fishermen and the villagers allege that the miscreants may have used some toxic substances which caused the death of the

Waves roll into a dead whale at Ocean Beach in San Francisco, Monday, May 6, 2019. The Marine Mammal Center plans a necropsy to determine what killed the animal. (Photo: Jeff Chiu, AP)

SAUSALITO, Calif. – Marine mammal experts are concerned about the death of a gray whale that washed ashore in San Francisco.

The whale found Monday on Ocean Beach was the ninth discovered in the San Francisco Bay Area since March.

The Marine Mammal Center plans a necropsy to determine what killed the animal.

The center says four previous whales died from malnutrition and three were struck by ships. The cause of death for another hasn't been determined.

Beachgoers were stunned when they saw wave after wave of dead sharks being washed onto the sand.

A video shows a beach strewn with around 100 shark bodies, some of which had decomposed in the water.

Some fear they may have had their fins removed before being tossed back into the sea, while others think net fishing killed them.

Early dengue virus infection could 'defuse' zika virus

Date: May 17, 2019

Source: German Center for Infection Research

Summary: The Zika virus outbreak in Latin America has affected over 60 million people up to now. The infection can have potentially fatal consequences for pregnant women and their unborn children: many children have subsequently been born with malformations of the head (microcephaly). A particularly high incidence of these Zika-associated malformations exists in northeastern Brazil. Scientists tried to find out the reasons for this regional cluster and discovered a surprising protective factor.

"We now know for sure that Zika virus infection during pregnancy can affect the unborn fetus in such a way that the child develops microcephaly and other severe symptoms," explains Prof Felix Drexler, a virologist at the Charité who has been developing diagnostic tests for Zika and other viruses at the DZIF. Just a few years ago, pictures of affected new-borns were cause for worldwide dismay and perplexity. "However, what we did not understand then was that high incidence of microcephaly seemed to occur particularly in

Measles is a natural cancer killer

About the author: [Bryan Hubbard](#)

April 12th 2019 in [Cancer](#), [Clinic \(multi-discipline\)](#)

Health authorities may want to think twice about eradicating measles: researchers are discovering that the virus can fight cancer, and in one case dissolved a golf ball-sized tumor in just 36 hours.

The virus makes cancer cells join together and explode, explains Mayo Clinic researcher Dr Angela Dispenzieri. It also stimulates the immune system to detect any recurring cancer cells and 'mops them up'.

Although it's been recognised for a long time that measles and other viruses are natural cancer fighters—it's known as virotherapy—the dose seems to be an important factor. Dispenzieri and her Mayo colleagues engineered, or genetically modified, the measles virus strain, and gave it in a dose strong enough to vaccinate 10 million people to a woman with end-stage multiple myeloma.

Virotherapy was a last-resort therapy as the 49-year-old woman had endured every type of chemotherapy and two stem cell transplants without success.

A response was immediate. Within five minutes, the doctors say she developed a splitting headache and a temperature of 105 degrees F, before she started vomiting and shaking. A tumor the size of a golf ball had disappeared inside 36 hours, and all signs of cancer had disappeared from her body within two weeks.

Iranian navy commander Rear Admiral Hossein Khanzadi on Sunday called on the US forces in the Persian Gulf to leave, *Reuters* reported, citing the *ISNA* news agency.

"The presence of the Americans in the Persian Gulf region has reached its end and they must leave the region," Khanzadi said.

In addition, a senior Iranian Revolutionary Guards commander said the US military presence in the Gulf used to be a serious threat but now represents a target.

"An aircraft carrier that has at least 40 to 50 planes on it and 6,000 forces gathered within it was a serious threat for us in the past but now it is a target and the threats have switched to

US sends naval strike group as tensions rise with Iran

by Staff Writers
Washington (AFP) May 11, 2019

The United States is deploying an amphibious assault ship and a Patriot missile battery to bolster an aircraft carrier and B-52 bombers already sent to the Gulf, ratcheting up pressure Saturday on archfoe Iran.

In response to alleged threats from Iran, the USS Arlington, which transports marines, amphibious vehicles, conventional landing craft and rotary aircraft, and the Patriot air defence system will join the Abraham Lincoln carrier group, the Pentagon announced Friday.

The carrier and a B-52 bomber task force were ordered towards the Gulf, as Washington reiterated that intelligence reports suggested Iran was planning some sort of attack in the region.

CENTCOM, the US forces for the Middle East and Afghanistan, said Friday on Twitter that the B-52 bombers arrived at the area of operations on May 8, without saying where they had landed.

US President Donald Trump's national security advisor John Bolton has said the deployment aimed to send a "clear and unmistakable" message to Iran about any attack against the US or its partners in the region.

Washington has not elaborated on the alleged threat, drawing criticism that it is overreacting and unnecessarily driving up tensions in the region.

There was no immediate reaction from Tehran on the latest US moves, but earlier in the week it shrugged off the carrier deployment.

"Bolton's statement is a clumsy use of an out-of-date event for psychological warfare," Iran's Supreme National Security Council spokesman Keyvan Khosravi said.

The increasing tensions come as Tehran said Wednesday it had stopped respecting limits on its nuclear activities agreed under a 2015 deal with major powers.

Britain warns US of ‘unintended’ escalation in conflict with Iran as Trump sends bombers to the Gulf

 [Independent](#) · [Chris Riotta, The Independent](#) · May 12, 2018

Foreign Secretary [Jeremy Hunt](#) has warned US officials about what he says could become an unintended escalation of conflict in the Persian Gulf.

"We need to make sure that we don't end up putting Iran back on the path to re-nuclearisation," he told reporters on Monday, before meeting with US Secretary of State [Mike Pompeo](#) and EU foreign ministers.

The meeting was scheduled to reportedly discuss the possibility of a nuclear arms race in the [Middle East](#) shortly after Donald Trump ordered US warplanes and an aircraft carrier to the increasingly unstable region.

"We are very worried about a conflict, and the risk of a conflict ... of an escalation that is unintended," Mr Hunt said after arriving in [Brussels](#), according to *Reuters*.

Mr Hunt also called for "a period of calm so that everyone understands what the other side is thinking."

Spain pulls its frigate from US military build-up in Gulf

AFP • May 14, 2019

Madrid (AFP) - Spain has recalled a frigate accompanying a US aircraft carrier to the Middle East because of rising tensions between Washington and Tehran, the defence ministry said Tuesday.

"For the moment the frigate Mendez Nunez has left the combat group of the USS Abraham Lincoln," a ministry spokesman told AFP, confirming a report in the Spanish daily El Pais.

"It's a temporary withdrawal, decided by Defence Minister Margarita Robles, as long as the American aircraft carrier is in this zone," the spokesman added.

Arms on Putin's agenda before Pompeo meeting

by Staff Writers
Moscow (AFP) May 13, 2019

Russian President Vladimir Putin is expected to visit a top military flight test centre and inspect new weaponry on Tuesday, hours before he meets US Secretary of State Mike Pompeo, the Kremlin said.

Pompeo will visit Putin in Russia's Black Sea resort of Sochi for the highest-level talks between Moscow and Washington in nearly a year.

Ahead of the negotiations Putin will visit one of Russia's leading military aircraft testing centres in the southern Astrakhan region, the Kremlin said on Monday.

"The head of state will be shown aircraft already in production and prototype weapons," the Kremlin added.

During the Sochi meeting, Pompeo is expected to push for progress on arms control as well as the Venezuela crisis.

The two are expected to meet Tuesday evening, according to the current schedule.

A key bilateral accord, the Intermediate-Range Nuclear Forces treaty, has collapsed this year after the United States pulled out over charges that a Russian missile system violated it.

Putin and Pompeo are also expected to discuss the fate of the New START treaty, which caps the number of nuclear warheads at well below Cold War limits.

Saudi paper urges US 'surgical strikes' on Iran

AP | Published: 05.16.19 , 16:23

A state-aligned Saudi newspaper is calling for "surgical" U.S. strikes in retaliation against alleged threats from Iran.

The Arab News published an editorial in English on Thursday, arguing that after incidents this week against Saudi energy targets, the next logical step "should be surgical strikes."

The editorial says U.S. airstrikes in Syria, when the government there was suspected of using chemical weapons against civilians, "set a precedent."

It added that it's "clear that (U.S.) sanctions are not sending the right message" and that "they must be hit hard," in reference to Iran, without elaborating on what specific targets should be struck.

India and France hold biggest naval exercises -- with one eye on China

by Staff Writers

On Board The French Aircraft Carrier Charles De Gaulle (AFP) May 10, 2019

With the aircraft carrier Charles de Gaulle at the centre, France and India on Friday stepped up their biggest naval exercises as the Indian Ocean's strategic shipping lanes draw ever more envious eyes.

Without naming the Asian giant, India and France worry about China's growing economic clout and its territorial claims that have caused tensions in the South China Sea.

"We think we can bring more stability to a region that is strategic, that has huge stakes, notably for international trade," said Rear Admiral Olivier Lebas, who commands the French fleet that includes its only aircraft carrier.

The vast majority of trade between Asia and Europe and the Middle East -- particularly oil -- is carried across the ocean, while internet-communications cables straddle the seabed that is rich with its own oil and gas fields.

The 42,000 tonne Charles de Gaulle is one of 12 warships and submarines -- six from each country -- taking part in the 17th annual exercises off the coast of the Indian resort state of Goa.

French authorities say they are the biggest ever since the exercises started in 2001. And the presence of the aircraft carrier, which has just undergone an 18-month refit, is no accident.

Trump to visit S.Korea for talks on N.Korea nukes: White House

by Staff Writers
Washington (AFP) May 15, 2019

President Donald Trump will visit South Korea in June to meet with his counterpart Moon Jae-in over their efforts to persuade North Korea to scrap its nuclear weapons arsenal, the White House said Wednesday.

"President Trump and President Moon will continue their close coordination on efforts to achieve the final, fully verified denuclearization of the Democratic People's Republic of Korea," the White House said in a statement, using North Korea's official name.

The White House said Trump's visit to South Korea would combine with his visit to nearby Japan, where he will attend a G20 summit in Osaka on June 28-29.

Trump has made attempts to negotiate with North Korea a top priority. However, his two summits with all-powerful leader Kim Jong Un have produced no breakthrough in getting the totalitarian state to relinquish its nuclear weapons.

Turkey is considering a US request to delay the purchase of the Russian S-400 missile defense system until 2020, two people familiar with the proposal told *Bloomberg* on Monday.

Turkey's deal with Russia [to purchase the S-400 air defense missile system](#) has caused tensions between Washington and Ankara.

The US believes the S-400 sale is part of Russian efforts to disrupt the alliance amid Western concern over Turkish President Recep Tayyip Erdogan's burgeoning relationship with Russian President Vladimir Putin.

KUALA LUMPUR (Reuters) - Malaysian police are investigating the case of a teenager believed to have jumped to her death after asking her social media followers to vote on whether she should kill herself.

The 16-year-old girl, who was not named, had run a poll on photo-sharing app Instagram with the question “Really Important, Help Me Choose D/L”, hours before jumping off the roof of a building in Sarawak, on Malaysia’s east, on Monday, district police chief Aidil Bolhassan told Reuters.

The ‘D/L’ meant ‘Death/Life’, and the poll had showed 69% of the girl’s followers chose ‘D’, he said.

“We are conducting a post-mortem to determine whether there were other factors in her death,” he said, adding that the girl

China's nuclear option of dumping US bonds would cause absolute chaos in global markets – expert

The ongoing tit-for-tat tariff exchange between China and the US could push Beijing to strike back with the so-called 'nuclear option' – dumping its vast holdings of US Treasury bonds.

While the move would be partly self-defeating for China, it would also have devastating consequences for global financial markets, Sourabh Gupta, a senior fellow at the Institute for China-America Studies in Washington told RT.

China's currency is sending a warning signal about the trade war

- China's currency has been a closely watched barometer for progress in U.S.-Chinese trade talks, and for months the Peoples' Bank of China seemed to keep it on a steady path.
- Since President Trump first tweeted about new tariffs May 5, the yuan has lost 2.7% against the dollar and it is now sliding toward a psychological level that if reached, could send turbulence through global financial markets.
- The currency could be testing that level of 7 in the coming week, and traders are watching to see whether China's central bank will defend the key level of 7, as expected.
- "It's also unclear whether the Chinese officials want to fight hard to keep the currency stable," said Jens Nordvig, CEO of Exante Data.

China's currency has been an important barometer for progress in U.S.-Chinese trade talks, and right now it's signaling that things aren't going well.

The question is whether that signal is intentional, and whether Chinese officials will step in to prevent the yuan from reaching a key psychological low of 7 to the dollar. That level has become a line in the sand for markets around the world, and if broken, it could trigger a negative reaction in risk markets globally, as investors move to price in a [bigger economic impact](#) from a longer, more contentious trade war.

A legal team has dispatched a cease-and-desist letter to a school district in Washington state that promoted Islam through a Ramadan policy that provides special privileges for Muslim students.

It's the second district in the state found to have the special policy in just the last week.

The [Freedom of Conscience Defense Fund](#) confirmed it has written to Michelle Reid, superintendent of the Northshore School District in Bothell, Washington, to insist that the policy be revoked.

The policy directs teachers to create "safe spaces" for Muslims, plan with Muslim students to let them "quietly slip away" from class for prayer, "privately offer information" about nutrition during their Ramadan fast, give "a lesson" on Ramadan and privately ask Muslim students what accommodations they want.

FCDF warned that if the district does not revoke the policy and begin compliance with the First Amendment, "then parents and students will have a legal cause of action against you and the school district."

Missouri Senate passes bill to ban abortions at 8 weeks

Over the past few months, multiple states have passed laws that greatly restrict or all but outlaw abortion, in large part as a way to challenge and possibly overturn the 1973 United States Supreme Court decision *Roe v. Wade*.

Many activists and politicians saw the confirmation of Justice Brett Kavanaugh to the Supreme Court as creating a pro-life majority on the highest court that could overturn *Roe*.

Several states have considered increased restrictions on abortion, especially bans on abortions once the heartbeat of an unborn baby is detected. Both [Missouri](#) and [Louisiana](#) are close to passing such laws.

The coming civil war over abortion

By [Michael Brown](#), CP Op-Ed Contributor

A civil war is coming to America, only this time, it will be abortion, rather than slavery, that divides the nation. And while I hope will all my heart that it will not be a physically violent war, the ideological conflict will certainly be violent and intense.

We witnessed some of this during the hearings for Brett Kavanaugh, when the opposition to his confirmation was fierce to the point of screaming and pounding at the Senate's doors.

This brought to my mind the famous line, "Hell hath no fury like that of a woman scorned," based on which I wrote an article titled, ["Prepare for the Wrath of the Pro-Abortion Militants."](#) The article ended by saying "that hell hath no fury like that of the militant pro-abortionists."

The very same day my article was posted on the Stream, Jennifer Hartline posted an article on that same website, titled, ["It's Not Kavanaugh. It's Roe."](#) Her article ended by saying, "They hate Kavanaugh because they love abortion and he does not. Hell hath no fury like 'women's rights' scorned."

Ex-Lesbian Warns of Transgender Mindset Takeover

"Transgender Male Breaks Female Records." Really?

The headlines blast what appears to be as an amazing success story of a transgender "man" who broke records in a women's wrestling event. Really? A man who broke a women's record is not amazing news of victory. It is an outright disgrace and extremely unfair to the women who work so hard in their fields to compete against each other. Their efforts are being annihilated by someone who was born with the capacity for greater physical strength and ability.

You don't need a godly conviction to realize that men and women are not created equal in strength and ability. God designed men different than women. They were made to complement each other and procreate with one another. Their union should be revered

'He Feels Confused': Parents Sue After Teacher Repeatedly Asks 8-Year-Old if He's Trans

05-13-2019 - Emily Jones

A couple in Woodburn, Oregon is suing their school district after they discovered their eight-year-old son was asked repeatedly by his teacher if he was transgender.

The parents, who are keeping their identity private, are suing the district for nearly \$1 million because they say their son's second grade teacher held him back from recess on multiple occasions to personally ask him if he believed he was really a girl. They said the teacher also gave their son reading materials, videos, and other resources explaining what it means to be transgender.
