اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت . بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا .

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

انجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لننتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

Football field-sized asteroid could hit Earth this year

According to a list of the most concerning space objects compiled by the European Space Agency, an asteroid, known as 2006 QV89, with a diameter wider than a football field has a roughly one in 7,000 chance of hitting the Earth later this year. The ESA has 2006 QV89 ranked fourth on its top ten list. It is likely that the asteroid will pass Earth at a distance of more than 4.2 million miles, according to current modeling.

Jupiter will be its biggest and brightest throughout June and will be visible to the naked eye, rising at dusk

UNEXPECTED CME IMPACT: On Saturday, June 8th, a dense and strongly-magnetized cloud of plasma hit Earth's magnetic field. It was, apparently, the flank of a coronal mass ejection (CME). The solar storm cloud left the sun with little fanfare on June 3rd. Coronagraphs on NASA's STEREO-A spacecraft barely detected it:

The slow-moving CME took more than 5 days to cross the sun-Earth divide. Typical CMEs cross the same distance in half the time. Despite its low velocity, the CME was geoeffective. Strong [south-pointing](#) magnetic fields inside the CME opened [cracks](#) in Earth's magnetosphere. Solar wind poured through the gaps to spark a [G1-class](#) geomagnetic storm on June 8th.

Mississippi River flood is longest-lasting in over 90 years, since 'Great Flood' of 1927

Jun 8, 2019 | 0 | ★★★★★

(MSN) – Flooding in at least 8 states along portions of the Mississippi River – due to relentless, record-breaking spring rainfall – is the longest-lasting since the “Great Flood” of 1927, the National Weather Service said. The 1927 flood, which Weatherwise magazine called “perhaps the most underrated weather disaster of the century,” remains the benchmark flood event for the nation’s biggest river. Anytime a modern flood can be mentioned in the same breath as the Great Flood is newsworthy: During that historic flood, hundreds of thousands of people fled their homes as millions of acres of land and towns

A slumbering titan in Russia's Far East could soon awaken. Scientists warn that a long-dormant volcano is showing new signs of activity, and an eruption could spell disaster in Russia and beyond.

Deemed inactive for decades, the Bolshaya Udina volcano has come back to life, according to recent research, prompting concern about a potentially cataclysmic natural disaster.

"When a volcano is silent for a long time, its first explosion can be catastrophic," said Ivan Kulakov, the head of the seismic tomography lab at the Russian Institute of Petroleum

More than 1 million new cases of sexually transmitted diseases pop up across the world every day, a figure that shows health officials have made little progress in curbing infections over the course of about five years.

"We're seeing a concerning lack of progress in stopping the spread of sexually transmitted infections worldwide," Dr. Peter Salama, the World Health Organization executive director for universal health coverage and life course, said in a statement. Xi Jinping in Russia to usher 'new era' of friendship

By Maria PANINA
Beijing (AFP) June 5, 2019

Chinese President Xi Jinping headed for Russia Wednesday to mark a new era of friendship and reinforce economic ties that had benefitted from Moscow's isolation from the West.

Due to arrive in the early afternoon, Xi will be received with full honours.

He will have talks in the Kremlin with President Vladimir Putin before attending a formal reception and in the evening he will attend a night out at the Bolshoi theatre.

The visit comes five years after Moscow's annexation of Crimea in 2014 led to a serious rift with its Western partners and subsequent turn toward its neighbour to the east.

From Moscow, Xi will travel to Russia's former imperial capital Saint Petersburg to attend the Economic Forum hosted by Putin on Thursday and Friday.

China and Russia "have strong political mutual trust and support each other firmly on issues concerning each other's core interests and major concerns," Xi said during an interview with Russian media ahead of the visit, according to a transcript released by Beijing's official Xinhua news agency.

Putin's foreign policy aide Yuri Ushakov said the visit is "a crucial event for our bilateral relations". The Soviet Union was the first country to recognise Communist-ruled China in 1949, he remarked.

He said Xi and Putin would sign a new declaration on "global partnership and strategic cooperation, which enter a new era".

The Chinese delegation is bringing two pandas as gifts, which are bound for the Moscow Zoo. "The animal is a symbol of China and the gesture is very important to our partners," Ushakov said.

US General Claims Russia Poses Threat to America's Space Capabilities

by Staff Writers
Moscow (Sputnik) Jun 06, 2019

This follows the Russian Foreign Ministry underscoring in April that Moscow is ready and willing to hold a full-fledged dialogue with any country in order to prevent militarisation of outer space.

Air Force General John Raymond, who has been nominated to lead the US Space Command, has claimed that the armed forces of Russia and China are rapidly developing their space capabilities, while the US military's operational advantages in this sector are shrinking.

"We no longer have the luxury of operating in a peaceful, benign domain. And we no longer have the luxury of treating space superiority as a given," Raymond noted in his written questions posed by lawmakers during a Senate Armed Services Committee hearing to consider his nomination.

He claimed that Russia and China have managed to strengthen their space capabilities over the past few years mainly by "watching how the United States has integrated its [space] capacities into its military operations".

"The US military relies on space operations in some capacity for nearly everything it does, from GPS navigation to communications to guiding weapons to specific targets," Raymond added.

Putin says Russia prepared to drop START nuclear arms treaty

By Marina KORENEVA with Olga ROTENBERG in Moscow
Saint Petersburg (AFP) June 6, 2019

President Vladimir Putin said Thursday Russia was prepared to drop a nuclear weapons treaty with the US and warned of "global catastrophe" if Washington keeps dismantling an international arms control regime.

Speaking to heads of international news agencies at an economic forum in the city of Saint Petersburg, Putin said Washington showed no genuine interest in conducting talks on extending the New START treaty which caps the number of nuclear warheads well below Cold War limits.

"If no-one feels like extending the agreement -- New START -- well, we won't do it then," Putin said.

"We have said a hundred times that we are ready (to extend it)," Putin said. "There is no formal negotiating process."

The treaty was signed by US President Barack Obama and Russian counterpart Dmitry Medvedev in Prague in 2010. It expires in 2021.

Together with another agreement known as the Intermediate-Range Nuclear Forces (INF) treaty, New START is considered a centrepiece of superpower arms control.

Moscow suspended participation in the INF treaty in March after President Donald Trump's White House announced it would ditch the key agreement for alleged Russian violations of the terms.

China says US 'playing with fire' over Taiwan

by Staff Writers
Beijing (AFP) May 30, 2019

The United States "is playing with fire" over Taiwan, Beijing said Thursday, after recent US moves related to the self-ruled island -- including the transit of warships through the Taiwan Strait.

The United States diplomatically recognises China over Taiwan, but Beijing has bristled at the close relations between Washington and the self-ruled democratic island.

"The US recently often played the Taiwan card, in a vain attempt to use Taiwan to contain China. This is purely wishful thinking," Chinese defence ministry spokesman Wu Qian said at a monthly press briefing.

China sees Taiwan as part of its territory to be reunified, despite the two sides having being ruled separately since the end of a civil war on the mainland in 1949.

Two US warships sailed through the Taiwan Strait last week in what the US Navy described as a routine transit in accordance with international law, triggering a protest from Beijing.

Other moves that angered China this month include US lawmakers approving legislation in support of Taiwan, and a reported meeting between Taiwan's national security chief David Lee and White House national security adviser John Bolton.

Annual Varuna exercises aimed at China with a focus on anti-submarine warfare

By EMANUELE SCIMIA

A focus on anti-submarine warfare suggests the 17th edition of Varuna, an annual exercise between the navies of India and France, was aimed at China.

Alarmism over the People's Liberation Army Navy's presence in the Indian Ocean is likely misplaced at the moment, but the rapid growth of Chinese naval forces could change things in the future, with Delhi and Paris teaming up in an anti-China front led by the United States.

"Israelis need to be worried, and the Gulf states also have reason for concern," Heinonen said. "How will you be able to ensure your security if Iran achieves nuclear abilities?"

In the full interview, which will be aired Thursday morning, Heinonen said that despite IAEA's claims, Iran can develop nuclear weapons in up to six to eight months.

Europe in 'no position' to criticise Iran: Zarif

by Staff Writers
Tehran (AFP) June 9, 2019

European countries are in "no position" to criticise Iran, Foreign Minister Mohammad Javad Zarif said Sunday ahead of a visit by his German counterpart Heiko Maas.

Germany's top diplomat is due in Tehran on Monday, against a backdrop of Iranian pressure for Europe to uphold commitments made under a 2015 nuclear deal since abandoned by the United States.

"Europeans are certainly in no position to criticise Iran, even about issues that have nothing to do with" the agreement, Zarif said in televised remarks to journalists.

Iran signed the landmark accord with China, Russia, Germany, Britain, France and the United States, leading to sanctions relief in exchange for Tehran curbing its nuclear programme.

But last year, US President Donald Trump walked away from the accord and Washington has since imposed sweeping sanctions on Iran.

European and Western policies "have only caused damage in the region," Zarif said.

Trump says 'fine' if Iran wants to open talks

Caen, France (AFP) June 6, 2019 - US President Donald Trump on Thursday said it was "fine" for him if Iran wanted to hold talks, adding the Islamic Republic was currently "failing as a nation".

The United States has had no diplomatic relations with Iran following the hostage seizure of the American embassy in Tehran that followed the 1979 Islamic Revolution.

US diplomats helped negotiate the landmark 2015 deal on Iran's nuclear programme with Europe under his predecessor Barack Obama but Trump unilaterally pulled out of the deal in May 2018.

The Pentagon has started the process of removing Turkey from the F-35 Joint Strike Fighter program, and has drawn up plans to shift the NATO ally's manufacturing roles to American and allied manufacturers, U.S. defense officials said Friday.

Washington has given Ankara a deadline: by July 31, Turkey must cancel its order of Russian S-400 missile interceptors — or lose its right to buy 100 F-35s and make parts for even more of the high-tech jets, Pentagon acquisition chief Ellen Lord told reporters on Friday.

According to the *WSJ* report, the terror groups obtained the rockets by means of smuggling and local production. Many of the rockets are made with easy-to-obtain materials such as pipes and basic explosives.

Storm Tracking Could Be a Casualty of 5G

(Bloomberg) -- Satellites tracking water vapor in 2012 helped scientists accurately predict Superstorm Sandy's frightening turn toward New York and New Jersey where it killed dozens of people and inflicted billions of dollars in damage.

But now scientists are warning that their precision tracking of hurricanes could be disrupted by signals from the new generation of wireless networks known as 5G that will soon roll out across the U.S. In one test that mimicked interference, Sandy was incorrectly forecast to head out to sea.

Will the EU Kill Video Streaming?

A copyright 'directive' could make it impossible for YouTube, much less an upstart, to do business.

By Brian Dellinger
June 5, 2019 6:36 p.m. ET

The European Union's Directive on Copyright in the Digital Single Market takes effect June 7. It is intended to update European policies regarding online intellectual property and shelter fledgling European technology companies against competition from Apple, Google and other foreign tech giants. The irony is that the new directive may end up hampering web-based initiatives everywhere—particularly the very companies it is meant to protect.

Of particular concern is Article 17, which limits the “use of protected content by online...

China warns tech giants after US Huawei ban: report

by Staff Writers

Washington (AFP) June 9, 2019

The Chinese government convened top tech companies this week and warned them of consequences if they cut off technology sales to the country, US media reported on Saturday.

The meeting followed US President Donald Trump's move last month to blacklist Chinese tech giant Huawei over national security concerns, threatening the firm's global ambitions and ramping up the months-long trade battle between the two countries.

Earlier this week, the Chinese government summoned executives from American firms Dell and Microsoft and South Korea's Samsung, among others, to warn them that any moves to ramp down their businesses in China may lead to retaliation, The New York Times reported.

American companies were told "that the Trump administration's move to cut off Chinese companies from American technology had disrupted the global supply chain, adding that companies that followed the policy could face permanent consequences," the newspaper reported.

Kay Arthur Part 2: The Truth
About Sex According to God

I'll never forget the day when, out of the blue, God said to my heart, "Hate evil!" Somewhat unnerved, I replied, "But Lord, you told us to love our enemies, not to hate" (Matt. 5:44). His reply: "I didn't tell you to hate people, I told you to hate evil!"

What a shocker! I had read the relevant passage many times in Romans 12:9b, "Hate what is evil. Cleave to what is good" —but hadn't understood all that it was saying. (Note that the New American Standard Bible reads, "Abhor what is evil!")

In Romans 7:15, the apostle Paul lamented the fact that he committed the very sins that he hated. He was not saying that he hated himself, but

Pastor David Lynn of [Christ Forgiveness Ministries](#) was arrested on June 4, 2019, for preaching the gospel publicly in Toronto, Canada. The neighborhood he was preaching in was Church-Wellesley Village. This neighborhood is known to be a place where many of the LGBTQ community in Toronto reside. His ministry is currently on an outdoor preaching tour throughout the 22 districts of Toronto. June 4, happened to be the day they scheduled for that district.

It is not uncommon for someone to think "open-air preaching" and "LGBTQ neighborhood" and immediately jump to thoughts of preachers condemning homosexuals to hell. However, Pastor Lynn's preaching was some of the most loving

Congressional Candidate In Virginia Admits He's A Pedophile

HUFFPOST Jesselyn Cook, HuffPost • May 31, 2018

Nathan Larson, a 37-year-old accountant from Charlottesville, Virginia, is running for Congress as an independent candidate in his native state. He is also a pedophile, as he admitted to HuffPost on Thursday, who has bragged in website posts about raping his late ex-wife.

In a phone call, Larson confirmed that he created the now-defunct websites suiped.org and incelocalypse.today – chat rooms that served as gathering places for pedophiles and violence-minded misogynists like himself. HuffPost contacted Larson after confirming that his campaign website shared an IP address with these forums, among others. His sites were terminated by their domain host on Tuesday.

On the phone, he was open about his pedophilia and seemingly unfazed about his long odds of attaining government office.

رسالة بولس الرسول الي أهل رومية 13

13: 11 هذا وأنكم عارفون الوقت انها الان ساعة لنستيقظ من النوم فان خلاصنا الان أقرب مما
كان حين امنا

13: 12 قد تنهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلباقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيرا للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف
