اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت . بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقه اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقه لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعه سابقا .

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لننتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

Earth is approaching the same "meteor swarm" that may have caused an entire forest to explode in 1908

BY CAITLIN O'KANE

JUNE 12, 2019 / 11:46 AM / CBS NEWS

A swarm of meteors heading toward Earth could have the potential to cause a catastrophic impact, a new study from Western Ontario University says. The so-called Taurid swarm is a recurring event that some scientists believe could have played a role in the biggest Earth impact of modern times, in 1908, when a space rock slammed into Siberia with enough force to destroy an entire forest.

What has become known as the Tunguska explosion of 1908 was so powerful that the blast leveled 80 million trees over an 800-square-mile area. It's considered to be a one-in-1,000-year event, according to Western Ontario University. But while the Tunguska explosion occurred just over a century ago, another such phenomenon could occur much sooner than its 1,000-year expectancy, the researchers say. That's why they're focusing new attention on the Taurid swarm.

The amount of corn produced in the United States this year is going to be way below expectations. The Department of Agriculture just slashed its harvest estimates quite dramatically in its June report, but some farmers in the Midwest believe that those reduced projections are still way too optimistic. As I have [previously detailed](#), millions upon millions of acres will go unplanted this year, but that is only part of the story. Much of the corn that has actually been

Dozens dead in one of India's longest heatwaves 01:25

New Delhi (CNN) — At least 36 people have died this summer in one of India's longest heat waves in recent history, Anshu Priya, a spokeswoman for India's National Disaster Management Authority (NDMA), told CNN.

Intense heat has scorched the country for more than 30 consecutive days, primarily in northern and central India. Temperatures reached 48 degrees Celsius (118 degrees Fahrenheit) in New Delhi on June 10 -- the highest ever recorded in the capital in June.

وعلماء يحذروا من موجات حارة قد تقتل الاف في المدن الامريكية

ENVIRONMENT

Without swift action on climate change, heat waves could kill thousands in U.S. cities

New study suggests that a marked reduction in greenhouse gas emissions will be needed to limit deaths caused by extreme heat.

— If the global average temperature rises 3 degrees Celsius above pre-industrial levels – which some scientists say is likely – a major heat wave could kill almost 6,000 people in New York City. Similar events could kill more than 2,500 in Los Angeles and more than 2,300 in Miami. Jun Cen / For NBC News

700 Quakes Hit A Key California Seismic Zone, And Tar Is Literally Bubbling Up Through The Streets Of Los Angeles

Scientists are quite “concerned” about the huge earthquake swarm that has been shaking southern California in recent weeks, and right at this moment bubbling tar is literally coming up through the streets in one section of Los Angeles. None of this means that a major seismic event is imminent, but it is certainly not a good sign either. We have been tracking [quite a bit of unusual shaking](#) along the Ring of Fire in recent months, and scientists assure us [that it is just a matter of time](#) before “the Big One” hits southern California. And if you follow my work [on a regular basis](#), then you already know that I am extremely concerned about the potential for major seismic activity along the west coast.

Major die-off of Common Murres under way along the Mendocino Coast

Local wildlife observers say it's too early to tell what is causing the die-off

By [MICHELLE BLACKWELL](#) | Correspondent

PUBLISHED: May 24, 2019 at 12:58 pm | UPDATED: May 25, 2019 at 9:14 am

Starting on Wednesday, May 22, hundreds of Common Murres, an ocean-going bird native to the Pacific Coast from the Channel Islands to the tip of the Aleutians in Alaska, have been reported washed up dead or dying on beaches along a 10-mile stretch of coastline in Mendocino County between Noyo Bay and Seaside Beach.

Local wildlife observers say it's too early to tell what is causing the die-off.

The Common Murre looks a little like a penguin, but is more closely related to terns or gulls. It spends most of its time in the water. Murres can and do fly, but like penguins, they maneuver best in the water. Normally, the likelihood of a casual beachgoer seeing one ashore is slim.

Air Force tests hypersonic weapon aboard B-52 for first time

by Allen Cone
Washington (UPI) Jun 14, 2019

For the first time, the U.S. Air Force successfully tested its hypersonic air-to-ground weapon on a B-52H Stratofortress bomber from Edwards Air Force Base, Calif.

On Wednesday, a sensor-only prototype of the AGM-183A air launched rapid response weapon, or ARRW, was carried externally by a B-52 during the test to gather environmental and aircraft handling data, the U.S. Air Force said Thursday in a news release.

Hypersonic denotes a speed of Mach 5, or five times the speed of sound or higher.

The missile prototype didn't have explosives and it was not released from the B-52 during the flight test. The Air Force did not release images of the AGM-183A.

Data were gathered on drag and vibration impacts on the weapon itself as well as the external carriage equipment of the aircraft. This type of data is required for all Air Force weapon systems undergoing development.

Israel bombs Syrian base operated by Iran and Hezbollah

June 12, 2019 – **NEWS** Tags: IDF, Iran, Iranian proxies, Israel, Israel news, Israel now, syria

Israel has reportedly conducted a bombardment of a [Syrian](#) intelligence gathering base, which according to an informed source "is actively operated by Iran's Islamic Revolutionary Guards and its Lebanese-proxy Hezbollah."

The attack occurred around 2 AM this morning, when "several missiles were fired at [targets](#) in Tell al-Hara," which is located in the Dar'aa Governorate, some 15 kilometers east of the [Syrian border with Israel](#). While Syria's official SANA news agency confirmed that the attack "caused material damage," it claimed that Syrian air-defenses "downed a number of (the incoming) missiles." According to its report, Israel had also engaged in "an electronic war, as (the Syrian military's) radars were exposed to jamming." The IDF spokesperson's unit refused to

Saudi warns Iran over Yemeni rebel airport attack

by Staff Writers
Riyadh (AFP) June 13, 2019

Riyadh accused its arch-foe Tehran on Thursday of ordering a Yemeni rebel missile strike which wounded 26 people at a Saudi airport and warned of "grave consequences".

"The continuation of the Iranian regime's aggression and reckless escalation, whether directly or through its militias, will result in grave consequences," deputy defence minister Prince Khaled bin Salman tweeted.

Yemen's Huthi rebels hit the civilian airport in the popular mountain resort of Abha in the southwest of the kingdom on Wednesday, damaging the arrivals hall and forcing its closure for several hours.

"We will confront the Huthi militia's crimes with unwavering resolve," said Prince Khaled, a son of King Salman.

"Their targeting of a civilian airport exposes to the world the recklessness of Iran's escalation and the danger it poses to regional security and stability."

Iran and the Yemeni rebels both follow arms of the Shiite branch of Islam but Tehran has always denied providing more than moral support to the rebels.

American Suicide Rates, Overdoses Reach Alarming All-Time Record

If you are in crisis, please call [1-800-273-8255](tel:1-800-273-8255) or visit suicidepreventionlifeline.org. You are not alone.

According to a shocking new report from [the Commonwealth Fund](#), the suicide rate in the United States is the highest that it has ever been. Sadly, the same thing can be said about the death rates from drug overdoses and alcohol. All three death rates are at an all-time record high, and yet our society is still fairly stable at the moment. So if we are seeing this many "deaths of despair" right now, what in the world are things going to look like when our society really begins to start crumbling?

Today, Americans have literally thousands of different ways to entertain themselves,

New York Lawmakers Introduce First Statewide Bill To Decriminalize Sex Work

HUFFPOST [Follow](#) Alanna Vagianos, HuffPost • June 10, 2019

Lawmakers in New York introduced a first-of-its-kind bill to decriminalize sex work throughout the state on Monday.

The [Stop Violence in the Sex Trades Act](#) is a legislative package that “decriminalizes and decarcerates” the sex trade in New York, according to a press release from organizers at the [Decrim NY coalition](#). If passed, it would be the first measure in the country to legalize prostitution statewide.

“Sex work is work and should not be criminalized by the state,” state Sen. [Julia Salazar](#) (D) said at a Monday press conference.

“Our current policies only empower traffickers and others who benefit from keeping sex work in the shadows,” Salazar added. “New York state needs to listen to sex workers and make these common-sense reforms to keep sex workers safe and empower sex workers in their workplaces.”

For the first time ever, the LGBTQ rainbow flag is flying over the State Capitol building in Sacramento.

Staffers raised the banner on Monday, and it will stay up alongside the California state and U.S. flags through July 1, according to the [governor's press office](#).

Gov. Gavin Newsom, [an early proponent of same-sex marriage](#), had requested the hoisting of the flag at the State Capitol's main flag pole for Pride Month in June. It had only been previously hung over balconies at the building, the press office said. The dome was lit in rainbow colors in

Taylor Swift's New Music Video Advocates for Equality Act, Mocks Christians

4:12PM EDT 6/17/2019 | JESSILYN LANCASTER

Protesters hold signs in the new Taylor Swift video. (Taylor Swift/Youtube)

Taylor Swift's latest music video is a lot to take in, from the bright colors to scantily dressed celebrities to the flaunting of lesbian, gay, bisexual and transgender icons.

The video, while claiming to be inclusive, openly mocks Christians who protest homosexuality. Christians in the video are presented as country hicks with bad style and rotting teeth. They also misspell "homosexuality" on their protest signs.

The video culminates in a call to action for viewers to sign a petition to support the Equality Act.

While the "Equality Act," which passed the House and now awaits Senate approval, may sound inclusive, religious freedom advocates say it's anything but.

The entire discussion was caught on camera. The student and the teacher are unidentified in the video.

The student asks the teacher why he kicked him out of class.

"You aren't being inclusive," the teacher said on the video. "I know what the authority thinks and point of view. It's very clear that we make no discrimination on the grounds. I'm sorry what you choose to make an issue about a point that is contrary to policy," he added.

Pastor Jailed During 'Drag Queen Story Hour,' SWAT Team Snipers Positioned Atop Library Roof

By Heather Clark on June 16, 2019 - 147 Comments

SPOKANE, Wash. — A Baptist pastor was arrested and jailed on Saturday after refusing to move across the street from the Spokane, Washington Public Library while exercising his free speech against a “Drag Queen Story Hour.” The event had a significant militaristic police presence, including camouflaged snipers positioned atop the roof to oversee the large crowd that stood both for and against the men dressed like women reading stories to children.

Afhsin Yaghtin of New Covenant Baptist Church was arrested for obstructing an officer as he contended with police that the South Hill Library is public property and that he should be able to speak adjacent to the facility instead of being required to stand across the street.

Britain bans 'harmful' gender stereotypes from ads

 AFP • June 14, 2019

The world has changed and advertisers in Britain are told to avoid gender stereotypes (AFP Photo/Robyn Beck)

London (AFP) - Ads featuring "harmful gender stereotypes" which are likely to cause offence will be banned in Britain from Friday under new rules that could have a major impact on the industry.

The ban by the Advertising Standards Authority would cover, for example, a woman failing to park a car, a man struggling to change a nappy or girls being less academic than boys.

The ban will not include some stereotypical scenarios that are judged not to cause as much offence in ads, such as a woman

Medicaid to begin covering sex reassignment surgeries

3:54 pm
April 5, 2019

POLITICAL, TOP STORIES

SPRINGFIELD, Ill. (WEEK) — Gov. J.B. Pritzker has ordered the state's Medicaid program to begin covering the costs of sex reassignment surgeries for transgender people.

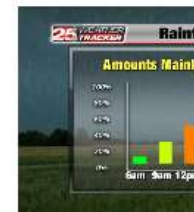

The Illinois Department of Healthcare and Family Services will develop administrative rules to offer coverage to people diagnosed with gender dysphoria to pay for genital and breast-related surgeries.

"Healthcare is a right, not a privilege, and I'm committed to ensuring our LGBTQ community and all Illinoisans have access to that right," said Pritzker. "Expanding Medicaid to cover gender affirming surgeries is cost effective, helps avoid long term health consequences, and most importantly is the right thing to do. With continued attacks coming from Washington, this administration will always stand with our transgender community and their right to lead safe and healthy lives."

The department said paying for the surgeries will help stave off negative health effects, such as depression and suicide. The HFS said 17 states and Washington, D.C. offer coverage for the surgeries without a significant cost increase.

The Austin Independent School District (AISD) has decided to take some of the funds it has received from a **local church** and put them toward LGBT-related activities, including Austin's annual Pride parade. The decision comes after months of protests from gay rights advocates, who want the district to stop renting its facilities to organizations that do not support gay marriage.
