اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت . بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقه اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقه لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعه سابقا .

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَأَن تَوْمِنُونَ.

ثالثا لننتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

Four asteroids on COLLISION course with Earth

Published time: 30 Jun, 2019 17:10

It's a scenario straight out of a Hollywood blockbuster, an asteroid is careening towards Earth and is set to wipe out human existence. To mark Asteroid Day, here are four space rocks on a collision course with our planet.

The United Nations fears that the possibility of an asteroid smashing into a densely populated area isn't being taken seriously enough, so it designated June 30 as International Asteroid Day to raise awareness about the potentially catastrophic occurrence.

The date was chosen because the largest asteroid impact in recorded history took place over Tunguska, Russia on that day in 1908 when an enormous asteroid exploded and destroyed hundreds of acres of forest.

Long-Lasting fireball seen over the skies of South Florida

Jul 3, 2019 | 0 | ★★★★★

(PBP) – A long-lasting fireball that broke into several pieces over South Florida this morning could be a piece of space junk forecast to fall to Earth today, said an official with the American Meteor Society. Mike Hankey, the operations manager for AMS, said he is “100 percent sure” the lights were space debris breaking up in the atmosphere. According to the website Satview.org, a piece of space junk was expected to reenter the atmosphere at about 7 a.m. this morning.

Laos confirms first cases of African swine fever - OIE

1 MIN READ

PARIS (Reuters) - Laos has reported its first cases of African swine fever (ASF), confirming outbreaks in the southern province of Saravane, the Paris-based World Organisation for Animal Health (OIE) said on Thursday.

The southeast Asian country reported seven outbreaks of ASF in villages in Saravane, which led to the deaths of 973 animals, the OIE said on its website, citing information from Laos' agriculture ministry.

The disease, which is incurable in pigs but harmless to humans, has spread rapidly across China since last August and also spread this year in Vietnam.

China, home to the world's largest pig herd, has so far reported over 120 outbreaks of ASF.

Insects are absolutely critical to the global food chain, and right now we are literally on the brink of an ecological Armageddon. All over the world insect populations have been declining precipitously in recent years, and this has already been causing a chain reaction among birds, reptiles

Pentagon seeks ideas for small military space station

by Ed Adamczyk
Washington DC (UPI) Jul 04, 2019

The Defense Innovation Unit of the Pentagon announced a call for ideas for a small, autonomous military space station this week.

The "solicitation brief," known in civilian circles as a request for proposal, seeks "solutions for a self-contained and free flying orbital outpost. The solution must be capable of supporting space assembly, microgravity experimentation, logistics and storage, manufacturing, training, test and evaluation, hosting payloads, and other functions."

It specifies no more than 35 cubic feet of available experimentation space, indicating it is inappropriate for human habitation. The craft must be able to move in its own orbit, be made of material conducive to low Earth orbit, and be ready for flight two years after a contractor is chosen, the brief stipulates.

The space station would be scalable, or expandable, with the capability of carrying attachments, such as an exterior robotic arm, and eventually, human passengers. The brief does not specifically address the craft's purpose, but appears to be a space station exclusively for military purposes.

NATO says no sign of Russia backing down in missile crisis

By Damon WAKE
Brussels (AFP) July 5, 2019

NATO chief Jens Stoltenberg warned Friday that the chances of saving a landmark Cold War arms treaty were decreasing day by day, after talks with Russian officials failed to yield any breakthrough.

Russia and the United States have both suspended their participation in the Intermediate-Range Nuclear Forces (INF) treaty, accusing each other of violating the accord, which banned a whole class of nuclear-capable missiles.

Washington will definitively quit the deal on August 2 unless Russia destroys a controversial new missile system the US and NATO say breaches the accord, signed in 1987 between US president Ronald Reagan and Soviet leader Mikhail Gorbachev.

NATO held talks with senior Russian officials as part of efforts to save the deal, a week after alliance defence ministers agreed a package of counter-measures in case Moscow ignores the deadline.

"We didn't see any sign of Russia being willing to come back into compliance with the INF treaty," Stoltenberg told reporters after the meeting, adding that the "ongoing Russian violation" was the only reason the treaty was under threat.

The ministry didn't name the vessel that caught fire Monday. Russian media reported it was Russia's most secret submarine, a nuclear-powered vessel designed for sensitive missions at great ocean depths.

Mass immigration will terminate Europe as we know it

A country or entire continent cannot survive massive immigration if it has no culture, identity and/or religion of its own that it wants to preserve.

Contact Editor Giulio Meotti, 30/06/19 23:41 | updated: 12:30

Before Europe there are only two roads to take on immigration.

Being "just", facilitating all the arrivals from Africa, in the name of humanitarian principles, letting every cultural, social, security, and societal issue be overwhelmed by Emotion, Angela Merkel's motto "wir schaffen das," or that of being virtuous, putting the nation ahead of humanity, stopping immigration in the name of the principle of reason, which always presupposes a bit of "cruelty".

Tertium non datur. No third road.

Mass immigration has already undermined the unity and solidarity of Western societies. I am in favour of the second road. The European Union will never be saved unless it protects its external borders. But the new Europeanism à la carte, which by now is the surrogate for progressivism, has not understood that yet. In 1989, Michel Rocard, the Socialist Prime Minister of France, said: "Europe and France cannot welcome all those who are driven by poverty". The alternative, to take up the title of a book by Rocard, will be the "Suicide de l'Occident", already abundantly in place.

Europe as we know it will never survive at the end of the first road. It will become Eurabia or Eurafrica. But the question is another one: are the Europeans still able to take the second road? I doubt it. To understand the impact of mass immigration you have to first get its consequences over culture, religion, internal cohesion, identity.

But you first need a culture, a religion and an identity to get the point. And Europe, as the Dutch politician Frits Bolkestein wrote in the *Wall Street Journal* in 2011, denies its identity: "How has it become so controversial for a Western leader to affirm a preference for his own culture? In short, how did Europe come to lose confidence in its own civilization? If Europe can retake pride in its own classical values, it and the world will be better off".

Read what the captain of the Sea Watch, the NGO boat now rescuing migrants in the Mediterranean in full view of Italian coasts, just said: "My life has been easy, I was able to attend 3 universities, at the age of 23 I graduated. I am white, German, born in a rich country and with the right passport. When I realized this, I felt the moral obligation to help those who did not have the same opportunities as me".

He is the author of the book "A New Shoah", that researched the personal stories of Israel's terror victims, published by Encounter and of "J'Accuse: the Vatican Against Israel" published by Mantua Books.. His writing has appeared in publications, such as the *Wall Street Journal*, *Frontpage* and *Commentary*.

In a statement quoted by Jordan's official news agency *Petra*, Foreign Ministry spokesman Sufian Qudah warned that such "illegal and irresponsible" actions escalate tension.

Qudah underscored Jordan's utter rejection of what he called "Israeli attempts that seek to alter the identity of the occupied city of Jerusalem, especially the al-Aqsa Mosque and its surroundings."

Texas City Removes 'Jesus' Sign After Long Court Battle With Church

07-02-2019 - Emily Jones

A church in Hawkins, Texas is in an all-out legal battle with city authorities over the removal of a sign on Highway 80 that read, "Jesus welcomes you to Hawkins."

Washington State Middle School Student Kicked Out of Class Twice for Speaking Up About Faith

By Heather Clark on July 5, 2019 · 9 Comments

EVERETT, Wash. — A 12-year-old middle school student in Washington State says that he was twice booted from class for speaking up about his faith.

The Pacific Justice Institute recently published a video featuring the boy, named Sibusiso, who attends Evergreen Middle School in Everett, Washington.

“I was at school one day and they were talking about sex education and how it was okay to have sex with the same [gender]. I then stood up and said, ‘No, that is not okay. You’re not allowed to have sex outside of marriage and it’s not okay for you to sleep with the same gender,’” he recalled.

Will Amazon Ban the Bible Next?

In a very disturbing move, Amazon has [removed](#) the books of Dr. Joseph Nicolosi, the psychologist whom critics have dubbed "the father of conversion therapy."

In other words, for claiming that sexual orientation is not innate and immutable, and for claiming that change is possible, Dr. Nicolosi's books must be banned.

This leads to the logical question: Will Amazon ban the Bible next? There is no hyperbole here.
