اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت . بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيق اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعه سابقا .

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترت فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترت لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

انجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لننتبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

Alan Duffy was confused. On Thursday, the astronomer's phone was suddenly flooded with calls from reporters wanting to know about a large asteroid that had just whizzed past Earth, and he couldn't figure out "why everyone was so alarmed."

انفجار مذنب صغير فوق كندا

SMALL ASTEROID EXPLODES OVER CANADA: Yesterday, July 24th, with no warning, a small asteroid traveling 45,000 mph hit Earth's atmosphere over Canada. The resulting explosion at 2:44 Eastern Time was as bright as a full Moon, and scattered meteorites across the countryside near Bancroft, Ontario. An array of all-sky cameras belonging to the University of Western Ontario recorded the fireball:

According to [a NASA analysis](#) of the video, the asteroid was about 12 inches (30 cm) wide, it came from the asteroid belt, and disintegrated only 18 miles (29 km) above Earth's surface.

"This meteor got very deep into the atmosphere," says Prof. Peter Brown of the University of Western Ontario, "so we think there are probably rocks on the ground. We'd love for people to get out and maybe find some of these meteorites." [This map shows the fall zone](#) where meteorites might be found.

Meteorite falls are the next best thing to space missions. Extraterrestrial material comes to us, instead of the other way around. "Meteorites are of great interest to researchers as studying them helps us to understand the formation and evolution of the solar system," says Brown.

A possible meteor was spotted streaking above the East Coast as stargazers reported a "bright fireball" illuminating the skies.

The American Meteor Society said that more than 200 reports were received about a glowing white light around 11 p.m. Wednesday. The fireball appeared to rip northwest across the Long Island Sound to Connecticut.

NASA bombshell: Earth's rotation is slowing - and it could cause major earthquakes

EARTH'S rotation is slowing down as the Moon moves farther away from the planet – and scientists believe it could cause major earthquakes.

New Zealand: Geologist warns to prepare for 'huge' earthquake

Earth's rotation is slowing as our planet uses energy to keep the tidal bulge ahead of the Moon's orbit. The Moon's gravity keeps Earth's rotation in check, and to do this the lunar satellite's orbit must be slightly ahead of Earth's. As the Moon attempts to regulate Earth's rotation and slow it down, the Moon moves slowly away.

Could Hawaii face impacts from Tropical Storm Erick?

Share this article:

Tropical Storm **Erick** is forecast to become the eastern Pacific Ocean's latest hurricane as it wanders westward toward Hawaii this week.

The basin's most recently named system organized into a tropical depression over 1,000 miles southwest of Baja California early Saturday morning, local time, before quickly strengthening into a tropical storm.

Erick is expected to intensify into a hurricane early this week as it remains in an environment with very warm water and weak **wind shear**, two factors that promote the strengthening of tropical systems.

Erick would become the third hurricane of the 2019 East Pacific hurricane season, following **Alvin** and **Barbara**.

Barbara brushed past Hawaii as a tropical rainstorm in early July.

The recent seismic activity in the state of California has taken a strange turn. According to [the Los Angeles Times](#), there have been more than 80,000 earthquakes in the state since July 4th, and most of those quakes were aftershocks of the two very large events that hit the Ridgecrest area early in the month. Over the past couple of weeks, however, a very unusual pattern has begun to emerge. We have started to see aftershocks creep toward two of the largest fault lines in southern California, and this is making seismologists very

В Крыму на берег снова выбросились дельфины, одного удалось спасти

08:5609.07

За последние дни на берега Крыма выбросилось 5 дельфинов, удалось спасти одного.

«Из них три были живы – белобочка в Севастопольском районе, детеныш азовки – в Судакском, афалина – в Ялтинском. Из этих троих мы успели оказать помощь только белобочке. Об азовке и афалине нам сообщили уже по факту, спустя время после выброса. К сожалению, их спасти не удалось», — сообщили в организации. Еще двух, - азовку и афалину – обнаружили мертвыми в Севастопольском районе, отметили в Центре изучения, спасения и реабилитации морских млекопитающих «Безмятежное Море».

По данным центра, с начала года зарегистрировано 313 выбросов дельфинов и морских свинок (азовок) на побережье Крымского полуострова. Лидирует, как обычно, Севастопольский район (43,8%), на втором месте – Сакский (18,5%). Больше всего страдают азовки, за ними – афалины, выбросы белобочек фиксируются реже, пишут «Новости Крыма».

По данным специалистов, статистика текущего года схожа с прошлогодней: на 20 июля 2018 года было обнаружено 324 погибших морских млекопитающих.

Thiệt hại lớn chưa từng có, ngân sách cạn kiệt

Số liệu thống kê mới nhất của Bộ NN-PTNT cho thấy, tính đến nay, bệnh dịch tả lợn châu Phi (DTLCP) đã xả ra tại 5.422 xã, 513 huyện của 62 tỉnh, thành phố; tổng số lợn bị bệnh buộc phải tiêu hủy là 3,3 triệu con. Hiện, cả nước chỉ còn duy nhất tỉnh Ninh Thuận chưa có bệnh DTLCP.

Điều đáng lo ngại là, 106 xã thuộc 22 tỉnh, thành phố có dịch bệnh đã qua 30 ngày nhưng sau đó dịch bệnh này lại quay trở lại.

Cũng theo Bộ NN-PTNT, Đồng bằng sông Hồng cũng là nơi bị thiệt hại nặng nề bởi dịch tả lợn châu Phi, nhiều địa phương mất tới 30-40% tổng đàn, ngân sách dự phòng cho công tác chống dịch đã cạn kiệt.

(DS) – The Ebola outbreak is only going to get worse as people are refusing treatment, according to an aid worker on the frontline. Ebola is sweeping through central Africa with the current outbreak becoming the second-worst in history. Experts even believe it could equal or surpass the worst on record, where 11,323 people died from December 2013 to January 2016. WHO has called for the world's superpowers to do more to help combat the disease, with 1,743 people killed. But an aid worker on the frontline told

A teenage boy from North Carolina contracted a flesh-eating bacteria while visiting family in Baltimore, and is now receiving treatment at an area hospital.

CBS Baltimore [reports](#) 16-year-old Kahlil Colkley initially started showing symptoms for strep bacteria, but when his condition didn't improve over the course of the next several days, the teen then developed a fever and chills.

Then he noticed something spreading on his leg, prompting his mother, Christel, to take him to the emergency room at Sinai Hospital. There, doctors diagnosed Kahlil with strep bacterial infection and a flesh-eating bacteria. The boy and his mother are not sure how he contracted the infection.

"If we would have waited another day or who knows hours he may not have been here at all," Christel said of her teenage son.

'Rat Plague' Overtakes California

California is being hit by a "plague of rats," and some commentators are suggesting that this is exactly what they deserve. In fact, some have even gone so far as to suggest that the name of Los Angeles should be formally changed to "*Los Ratas*" because the rat problem is so severe there. From Crescent City in the north all the way down to Chula Vista in the south, the rats are seemingly everywhere. There are millions of them, and the more poison that people put out, the more they seem to multiply. The state of California has never seen anything like this before, and it is getting worse with each passing month.

At this point, things are already so bad that many are calling for Governor Newsom ["to declare a public health emergency"](#):

China says it will 'not tolerate foreign forces' in Hong Kong

by Staff Writers
Beijing (AFP) July 23, 2019

China on Tuesday slammed the US and Britain for interfering in Hong Kong affairs after the two countries voiced concerns about a vicious assault on pro-democracy protesters.

The savage beating of the Hong Kong protesters by a mob of suspected gangsters on Sunday has deepened fears about the use of shadowy hired muscle to defend China's interests.

At least 45 people were hospitalised after Sunday's attack, causing fear and outrage in the Asian financial hub.

The incident has also drawn criticism from both the UK and the US, who have expressed concerns over eroding freedoms in the city.

But Beijing has reacted angrily to other governments and foreign officials expressing solidarity with Hong Kong's pro-democracy movement.

"China will not tolerate any foreign forces intervening in Hong Kong affairs, nor will it allow any foreign forces to disrupt Hong Kong," foreign ministry spokeswoman Hua Chunying said at a regular briefing.

"We advise the United States to take back their black hands in Hong Kong as early as possible."

Hong Kong has been plunged into its worst crisis in recent history by weeks of marches -- which drew millions of demonstrators to the streets -- and sporadic violent confrontations between police and pockets of hardcore protesters.

The demonstrations were triggered by a controversial extradition law but have evolved into a call for wider democratic reforms.

China had promised to respect the territory's freedoms in the semi-autonomous territory after its handover from Britain in 1997.

China-Russia joint exercise sends a message to Washington

By Helen ROXBURGH
Beijing (AFP) July 24, 2019

An unprecedented joint China-Russia bomber patrol over disputed territory off the coast of South Korea and Japan was a "massive development" in their bid to challenge US influence in the region, analysts said Wednesday.

The joint patrol caused outcry from Washington's two main allies in the region after both Tokyo and Seoul claimed a Russian plane violated their airspace.

Seoul said a Russian warplane twice entered South Korean airspace near the disputed Dokdo islets – which Tokyo also claims and calls Takeshima – and that it fired warning shots in return. Japan also said it scrambled fighter jets in response.

"It's a big deal because it displays confidence that the air forces of the two nations can coordinate a patrol of this nature in ways that the region will almost certainly find destabilising," said Lyle Morris, senior policy analyst at RAND Corporation.

China and Russia have increasingly close ties and have conducted a number of joint military exercises, but this bears extra political significance for taking place over disputed islands which are a source of simmering diplomatic friction between Japan and South Korea.

Ahn Chan-il, a researcher in Seoul, told AFP the violation of the disputed airspace was "deliberate".

"China and Russia are seeking to counterbalance Washington when it comes to North Korea's nuclear issues," he told AFP.

The U.S. military is following many of the exact same patterns that we witnessed during our previous wars in the Middle East, and that even includes setting up shop at a key military base deep in the heart of the Arabian peninsula. After the U.S. invasion of Iraq in 2003, the U.S. military abandoned Prince Sultan Air Base in Saudi Arabia, but now they are back. Hundreds of U.S. troops are already there working hard to get the base operational, and as you will see below, a tremendous amount of new construction is planned. Iran will restart activities at the Arak heavy water nuclear reactor, the head of the country's Atomic Energy Organization announced.

Ali Akbar Salehi made the announcement to lawmakers on Sunday, *Reuters* reported, citing an Iranian news report.

Heavy water can be used to produce plutonium, which is used in nuclear warheads, according to the report. Renovations recently were completed on the Arak heavy water plant, which allows it to increase its capacity.

At the beginning of the month, Iran announced that its stockpiles of enriched uranium had breached the limit set out in the nuclear deal it signed with the world powers.

Iran to meet with nuclear partners amid tanker crisis

By Amir Havasi
Tehran (AFP) July 23, 2019

Iran said Tuesday it will attend an urgent meeting with countries still party to the troubled nuclear deal, as it declared itself the "guardian of security" in the Gulf amid a tanker crisis.

The planned July 28 meeting is aimed at salvaging the hard-won deal, on life-support since the United States withdrew from it last year and reimposed biting sanctions against Iran.

Amid rising hostilities with the United States, Iran's Revolutionary Guards seized a tanker sailing under the flag of US ally Britain on Friday.

State television aired new footage of the crew aboard the Stena Impero tanker which Iran has impounded at the port of Bandar Abbas for allegedly breaking "international maritime rules".

In the video, the crew made up of 18 Indians, three Russians, a Latvian and a Filipino are seen sitting around a table on the ship and seemingly going about their daily routines.

The seizure of the Swedish-owned vessel has been seen as a tit-for-tat move after British authorities detained an Iranian oil tanker on July 4 in the Mediterranean on suspicion it was shipping oil to Syria in breach of EU sanctions.

"Throughout history, Iran has been and will be the main guardian of security and free navigation" in the Gulf, President Hassan Rouhani said late Monday in a meeting with visiting Iraqi Prime Minister Adel Abdel Mahdi.

France to unveil new space defence strategy

by Staff Writers
Paris (AFP) July 25, 2019

France will on Thursday outline a new strategy for defence in space after President Emmanuel Macron announced the creation of a French space force command to deal with emerging threats to its interests in orbit.

Defence Minister Florence Parly is due to give more details on the strategy in a keynote speech at the Lyon Mont-Verdun military base starting from 1000 GMT.

"What we are talking about is to discourage and protect ourselves from aggressions from potential adversaries," Parly told the French parliament earlier this month.

The minister emphasised that France was not planning to point weapons at earth in the new strategy but rather to protect objects like satellites in space.

The announcement comes as China, Russia and the United States all jostle for an increased strategic presence in space.

Macron's initial declaration -- made on the eve of France's July 14 Bastille Day military parade -- mirrored an initiative in the US championed by President Donald Trump.

"To assure the development and the reinforcement of our capacities in space, a high command for space will be created in September," Macron said at the time.

The Defense Ministry and the American Missile Defense Agency (MDA) on Sunday completed a series of successful tests of the Arrow 3 weapons system in Alaska.

The tests were led by the Ministry of Defense and Israel Aerospace Industries (IAI), with the participation of Israeli defense industries and the Israel Air Force.

Developed by Israel and the MDA, the Arrow 3 weapons system is designed to intercept ballistic missiles outside the atmosphere. The series of experiments successfully demonstrated a hit-to-kill capability against targets at high altitudes outside the atmosphere.

During the series of tests, an American ANTPY2 radar was used, and operational

FILE - An Islamic State flag lies on the ground in an abandoned tent encampment after U.S.-backed Syrian Democratic Forces (SDF) fighters took control of Baghuz, Syria, March 23, 2019.

WASHINGTON - A series of Islamic State (IS) announcements of new provinces it controls in recent weeks has renewed debate over the group's possible resurgence after its self-proclaimed caliphate fell, with some analysts warning an increasingly decentralized IS could recover and spread its tentacles to other parts of the world.

During his first appearance last April after five years, IS

Germany financial chaos: Merkel on brink as economy in freefall and 'heading for a crisis'

GERMANY is veering towards a full-blown recession, with a leading German think-tank warning the confidence in the country's economy went into "freefall" in July amid concerns about the impact of global trade conflict and US President Donald Trump's protectionist approach.

Eurozone crisis: Yanis Varoufakis explains why Germany will cause break-up of the euro

YANIS VAROUFAKIS shockingly claimed the break up of the eurozone will not be because of crisis-hit Greece or Italy but because of Germany, as Berlin will be the first country to drop out the bloc and print Deutsche Marks.

IMF downgrades world growth, warns of 'precarious' 2020

 Heather SCOTT, AFP • July 23, 2019

Washington (AFP) - Global trade tensions, continued uncertainty and rising prospects for a no-deal Brexit are sapping the strength of the world economy, which faces a "precarious" 2020, the International Monetary Fund warned on Tuesday.

Trade conflicts are undercutting investment and weakening manufacturing, and the IMF urged countries to avoid using tariffs to resolve their differences.

In the quarterly update of its World Economic Outlook, the IMF trimmed the global forecast issued in April by 0.1

Nicholas Marc stood to address the group of Satanists gathered before him.

"Welcome to the many new faces here tonight," he said.

It was a Wednesday evening in Ottawa, and around two dozen people had gathered for the biweekly meeting of the Satanic Temple. Some were there in secret, fearful of getting fired from their jobs or being shunned by their families for associating with such a group.

Instead of an actual temple or place of worship, they congregate at [The Koven](#), a heavy metal bar downtown adorned with skulls, spikes and drawings of the underworld. Some ordered beer or one of the 17 types of poutine, which include the DevilDriver and Cheesus Krist.
