## والعلامات حتى 27 أغسطس 2019

Holy\_bible\_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه لأننا نور العالم الذي أصبح مظلم وليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل بالمحبة والتبشير وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقرب فنكون مستعدين سواء جاء او نحن ان  
سلمنا وديعتنا عن أنى لا اقول انه اقرب لكيلا يقال عني كاذب وانشرا اشاعات او اخيف البعض  
ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي  
المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما  
انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

## سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَأَن تَوْمِنُونَ.

ثالثا لننتبه ونستعد

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْنَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.».

NASA has begun preparations for the upcoming 'God of Chaos' Apophis asteroid which is considered potentially hazardous to Earth as it passes so close to the planet it will be UNDERNEATH TV satellites.

**GEOMAGNETIC STORM FORECAST:** Earth is about to be hit by a double-stream of solar wind. The two streams are flowing from holes in the sun's atmosphere, shown here in an extreme ultraviolet image from NASA's Solar Dynamics Observatory:

These are "coronal holes," places where the sun's magnetic field opens up and allows solar wind to escape. Solar wind flowing from the right coronal hole is expected to arrive on **Aug. 27-28**. A more potent stream of solar wind flowing from the left coronal hole should reach us on **Sept. 1-2**.

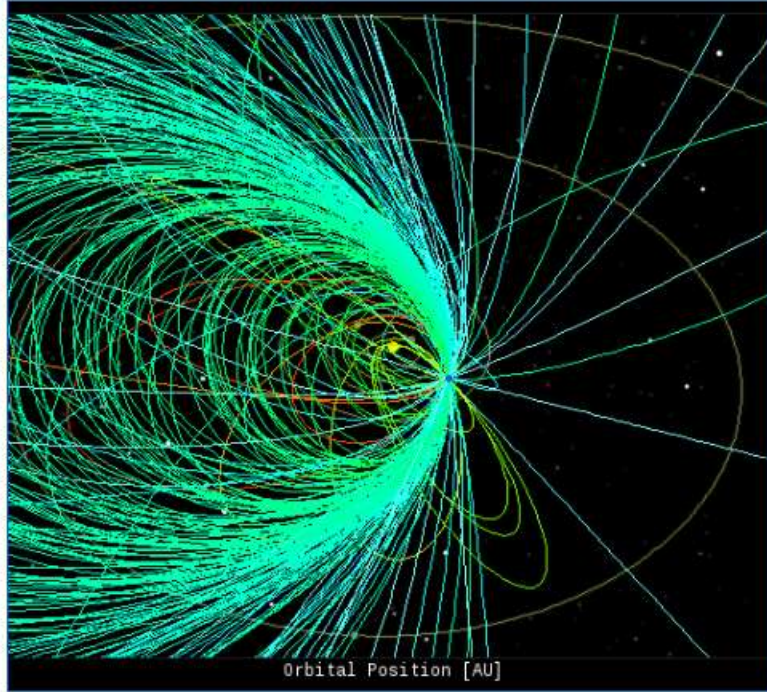

G1-class geomagnetic storms are possible on both dates, although Sept. 1-2 is more likely to experience storm conditions. Why? Because the coronal hole on the left is spewing a faster stream of gas than the one on the right: ~650 km/s vs. ~500 km/s respectively. **Aurora alerts:** [SMS Text](#).

## The US could be hit by eight hurricanes before December as experts predict a storm surge following the end of El Niño

- An average six-month hurricane season would produce six hurricanes in total
- Experts warn that above-average activity is more likely than forecast in May
- This year has seen two named storms already including a category 1 hurricane
- The peak of hurricane season typically runs from August to October each year

(AP) — Alaska has been America's canary in the coal mine for climate warming, and the yellow bird is swooning. July was Alaska's warmest month ever, according to the National Oceanic and Atmospheric Administration. Sea ice melted. Bering Sea fish swam in above-normal temperatures. So did children in the coastal town of Nome. Wildfire season started early and stayed late. Thousands of walrus thronged to shore. Unusual weather events like this could become more common with climate warming, said Brian Brettschneider, an

### Vietnamese southern province hit by bird flu, over 10,000 chickens culled

Source: Xinhua | 2019-08-06 17:16:32 | Editor: Xiang Bo

HO CHI MINH CITY, Aug. 6 (Xinhua) -- Vietnam's southern Ba Ria Vung Tau province has seen first outbreaks of A/H5N6 bird flu which have led to the culling of 10,500 chickens, local media reported on Tuesday.

The outbreaks were spotted in two communes in Xuyen Moc district on July 31 and Aug. 1, and then tests confirmed that some chickens were infected with the bird flu virus, Vietnam News Agency quoted the provincial Department of Livestock and Animal Health as reporting.

Relevant local agencies have culled 10,500 chickens raised by two households in the two communes, disinfected surrounding areas and intensified vaccination among fowls in the district.

In late July, the Vietnamese Ministry of Agriculture and Rural Development said that the outbreaks of A/H5N6 and A/H5N1 bird flu had been reported in 13 communes of 11 localities from the start of 2019, leading to the culling of more than 23,000 poultry.

OGDEN, Utah (AP) — Thousands of dead fish have washed ashore at a reservoir in northern Utah this summer.

[The Standard-Examiner](#) reports biologists with Utah Division of Wildlife Resources have noticed a massive die-off of fish at Pineview Reservoir in Weber County.

Many of the fish were young black crappies. Black crappies are freshwater fish that like to live in flooded vegetation.

DWR aquatic biologist Chris Penne said the fish have likely died from overpopulation, hotter temperatures and receding water levels.

## Drug-resistant salmonella linked to soft cheese and beef sickens hundreds

Aug 25, 2019 | 0 | ★★★★★

**(Fox News)** – A multidrug-resistant strain of salmonella that has sickened hundreds has been linked to Mexican-style soft cheese and beef, the Centers for Disease Control and Prevention (CDC) said in a warning this week. The strain — salmonella Newport — sickened 255 people in 32 states from June 2018 to March of this year. At least 60 people were hospitalized and two died, the CDC said in its Morbidity and Mortality Weekly Report published Thursday. The illnesses were mostly linked to soft cheeses purchased in Mexico and beef in the U.S., officials said.

JERUSALEM/DAMASCUS, Aug 24 (Reuters) - Israeli aircraft on Saturday struck Iranian forces near Damascus that had been planning to launch "killer drones" at targets in Israel, an Israeli military spokesman said.

"The strike targeted Iranian Quds Force operatives and Shiite militias which were preparing to advance attack plans targeting sites in Israel from within Syria over the last number of days," the military said in a statement.

The elite Quds Force is the overseas arm of Iran's Revolutionary Guards (IRGC). Israeli military spokesman Jonathan Conricus told reporters the forces on Thursday had been preparing to launch "killer drones" armed with explosives at northern Israel.

## Earth's inner core is doing something strange

Aug 20, 2019 | 0 | ★★★★★

(NG) – On September 27, 1971, a nuclear bomb exploded on Russia's Novaya Zemlya islands. The powerful blast sent waves rippling so deep inside Earth they ricocheted off the inner core, pinging an array of hundreds of mechanical ears some 4,000 miles away in the Montana wilderness. Three years later, that array picked up a signal when a second bomb exploded at nearly the same spot. This pair of nuclear explosions was part of hundreds of tests detonated during the throes of Cold War fervor. Now, the records of these wiggles are making waves among geologists: They have helped scientists calculate one of the most precise estimates yet of how fast the planet's inner core is spinning.

## Wide implications as Germany teeters toward recession

By DAVID RISING yesterday

BERLIN (AP) — Germany, Europe's industrial powerhouse and biggest economy, with companies like Volkswagen, Siemens and BASF, may be entering a recession, according to a gloomy report from the country's central bank Monday — a development that could have repercussions for the rest of the eurozone and the United States.

## Dow slumps 800 points after bonds flash recession warning

Aug 14, 2019 | 0 📰 | ★★★★★

**(AP)** – The threat of a recession doesn't seem so remote anymore for investors in financial markets. The yield on the closely watched 10-year Treasury fell so low Wednesday that, for the first time since 2007, it briefly crossed a threshold that has correctly predicted many past recessions. Weak economic data from Germany and China added to recent signals of a global slowdown. That spooked investors, who responded by dumping stocks, sending the Dow Jones Industrial Average into an 800-point skid, its biggest drop of the year.

## KEY POINTS

- The bond market is flashing its biggest recession signal yet, now that the widely watched spread between the yield on the 2-year Treasury note and 10-year note yield has inverted.
- This so-called inverted yield curve is a reliable indicator for a recession, measured as two quarters of negative growth.
- But the U.S. curve move is not isolated — bond markets globally are reeling, with the U.S. 30-year bond yield falling to a record 2.015%; the U.K. curve inverted and German bund yields going deeper into record negative territory.

By David Shepardson and Andrea Shalal

WASHINGTON, Aug 23 (Reuters) - President Donald Trump said on Friday he was ordering U.S. companies to look at ways to close their operations in China and make more of their products in the United States instead, a rhetorical strike at Beijing as trade tensions mounted.

Trump cannot legally compel U.S. companies to abandon China immediately and he gave no detail on how he might proceed with any such order, although he said he would be offering a response later on Friday to tariffs on American products announced by China earlier in the day.

The U.S. dollar rose sharply against the Chinese yuan, U.S. stock markets fell and oil prices dropped on Trump's latest salvo against China. "Our great American companies are hereby ordered to immediately start looking for an alternative to China, including bringing your companies

*(Bitter Winter)* — Since the new Regulations on Religious Affairs came into effect in February last year, the CCP has been focusing its crackdowns on those religious groups that are unwilling to be controlled by the government. Designated as unauthorized organizations, they have been subjected to harsh suppression and persecution.

Wang Yi, a well-known Chinese house church pastor, called the Regulations “wicked from the perspective of religion, illegal from the perspective of the constitution, and
