

تعليق على بعض الاحداث العالمية

والعلامات حتى 10 سبتمبر 2019

Holy_bible_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية.
والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه لأننا نور العالم
الذي أصبح مظلّم وليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا
مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة
بأيمان عامل بالمحبة والتبشير وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان
الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان
وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك
زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقرب فنكون مستعدين سواء جاء او نحن ان
سلمنا وديعتنا عن أنى لا اقول انه اقرب لكيلا يقال عني كاذب وانشرا اشاعات او اخيف البعض
ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي
المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما
انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تَوْمُنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

A house-shuddering boom and flash of light streaking across the sky that jarred people in central New York State Monday was most likely a meteor smashing into Earth's atmosphere from space, experts said.

تزايد عدد الاجسام الفضائية التي تهدد الأرض الى 2015

Near Earth Asteroids

Potentially Hazardous Asteroids (PHAs) are space rocks larger than approximately 100m that can come closer to Earth than 0.05 AU. None of the known PHAs is on a collision course with our planet, although astronomers are finding [new ones](#) all the time.

On September 7, 2019 there were **2015** potentially hazardous asteroids.

'People are shooting each other for food and water': Bahamas Hurricane Dorian death toll will be 'staggering' with THOUSANDS still missing as bodies pile up and militias are formed to stop looting

- Government has deployed extra security to Bahamas northern islands amid reports of looting and violence
- Corpses have piled up and officials have ordered in hundreds of body bags, and freezers, to store the dead
- Officials are now evacuating people to capital in Nassau but efforts are hampered by flooded airport runways
- Up to 70,000 in need of 'life-saving assistance' while health minister has warned of a 'staggering' death toll
- Dorian struck the Bahamas as a catastrophic Category 5 storm on Sunday, unleashing deadly 185mph winds
- Half of Bahamas homes destroyed or severely damaged, with \$7bn in insured and uninsured property losses
- **WARNING GRAPHIC CONTENT:**

Families wait in Marsh Harbour Port to be evacuated to Nassau, the capital of the Bahamas. The evacuation is slow and there is frustration for some who said they had nowhere to go after the Hurricane Dorian splintered whole neighborhoods

Half of the homes in the Bahamas were destroyed or severely damaged, racking up a total of \$7billion in insured and uninsured property losses, according to a Thursday estimate from the catastrophe modelers Karen Clark & Co

Atlantic remains extremely active in addition to Dorian

**By Alex Sosnowski**, AccuWeather senior meteorologist
September 06, 2019, 5:07:45 AM EDT

Share this article:    

 **RIDE ALONG WITH THE HURRICANE HUNTERS**  **AccuWeather**

While **Dorian** will remain the most potent feature on the tropical weather maps into late week, AccuWeather forecasters are monitoring other areas in the Atlantic basin in addition to Gabrielle.

The Atlantic has become a three-ring circus of tropical activity with Dorian being the main focus and other areas brewing to the right over the central and eastern part of the main ocean.

Tropical Depression Seven formed in the western Gulf of Mexico shortly before

Typhoon Lingling could cause 'serious damage' says reporter

Faxai brought strong winds of up to 130mph which were equivalent to a category two or three hurricane. Authorities issued a non-compulsory evacuation warning to more than 390,000 people in parts of the Kanagawa and Shizuoka prefectures as well as metropolitan areas in **Tokyo**. According to Tokyo Electric Power company, about 290,000 households lost power as Faxai made landfall.

Deadly Typhoon Faxai impacting Tokyo with flooding, high winds

By **Brian Thompson**, AccuWeather meteorologistBy **Courtney Spamer**, AccuWeather meteorologist

September 09, 2019, 7:42:59 AM EDT

Share this article:

AccuWeather meteorologists are monitoring Typhoon Faxai in the West Pacific, which is currently impacting portions of Japan.

The tropical cyclone strengthened from a severe tropical storm into a typhoon early Saturday morning with winds equivalent to a Category 1 hurricane in the Atlantic or Eastern Pacific basins.

"This will remain a compact storm during its lifespan," said AccuWeather Senior Meteorologist Dave Houk.

Even though the storm is small in size, the threat should not be taken lightly in Japan.

Especially near the coast of Honshu, including Tokyo, residents should be making final preparations ahead of the storm. The rain and wind will be a threat to life and property, even though it will impact a relatively small area, according to Houk.

According to the Guardian, organizers of the Rugby World Cup are monitoring the **cyclone and how it could impact or possibly cancel games** set to take place in Tokyo over the weekend.

This same time last year, a typhoon struck Kobe and Osaka, two cities that were hosting some rugby games of the World Cup.

Evacuation advisories were issued for more than 110,000 households in

It is being called “the Pacific marine heatwave of 2019”, and officials are warning that it could have very frightening implications if it does not dissipate soon. Right now, there is a vast expanse of water stretching from northern Alaska all the way to southern California where the water temperatures have rapidly risen to very dangerous levels. In fact, in some spots the water temperature is already “as much as 6 degrees Fahrenheit above normal”, and there is a tremendous amount of concern about what will happen if the water continues to become even warmer. At this point things are already so bad that we are being warned that this strange

Large number of dead fish wash ashore on Karachi's beach

Web Desk — On Aug 18, 2019

KARACHI: A large number of dead fish on Sunday surfaced along Clifton beach in Karachi, ARY News reported.

The cause behind the matter could not be ascertained. Meanwhile, visitors facing problems due to stinky smell at the seashore.

The authorities, however, are yet to take any action to clean up the shore to ease the plight of the visitors coming to the beach to enjoy their holiday.

Earlier this year, a large number of dead sea creatures had surfaced along Karachi's Sea View beach.

Experts believe that incidents such as this occur every year as the local authorities have installed a sewage line in the sea.

This dead eel washed up on the shore in Alburgh. Supplied photo

Jeff Medor was fishing for bowfin with his sons on Lake Champlain in eastern Alburgh when one of his kids caught something unusual: an American eel.

While that eel looked healthy, that same week they spotted another one on shore, dead.

“And then another one and another one,” he said. “I think we’re up to six here.”

يوم 22 أغسطس موت كم ضخمة من الأسماك (أطنان) في بحيرة في فيتنام

Những ngày qua, hiện tượng cá chết xuất hiện liên tục ở hồ Tây, Yên Sở, Trúc Bạch. Theo các chuyên gia, tình trạng này là do ô nhiễm và môi trường nước thay đổi đột ngột.

Sáng 22/8, Zing.vn ghi nhận một lượng lớn cá chết, trôi dạt vào ven hồ Tây đoạn gần đường Trích Sài, Nguyễn Đình Thi. Mùi hôi thối do xác cá và động vật chết phân hủy bốc lên nồng nặc.

Trước đó, ngày 20/8, nhiều người dân đi qua khu vực hồ Trúc Bạch hãi hùng với mùi cá chết, dạt vào một góc hồ. Theo người dân địa phương ở đây, hiện tượng cá chết bắt đầu xuất hiện từ 18/8, đến 20/8 thì phân hủy mạnh do nhân viên môi trường vớt không xuể.

Trước đó vài ngày, hiện tượng cá chết hàng loạt, gây mùi khó chịu cũng được ghi nhận ở hồ Yên Sở.

Police Called To St. Paul Home Multiple Times In Hours Before His Shooting Death

MINNEAPOLIS (WCCO) – The Minnesota Department of Health says the state is seeing more cases than expected this year involving blastomycosis, a rare fungal infection, likely due to favorable environmental conditions.

The infection is caused by breathing in microscopic fungal spores. Though the CDC says most people don't become ill after breathing in the spores, those who do develop flu-like symptoms. People who participate in outdoor activities near wooded areas are at a higher risk of getting sick, and those with weakened immune systems are more likely to develop severe blastomycosis.

'No one has illusions': Roscosmos head comments on US space militarization

by Staff Writers
Moscow (Sputnik) Sep 02, 2019

Dmitry Rogozin, the chief of Russia's space agency Roscosmos, commented on US President Donald Trump's statement that space is becoming the next "warfighting domain", saying that everything headed in that direction.

"Slowly but steadily [we are] moving to this. In Roscosmos, no one has illusions about this. Everyone is busy", Rogozin wrote on Twitter.

The Russian military has said that by creating the space command, the United States is also creating preconditions for militarizing space. Russia has vowed to respond to these actions in kind.

Trump made this statement on Thursday, as he announced the establishment of the United States Space Command SPACECOM, the sixth branch of the US military, saying it would defend the country's interests in space.

"SPACECOM will defend America's vital interests in space, the next war-fighting domain", Trump said.

Trump added that it is important to have the freedom to operate in space in order to detect and destroy any missile launched against the United States. SPACECOM will deter aggression and outpace rivals of the United States "by far", he said.

Trump also said the establishment of SPACECOM will soon be followed by the official establishment of the United States Space Force to become the sixth branch in the US military.

Putin rebukes officials over space delays

by Staff Writers
Moscow (AFP) Sept 6, 2019

President Vladimir Putin on Thursday gave a dressing down to space officials on a visit to Russia's long-delayed and corruption-tainted cosmodrome in the Far East.

The Vostochny cosmodrome was originally supposed to be running manned launches from last year but the grand project has been consistently behind schedule.

At a meeting with the head of the country's space agency Dmitry Rogozin and others, Putin asked for details on how close the spaceport is to completion.

"I expect a more responsible attitude from you and a dynamic pace when organising work," Putin said in televised comments.

"All the infrastructure being built on the ground here must meet the latest demands and standards to ensure launches of our advanced rocket systems," the president said.

The cosmodrome in the Amur region is one of Russia's most important space projects, designed to reduce its reliance on the Baikonur launch site it rents from Kazakhstan to ferry astronauts.

State television hailed it as "the country's main construction site". Russia hopes the facility will restore its Soviet-era supremacy.

While five unmanned launches have already taken place from the cosmodrome, "Vostochny's capacities can -- and I want to stress, should -- be used more seriously," Putin warned.

Ahead of the visit, Putin said he was going because "there are a lot of questions there needing a solution and needing my intervention in this process."

Navy test launches sub-based Trident II D5 missiles

by Ed Adamczyk
Washington (UPI) Sep 6, 2019

The U.S. Navy announced the test launch of unarmed Trident II missiles from the USS Nebraska on Friday.

Two launches occurred on Wednesday, and two on Friday, off the coast of Southern California. The tests from the Ohio-class ballistic missile submarine were part of a Commander Evaluation Test to validate performance expectations of the Trident II strategic weapon system.

The launches are the latest in 176 successful flights of the Trident II strategic weapon system. The tests are conducted on a recurring, scheduled basis and were not in response to any world events, the Navy said in a statement.

Trident missiles, built by Lockheed Martin Space Systems, have been deployed with the American and British navies since 1990. They are regarded as improvements, in accuracy, payload, and range, over the earlier Trident C-4, and are a key element of U.S. strategic deterrence.

Originally intended to be phased out by 2024, the system recent underwent a life-extending program that will keep the missiles operational through the 2040s.

Pacific Shipyards tapped for USS Michael Murphy maintenance, modernization
Washington (UPI) Sep 6, 2019 - The destroyer USS Michael Murphy will undergo upgrades under a \$32.1 million contract awarded by the U.S. Navy this week.

Pacific Shipyards International is to execute the fiscal 2020 selected restricted availability of the Michael Murphy, with includes a combination of maintenance, modernization and repair, the Department of Defense announced on Thursday.

The contract calls for a "short-term," non-docking availability, with the company providing both facilities and human resources for the work, which is to be performed in Pearl Harbor, Hawaii, and finished by April 2020.

The contract includes options that could increase its value to \$39.1 million, though all work would still be expected for completion by next April.

China backs N. Korea amid deadlocked nuclear talks

by Staff Writers
Seoul (AFP) Sept 3, 2019

China reasserted its backing for North Korea on Tuesday as its foreign minister visited Pyongyang, vowing to maintain "close communication" with its longstanding ally in the face of deadlocked nuclear talks with Washington.

Beijing has long been North Korea's key diplomatic backer and main provider of trade and aid, and while ties deteriorated over Pyongyang's nuclear provocations and China's subsequent backing of UN sanctions, the two have since worked to repair their relationship.

Since March 2018, Chinese President Xi Jinping and North Korean leader Kim Jong Un have met five times, with Xi seeking to weigh in on Pyongyang's diplomacy with Washington.

Chinese foreign minister Wang Yi arrived in Pyongyang on a three-day trip on Monday, just two months after Xi became the first Chinese leader to visit the North in 14 years.

Wang told his North Korean counterpart Ri Yong Ho that Beijing was ready "to promote... close communication and cooperation on the international stage", China's foreign ministry said Tuesday.

Reflecting on their 70 years of alliance, Wang noted that Beijing and Pyongyang have "always been in the same boat and moving forward side by side", it said in a statement.

North Korea fired two unidentified projectiles on Tuesday morning (local time) in what is believed to be another missile test, the South Korean *Yonhap* news agency reported, citing South Korea's Joint Chiefs of Staff.

According to the report, the projectiles were fired from South Pyongan province toward the east.

North Korea has conducted a series of missile tests in recent weeks, including one launch that was supervised by leader Kim Jong Un and was reportedly a test of a "newly developed" weapon.

The tests come as talks between the US and North Korea on denuclearization continue to stall, having broken down after the failed summit between Kim and US President Donald

US says NKorea blocking resumption of nuclear talks

by Staff Writers
Washington (AFP) Sept 7, 2019

North Korea must stop blocking nuclear talks with the United States before it is too late, the US special envoy to that country said amid a stalemate in the negotiations.

"If we are to succeed, North Korea must set aside its search for obstacles to negotiations and instead seek the opportunities for engagement while that opportunity lasts," Stephen Biegun said Friday in a speech at the University of Michigan.

The State Department released the text of his remarks on Saturday.

The two countries began a historic dialogue after President Donald Trump and North Korean leader Kim Jong Un held a summit in Singapore in June 2018.

A second summit in Hanoi in February collapsed without an agreement. The pair met again in June in the Demilitarized Zone dividing North and South Korea, and agreed there to restart working-level dialogue, but those talks have yet to begin.

In recent weeks North Korea has carried out a series of tests of short-range missiles. US officials have called these launches provocations, although Trump himself has avoided criticizing them.

North Korean officials have also criticized the US position that sanctions against North Korea will not be lifted until the country gives up its nuclear weapons.

"We have made clear to North Korea that we are prepared to engage as soon as we hear from them. We are ready, but we cannot do this by ourselves," Biegun said in his speech.

Voice of America News reports: "Pakistan would not use nuclear weapons first, Prime Minister Imran Khan said on Monday, amid tensions with arch-rival India after New Delhi revoked the special status of its part of the disputed Kashmir region.

'We both are nuclear-armed countries. If these tensions increase, the world could be in danger,' Khan said, addressing members of the Sikh religious community in the eastern city of Lahore. 'There will be no first from our side ever,' he said.

Tension remains high in Kashmir, where security forces have used tear gas against stone-throwing protesters and the valley remains under lockdown after Indian Prime Minister Narendra Modi's decision to withdraw special rights for the Muslim-majority state on Aug. 5. "

Russia, Iran blame US for regional tensions

by Staff Writers
Moscow (AFP) Sept 2, 2019

Moscow and Tehran on Monday blamed US policies for tensions in the Middle East while Russia said it welcomed French efforts to save the Iran nuclear deal.

Iranian Foreign Minister Mohammad Javad Zarif condemned Washington's latest actions in Syria as he visited Moscow for talks with Russia's top diplomat Sergei Lavrov.

At the weekend US forces attacked jihadist leaders in northwestern Syria, in what a battlefield monitor called a missile strike that left at least 40 dead.

"Together with Russia and Turkey, Iran has ensured relative security and calm in Syria," Zarif told journalists after talks with Lavrov.

"But the United States is creating a new unstable situation east of the Euphrates in Syria including through actions they've undertaken in Idlib."

Moscow has said that the Americans hit the region "without advance notice to Russia or Turkey", threatening a fragile ceasefire in the province of Idlib.

Lavrov also accused Washington of seeking to "provoke" Tehran after the United States withdrew from the Iran nuclear deal last year.

"Our American partners are openly seeking to provoke Iran with the support of some of their regional allies," he said.

Lavrov commended France for trying to break the impasse and convince the United States to offer Iran some sort of relief from sanctions it has imposed on the Islamic republic.

US imposes sanctions on Iran space program

by Staff Writers
Washington (AFP) Sept 3, 2019

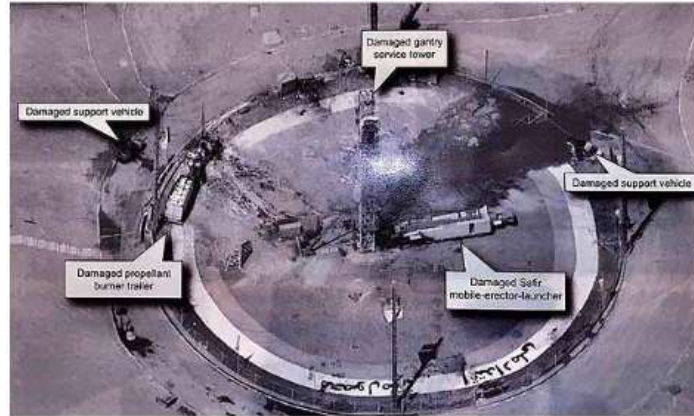

The United States on Tuesday imposed sanctions on Iran's space program, saying that a recent explosion on a launch pad was a sign of missile work.

"The United States will not allow Iran to use its space launch program as cover to advance its ballistic missile programs," Secretary of State Mike Pompeo said in a statement.

"Iran's August 29 attempt to launch a space launch vehicle underscores the urgency of the threat," he said.

Pompeo said that the United States was imposing sanctions on the Iran Space Agency as well as two affiliated research centers.

Under the orders, all US citizens or residents would be held criminally responsible for interacting with Iran's space program.

some might suggest self regulation is currently working

"These designations should serve as a warning to the international scientific community that collaborating with Iran's space program could contribute to Tehran's ability to develop a nuclear weapon delivery system.

President Donald Trump on Friday tweeted a high-resolution picture pointing to damage at a satellite launch pad and said the United States had nothing to do with it.

The tweet gathered wide attention not only for Trump's denial but due to speculation the president was taking to his favorite medium to show US intelligence that was likely classified.

Iran slams European powers as nuclear deal unravels

By David Vujanovic
Tehran (AFP) Sept 8, 2019

Iran's atomic agency chief hit out Sunday at European powers, saying their broken promises gave the Islamic republic little choice but to scale back its commitments under a nuclear deal.

Ali Akbar Salehi was speaking to reporters alongside Cornel Feruta, the acting head of the International Atomic Energy Agency who was on a one-day visit to Tehran.

The IAEA official's visit came less than 24 hours after Iran said it was firing up advanced centrifuges that enrich uranium at a faster rate -- the latest blow to the landmark 2015 nuclear deal.

It was the third step in a strategy Iran implemented in May, reducing its nuclear commitments in a bid to force the deal's remaining parties to deliver on promises of relief from crippling US sanctions.

Britain, France and Germany have been trying to save the nuclear deal, which began unravelling last year when US President Donald Trump withdrew from it and began reimposing the punitive measures against Iran.

"The European Union was supposed to be the replacement of the US but, unfortunately, they failed to act on their promises," Salehi told reporters.

France says Iran dialogue channels 'still open'

Paris (AFP) Sept 8, 2019 - France on Sunday urged Iran to halt its moves to downgrade a landmark nuclear pact, saying channels for dialogue were still open.

"The channels for dialogue are still open, including today... (but) Iran must give up such actions," French Foreign Minister Jean-Yves Le Drian said a day after Tehran announced it had started new centrifuges which would allow it to enrich uranium to higher levels.

That decision, plus two earlier moves to step back from commitments set in the 2015 nuclear accord, comes despite European efforts spearheaded by Paris to get Tehran to continue to respect the pact which US President Donald Trump withdrew from last year.

REUTERS

Iran is willing to return to the negotiating table with European powers and comply with the 2015 Iranian nuclear deal, if the US backs a French offer to give Tehran 14 billion Euros (\$15.4 billion) in credit.

Iranian Deputy Foreign Minister Abbas Araghchi, one of the architects of the Joint Comprehensive Plan of Action (JCPOA), said Wednesday morning that his government was prepared to "return to the nuclear deal" – but only if it would be granted the line of credit and be able to spend its income "without any limitation", a reference to Iran's demand that the US waive its sanctions on Tehran.

Syrian Authorities Find 5,000 Bodies in Raqqa Mass Graves

By Heather Murdock
September 4, 2019 12:24 PM

RAQQA, SYRIA -- Hameed, 40, puts down his shovel and shows us a picture of his cousin on his Facebook mobile phone app. Ahmed Deebo is on his knees, blindfolded and wearing a track suit.

"I show this picture to everyone who works here," Hameed says. "They are looking to recognize his clothes."

Since the beginning of 2018, more than 5,000 bodies have been uncovered in and around Raqqa, all believed to be dumped in mass graves by Islamic State militants. But without the resources for DNA or forensic testing, most remains have not yet been identified.

Hameed excavates mass graves in Raqqa, Syria, and at the same time tries to find the body of his cousin who was killed by IS, pictured Sept. 1, 2019. (Yan Boechat/VOA)

Hameed saw his cousin shot in the head by the militants, when they held Raqqa, after Deebo was accused of blasphemy. Now Hameed wants to return the body to his cousin's children.

As a worker for Raqqa's Civil Defense Force, Hameed is one of many employees who have volunteered for this duty. The men work eight-hour daily shifts digging up bodies, often finding more than a dozen each day.

A Swedish imam was fined about \$305 for hate speech for calling Jews the "offspring of apes and pigs" during an anti-Israel demonstration two years ago.

Samir el Rifai of Helsingborg made the statement in Arabic in response to Israel limiting prayer at the Al-Aqsa mosque after two Israel Police officers were killed there.

"There is no prophet against whom those who are the progeny of monkeys and pigs have not made evil plans against. They did it to all prophets and to all nations, this has also affected our prophet, peace be upon him," el Rifai said at the July 2017 demonstration organized by the Swedish-Palestinian Centre, the Swedish newspaper *Expressen* reported.

(Cnet) – Google Home and Nest Hub gadgets already feature microphones that are always listening for the words that wake up the Assistant (“OK, Google” or “Hey, Google”). Now, the search giant’s newest gadget for your home, the Nest Hub Max smart display, adds in a camera that’s always watching for a familiar face. Google calls the feature Face Match, and it uses facial recognition technology to remember what you look like. After that, you can tap on the screen to see personalized bits of data like calendar appointments and Google Duo messages whenever it recognizes you.

A mysterious, 'noxious' odor is keeping people awake in a Maryland town

Dana Hedgpeth

1 day ago

The town of Cheverly in Prince George's County — population 6,173 — has a new, strange odor that's been so strong at times that it's awakened some sleeping residents, and town officials say they're trying to figure out what it is.

© Town of Cheverly/Town of Cheverly There's a stinky smell in the town of Cheverly, Md., that's itching some residents' throats and keeping them awake. Officials said they've gotten complaints and are trying to figure out the cause.

Officials said in [a statement on the town's website](#) that some of the odors have "also caused residents to gag and experience a burning

(STAT) – At a biohacker conference convened here the other day, panelists took to the stage, settled into their chairs, and launched into their slide decks. Not Anastasia Synn. With Frank Sinatra crooning “I’ve Got You Under My Skin” over the loudspeakers, Synn pulled out a giant needle and twisted it deeper and deeper into her left forearm as the music played on. It was only after finishing her routine, capped off by loud applause from the crowd of biohackers,

Israeli Archaeologists Find Rare Mosaic Possibly Pointing to Where Jesus Fed the 5,000

09-05-2019 - Emily Jones

JERUSALEM, Israel - Israeli Archaeologists have discovered an unusually well-preserved mosaic apparently depicting the miracle of Jesus feeding the 5,000 on the floor of an early Christian Church overlooking the Sea of Galilee.

Researchers from the University of Haifa exposed the mosaic during excavations on the so-called "Burnt Church" at the [Hippos-Sussita excavation site](#). Researchers believe the 6th century church was most likely burned down during the Sasanian conquest in the 7th century. The fire actually helped preserve the floor because when the roof

Controversy has erupted in Grand Rapids, Michigan, after a congressional candidate prohibited a venue he owns

فلهذا اطلب أن نصلي ونستعد ونعد زيت لمصاييحنا لاستقبال العريس بالصلاة والصوم وخدمة
أبناء الله وتنقية القلب والاستعداد بلبس العرس.

رسالة بولس الرسول الي أهل رومية 13

13: 11 هذا وأنكم عارفون الوقت انها الان ساعة لنستيقظ من النوم فان خلاصنا الان أقرب مما كان حين امنا

13: 12 قد تناهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلياقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيرا للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

بطرس الأولى 3: 14

وَلَكِنْ وَإِنْ تَأَلَّمْتُمْ مِنْ أَجْلِ الْبِرِّ، فَطُوبَاكُمْ. وَأَمَّا خَوْفُهُمْ فَلَا تَخَافُوهُ وَلَا تَضْطَرُّوْا،

بل نؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.».

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.

وأيضا استعدوا فقد تسلموا وديعتكم في أي وقت فهناك 150 ألف شخص يموتوا في اليوم الواحد

انت لا تعرف متى ستكون منهم

المسيح اقترب فاصنعوا ثمار تليق بالتوبة واستعدوا لاستقبال العريس.

والمجد لله دائما
