

تعليق على بعض الاحداث العالمية

والعلامات حتى 12 نوفمبر 2019

Holy_bible_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية.
والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه لأننا نور العالم
الذي أصبح مظلّم وليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا
مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة
بأيمان عامل بالمحبة والتبشير وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان
الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان
وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك
زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان
سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشتر اشاعات او اخيف البعض
ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي
المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما
انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُمْنُونَ.

ثالثا لنتنبه ونستعد

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.».

علامات في السماء

ناسا تعلن ان الأرض تحتاج غطاء واقى ضد انفجارات الشمس وغيره

Fire Away, Sun and Stars! Shields to Protect Future Space Crews

01.14.04

Last fall, the Sun was busy. It wasn't just bringing us light and warmth -- it was busy exploding!

One of the most violent periods of solar activity in 60 years posed no danger to us, but triggered magnetic storms in Earth's atmosphere.

If your cell phone didn't work or your favorite radio station was off the air, you may have experienced some of the effects of the storm. Satellites and people in space took precautions to limit their exposure to increased radiation levels resulting from the storm. The two-man crew of the International Space Station spent brief periods in the area of the Station with maximum radiation shielding.

Dr. Raj Kaul examines "bricks" of radiation shielding material. (NASA/MSFC) [View all radiation shielding photos](#)

But how will NASA ensure the safety of future space crews, those likely to travel in space for longer periods as they explore other planets or work on orbiting facilities? These crews will be exposed not only to solar particles but also to the high-energy, highly charged particles that make up the ever-present galactic cosmic rays that permeate the deep space environment.

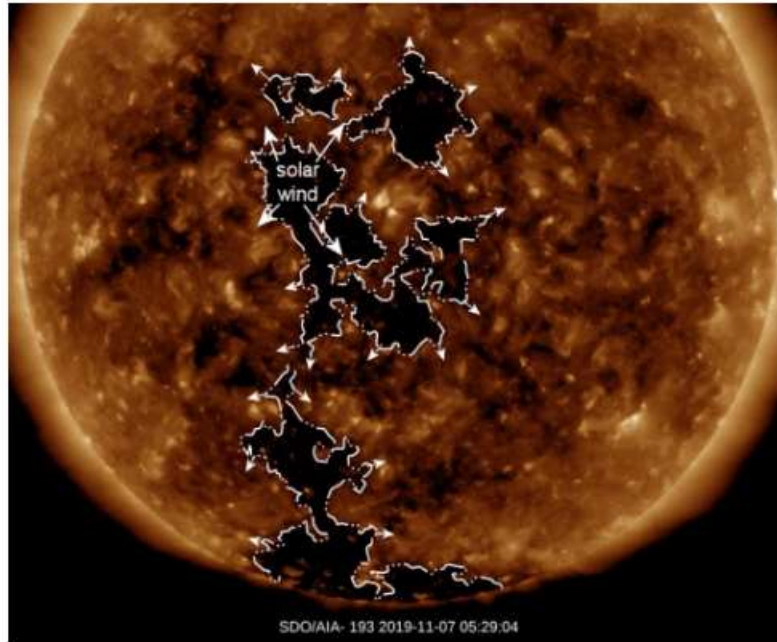

Building a Better Shield

To build a better shield, you need one that absorbs or at least fragments more of the radiation -- keeping some of it from ever reaching space faring crews and rendering it less harmful so as to reduce their radiation exposure to acceptable levels. To build better shields, you need new materials and a better understanding of the physics of the particle interactions with different materials. The search for these materials is underway by the Radiation Shielding Program -- part of a strategy of the NASA Office of Biological and Physical Research to limit space crews' radiation exposure.

"To solve this complex radiation challenge, we have assembled a team of experts from multiple private, public and educational institutions," said Ed Semmes, who manages the Radiation Shielding Program at NASA's Marshall Space Flight Center in Huntsville, Ala. "Our team includes engineers, materials scientists and physicists from the Marshall Center and from Langley Research Center in Hampton, Va."

توقع بعاصفة شمسية قوية

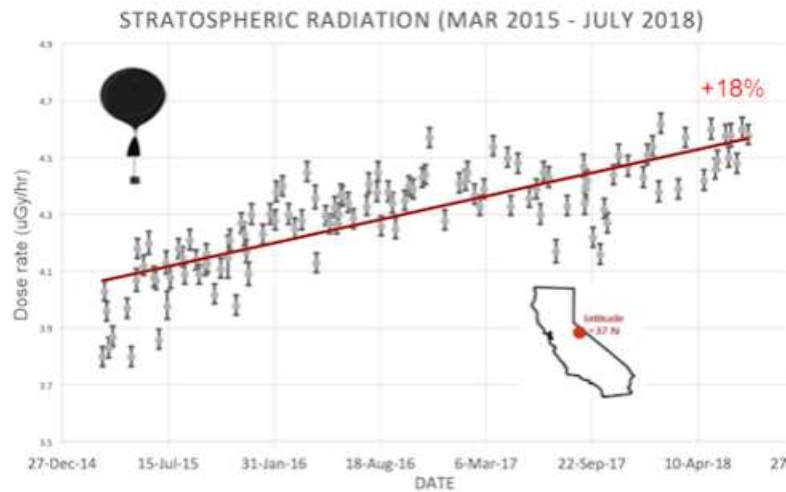

SOLAR WIND, INCOMING: A new hole has opened in the sun's atmosphere, and it is spewing a stream of solar wind toward Earth. NASA's Solar Dynamics Observatory photographed the jagged chasm on Nov. 6th:

Gaseous material flowing from this hole is expected to arrive on **Nov. 11th** or possibly during the late hours of Nov. 10th. Geomagnetic storms are **not** expected when the solar wind reaches Earth, because it is probably a weak stream. Nevertheless, Arctic sky watchers should be alert for extra-bright auroras on Sunday and Monday nights. **Aurora Alerts:** [SMS Text](#).

لا يزال تزايد الاشعة الكونية

SPACE WEATHER BALLOON DATA: Approximately once a week, Spaceweather.com and the students of [Earth to Sky Calculus](#) fly space weather balloons to the stratosphere over California. These balloons are equipped with radiation sensors that detect cosmic rays, a surprisingly "down to Earth" form of space weather. Cosmic rays can [seed clouds](#), [trigger lightning](#), and [penetrate commercial airplanes](#). Furthermore, there are studies ([#1](#), [#2](#), [#3](#), [#4](#)) linking cosmic rays with cardiac arrhythmias and sudden cardiac death in the general population. Our latest measurements show that cosmic rays are intensifying, with an increase of more than 18% since 2015:

The data points in the graph above correspond to the peak of the [Reneger-Pfotzer maximum](#), which lies about 67,000 feet above central California. When cosmic rays crash into Earth's atmosphere, they produce a spray of secondary particles that is most intense at the entrance to the stratosphere. Physicists Eric Reneger and Georg Pfotzer discovered the maximum using balloons in the 1930s and it is [what we are measuring today](#).

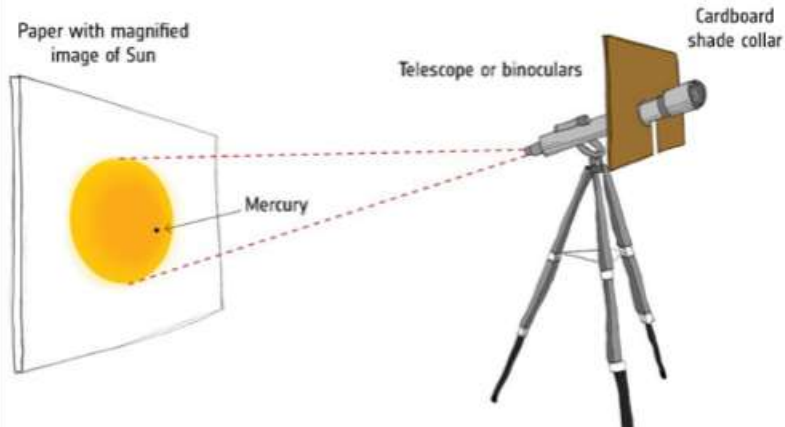

عطارد يمر امام الشمس

THE SCALE OF MERCURY: What will tomorrow's transit of Mercury look like? Marek Nikodem has the answer. He watched the previous transit of Mercury (May 9, 2016) from Kcynia, Poland, and photographed the event at sunset.

Mercury is the black dot near the bottom of the sun. It's pretty tiny. Mercury is only 1/194th of the sun's apparent diameter. That's why looking at the sun through ordinary eclipse glasses won't work. You need magnification—50x or more is recommended.

A safe way to view a magnified image of the sun is the projection method. This illustration from the European Space Agency says it all:

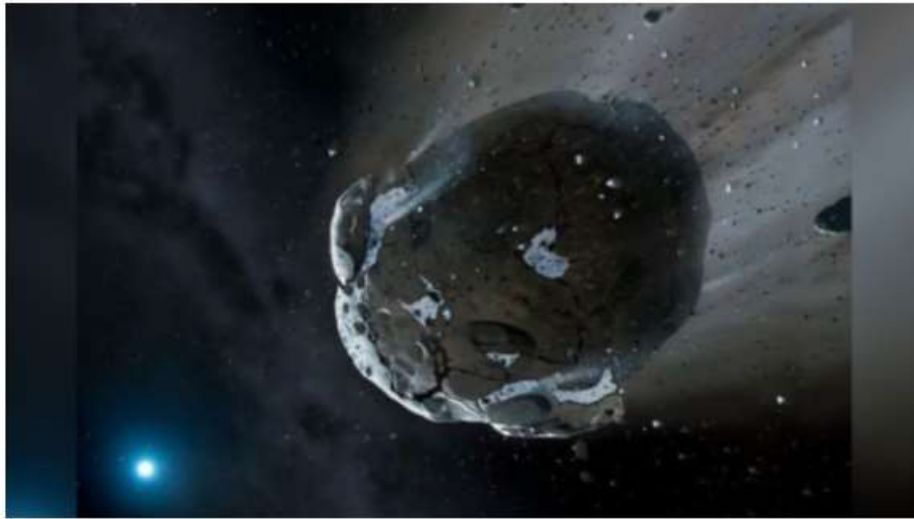

30 صخرة فضائية كبيرة (نجوم السماء) في حجم ناطحات السحاب حان ميعاد مرورها بالقرب من

الأرض هذه الأسابيع

Mussels in Trouble: Nature's Water Filters in Massive Die-Off

By ROBBIE HARRIS • OCT 25, 2019

Share

Tweet

Email

The mighty Pheasantshell mussel, the workhorse water filter of rivers (center) is experiencing mass die-offs in VA and other parts of the world

CREDIT: HURST HOLTZ

The Fresh water mussel is nature's river cleaner. But every autumn, for three years running, there's been a mass die off of one of the most important species. Biologists say, if this continues, what's at stake is nothing less than our global river ecosystems.

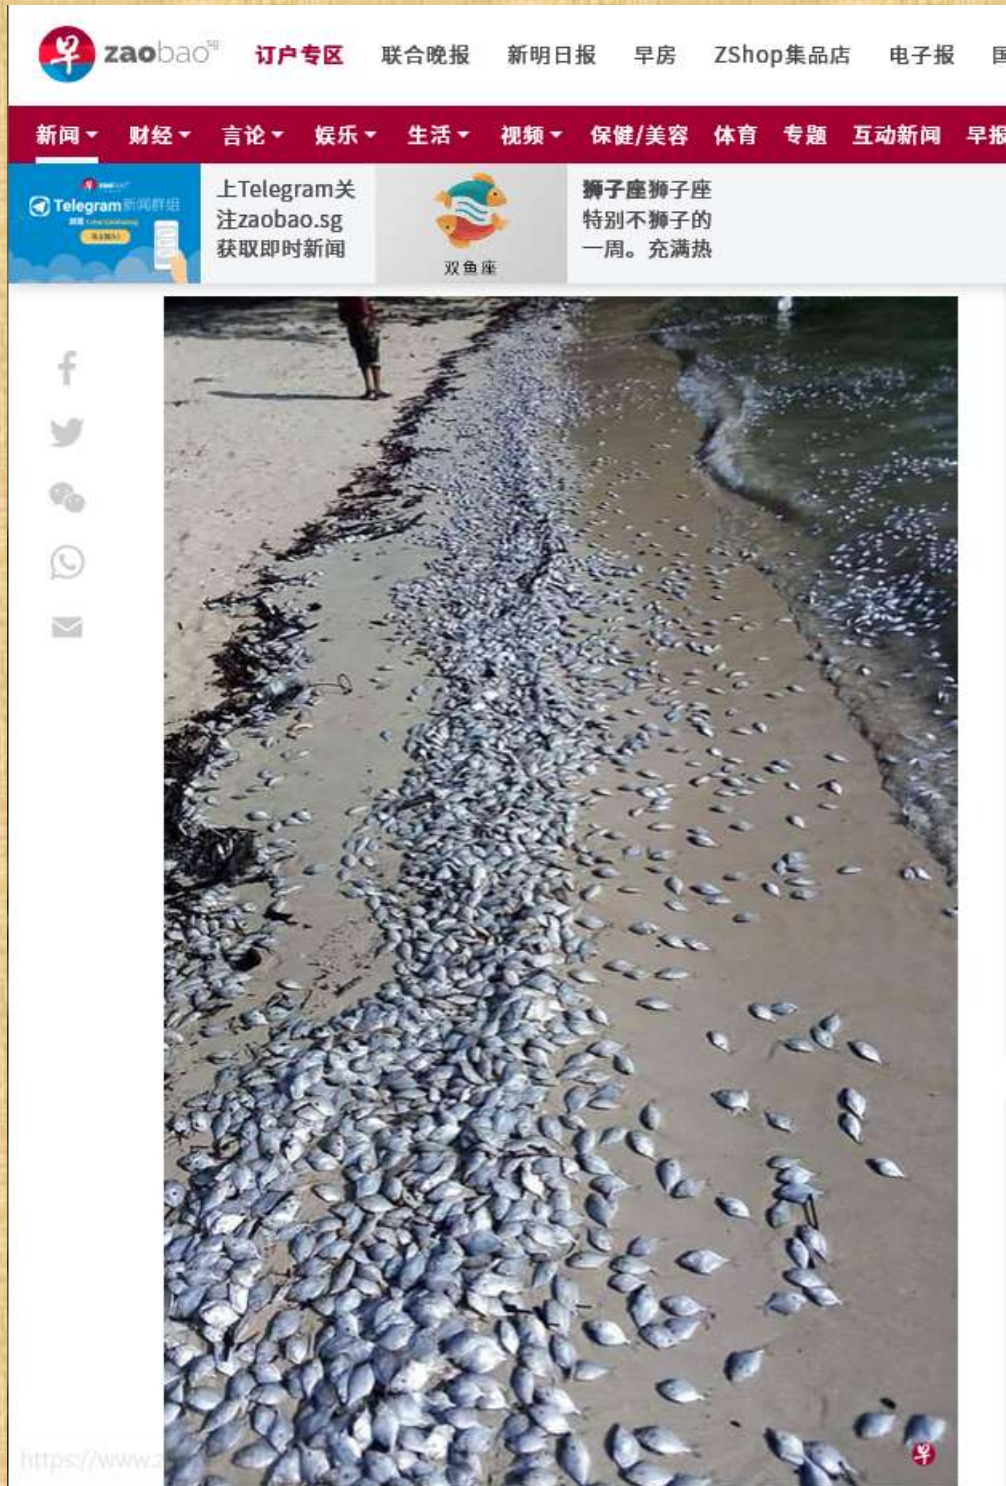

Listen
3:47

The Clinch River system in southern Appalachia is world class, rich with wildlife from pretty much the entire food chain, top to bottom. But it's the bottom that has scientists extremely concerned. A keystone species of freshwater mussel that filters a large portion of these waters is dying by the thousands and biologists are desperate to find out why.

Tony Goldberg is an infectious disease epidemiologist and a veterinarian from the university of Wisconsin, Madison Veterinary School. "We're at 'ground zero.' This, the Clinch River is the best studied example of this. But throughout the world there are muscle populations that are experiencing what we're calling mass mortality events where you'll walk out onto the river and you'll see unusually large numbers of fresh dead mussels."

Goldberg is part of a team of people who are investigating, what we now know is a global phenomenon of mussel mortality events. "This is happening here in the southeast, it's happening in the Pacific Northwest, it's even

Des dizaines d'oiseaux migrateurs meurent mystérieusement sur les côtes de Safi

Par Maya Zidoune le 31/10/2019 à 21h50

Kiosque360. Des pélicans qui ont pour habitude de longer la côte de la province de Safi ont été retrouvés morts, au cours des deux derniers jours, sur les plages et rochers du littoral de la ville.

AA

Certains parlent des effets de la pollution qui sévit dans la ville. D'autres avance la thèse d'une maladie contagieuse. Mais le fait est que des dizaines de pélicans ont été retrouvés morts sur les plages et rochers maritimes de la ville de Safi, nous apprend *Al Akhbar* dans son édition du vendredi 1er novembre.

Ces pélicans sont des oiseaux migrateurs qui ont pour habitude de longer la côte de Safi lors des grands changements de saison. Chaque hiver, ils quittent ainsi les pays du nord de l'Europe pour des climats plus cléments, notamment près de la rive atlantique marocaine.

By Nicholas Pointon for [RNZ](#)

The theory that it was 1080 that killed about 600 rats, an octopus, a calf and other animals that washed up on a West Coast beach is highly unlikely, a Department of Conservation (DOC) regional manager says.

As many as 600 rats washed up on Westport's North Beach over the weekend to the horror of locals.

DOC said they may have been killed by a recent 1080 poison drop 140km away and washed down the Buller River after heavy rain battered the coast.

Air Force tests ATHENA laser weapon against multiple drones

by Stephen Feller
Washington DC (UPI) Nov 07, 2019

Members of the U.S. Air Force used the Advanced Test High Energy Asset, referred to as ATHENA, to shoot down a variety of drones in a Lockheed Martin demonstration of the technology.

In the latest test of the ground-portable laser weapon system, Airmen engaged and shot down multiple fixed wing and rotary drones at a government test range in Fort Sill, Okla., Lockheed said on Thursday.

"We've watched in recent news as this type of laser weapon solution is essential for deterring unmanned vehicle type threats, so it's an exciting time for us to watch Airmen compete Lockheed Martin's critical technology," Sarah Reeves, vice president of missile defense programs at Lockheed, said in a statement.

For the test, Airmen used a government command and control system and radar system to track the drones in engagements representative of those being dealt with by the U.S. military. They then used ATHENA's high-energy laser to slew, acquire, track and defeat the unmanned aircraft.

CYBER WARS

Britain's top general warns of 'reckless' Russia threat

by Staff Writers
London (AFP) Nov 10, 2019

Britain's top military adviser accused Russia on Sunday of "reckless" behaviour that violated international norms and risked sparking a war.

Chief of Defence Staff General Nick Carter said Moscow was operating in a "grey zone" that weaponised information and used unattributable proxies in conflicts.

He pointed to covert operations by the Wagner Group -- a private army the Kremlin denies funding -- in Syria and Africa as well as disinformation campaigns as two types of new threats.

"Russia is much more assertive than it was 10 years ago. It's got some self-confidence now as it reasserts itself as a global power," Carter told BBC television.

"Cyber is part of that, what happens in space is part of that, disinformation, subversion, manipulation, assassinations, and of course the use of mercenaries, which are very easily undeclared and non-attributable," he said.

"Reckless behaviour and the lack of respect for international law relating to these new types of 'weapons' risks escalation that could easily lead to inadvertent miscalculation," Carter separately wrote in The Sunday Telegraph.

Russian President Vladimir Putin flatly denies the Kremlin's involvement in cyber and ground operations that Western intelligence agencies and analysts pin on Moscow.

But Carter said this "deniability" is a tactic now being perfected by Britain's main foes.

His media appearances are timed to remind Britons of the challenges they still face on Remembrance Sunday -- the day the country honours those who fought and died in World War I and subsequent conflicts.

North Korea slams planned US military drills with South

by Staff Writers
Seoul (AFP) Nov 6, 2019

North Korea on Wednesday slammed Washington for plans to conduct a joint military exercise with Seoul next month, as negotiations over Pyongyang's nuclear arsenal remain deadlocked.

The allies cancelled the combined air exercise known as Vigilant Ace along with several other joint drills last year amid a rapid diplomatic thaw with the North, which considers them a rehearsal for invasion.

But Pentagon spokesman David Eastburn said this week that the US had "no plans to skip upcoming combined exercises" this year.

A senior North Korean official said Wednesday that the announcement was equivalent to a "declaration for confrontation" that could jeopardise the diplomatic process.

"We have stressed on several occasions that the joint military drills will force us to reconsider the important steps that we have already taken," said Kwon Jong Gun at the North's foreign ministry.

"Our patience is reaching an uppermost limit," Kwon said in a statement carried by the official KCNA news agency.

Prime Minister Binyamin Netanyahu took part Monday morning in a Knesset meeting, organized by MK Meirav Michaeli (Labor) marking the 25th anniversary of Israel's peace treaty with the Kingdom of Jordan.

During the gathering, Netanyahu argued that there is a direct link between a resolution to the Israel-Palestinian conflict, and the larger conflict between Israel and the Arab world.

"There are two paths to advance peace," said Netanyahu. "If we solve the debate with the Palestinians, we can break through to the Arab world."

Young children who get more screen time than doctors recommend have differences in parts of the brain that support language and self-regulation, a study at Cincinnati Children's Hospital Medical Center has found.

It's not clear how the changes affect a child's development, the researchers said.

The study put 47 healthy Cincinnati-area children between 3 and 5 through magnetic resonance imaging of their brains as well as cognitive testing. While the study did not learn how screen time changed the brains, it did show that skills such as brain

Roman Catholic Churches Celebrating 'Gay Pride' Masses

BY NEWS DIVISION · NOVEMBER 5, 2019

Pulpit & Pen's editorial policy is to not allow Second Commandment violations, which include images of Christ, except when it is to lift the idols to scorn rather than in veneration. We only post this image for the former, not the latter.

Catholic dioceses in the United Kingdom have begun to host LGBTQ "Pride" Masses, events designed to welcome homosexuals into the church and combine gay pride with the Eucharist and other Romish sacraments.

In towns like Salford, the LGBT Masses have received blessings

Delta will show LGBT love scenes in 'Booksmart,' 'Rocketman' after outrage over edited versions

ELLA TORRES

ABC News November 2, 2019

Download this video ? X

Delta will show LGBT love scenes in 'Booksmart,' 'Rocketman' after outrage over edited versions originally appeared on abcnews.go.com

Delta said it will replace in-flight versions of "Booksmart" and "Rocketman" with ones that include the LGBT love scenes, following [outrage](#) over the edited-out scenes.

The company said it was provided copies of the movies that had already been edited and didn't realize the "content well within our guidelines was unnecessarily excluded from both films," Delta said in a statement provided to ABC News on Saturday.

"We are working to make sure this doesn't happen again," the statement continued. "The studio has agreed to provide a special Delta edit that retains the LGBTQ+ love scenes in both Booksmart and Rocketman that will be on our flights as soon as possible."

فلهذا اطلب أن نصلي ونستعد ونعد زيت لمصاييحنا لاستقبال العريس بالصلاة والصوم وخدمة

أبناء الله وتنقية القلب والاستعداد بلبس العرس.

رسالة بولس الرسول الي أهل رومية 13

13: 11 هذا وأنكم عارفون الوقت انها الان ساعة لنستيقظ من النوم فان خلاصنا الان أقرب مما كان حين امنا

13: 12 قد تنهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلياقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيرا للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

بطرس الأولى 3: 14

وَلَكِنْ وَإِنْ تَأَلَّمْتُمْ مِنْ أَجْلِ الْبِرِّ، فَطُوبَاكُمْ. وَأَمَّا خَوْفُهُمْ فَلَا تَخَافُوهُ وَلَا تَضْطَرُّوْا،

بل نؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.».

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.

وأيضا استعدوا فقد تسلموا وديعتكم في أي وقت فهناك 150 ألف شخص يموتوا في اليوم الواحد

انت لا تعرف متى ستكون منهم

المسيح اقترب فاصنعوا ثمار تليق بالتوبة واستعدوا لاستقبال العريس.

والمجد لله دائما
