

# تعليق على بعض الاحداث العالمية

## والعلامات حتى 17 ديسمبر 2019

Holy\_bible\_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه لأننا نور العالم الذي أصبح مظلّم وليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل بالمحبة والتبشير وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان  
سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشرا اشاعات او اخيف البعض  
ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي  
المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما  
انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات وابئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

## سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُمْنُونَ.

ثالثا لنتنبه ونستعد

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْتَضِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.».

علامات في السماء

**COSMIC RAY UPDATE:** Something ironic is happening in Earth's atmosphere. Solar activity is low—very low. Yet atmospheric radiation is heading in the opposite direction. Cosmic rays percolating through the air around us are at a 5 year high.

Take a look at these data gathered by [cosmic ray balloons](#) launched by Spaceweather.com and the students of Earth to Sky Calculus almost weekly since March 2015:

Radiation levels have been increasing almost non-stop since the monitoring program began, with recent flights registering the highest levels of all.

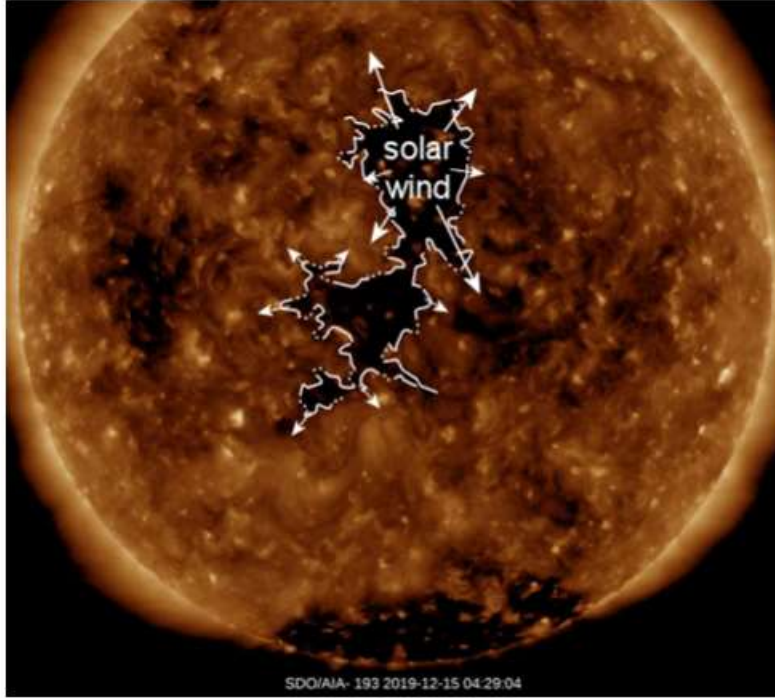

What's happening? The answer is "Solar Minimum"—the low point of the 11-year solar cycle. During Solar Minimum ([underway now](#)) the sun's magnetic field weakens and allows energetic particles from deep space to penetrate the Solar System. As solar activity goes down, cosmic rays go up; yin-yang.

When cosmic rays hit the top of Earth's atmosphere, they produce a spray of secondary particles and photons that rain down on Earth's surface. This is what [our balloons](#) measure—the secondary spray. We use X-ray and gamma-ray detectors sensitive to energies in the range 10 keV to 20 MeV. This type of

توقع برياح شمسية قوية في يوم 18 ديسمبر

**SOLAR WIND, INCOMING:** A hole in the sun's atmosphere is facing Earth and spraying a stream of solar wind in our direction. Estimated time of arrival: **Dec. 18th**. Arctic sky watchers should be alert for a brightening of auroras when the gaseous material arrives. **Aurora alerts:** [SMS Text](#).

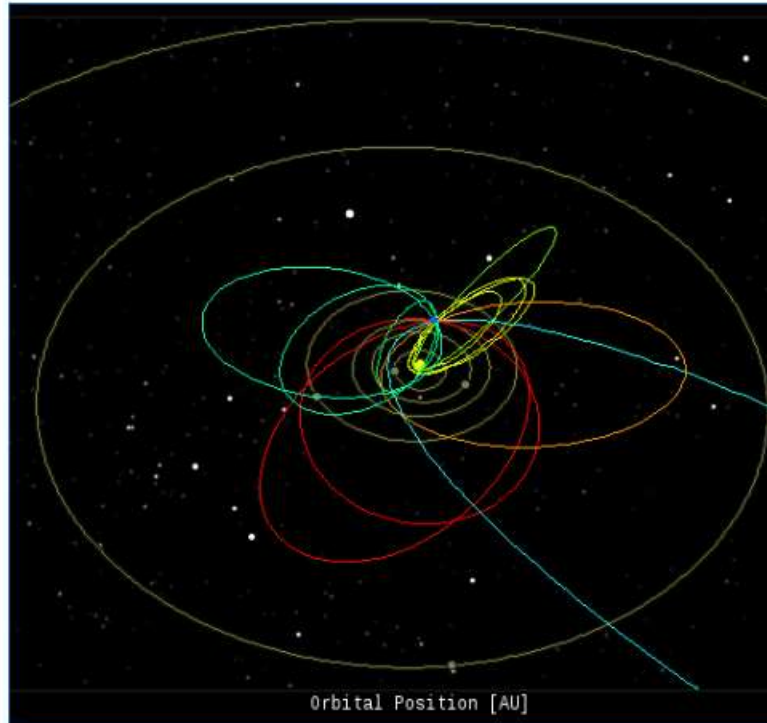

We've seen this hole before. It has been spinning around with sun, strobing Earth with solar wind once every ~26 days for the past 7 months. Previous encounters have produced [G1](#)- and [G2](#)-class geomagnetic storms. Recently, however, the hole has started to close, reducing the potency of its solar wind stream. Full-fledged geomagnetic storms are not likely this time around.

## All Sky Fireball Network

Every night, a network of [NASA all-sky cameras](#) scans the skies above the United States for meteoritic fireballs. Automated software maintained by NASA's Meteoroid Environment Office calculates their orbits, velocity, penetration depth in Earth's atmosphere and many other characteristics. Daily results are presented here on Spaceweather.com.

On Dec. 10, 2019, the network reported **16** fireballs.  
(10 sporadics, 3 Geminids, 3 sigma Hydrids)

In this diagram of the inner solar system, all of the fireball orbits intersect at a single point—Earth. The orbits are [color-coded](#) by velocity, from slow (red) to fast (blue). [\[Larger image\]](#) [\[movies\]](#)

## Greenland ice sheet: Which countries could be WIPED out if ice melts - is UK at risk?

NASA has found that Greenland is melting at a "rapid rate" which could have catastrophic consequences for global sea levels, but which countries will be the worst affected?

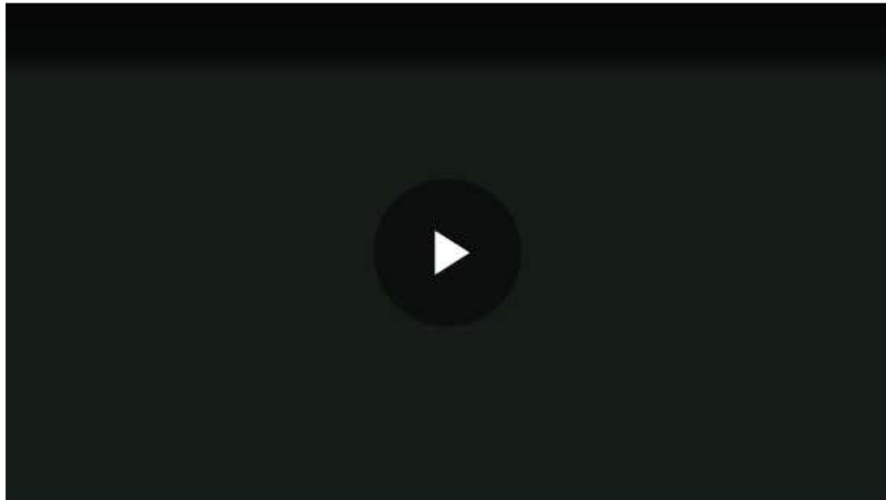

By **SEAN MARTIN**

A joint study from NASA and the European Space Agency (ESA), which analysed satellite data to determine the loss of ice on Greenland, found just how quickly ice is melting as a result of climate change. The research analysed data from 26 satellites to paint a clear picture of Greenland's melting ice, and found that by the end of the century, sea levels could rise by up to

The snow keeps mounting up over most areas of the Upper Peninsula. Many long-time residents are saying they've never seen this much snow so early in the season.

Officially meteorological winter started on December 1. So, while many are saying winter hasn't even started, at least to meteorologists winter is underway.

A [Facebook page for the Twin Lakes area in the Upper Peninsula's](#) shows the dedicated weather observer's daily snowfall measurements.

## Migliaia di pesci morti nel canale Fossa Lavezzola

*Il fenomeno segnalato ad Arpae dalle guardie ittiche volontarie. La situazione si ripete periodicamente*

Berra. Dopo la segnalazione e le proteste del 7 ottobre scorso per una moria di pesci nel canale Fossa Lavezzola a Berra, il fenomeno a distanza di quasi due mesi si ripete, questa volta in località Alberone all'altezza di via Biscarra.

A denunciare la situazione è una guardia giurata ittica volontaria associata a Fipsas Ferrara, (Federazione Italiana Pesca Sportiva e Attività Subacquee), Alex Beccati, che riferisce di un canale "quasi completamente privo d'acqua, quella poca presente è inquinata, al suo interno tutti i pesci sono morti, anche quelli di grossa taglia, segnale che l'inquinamento è stato intenso".

Ci sono quindi "migliaia di cadaveri sparsi lungo il letto del corso d'acqua che, con le temperature eccezionali di questo novembre, iniziano a emanare un odore terribile di marcescenza, marcendo diventeranno come solito covo di malattie, e produrranno un inquinamento ulteriore delle acque, sottraendovi ossigeno. Nessuna specie è stata risparmiata: Carpa, Carpa Erbivora, Siluro, Brema, Lucioperca, tutto completamente morto".

## DEVELOPING: Most active flu season in 15 years wreaking havoc...

Dec 12, 2019 | 0 | ★★★★★

**Accuweather** – The 2019-2020 flu season follows two straight unusually bad flu seasons. Unfortunately, two key indicators show this year could be more of the same. First, “This season is off to an early start, earlier than any season this decade,” Dr. Bryan Lewis, professor at the University of Virginia, who works in a research partnership with AccuWeather, wrote in an email. “You have to go back to 2003 before you have as much active transmission in early December as we have now.”

Nationwide, 3.5 percent of patient visits reported through the U.S. Outpatient Influenza-like Illness Surveillance Network (ILINet) were due to influenza-like illness (ILI). This percentage is above the national baseline of 2.4 percent for the fourth straight week, according to the Centers for Disease Control and Prevention (CDC). Last year, levels of ILI in the U.S. were at or above-baseline normal for 21 straight weeks.

## Hepatitis A virus outbreak continues in Alabama

(Source: WTVM)

By [WSFA Staff](#) | December 11, 2019 at 8:43 PM CST - Updated December 12 at 9:42 AM

MONTGOMERY, Ala. (WSFA) - The number of Hepatitis A virus outbreak cases continues to increase in Alabama, according to data from the Alabama Department of Public Health.

An ADPH report says the outbreak began in northeast Alabama in September 2018; there have been 203 outbreak cases, with seven reported in November 2019.

"We do have at least 15, maybe more counties that have outbreak associated cases," said ADPH Dr. Scott Harris.

## Pyongyang may launch long-range missile this year

by Staff Writers  
Seoul (Sputnik) Dec 11, 2019

North Korea conducted two tests of a rocket engine for a presumably new type of a missile during a "very important" test on 7 December and may launch another before Christmas, the newspaper JoongAng Ilbo reported, citing a senior source in the South Korean government.

"After tests of rocket engine Paektusan on 18 March 2017, the DPRK launched a missile just four days later. Early this year, Pyongyang rebuilt the Tongchang-ri rocket site [known as Sohae Satellite Launching Station in North Korea] and has been showing signs of preparations for a launch of an artificial satellite since last month.

"Therefore, the DPRK, depending on the reaction from the United States and South Korea, may move 'to action' well before Christmas, as was previously stated", the source told the South Korean newspaper.

According to the source, Pyongyang started engine tests much earlier than expected. The tests were also carried out four days after North Korean Deputy Foreign Minister Ri Thae Song warned that "the US will receive a gift for Christmas depending on its choice".

A source close to South Korea's military intelligence, meanwhile, told the newspaper that Pyongyang had

"North Korea described the current [rocket] engine tests as 'extremely important' and 'changing the strategic position'. If these statements are true, then Pyongyang can demonstrate several new missiles of various modifications", the source said.

# US warns N.Korea of consequences of missile test

AFP • December 11, 2019

Kelly Craft, the US ambassador to the United Nations seen here in December 2019, has warned North Korea against a long-range missile test (AFP Photo/MANDEL NGAN)

United Nations (United States) (AFP) - The United States on Wednesday warned North Korea of consequences if it makes good on threats of a spectacular missile test in the New Year, while offering flexibility if it stays in talks.

Frustrated by the lack of sanctions relief after three summits with US President Donald Trump, North Korea has warned of a New Year's surprise if the United States does not come up with concessions by the end of the year.

## North Korea conducts 'crucial test' at Sohae launch site: KCNA

by Staff Writers  
Seoul (AFP) Dec 14, 2019

North Korea has conducted another "crucial test" at its Sohae satellite launch site, state media reported, as nuclear negotiations between Pyongyang and Washington remain stalled with a deadline approaching.

The announcement Saturday comes one day before US Special Envoy on North Korea Stephen Biegun is set to arrive in Seoul for a three-day visit, and after the United States tested a medium-range ballistic missile over the Pacific Ocean on Thursday.

North Korea's Chief of the General Staff Pak Jon Chon said his country was using recent tests to develop new technologies and strategic weapons.

In a case of "acute confrontation", the United States "and other hostile forces will spend the year-end in peace only when they hold off any words and deeds rattling us", he said in a statement carried by the government news agency KCNA.

"The priceless data, experience and new technologies gained in the recent tests ... will be fully applied to the

## N. Korea says US 'foolish' for calling UN security meeting

by Staff Writers  
Seoul (AFP) Dec 12, 2019

North Korea's foreign ministry on Thursday criticised the United States as "foolish" for convening a UN Security Council meeting over growing concern about short-range rockets fired from the isolated state.

Washington on Wednesday used the meeting to warn of consequences for North Korea if it followed through with its promise of an ominous "Christmas gift" in the event that the US does not come up with concessions by the end of the year.

"By arranging the meeting, the U.S. did a foolish thing which will boomerang on it, and decisively helped us make a definite decision on what way to choose," North Korea's foreign ministry spokesman said in a statement carried by the official KCNA news agency.

Trump has met three times with North Korean leader Kim Jong Un to discuss Pyongyang's nuclear programme, but frustrated North Korea is seeking a comprehensive deal that includes sanctions relief.

"The U.S. talks about dialogue, whenever it opens its mouth, but it is too natural that the U.S. has nothing to present before us though dialogue may open," it added.

## Russia, China make UN proposal to ease N.Korea sanctions

By Philippe RATER  
United Nations, United States (AFP) Dec 17, 2019

Russia and China on Monday proposed easing sanctions against nuclear-armed North Korea, in response to steps the North takes towards denuclearization.

The proposal, in a draft resolution which surprised several diplomatic missions, came the same day Washington's top representative in talks with North Korea criticized Pyongyang's "hostile" statements.

The North is under heavy US and United Nations sanctions over its nuclear program, but it has been frustrated at the lack of relief after it declared a moratorium on nuclear and intercontinental ballistic missile (ICBM) tests.

The draft text said the Council "shall adjust the sanction measures towards the DPRK as may be needed in light of the DPRK's compliance with relevant UN Security Council resolutions."

It also underlined the necessity of having

**Trump watching NKorea 'closely' as talks deadline nears**

Washington (AFP) Dec 17, 2019 - US President Donald Trump said Monday he'd be "disappointed" if North Korea had something "in the works" as a year-end ultimatum from Pyongyang about the fate of their nuclear talks approaches.

## Congress to create Space Force with 2020 defense spending bill

by Christen Mccurdy  
Washington DC (UPI) Dec 10, 2019

Congress approved the elevation of Air Force Space Command to a sixth branch of military in the 2020 defense policy bill, which is expected to go before the House and Senate for a vote sometime this week.

The deal was announced in a conference report and press statement on Tuesday that was released by the House and Senate armed services committees.

The report supports a discretionary budget of \$738 billion, including \$71.5 billion for overseas contingency operations funding, as well as \$5.3 billion in emergency disaster recovery for military installations across the country.

Lawmakers included language to prohibit any new billets, forcing the Department of Defense to draw from military personnel in existing space organizations.

But it does create several new administrative positions, including a Chief of Space Operations who will report

Iran is building a tunnel to store missiles in eastern Syria, near the border with Iraq, according to satellite imagery revealed by Israeli intelligence company "ImageSat" on Tuesday.

According to the report released by the company, the tunnel is being used to store missiles and long-range weapons and is located at Imam Ali Air Force Base.

The tunnel is estimated to be approximately 121 meters long, 4.5 meters wide and 4 meters deep.

The report also showed that construction of the underground base and border crossing will allow Iranians to transfer equipment, weapons, and fighters easily across the Iraq-Syria border.

EARTH OBSERVATION

## China improves space-based observation of Earth

by Staff Writers  
Beijing (XNA) Dec 11, 2019

China has greatly improved its ability to observe the Earth from space with a series of high-resolution remote sensing satellites sent into orbit over the past nine years, according to the China National Space Administration (CNSA).

The satellites, belonging to China's high-resolution Earth observation project (Gaofen project) initiated in 2010, have formed a stable satellite remote sensing system, said Tong Xudong, chief designer of the project.

The project has increased the resolution of China's low-earth orbit remote sensing satellites from 2.1 meters to 0.65 meter, and the resolution of China's geostationary orbit remote sensing satellites improved from kilometer-level to 50 meters, Tong said.

The satellites, covering different observation bands, are deployed in different orbits, giving China a preliminary ability for all-weather and round-the-clock observation, said Tong.

Launched on April 26, 2013, Gaofen-1 can cover the globe in four days, with an observation ability of medium resolution and wide coverage.

## Jewish Worshippers Praying on Temple Mount for First Time in Decades

12:00PM EST 12/13/2019

CBN News

(Photo by Yang Jing on Unsplash)

Videos and pictures surfacing online appear to show Jews praying on the Temple Mount—a simple act of worship they have been banned from doing there for decades.

Although two consecutive Jewish temples once stood on the Temple Mount and it is considered to be the holiest place in Judaism, the Muslim Waqf that controls the site today bars Jews and Christians or anyone except Muslims from praying there.

*The Jerusalem Post* reports that the situation seems to have changed, and Jews are now quietly praying on the Temple Mount in full view of the police, even though Israeli authorities insist there has been no change in the policy.

Apply the Jesus Principles to  
Your Life with Joseph  
Mattera

Since the mid-20th century, we have seen the medium of communication go from a dependency upon the printed book (1517-1950), to broadcasting via radio and TV (1950-2010), to the present digital age. The results have been nothing short of a seismic shift related to the amount of access the average person has to unlimited voices and information! This has served to be both a blessing and a curse.

# Amazon, Barnes & Noble selling book that encourages kids to summon 'playful' demons

By [Samuel Smith](#), CP Reporter

New! Listen to articles

Leading national retailers are selling a recently released children's book that teaches children how to summon demons which has alarmed many parents. At least two retailers appear to have since stopped selling the book.

Released in July, the book, titled [A Children's Book of Demons](#), is available in paperback and authored by illustrator [Aaron Leighton](#), who describes himself as a "fan of all things occult."

As the holiday season gears up, the product is being sold by leading book retailers such as Amazon, [Barnes & Noble](#) and Books-A-Million.

The book is marketed as appropriate for ages 5 to 10.

## Twitter Slaps Warning on 'Unplanned' Star Ashley Bratcher's Baby Video

Dec 10, 2019 | 0 | ★★★★★

**FW** – Ashley Bratcher's breakout role came in the movie 'Unplanned' in which she played Abby Johnson, a former Planned Parenthood worker who left the industry after waking up and realizing what was actually taking place in an abortion procedure. Bratcher spoke with Faithwire recently about how the role has changed her life in more ways than one. Bratcher has become a leading voice on the pro-life community and has lent her fame and influence to a number of good causes as a result.

One of those was a video she recently posted to Twitter titled "A Baby Changes Everything" which shows a couple going through the journey of life, from realizing she's pregnant to the baby arriving. It's a very sweet, adorable short video that shows the beauty in becoming a parent. Twitter (or Twitter's all-knowing algorithm), however, felt differently about the video. Not long after Bratcher posted the video, users began noticing something strange.

By JOCELYN NOVECK yesterday

NEW YORK (AP) — Under pressure from a conservative advocacy group, The Hallmark Channel has pulled ads for a wedding-planning website that featured two brides kissing at the altar.

The family-friendly network, which is in the midst of its heavily watched holiday programming, removed the ads because the controversy was a distraction, a spokesperson said in an interview Saturday.

## رسالة بولس الرسول الي أهل رومية 13

13: 11 هذا وأنكم عارفون الوقت انها الان ساعة لنستيقظ من النوم فان خلاصنا الان أقرب مما

كان حين امنا

13: 12 قد تناهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلياقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيراً للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

بطرس الأولى 3: 14

وَلَكِنْ وَإِنْ تَأَلَّمْتُمْ مِنْ أَجْلِ الْبِرِّ، فَطُوبَاكُمْ. وَأَمَّا خَوْفُهُمْ فَلَا تَخَافُوهُ وَلَا تَضْطَرُّوْا،

بل نؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَاَنْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.».

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.

وأيضاً استعدوا فقد تسلموا وديعتكم في أي وقت فهناك 150 ألف شخص يموتوا في اليوم الواحد

انت لا تعرف متى ستكون منهم

المسيح اقترب فاصنعوا ثمار تليق بالتوبة واستعدوا لاستقبال العريس.

والمجد لله دائما
