## والعلامات حتى 21 يناير 2020

Holy\_bible\_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية.  
والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه لأننا نور العالم  
الذي أصبح مظلم وليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا  
مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة  
بأيمان عامل بالمحبة والتبشير وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان  
الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان  
وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك  
زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان  
سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشتر اشاعات او اخيف البعض  
ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي  
المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما  
انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

## سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُمْنُونَ.

ثالثا لنتنبه ونستعد

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.».

### علامات في السماء

العلماء يقولوا أشياء عجيبة تحدث للأرض فالشمس تحير العلماء في تغير نشاطها والبرد كل أسبوع يضرب ارقام قياسية وارتفاع حرارة المحيطات في أماكن بطريقة غريبة والأنشطة البركانية كثرت بطريقة لا تصدق وتطلق رماد اميال في الهواء والحرائق مدمرة في أماكن كثيرة وتغير في القطب المغناطيسي الشمالي وكل هذا يحدث معا وأكثر شيء محزن ان الناس مشغولة ولا تدرك

## 7 Major Earth Changes That Are Happening Right Now

Jan 15, 2020 | 0 | ★★★★★

**(OPINION) Michael Snyder** – There has never been a time in modern human history when our planet has been changing as rapidly as it is changing right now. The sun is behaving very strangely, freakishly cold weather is breaking out all over the world, ocean temperatures continue to rise, volcanoes all over the globe are shooting ash **miles into the air**, Australia is experiencing the worst wildfires that they have ever seen, and the north magnetic pole has been moving at a pace that is deeply alarming scientists. Could it be possible that all of this bizarre activity is leading up to some sort of a crescendo?

Sadly, most people don't even realize what is happening, and that is because the mainstream media only emphasizes stories that fit with the particular narratives that they are currently pushing. But it has gotten to the

“Blue moons” don’t come along very often, and many are wondering if the “blue moon” that we will witness just 3 days before the presidential election in November is significant in some way. We live at a time when so many people are watching for “signs in the sun, and in the moon, and in the stars”, and we have certainly seen [some very strange things in the sky](#) in recent months. But in this case, the moon will not actually change color. In fact, it will look exactly like it normally does, but it will be called a “blue moon” because it will be the second full moon to happen in a one month time

### Hidden Island

---

At the edge of the Earth's core lie two gigantic blobs of ultrahot rock — and that's about the extent to which geologists agree about them.

The mysterious blobs sit on opposite ends of the planet, one is hiding beneath Africa, the other in the middle of the Pacific Ocean — *Quanta Magazine* compared the “massive anomalies” to Princess Leia's iconic hair buns. Scientists first discovered the blobs decades ago while mapping the planet's interior, but haven't learned much since.

### Some Ideas

---

There are two main schools of thought regarding the blobs, according to *Quanta*. The first camp holds that they're merely massive clusters of hot plumes.

## There's a galaxy hurtling towards our Milky Way that could wipe out life on Earth

A nearby galaxy is set to slam into the Milky Way and the "catastrophic event" could knock our solar system into disarray, according to startling scientific calculations.

Astrophysicists at Durham University conducted a computer simulation to find out more about the movement of the Large Magellanic Cloud (LMC), a satellite galaxy that orbits the Milky Way.

**A MAGNETIC EXPLOSION ON EARTH'S DOORSTEP:** Yes, there **are** explosions in Earth's magnetic field. They happen all the time. Gusts of solar wind press against Earth's magnetosphere, squeezing lines of magnetic force together. The lines criss-cross and reconnect, literally exploding and propelling high energy particles toward Earth. Auroras are the afterglow of this process.

On Dec. 20, 2015, such an explosion occurred closer to Earth than anyone had seen before. It has taken researchers 4 years to fully wrap their minds around what happened, and [the results were published](#) just this week in the Jan. 13, 2020, edition of *Nature Physics*.

The vicinity of a supermassive [black hole](#) is a pretty weird place to start with, but astronomers have found six objects orbiting Sagittarius A\* that are unlike anything in the galaxy. They are so peculiar that they have been assigned a brand-new class - what astronomers are calling G objects.

Described as "crazy winter 2020" by some journalists around the world, freak weather has made its presence felt, and in decidedly odd ways. Parts of Europe, often notorious for sub-zero winter temperatures, have seen blossoming plants, including blooming roses on the English coast, and peach trees in bloom in Spain. Traditionally hot countries, however, such as

## Cientos de peces aparecieron muertos en el Centro

REDACCIÓN CARTAGENA | @ElUniversalCtg | 02 de enero de 2020 02:34 PM |

El olor en este sector es nauseabundo. Se teme que la cantidad de peces muertos aumente con las horas.

Tal como aconteció en febrero del año pasado, este 2020 empezó con una mortandad de peces en la laguna de Chambacú, a la altura de la curva donde las personas suelen bajarse de los buses y las busetas apenas llegan al Centro.

El extraño fenómeno fue divisado hoy por los transeúntes, quienes al pasar cerca del lugar sintieron el fuerte olor y al mirar al interior del cuerpo de agua observaron los cientos de peces muertos.

“No sé si esos pescaitos se murieron por falta de oxígeno o alguna contaminación del agua, pero la hedentina que hay aquí es grandísima”, aseveró el vendedor de jugos de naranja Orlando Buriticá,

The outbreak was detected at a farm in the village of Nikola Kozlevo in the region of Shumen, the Bulgarian Food Safety Agency said. The presence of African swine fever (ASF) was confirmed in the herd through laboratory tests.

In an interview televised by *Bulgarian National Television*, food safety agency head Professor Paskal Zhelyazkov said that the "infection has penetrated the site so extensively" that measures to separate and save un-affected pigs would not be possible.

By Stephanie Nebehay

GENEVA, Jan 14 (Reuters) - There may have been limited human-to-human transmission of a new coronavirus in China within families, and it is possible there could be a wider outbreak, the World Health Organization (WHO) said on Tuesday. Coronaviruses are a large family of viruses that can cause infections ranging from the common cold to SARS. A Chinese woman has been quarantined in Thailand with a mystery strain of coronavirus, Thai authorities said on Monday, the first time the virus has been detected outside China.

In all, 41 cases of pneumonia have been reported in the central Chinese city of Wuhan, which preliminary lab tests cited by state media showed could be from a new type of coronavirus, and one patient has died. There have since been no new cases or deaths, Wuhan health authorities said on Tuesday.

(BBC News) – The number of people already infected by the mystery virus emerging in China is far greater than official figures suggest, scientists have told the BBC. There have been 45 laboratory-confirmed cases of the new virus, but UK experts estimate the figure is closer to 1,700. Two people are known to have died from the virus, which appeared in Wuhan city in December. "I am substantially more concerned than I was a week ago," disease outbreak scientist, Prof Ferguson, said.

Health officials in Wuhan, China have revealed that 136 new cases of a mysterious new strain of the coronavirus have been diagnosed over just two days, bringing the total in the city to 198.

In a statement detailing the latest escalation in figures for the major viral outbreak, Wuhan Municipal Health Commission said a third person has died from the illness, while two more are in critical condition. A further 33 cases among the newly diagnosed patients are classified as "severe." All of the patients are being kept in isolation.

## Putin attends massive war games off Crimea

by Staff Writers  
Moscow (AFP) Jan 9, 2020

Russian President Vladimir Putin on Thursday observed massive military drills off the coast of Moscow-annexed Crimea that involved test launches of cruise and hypersonic missiles.

Russia's commander-in-chief was on board the cruiser Marshal Ustinov to watch the joint drills by the Northern and Black Sea Fleets, the Kremlin said.

He watched test launches of Kalibr (Caliber) cruise missiles and Kinzhal (Dagger) hypersonic missiles among others, the Kremlin said.

Russia annexed the peninsula of Crimea from Ukraine in 2014, in a move condemned by the West that was followed by the outbreak of an insurgency in eastern Ukraine. The conflict has claimed more than 13,000 lives.

Exercises in the Black Sea featured frigates and a large anti-submarine ship as well as a submarine, large landing ships and fast attack guided missile craft, while fighter jets and bombers also took part.

"A pair of MiG-31K interceptor aircraft fired Kinzhal missiles at a target at one of the test ranges," the Kremlin said.

Putin has repeatedly touted the Kinzhal missile, which he first unveiled as part of an array of next-generation nuclear weapons during his annual state-of-the-nation address in 2018.

The IDF Military Intelligence Directorate presented its annual intelligence assessment to the political echelon Tuesday morning.

The presentation was delayed one week due to the killing of Iranian Quds Force General Qassem Soleimani by an American airstrike in Iraq.

The Military Intelligence Directorate believes that Iran is continuing to advance at a slow pace and is capable of reaching enough material within a year to produce one nuclear bomb. Production of a missile capable of carrying the bomb will take another two years.

# Life After Death: What 1,000 Near Death Experiences Can Teach Us About 'the Man of Light'

01-16-2020 - CBN News

Everyone has thought about life after death at some point. But millions of people have gone beyond thinking about it to actually experiencing it.

One Gallup study shows millions of people have had "near-death experiences" that gave them a glimpse into the afterlife.

When we get to a point where literally just about everything can be done more cheaply and more efficiently by robots, the elite won't have any use for the rest of us at all. For most of human history, the wealthy have needed the poor to do the work that is necessary to run their businesses and make them even wealthier. In this day and age we like to call ourselves "employees", but in reality we are their servants. Some of us may be more well paid than others, but the vast majority of us are expending our best years

## Chemical plant explosion produces massive fireball forcing 300,000 to stay indoors

Jan 14, 2020 | 0 | \*\*\*\*\*

**(Express)** – A deadly blaze has broken out at a petrochemical plant in Tarragona, northeastern Spain, reportedly caused by a reactor explosion. Worried locals have posted photos and videos on social media showing the dramatic scene at the site. Local reports suggest at least six people have been injured, while two remain missing. The blast is believed to have happened at the IQOXE (Industrias Químicas del Óxido de Etileno) plant in the city. Concerned residents in the surrounding areas have taken to Twitter to share shocking videos and photos and search for answers.

One person said they had been disturbed by the explosion in their own home. They said: "Explosion in #Tarragona in the petrochemical industry of Canonja, sighted from Cambrils ... the sound of the explosion has rumbled the room." Another Twitter user said the boom had been "heard and noticed from various parts of the province

Russian Prime Minister Dmitry Medvedev has announced that the entire government is resigning in a surprise statement released shortly after President Vladimir Putin delivered his annual state-of-the-nation address.

Accepting the resignation, Putin thanked the ministers for their hard work and asked them to function as a caretaker government until a new one can be formed.

A transgender children's doll - believed to be the world's first - has gone on sale in **Russia**.

The doll - pictured with a penis and wearing a dress - sparked debate after being spotted in a Siberian toyshop.

Pictures of the doll at the Planeta Igrushek (Planet Of Toys) shop in the city of Novosibirsk went viral after being posted online.

The images show the doll with long blonde hair and an apparently female face.

It is shown wearing a red dress with what appears to be male genitalia underneath.
