

تعليق على بعض الاحداث العالمية

والعلامات حتى 11 فبراير 2020

Holy_bible_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية.
والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه لأننا نور العالم
الذي أصبح مظلّم وليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا
مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة
بأيمان عامل بالمحبة والتبشير وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان
الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان
وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك
زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقرب فنكون مستعدين سواء جاء او نحن ان
سلمنا وديعتنا عن أنى لا اقول انه اقرب لكيلا يقال عني كاذب وانشرا اشاعات او اخيف البعض
ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي
المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما
انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات وابئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُمْنُونَ.

ثالثا لنتنبه ونستعد

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.».

علامات في السماء

شرح اخر صغير في المجال المغناطيسي هذه المرة فوق النرويج

A SMALL CRACK IN EARTH'S MAGNETIC FIELD: Last night, a small crack opened in Earth's magnetic field. Solar wind poured in to fuel a brief but dramatic display of auroras over the Alps of Norway:

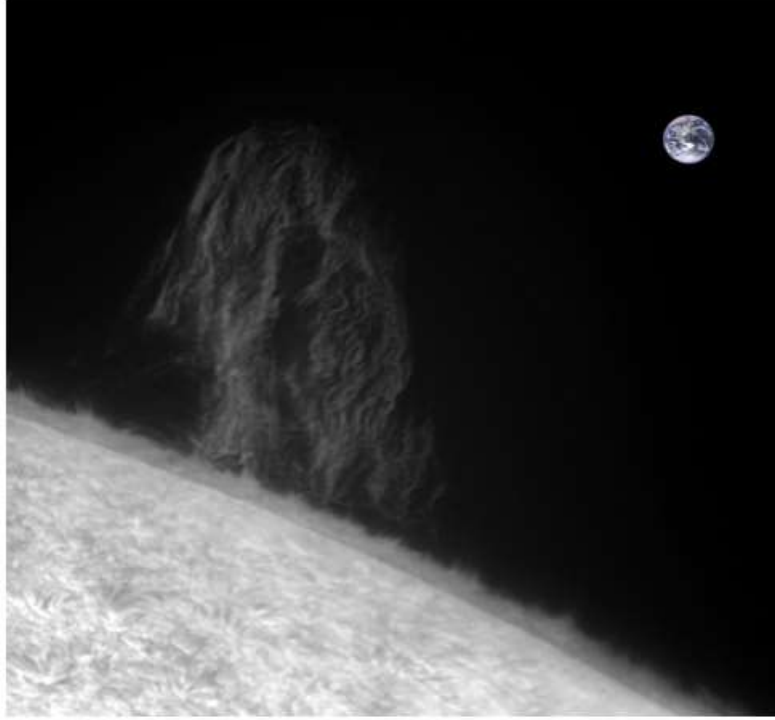

"The Moon and auroras lit up the Lyngyn Alps near Tromsø," reports photographer Peter Schurte, who used a Sony A7s digital camera and a 3.2 second exposure @ ISO 3200 to capture the outburst.

The crack developed on Feb. 3rd when the interplanetary magnetic field ([IMF](#)) near Earth tilted south. This partially canceled our planet's north-pointing magnetic field, creating a gap through which solar wind could flow. During Solar Minimum (happening now), we rely on such cracks and gaps to "stoke the fires" of aurora borealis without the usual support of sunspots and solar flares.

انفجار شمسي قوي

BIG SOLAR PROMINENCE: It's a good thing the sun is 93 million miles away. Otherwise our planet might be in trouble. A [large prominence is dancing](#) along the sun's eastern limb today, and as this photo from Philippe Tosi of Nîmes, France, shows, it is big enough to swallow our entire planet:

"This prominence was very easy to see through my safely-filtered 228 mm (9-inch) telescope," says Tosi. "I inserted an image of Earth for comparison. The prominence is 5 times taller."

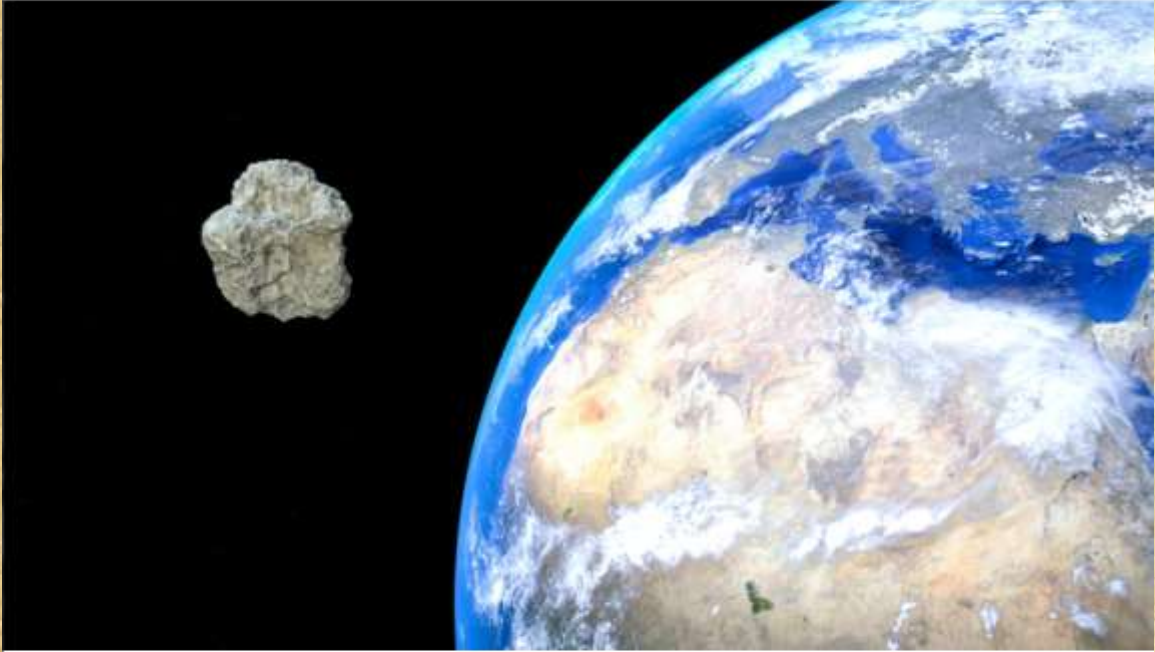

Prominences are clouds of plasma held above the sun's surface by magnetic fields. The way this prominence is moving suggests the underlying magnetic field may be unstable. It could erupt in the hours ahead. Solar observers are encouraged to monitor developments.

We just experienced one of the closest asteroid passes by Earth ever seen

Feb 6, 2020 | 0 🌐 | ★★★★★

OPINION (ETH) – While everyone is preoccupied with life here on planet earth, Above us **asteroid 2020 CW** just skimmed past the planet at 47,647 mph and at a distance of 10,225 miles or (16,455 kilometers) putting it well within the orbit of many of our communications satellites circling the planet at around 22,300 miles (35,888 kilometers) above us. According to a report from **CNET**, This near-miss put 2020 CW at No. 8 on the list of closest asteroid passes in **NASA's database of Near Earth Object close approaches**.

All Sky Fireball Network

Every night, a network of [NASA all-sky cameras](#) scans the skies above the United States for meteoritic fireballs. Automated software maintained by NASA's Meteoroid Environment Office calculates their orbits, velocity, penetration depth in Earth's atmosphere and many other characteristics. Daily results are presented here on Spaceweather.com.

On Feb. 4, 2020, the network reported **20** fireballs.
(20 sporadics)

In this diagram of the inner solar system, all of the fireball orbits intersect at a single point—Earth. The orbits are [color-coded](#) by velocity, from slow (red) to fast (blue). [\[Larger image\]](#) [\[movies\]](#)

Earthquake swarm underway at Michoacan-Guanajuato volcanic field, Mexico

Feb 5, 2020 | 0 📍 | ★★★★★

(ETH) – According to **reports**, An earthquake swarm is in progress at the Michoacan-Guanajuato volcanic field, Mexico. We do not have any conformation whether the quakes are volcanic or tectonic in origin. The seismic zone contains over 1 400 vents and covers an area of approximately 125 x 155 miles in the states of Michoacan and Guanajuato.

The last known reported eruption to transpire in this region took place at Parícutin volcano from February 20, 1943 to February 25, 1943. The center of the swarm is near the town of Uruapan (population 315 000) and is the second-largest town in the state of Michoacan. The town is located at the western edge of the Purépecha highlands, just to the east of the Tierra Caliente region.

The Watchers reported that: “According to the **CENAPRED**, more than 1 800 earthquakes were recorded since January 5, 2020. The largest were two M4.1, registered on January 23 and 30. The agency has sent teams to conduct further surveys and identify the source of seismicity. Despite the number of earthquakes, there are no

Large Eruption at Mount Shindake in Japan Ejects Plume 7,000 Meters in the Air and Triggers Pyroclastic Flow

By **Strange Sounds** - Feb 4, 2020

Like 478

f t p in u w t m d +

Mount Shindake on the Japanese island of Kutinoerabu erupted in the early hours of February 3, 2020.

The strong volcanic eruption sent a plume of ash and gas 7,000 meters in the air and created a 900-meter-long pyroclastic flow on the southwest slope of the crater.

Tartaruga é encontrada morta em Alagoas

Pelo menos 13 tartarugas foram encontradas mortas no Litoral alagoano nesta segunda-feira, 20. Os dados foram confirmados pelo Instituto Biota de Conservação, que explicou que o índice de mortandade aumenta no período de desova deste tipo de animal.

Anúncio fechado por Google

[Denunciar este anúncio](#)[Anúncio? Por quê? ⓘ](#)

Segundo o biólogo Bruno Stefanis, integrante do Biota, muitas espécies de tartarugas marinhas vêm até a costa para a reprodução no mês de janeiro, e com isso interagem mais com o homem e fatores ligados à eles, como redes, lixos e barcos, o que acaba ocasionando parte dessas mortes.

Contudo, o especialista ressalta que no período o número de desovas também aumentam. No Litoral

Plague of locusts triggers national emergency in Pakistan

Feb 4, 2020 | 0 | ★★★★★

(ETH) – The plague of locusts has reached Pakistan as millions of the insects have left crops devoured in the wake of their devastating rampage and forcing the Pakistani government to declare a national emergency. According to **reports**, Millions of locusts descended in the Punjab province, the country's main agricultural region, and in cities across the Pakistani-Indian border.

Authorities are calling this invasion the worst locust attack in decades. Pakistan's Information Minister Firdous Ashiq Awan said: *"We are facing the worst locust infestation in more than two decades and have decided to declare a national emergency to deal with the threat."* immediate measures are being implemented to try to prevent destructive crop failure. The country's Food Security Minister Makhdoom Thurso Bakhtiar described the attack as

NASUULU CONSERVANCY, Kenya (AP) - As locusts by the billions - yes, billions - descend on parts of Kenya in the worst outbreak in 70 years, small planes are flying low over affected areas to spray pesticides in what experts call the only effective control.

It is challenging work, especially in remote areas where mobile phone signals are absent and ground crews cannot quickly communicate coordinates to flight teams.

Pastor warns locust plague not normal, Urges Kenyans to repent

Feb 4, 2020 | 0 | ★★★★★

OPINION (ETH) – A Controversial city preacher James Ng'ang'a was recently in Kajiado last week with the intent to pray for the country and ask for God's forgiveness in regards to the recent locust invasion in parts of the country. According to [a report](#), the minister spent five days praying for the country and then urged Kenyans to repent and turn back to God!

"It is not normal that the country has been invaded by desert locusts and having rain in the month of January," he said. "I am here to repent our sins and ask God for forgiveness because something is wrong somewhere and also ask God for His visitation. God bless you all." "Nyenyekeeni and may God bless you wherever you are. " Call the Lord and he will hear your prayers," he added.

2:24 pm**Wuhan baby tests positive for coronavirus just 30 hours after birth**

BEIJING — A baby in China's epidemic-hit Wuhan city has been diagnosed with the novel coronavirus just 30 hours after being born, Chinese state media reports today.

The infant is the youngest person recorded as being infected by the virus, which has killed nearly 500 people since emerging late last year.

CCTV quotes experts as saying it may be a case of "vertical transmission," referring to infections passed from mother to child during pregnancy, childbirth or immediately after.

The mother had tested positive for the virus before she gave birth.

The official Xinhua news agency reported Monday that a baby born last week to an infected mother had tested negative.

The disease is believed to have emerged in December in a Wuhan market that sold wild animals, and spread rapidly as people traveled for the Lunar New Year holiday in January.

AI Predicts Coronavirus Could Infect 2.5 Billion And Kill 53 Million. Doctors Say That's Not Credible, And Here's Why

John Koetsier Contributor

Consumer Tech

John Koetsier is a journalist, analyst, author, and speaker.

- f An AI-powered simulation run by a technology executive says that Coronavirus could infect as many as 2.5 billion
- people within 45 days and kill as many as 52.9 million of them. Fortunately, however, conditions of infection and
- in detection are changing, which in turn changes incredibly important factors that the AI isn't aware of.

And that probably means we're safer than we think.

Probably being the operative word.

WHO warns of global shortage of coronavirus protective equipment

by Reuters

Friday, 7 February 2020 12:28 GMT

(Adds details of virus name)

By Stephanie Nebehay

GENEVA, Feb 7 (Reuters) - The world is facing a chronic shortage of gowns, masks, gloves and other protective equipment in the fight against a spreading coronavirus epidemic, World Health Organization (WHO) chief Tedros Adhanom Ghebreyesus said on Friday.

The U.N. agency has been sending testing kits, masks, gloves, respirators and gowns to every region, Tedros told the WHO Executive Board in Geneva.

"However the world is facing a chronic shortage of personnel protective equipment, as you might imagine.

"This afternoon I will be speaking to the pandemic supply chain network to identify the bottlenecks and find solutions and push (for) fairness in distribution of equipment," he said.

Coronavirus now poised to become more deadly than SARS

Feb 8, 2020 | 0 | ★★★★★

(ETH) – According to a **new report**, The global death toll from the deadly coronavirus outbreak has now reached 724 making it nearly as deadly as the SARS outbreak. Coronavirus has now reportedly been confirmed in 28 countries and has claimed the lives of 86 people on Friday alone.

The latest news comes as it was revealed that five British residents have also been struck down with the virus at a ski resort in France. Meanwhile, Japan earlier announced its first death from the virus putting the global death toll just 50 behind the 774 fatalities recorded during the SARS epidemic of 2002-2003.

An outbreak of a particularly contagious bird flu virus has been reported in Saudi Arabia, the World Organization for Animal Health (OIE) warns, as the world struggles to contain the spread of a deadly China coronavirus.

The outbreak took place in the central Sudair region, located some 150 kilometers north of the nation's capital of Riyadh. The disease already killed more than 22,000 birds, the OIE said, citing the Saudi Agriculture Ministry. More than 385,000 birds were also slaughtered

Germany reports outbreak of H5N8 bird flu in backyard poultry: OIE

1 MIN READ

PARIS (Reuters) - Germany has reported an outbreak of the highly pathogenic H5N8 bird flu virus in a backyard in the southwestern part of the country, the World Organisation for Animal Health (OIE) said on Monday.

The virus killed 44 birds out of a flock of 69 in Bretzfeld, in the Baden-Wurttemberg region, the Paris-based OIE said, citing a report from Germany's food and agriculture ministry.

"All poultry and captive birds have been culled and safely disposed of on Feb. 7, 2020. No poultry, poultry products or captive birds have been dispatched," it said in the report.

A case of H5N8 bird flu had been confirmed in a wild bird in the eastern German state of Brandenburg in January but no birds on farms were involved, the ministry had then said.

Lassa fever: Edo govt confirms death of eight persons

The Minister for Health, Osagie Ehanire, has said about 27 states of the federation have recorded cases of Lassa fever as at the last count.

Mr Ehanire said this on Thursday during a meeting with state health commissioners across the 36 states, at a two-day event organised by the Nigerian Governors Forum (NGF) in Abuja.

He also disclosed that progress is being made by the federal government on developing a vaccine against the disease in partnership with a German research firm.

The 36 state governors, under the aegis of the NGF, said in January that **state governments are partnering** with other health agencies to tackle the epidemic.

Scourge

At least 16 people have so far died in a fresh outbreak of the disease in Ondo State, and about 84 cases have also been recorded since the beginning of the year.

In Kano State, the outbreak has killed three victims, including a pregnant woman and two medical doctors, after they were diagnosed at the Aminu Kano Teaching Hospital.

FG says strange disease in Benue not Lassa Fever

By Nkechi Onyedika-
Jgoeze, Abuja

18 February 2020 | 4:20
am

•Medical Investigations Still On To Ascertain Real Cause

•WHO Insists Nigeria Is At High Risk Of Coronavirus Due To Frequent Travel Between China, Nigeria

The Minister of health, Dr. Osagie Ehanire, has disclosed that preliminary medical investigation has revealed that the “strange” disease that had claimed several lives in Benue State is not Lassa Fever.

Speaking yesterday evening in Abuja, Ehanire explained that “for now, medical investigations have not detected the exact ailment, but there are indications suggesting that the chemical substance being used for fishing in the affected community could be responsible. But that is subject to outcome of further investigation.”

Many people were confirmed dead in some Benue communities, particularly in Oye-Obi Council, where 15 deaths were recorded and 104 others infected since the mystery disease broke out on January 29, this year.

أمريكا تنتج نوع جديد من الغواصات بأسلحة نووية صغيرة بعيدة المدى

US submarine armed with 'low-yield' nuclear weapon, Pentagon says

by Staff Writers
Washington (AFP) Feb 4, 2020

The US Defense Department announced Tuesday that it has deployed a submarine carrying a new long-range missile with a relatively small nuclear warhead, saying it is in response to Russian tests of similar weapons.

The move is a significant change in US defense posture that has raised concerns it could elevate the risk of a nuclear war.

Critics worry that small nukes would be more likely to be used because they cause less damage, thereby lowering the threshold for nuclear conflict.

But the Pentagon says it is crucial to deterring rivals like Moscow who might assume that, with only large, massively destructive nuclear weapons in its arsenal, the United States would not respond to another country's first use of a small, "tactical" nuclear bomb.

The deployment of the W76-2 low-yield warhead is "to address the conclusion that potential adversaries, like Russia, believe that employment of low-yield nuclear weapons will give them an advantage over the United States and its allies and partners," Under Secretary of Defense John Rood said in a statement.

The Syrian Observatory for Human Rights reported overnight Wednesday that the Israel Air Force attacked Iranian militias in the Damascus area.

Syria's official television reported that the country's air defense systems intercepted what was described as "hostile targets" over the Syrian capital.

"Our air defenses confronted an Israeli attack" west of the capital, said the official Syrian news agency SANA, adding that the attack was carried out from "occupied Syrian airspace in the Golan heights."

Israel is not commenting on the reports.

(Times of Israel) – Syrian state media said early Thursday that Israel launched strikes against several targets near Damascus and claimed the country's air defenses downed a number of missiles. "Our air defenses confronted an Israeli attack" west of the capital, said state news agency SANA, adding that the attack was carried out from "occupied Syrian" airspace in the Golan heights.

They "were able to shoot down most of the enemy missiles before they reached their targets", SANA said. AFP correspondents in several districts of Damascus heard loud explosions around 1:15 am (2315 GMT). State television broadcast images showing explosions in the sky. SANA specified that the Israeli strikes targeted the al-

IDF fighter jets and aircraft attacked Hamas terrorist targets across the Gaza Strip overnight Wednesday, the IDF Spokesperson's Unit said.

During the attack, underground infrastructures used by the military wing of the Hamas terrorist organization were targeted, hampering the Hamas terror organization's ability to expand.

The statement said the attack was carried out in response to the firing of mortars and incendiary balloons from the Gaza Strip towards Israeli territory during the day.

"The IDF views any activity against Israeli territory as very serious and will continue to act as necessary against attempts to harm Israeli civilians," said the IDF statement, warning that Hamas "will bear the consequences for the terrorist attacks against Israeli citizens."

JERUSALEM, Israel - Israeli officials have arrested the man responsible for injuring 12 soldiers by ramming his car into them early Thursday morning outside First Station, a popular entertainment center in Jerusalem.

The man was arrested at the Gush Etzion Junction in the West Bank Thursday evening, police said. He was handed over to Israel's Shin Bet security service for interrogation.

Greece to send Patriot missiles to Saudi Arabia: official

by Staff Writers
Athens (AFP) Feb 4, 2020

Greece will send some of its Patriot defence missiles to Saudi Arabia under a programme involving the US, Britain and France, the government spokesman said Tuesday.

Athens will deploy the missiles at Saudi cost "to protect critical energy infrastructure," government spokesman Stelios Petsas told reporters.

"The deployment contributes to energy security, promotes our country as a factor of regional stability and strengthens our ties to Saudi Arabia," Petsas said, adding that talks on the move began in October.

He did not give a date for the deployment.

The US, Britain and France are part of the same initiative and Italy is likely to join, the spokesman said.

The announcement came as Greek Prime Minister Kyriakos Mitsotakis was on a Middle East tour for investment talks with the governments of Saudi Arabia and the United Arab Emirates. He visited Riyadh on Monday and is in Abu Dhabi on Tuesday.

"As a defensive system, this constitutes no threat to other countries in the area," Petsas said.

A Greyhound bus en route from Los Angeles to the San Francisco Bay Area became a crime scene on Monday after a gunman opened fire inside, injuring six people, some seriously. One person has since died.

A passenger opened fire shortly before 1:30 local time, when the bus was traveling on a highway near Fort Tejon road in Kern County. It is not clear why the suspect began the rampage.

US arrests Arizona man over alleged ties to Al-Qaeda

by Staff Writers
Washington (AFP) Feb 1, 2020

The United States has arrested a man on allegations that he was the leader of a group of Al-Qaeda militants in Iraq, which has requested his extradition.

Ali Yousif Ahmed Al-Nouri, a 42 year-old resident of Phoenix in the southwestern state of Arizona, appeared before a federal judge on Friday and is wanted in Iraq on premeditated murder charges over the death of two policemen in Fallujah in June and October 2006.

"The Government of Iraq subsequently requested Ahmed's extradition from the United States" after a warrant was issued by an Iraqi judge, the US Department of Justice said in a statement released Friday.

Ahmed, who was arrested on Thursday, was allegedly the leader of a group of Al-Qaeda militants in Fallujah that targeted Iraqi police.

The Justice Department statement gave no further details about how long the man had been living in the US or his visa status.

A final decision on any extradition would be made by the US Secretary of State.

Professor warns that Earth could be facing a mini Ice-Age

Feb 3, 2020 | 0 | ★★★★★

OPINION (Express) – Earth could be braced for a 'mini ICE-AGE' as experts warn a solar minimum could last until the 2050s. Sunspot activity on the surface of the Sun follows a well-known but little understood 11 year cycle. Activity rises and falls creating the so-called solar maximum and then solar minimum.

During a solar maximum, the Sun is more powerful and is littered with sunspots. Conversely, when the Sun enters a solar minimum – which it did about two years ago – energy from our host star begins to lessen.

Watershed Moment For UK: The Banning Of Franklin Graham

BY DAVID ROBERTSON/EVANGELICAL FOCUS

FEBRUARY 06, 2020

Share this article:

This week, something of great significance has happened in the UK. Something that has implications far beyond its shores and that will affect the Church and Western democracy for years to come.

Future historians will look back and see this incident as an indication of the decline of Western democracy and it's replacement with an authoritarian ideology far removed from the liberal democracy birthed from Christianity.
