

تعليق على بعض الاحداث العالمية

والعلامات حتى 3 مارس 2020

Holy_bible_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه لأننا نور العالم الذي أصبح مظلم وليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل بالمحبة والتبشير وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان
سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشتر اشاعات او اخيف البعض
ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي
المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما
انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُمْنُونَ.

ثالثا لنتنبه ونستعد

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْتَضِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ».

Animals are dying from Nations trying to contain locusts and coronavirus

Feb 25, 2020 | 0 📖 | ★★★★★

(ETH) – We are witnessing an unprecedented plague of locusts gripping Nations and a pestilence that is spreading around the Globe in the form of what is being called COVID-2019. The ramifications of these two events happening simultaneously have been **devastating to everything from agriculture, food supply, to now the economies of the world** reeling from the effects.

As these two events continue authorities are taking unprecedented measures in an attempt to eliminate or slow down the progression of the locusts and the virus, and as a result, **we are seeing animals dying off from the deadly side effects** of cities and countries spraying huge plumes of toxic liquid and pesticides to kill the

Huge portion of country to face brutal allergy season this spring

HEALTH | Updated Feb. 28, 2020 4:59 AM

Allergy sufferers in the eastern United States should brace for a long and severe season this spring with predicted above-normal rainfall and near-average temperatures.

The arrival of spring is just a few weeks away, and many are looking forward to getting outdoors and enjoying the building warmth. But, for millions of Americans, the season of rebirth also brings a return of sneezing, sniffles, coughing and itchy eyes due to seasonal allergies. We've got you covered with AccuWeather's annual spring allergy forecast. Meteorologists say Americans who live in one particular area of the country may want to stock up on tissues.

Allergy sufferers in the eastern United States should brace for a long and severe season this spring as predicted above-normal rainfall and near-average temperatures mean much of the region will be ripe for tree, weed and grass pollen production, according to AccuWeather meteorologists.

CDC Issues Warnings on Virus; Markets Take Hit: Virus Update

Bloomberg Bloomberg News

Bloomberg February 25, 2020

(Bloomberg) – The U.S. Centers for Disease Control and Prevention warned Americans to prepare for a coronavirus outbreak at home that could lead to significant disruptions of daily life, though the warnings were downplayed by the White House. Congress was told that there's shortage of masks needed for health workers if one occurs.

New cases were reported in Europe, prompting worries of a widening outbreak there. Iran reported a total of 15 deaths, the most fatalities outside China, and a top health official tested positive. Chinese President Xi Jinping said his country was confident of limiting the impact, though new cases continue to be identified elsewhere in Asia.

Xi says China facing 'big test' with virus, global impact spreads

By Beiyi SEOW
Beijing (AFP) Feb 23, 2020

China's leader said Sunday the new coronavirus epidemic is the communist country's largest-ever public health emergency, but other nations were also increasingly under pressure from the deadly outbreak's relentless global march.

Italy and Iran began introducing the sort of containment measures previously seen only in China, which has put tens of millions of people under lockdown in Hubei province, the outbreak's epicentre.

Italy reported a third death while cases spiked and the country's Venice carnival closed early.

Iran's confirmed death toll rose to eight, prompting travel bans from neighbouring countries.

The virus has so far killed more than 2,400 people, with about 80,000 infected globally, though China remains by far the worst hit.

President Xi Jinping said the epidemic was the "largest public health emergency" since the founding of the People's Republic in 1949.

"This is a crisis for us and it is a big test," he said during remarks carried by state television.

In a rare admission, at a meeting to coordinate the fight against the virus, Xi added that China must learn from "obvious shortcomings exposed" during its response.

The World Health Organization (WHO) has praised Beijing for its handling of the epidemic, but China has been criticized at home for silencing early warnings from a whistleblower doctor who later died from the virus.

The CDC has announced that there is a newly confirmed coronavirus case in northern California, and authorities have no idea how the victim was exposed to the virus. This particular individual had not traveled to a foreign country lately and also had not had any contact with a known infected patient. In other words, it appears that this individual was infected by someone that the CDC does not know about yet. As soon as this news dropped, financial markets **started freaking out** and there was an explosion of speculation on social media. I am not an infectious disease expert but I have a PhD in financial economics and I am really good at analyzing data. Coronavirus pandemic is at the top of investors' minds these days. Iranian authorities slept at the wheel and now the country has the highest number of deaths outside of China. Insider Monkey estimates that the new [coronavirus' fatality rate](#) (read our article why our calculation is more accurate than WHO's calculations) is around 0.5% which implies that there are more than 10,000 undetected coronavirus infections in Iran at the moment. The new coronavirus infections are spreading uncontrollably in Iran. As a result, Iran also exported coronavirus to several Middle East countries.

Egypt identified only 2 cases of coronavirus infections so far. The first case was confirmed on February 14th and the second case was reported today. Both patients are foreign nationals. It is mind-boggling because no Egyptians are reported to have contracted the new coronavirus whereas French and Canadian authorities reported 7 confirmed cases of COVID-19 from travelers coming from Egypt.

Navy: Chinese warship fired laser at U.S. aircraft

by Darryl Coote
Washington DC (UPI) Feb 28, 2020

A Chinese warship fired a weapons-grade laser at a U.S. naval patrol aircraft in international airspace last week, the U.S. Navy said Thursday, chastising the Asian nation's actions as "unsafe and unprofessional."

Navy officials in Hawaii said a Chinese navy destroyer 161 targeted a U.S. Navy P-8A Poseidon aircraft while it was flying some 380 miles west of Guam over international waters on Feb. 17.

"The laser, which was not visible to the naked eye, was captured by a sensor onboard the P-8A," Pacific Fleet said in a statement.

"Weapons-grade lasers could potentially cause serious harm to aircrew and mariners, as well as ship and aircraft systems."

The lasering violates the multilateral 2014 Code for Unplanned Encounters at Sea and was inconsistent with a Memorandum of Understanding signed between the two countries' defense departments on behavior for safety of air and maritime encounters, Pacific Fleet said.

"U.S. Navy aircraft routinely fly in the Philippine Sea and have done so for many years," Pacific Fleet said. "U.S. Navy aircraft and ships will continue to fly, sail and operate anywhere international law allows."

The incident comes amid heightened tensions between Washington and Beijing, as both Defense and State officials have warned about China's encroaching military and technological presence.

Earlier this month while speaking at a security conference in Munich, Germany, Defense Secretary Mark Esper warned that China's expansion of its military and technology capabilities pose a threat not only to the United States and other countries but to the international system that they are governed by.

Russia successfully test fires Tsirkon hypersonic cruise missile

by Don Jacobson
Washington DC (UPI) Feb 28, 2020

Russia has successfully test-launched its Tsirkon hypersonic cruise missile from a ship for the first time and is planning more tests from nuclear submarines.

The missile was fired from the frigate Admiral Gorshkov in early January while it was cruising in the Barents Sea, state news agency TASS reported Thursday. It landed at a military testing range in the Northern Ural mountain range more than 300 miles away.

More Tsirkon cruise missile tests from nuclear-powered submarines are expected this year.

Russia first began work on the hypersonic weapon in 2015 and Moscow says it can reach speeds of Mach 9 - nine times the speed of sound - which enables it to evade enemy air defenses. Officials say the missile has a range of more than 600 miles.

Russian President Vladimir Putin said last year Moscow planned to deploy the Tsirkon missile on a series of surface ships and submarines following the withdrawal of the INF Treaty, a Cold War-era agreement limiting the deployment of medium-range nuclear-tipped missiles in Europe.

Putin said the new system can be launched from the same platforms already installed on ships on submarines for Russia's Kalibr missile.

Russia's rapid development of a hypersonic missile program has led to fears of a new arms race with the United States.

Russian President Vladimir Putin (L) and commander Nikolai Yevmenov are during a test of a hypersonic cruise missile on the Black Sea on January 9. Sputnik pool image.

North Korea fires two unidentified projectiles: South's military

By Sunghee Hwang
Seoul (AFP) March 2, 2020

North Korea fired two unidentified projectiles on Monday, the South's military said, weeks after Pyongyang declared its moratorium on long-range missile tests over.

The move comes as nuclear negotiations with the United States are at a standstill and as a unilateral deadline Pyongyang set Washington to offer it fresh concessions on sanctions relief expired.

The two devices were fired eastwards over the sea from the Wonsan area on the east coast, the South's Joint Chiefs of Staff said.

"The military is monitoring for additional launches and maintaining readiness," the statement added.

don't forget about us.

Pyongyang carried out a series of weapons tests late last year, the last of them in November, often describing them as multiple launch rocket systems, although others called them ballistic missiles.

It also carried out static engine tests, most recently in December.

At a party meeting at the end of that month, leader Kim Jong Un declared that Pyongyang no longer considered itself bound by its moratoriums on nuclear and intercontinental ballistic missile tests, and threatened a demonstration of a "new strategic weapon" soon.

North Korea has a long history of seeking to demonstrate its military capability to try to obtain concessions.

Saudi intercepts Yemen rebel missiles targeting cities: coalition

by Staff Writers
Riyadh (AFP) Feb 21, 2020

Saudi Arabia has intercepted missiles fired towards its cities by Huthi rebels in neighbouring Yemen, the Riyadh-led military coalition said, in the insurgents' latest cross-border attack.

A Huthi spokesman quoted by the rebels' Al-Masirah TV said Friday the group had targeted oil installations in the kingdom with 12 Sammad-3 drones, two cruise missiles and a ballistic missile.

The Saudi-led coalition said the projectiles "were launched in a systematic, deliberate manner to target cities and civilians, which is a flagrant defiance of international humanitarian law."

Yemen's capital Sanaa "has become a Huthi militia assembly, installation and launching hub for ballistic missiles that target the kingdom," said coalition spokesman Turki al-Maliki, in a statement released Thursday by the official Saudi Press Agency (SPA).

The Huthi spokesman said an attack targeted Saudi oil giant Aramco's facilities in Yanbu, north of Jeddah in the west of the kingdom, and stressed that the targets "were hit with precision".

He promised further attacks against Saudi Arabia in "case of continued aggression and economic blockade".

Saudi Arabia has repeatedly accused Iran of supplying sophisticated weapons to the Huthis, a charge Tehran denies.

(ETH) – Things are starting to escalate dramatically in the Middle East with Syria, Turkey, and Russia. Yesterday we reported on how an **emergency meeting** was implemented by Turkish president Erdogan after **reports** indicated that at least 22 Turkish soldiers were killed and many others injured in an alleged airstrike in Syria's Idlib province that was carried out by Syrian forces.

Now Russia has announced that it is **sending two warships armed with cruise missiles** to the waters off the Syrian coast and has blamed Turkey for conflict that led to the killing of 33 of its own soldiers in Syria's Idlib region the previous day.

The leaders of Russia and Turkey held crisis talks Friday after 33 Turkish soldiers died in an air strike in Syria, as Ankara ramped up pressure on Europe by threatening to flood in migrants.

The United States and United Nations urged an end to the Russian-backed Syrian offensive against rebel holdouts, but Turkey appeared intent on easing tensions with Moscow by pinning the blame squarely on President Bashar al-Assad's regime.

The flare-up raised fresh concerns for civilians caught up in the escalation of the horrific eight-year civil war, with the UN saying nearly a million people -- half of them children -- have been displaced in the bitter cold by the fighting since December.

Thirty-three Turkish troops were killed late Thursday in the air strike in the northwestern province of Idlib, in the biggest single loss of life by the Turkish military in years.

Russian President Vladimir Putin and Turkish President Recep Tayyip Erdogan spoke by telephone and looked to scale down tensions, with the Kremlin saying the two expressed "serious concern" about the situation.

"There is always room for dialogue," Russian Foreign Minister Sergei Lavrov said.

He said the two leaders spoke of "the necessity to do everything" to implement a 2018 ceasefire that has since collapsed between the two countries in Idlib.

Erdogan may travel next week to Moscow for talks, Putin's spokesman Dmitry Peskov said. Before the killing of troops, Erdogan spoke of a meeting with Putin on March 5 but said it would also include the leaders of France and Germany.

A secret network of Jews influences global political and economic affairs.

That's the feeling among a fifth of the 16,000 respondents to a survey among Europeans from 16 countries. The same number also agreed with the statement that "Jews exploit Holocaust victimhood for their own needs."

The survey was presented Monday at a conference about anti-Semitism organized in Paris by the European Jewish Association. It

People with Down's syndrome plead with Prime Minister not to change abortion law

dentscreenusout.org/boris

Parents of children with Down's syndrome have been sharing their photos on social media to send a strong message to Boris Johnson.

A letter urging Boris Johnson not to allow abortions up to birth for Down's syndrome babies has been signed by over 2,000 people with the condition and their families.

The [open letter](#) has been organised by the campaign group Don't Screen Us Out after a freedom of information request revealed that 710 late-term abortions for Down's syndrome - from 20 weeks onwards - took place in England and Wales between 2009 and 2018.

The Government has released a consultation on proposed abortion regulations for Northern Ireland, outlining that the procedure will be available up to either 12 or 14 weeks on request for any reason, including Down's syndrome.

Abortion on mental health grounds, though, will be available up to either 22 or 24 weeks, and abortions for 'fetal abnormality' are to be permitted up to birth provided that "the fetus if born would suffer a severe impairment, including a mental or physical disability which is likely to significantly limit either the length or quality of the child's life".

Cleft lip abortions increase 150%

Right to Life UK | Thu 27 Feb 2020 10:19 GMT

| (Photo: Unsplash/Ryan Stone)

The number of abortions performed on unborn babies with cleft lip and palate has increased 150% since 2011, in England & Wales.

The new figures, [released in response to a parliamentary question](#) by pro-life MP Fiona Bruce, revealed that there were 10 terminations for those with the condition in 2011 with the figure rising to 25 in 2018 – representing a 150% increase.

The data also found that there had been a total of 223 abortions on unborn babies with cleft lip over the last 10 years.

However, the figures are likely to be even higher as abortions for cleft lip are routinely under-reported.

In 2013, findings from a European register revealed that abortions for cleft lip and palate can be over ten times more common than what is being reported.

Eurocat, which was set up to register congenital abnormalities across 23 countries, found that 157 unborn babies, with the condition, were aborted in England and Wales between 2006 and 2010.

The Department of Health only recorded 14 such abortions, during that time, but [admitted in a 2014 report](#) that some disability abortions had been wrongly recorded.

Viral Video of Girl Cheerfully Getting Abortion Draws Outrage

Feb 29, 2020 | 0 | ★★★★★

(ETH) – A viral video uploaded to TikTok is sparking concerns and outrage as a young girl appears on camera laughing and having a good time as she reveals her pregnancy only to be heading to Planned Parenthood for what appears to be her second abortion. In the video, the girl is revealing her slightly swollen abdomen and laughing in the car, apparently **on her way to Planned Parenthood to have the abortion.**

The video continues of her **smiling as she actually undergoes the abortion**, and a **close-up of the ultrasound image as her baby is then aborted**. According to previous TikTok posts, the girl had taken the Plan B “emergency contraceptive” pill in an **attempt** to terminate the pregnancy.
