

# تعليق على بعض الاحداث العالمية

## والعلامات حتى 21 ابريل 2020

Holy\_bible\_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية.  
والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه لأننا نور العالم  
الذي أصبح مظلم وليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا  
مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة  
بأيمان عامل بالمحبة والتبشير وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان  
الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان  
وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك  
زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقرب فنكون مستعدين سواء جاء او نحن ان  
سلمنا وديعتنا عن أنى لا اقول انه اقرب لكيلا يقال عني كاذب وانشرا اشاعات او اخيف البعض  
ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي  
المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما  
انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

## سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تَوْمُنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

## عبور مذنب اخر وهو سوان

**INTRODUCING COMET SWAN:** Warning: This story may give you a sense of déjà vu. A new comet has been discovered, and in late May it will pass by the sun near the orbit of Mercury. No, it's not Comet ATLAS (C/2019 Y4), which is [currently falling apart](#) on a similar trajectory. Instead, this is Comet SWAN (C/2020 F8):

Michael Mattiazzo of Swan Hill, Victoria, Australia, took the picture on April 13th. "This is a 5 minute exposure through my 11-inch Celestron telescope," says Mattiazzo. "A visual observation using 15x70mm binoculars gave a magnitude of 8.1."

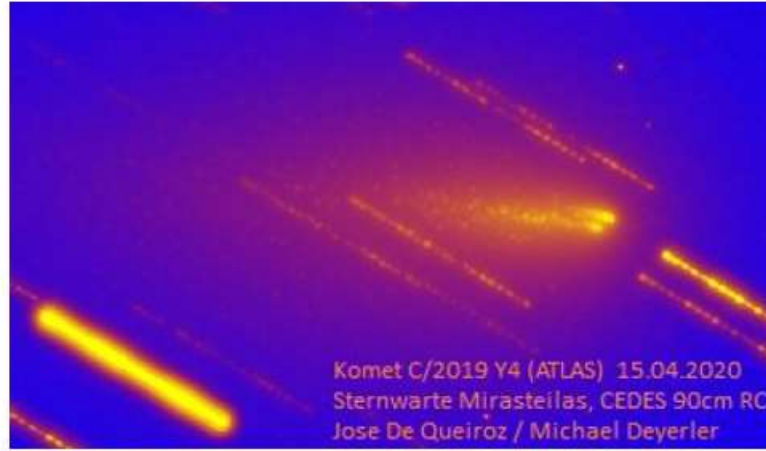

Mattiazzo discovered the comet two days earlier when he was looking at data from the Solar and Heliospheric Observatory (SOHO). It suddenly appeared in images from SOHO's [SWAN instrument](#)—hence the name, "Comet SWAN."

Post-discovery images taken by Italian astronomer Ernest Guido and colleagues confirm that the comet is bright (8th magnitude), green, and has a long tail:

## بعض قطع مذنب أطلس الذي تفتت تتجه للشمس

**FRAGMENTS OF COMET ATLAS RACE TOWARD THE SUN:** Has Comet ATLAS (C/2019 Y4) undergone mitosis? Amateur astronomers taking a close look at the comet's core are seeing two nearly identical fragments racing toward the sun. Jose De Queiroz and Michael Deyerler send this picture taken April 15th from Switzerland's public Mirasteillas Observatory:

"We used the observatory's 90cm remote-controlled telescope with an SBIG STL-11000 camera," explains Deyerler. "We have been monitoring the comet with this large public telescope since early April." Their images show the beginning of ATLAS's breakup on [April 1st](#), followed by increasing fragmentation on [April 11th](#), [14th](#), and [15th](#).

The fragmentation of Comet ATLAS has unfortunately \*not\* multiplied its brightness. According to the Comet Observation Database, [Comet ATLAS has dimmed](#) by 2 magnitudes (a factor of ~6) since the breakup began. The disintegrating nucleus seems to be exhausting its stores of gas and dust very rapidly and, indeed, the comet may not survive much longer. Continued monitoring is encouraged.

**STARLINK SATELLITES PHOTOGRAPHED FROM THE ISS:** For the first time, SpaceX's controversial Starlink satellites have been photographed by astronauts onboard the International Space Station. Here they are, photobombing a display of aurora australis on April 13, 2020:

The ISS was flying over the southern Indian Ocean when the sighting occurred with cameras pointing generally south toward Antarctica. At the time, a minor stream of solar wind was buffeting Earth's magnetic field, sparking auroras over the frozen continent. The Starlink train stretches all the way from the twilight-blue horizon to the starry sky high above the aurora layer.

## Hurricane Season Forecasted to be "Above Average"

Apr 15, 2020 | 0 📌 | ★★★★★

(ETH) – Forecasters at Colorado State University have just released their Hurricane predictions for the 2020 Atlantic hurricane season and are calling for an **"above-average"** season.

According to **WPTV**, The researchers are predicting that there will be **16 named storms, eight hurricanes and four major hurricanes of Category 3 strength or greater.**

"Reasons for above-average forecast include anticipated lack of #ElNino and warmer than normal tropical Atlantic," the author of the forecast, Philip Klotzbach, tweeted on Thursday.

The world's seas are simmering, with record high temperatures spurring worry among forecasters that the global warming effect may generate a chaotic year of extreme weather ahead.

Parts of the Atlantic, Pacific and Indian Oceans all hit the record books for warmth last month, according to the U.S. National Centers for Environmental Information. The high temperatures could offer clues on the ferocity of the Atlantic hurricane season, the eruption of wildfires from the Amazon region to Australia, and whether the record heat and severe thunderstorms raking the southern U.S. will continue.

## 11 tấn cá chết trên sông Chu, dân thất thần, nguyên nhân vẫn "mù mịt"

👤 **Vũ Thượng** • Thứ Hai, ngày 06/04/2020 19:58 PM (GMT+7)

(Dân Việt) Sau 20 ngày, kể từ thời điểm cá nuôi lồng trên sông Chu (đoạn chảy qua các xã Xuân Thiên, Thọ Lâm, huyện Thọ Xuân, tỉnh Thanh Hóa) chết trắng bất thường, nguyên nhân chính khiến cá chết vẫn chưa xác định rõ.

- Thanh Hóa: Hàng tấn cá lồng chết bất thường trên dòng sông Chu
- Thanh Hóa: Cá chết la liệt trên sông Mã, cơ quan chức năng nói gì?
- Phú Thọ: Dân trắng tay, mắc nợ vì cá lồng chết hàng loạt
- Hàng chục tấn cá lồng chết hàng loạt, dân tố do thủy điện giữ nước
- Huế: Người dân điêu đứng khi cá lồng chết hàng loạt

Theo Sở NNPTNT tỉnh Thanh Hóa, ngay khi nhận được thông tin cá chết trắng trên sông Chu đoạn chảy qua huyện Thọ Xuân, Sở đã chỉ đạo Chi cục Chăn nuôi và Thú y xuống thực địa kiểm tra tìm hiểu nguyên nhân.

Kết quả kiểm tra, xét nghiệm các mẫu cá chết, mẫu môi trường nước tại thời điểm lấy mẫu (lúc 12 giờ ngày 16/3) cho thấy hàm lượng N-NO<sub>3</sub> trong nước cao hơn tiêu chuẩn. Mẫu cá có nhiễm vi khuẩn *Pseudomonas* sp-đây là loại vi khuẩn gây chết trên cá.

## Eerie photos show a flock of vultures circling over an empty Manhattan during lockdown as the NYC's coronavirus death toll soars above 7,000

- The birds of prey were spotted circling over Downtown Manhattan Friday
- The photographs were made all the more ominous by the fact the city's skyscrapers and office buildings lay abandoned amid the coronavirus pandemic
- On Friday, the COVID-19 death toll in New York City increased to 7,890
- More than 122,000 residents in the city have been infected with the highly contagious virus

DOI: 10.1126/science.abb5793

[Article](#)[Figures & Data](#)[Info & Metrics](#)[eLetters](#)[PDF](#)

## Abstract

It is urgent to understand the future of severe acute respiratory syndrome–coronavirus 2 (SARS-CoV-2) transmission. We used estimates of seasonality, immunity, and cross-immunity for betacoronaviruses OC43 and HKU1 from time series data from the USA to inform a model of SARS-CoV-2 transmission. We projected that recurrent wintertime outbreaks of SARS-CoV-2 will probably occur after the initial, most severe pandemic wave. Absent other interventions, a key metric for the success of social distancing is whether critical care capacities are exceeded. To avoid this, prolonged or intermittent social distancing may be necessary into 2022. Additional interventions, including expanded critical care capacity and an effective therapeutic, would improve the success of intermittent distancing and hasten the acquisition of herd immunity. Longitudinal serological studies are urgently needed to determine the extent and duration of immunity to SARS-CoV-2. Even in the event of apparent elimination, SARS-CoV-2 surveillance should be maintained since a resurgence in contagion could be possible as late as 2024.

(Updates death toll)

By Lisa Shumaker

April 15 (Reuters) - U.S. coronavirus deaths increased by a record number for the second day in a row, rising by at least 2,371 on Wednesday to top 30,800, according to a Reuters tally, as states spared the worst of the pandemic mulled a partial lifting of restrictions on business and social life by May 1.

The United States recorded its first coronavirus fatality on Feb. 29. It took 38 days to reach 10,000 deaths and just nine more days to go from 10,000 fatalities to 30,000. The previous high single-day death toll was 2,364 on Tuesday.

U.S. confirmed cases topped 635,000 in the United States and 2 million globally.

Despite the spike in deaths, there were tentative signs in some parts of the country that the outbreak was beginning to ebb.

Governors of about 20 states with few coronavirus cases believe they may be ready to start the process of reopening their economies by President Donald Trump's May 1

Whitmer: Stay-at-home protests look like political rally 03:24

**(CNN)** — Protesters gathered in several state capitals this week to voice their opposition to stay-at-home orders issued to slow the spread of the novel coronavirus.

Michigan, Ohio, Kentucky, Minnesota, North Carolina and Utah -- states led by both Republican and Democratic governors -- have all seen protests in recent days as people grow more concerned about the economic fallout of the coronavirus pandemic.

"A small segment of the state is protesting and that's their right," Michigan Gov. Gretchen Whitmer, a Democrat, told CNN. People are getting "stir crazy" at home, she said, and they're worried about paying the bills.

Democratic presidential candidate Joe Biden's health adviser, Dr. Zeke Emanuel, **said** last week that coronavirus will be around "for at least eighteen months or more" and that the U.S. "will not be able to return to normalcy until we find a vaccine or effective medications."

هذا بكل تأكيد سيسقط أمريكا تماما لو حدث ومخاوف ان يكون هذا من خطط بايدن

بعض التذكرة بالتاريخ

اول مريض بكورونا يظهر في أمريكا كان يوم 15 يناير وهو كان اتى من اوهان وهو نفس يوم محاولة impeachment لترامب على يد نانسي بلوسي

يوم 17 رغم مشغوليته بحرب الديموقراطيين له أصدر قرار ببداية فحص المسافرين وبخاصة مطارات نيويورك وسان فرانسيسكو وغيرها ولكن وأعلن انه غير امن السفر للصين ولكن وسائل الاعلام المعروفة هاجمته بشدة وقالت انه متعصب ضد الصين وان السلطات العلمية تقول لا يوجد خطورة من السفر للصين

بل وقتها منظمة الصحة العالمية نشرت إشاعة انه لا داعي للخوف من كورونا لان أدوار البرد اخطر تقتل اكثر منها بكثير

من وقتها كان ترامب يحاول منع السفر من الصين ولو كان نجح كان منع 430,000 صيني من حمل المرض لأمريكا

بعد مقاومة عنيفة من الكل ترامب أصر ان يضع منع للسفر للصين يوم 31 واستمرت حرب واتهامات بشعة ضده ان ما يفعله يثير قلق الناس بدون داعي وهو يفعل هذا ضد نصائح السلطات العلمية العالمية أي WHO وأيضا وسائل الاعلام كانت تقول ان منظمة الصحة العالمية تصرح بانه لا يوجد داعي لمنع السفر من والى الصين والامر امن

بعد اصدار ترامب منع السفر بلوسي والديموقراطيين حاولوا في نفس اليوم أي 31 يناير اصدار قرار من الكونجرس بإلغاء قرار ترامب الذي يمنع السفر للصين

وهذه المحاولة استمرت عدة أيام

ترامب أراد يلفت نظر المسؤولين في أمريكا عن الكورونا يوم 4 فبراير في كلمته امام المجلس ولكن كالعادة قوبل بالهجوم بان الانفلونزا أخطر من الكورونا وهذا مسجل رسميا في خطابه الذي مزقته نانسي بلوسي يومها

بعدها بأسبوعين ترامب قرر ان يخصص 2.5 بليون دولار لمكافحة كورونا ولكن كالعادة رد فعل نانسي بلوسي والديموقراطيين هو عدم عرض طلبه للكونجرس أي تعطيل القرار

في أواخر فبراير واستمرار اتهام ترامب بانه يغالي في ردود افعاله ضد الكورونا نانسي بلوسي والديمقراطيين كانوا يشجعوا الناس على الذهاب للمقاطعات الصينية بل ذهبت هي بنفسها لمنطقة صينية لتشارك احتفالات راس السنة الصينية وطالبت الناس ان تذهب للصين والمناطق الصينية ورفضت أي مقاطعة او أي بقاء في البيوت (هذا اخر فبراير) وأيضا نفس الامر بلازيو عمدة نيويورك

ترامب يوم 12 مارس منع السفر من أوروبا وهوجم بهجوم شرس من الكل بما فيهم أوروبا كل هذا الوقت ولم يكن هناك اغلاق في أي مكان فإيطاليا بدأت الاغلاق 10 مارس واسبانيا مارس 14 وإيران 4 ابريل كل هذا بسبب تأثرهم بكلام تيداروس رئيس منظمة الصحة العالمية بعدها طبق 15 يوم تقليل انتشار المرض ومدها الى 30 يوم

وأيضا الماسكات التي اتضح ان أوباما بعد H1N1 واستهلاك اغلب المخزون لم يسترجع المخزون لتقليل الميزانية

ملحوظة من يناير مطالبة سواء من CDC وغيرها بان يحصلوا على عينات من الفيروس لدراسة  
كيفية مقاومته واختبار الإصابة به ولكن الصين رفضت ان تعطي عينات من الفيروس مما عطل  
تطوير وسائل كشف الإصابة وأيضا كشف علاج  
تم اثبات ان الصين اخفت على شعبها ولم تحذرهم بالوباء لعدة أيام

AP ASSOCIATED PRESS

## China didn't warn public of likely pandemic for 6 key days

2 hrs ago

Facebook Twitter WhatsApp Email LinkedIn Print

1/10 SLIDES © Provided by Associated Press Full screen

In this Tuesday, March 10, 2020, photo released by China's Xinhua News Agency, Chinese President Xi Jinping talks by video with patients and medical workers at the Huoshenshan Hospital in Wuhan in central China's Hubei Province. Top Chinese officials secretly determined they were likely facing a pandemic from a novel coronavirus in mid-January, ordering preparations even as they downplayed it in public. Internal documents obtained by the AP show that because warnings were muffled inside China, it took a confirmed case in Thailand to jolt Beijing into recognizing the possible pandemic before them. # Putin, Xi push back on virus claims; Macron: things 'happened we don't know about'

by Staff Writers  
Moscow (AFP) April 16, 2020

Russian President Vladimir Putin and Chinese leader Xi Jinping on Thursday rejected as counterproductive attempts to blame Beijing for delaying informing the world about the coronavirus, the Kremlin said.

Putin and Xi spoke after US President Donald Trump's administration berated China for not sharing data more quickly.

Washington is also investigating the origins of the coronavirus -- which has killed more than 140,000 people worldwide -- saying it doesn't rule out that the disease came from a laboratory researching bats in Wuhan, China.

The Kremlin said that during phone calls with Xi on Thursday, Putin praised "consistent and effective actions" of the Chinese "which allowed the epidemiological situation in the country to stabilise."

The leaders did not refer to the White House directly but stressed the "counterproductiveness" of attempts to blame China for not informing the world quickly enough about the appearance of a dangerous new infection.

SYDNEY, April 17 (Reuters) - Australian public life could be constrained for another year because of the coronavirus pandemic, Prime Minister Scott Morrison warned on Friday, as the country's most populous state mulled sending children to school in shifts.

Australia has so far avoided the high numbers of coronavirus casualties reported around the world after closing its borders and imposing strict "social distancing" measures for the past month.

Restaurants, bars and other "non-essential" businesses have closed and public gatherings of more than two people are banned under the threat of fines and even prison, measures that are expected to double the unemployment rate by mid-year.

In response, the daily growth rate of reported new infections has steadied in the low percentage single digits, from about 25% several weeks ago, for a total of about 6,500 infections, including 63 deaths.

## Brazil's president, skeptical of coronavirus, fires health minister who pushed for social distancing

7:55 p.m.

Andressa Anholate/Getty Images

Brazilian President Jair Bolsonaro on Thursday fired his health minister, Luiz Henrique Mandetta, after they butted heads on how to tackle the COVID-19 coronavirus pandemic.

Bolsonaro has downplayed the epidemic, saying that "life is priceless, but the economy and jobs must return to normal." Mandetta in turn was adamant about how important social distancing guidelines are in curbing the spread of the virus. During his final briefing on Thursday, Mandetta told Brazilians not to "think that we are going to escape a sharp rise in cases of this illness. The health system still isn't ready [for] a rapid increase [in cases]." He also offered encouragement, saying, "Don't be afraid. Science is light ... and it is through science that we will find a way out of this."

### MORE ON: **CORONAVIRUS**

**UK extends coronavirus  
lockdown by at least 3**

Scientists say they have discovered the first evidence of a "significant" mutation of the coronavirus — raising concerns that strides made toward a vaccine so far could become "futile," according to a new study.

فالكوفيد بدأت تحدث له طفرات تقلل قدرة ارتباطه مع مستقبل ACE-2 أي سيضعف قدرته على

غزو خلايا البشر

"Small mutations would be expected with any virus. The emerged mutation in this report appears to reduce binding to ACE2 meaning less virulence which could potentially mean less ability to infect. But as this is an isolated report this doesn't necessarily mean vaccine attempts are futile."

Benjamin Neuman, professor and chair of biological sciences with Texas A&M University, also [told the South China Morning Post](#) that the constant mutation of the coronavirus only means the vaccine will need periodic tests and updates.

SPACE WAR

# Moscow, Washington agree to create working group on space

by Staff Writers  
Moscow (Sputnik) Apr 14, 2020

Moscow and Washington have agreed to create a working group on outer space, and Russia is expecting to get a response to its proposals on the agenda of the dialogue in the coming weeks, Russian Deputy Foreign Minister Sergey Ryabkov said on Saturday.

"In practical terms, the composition of the group has not yet been agreed on. We are at the stage of coordinating the agenda, that is, the topics based on which the work will be carried on," Ryabkov said.

"I can say that the immediate task is to agree on the agenda, after that a lot will become clear. But in any case, it's a matter of weeks and months in the worst case, that is, it is the nearest foreseeable future. We would like to hear from the Americans a concrete reaction to those ideas and considerations on the agenda that we have recently passed on to them," Ryabkov noted.

In January, Russian Deputy Foreign Minister and US Acting Undersecretary of State Christopher Ford held talks on strategic stability in Vienna. Back then, Ford said that it was possible that Moscow and Washington could launch a dialogue on space and create a working group.

# Russia positions S-500 as game changer for missile defense

by Staff Writers  
Moscow (Sputnik) Apr 14, 2020

Last month, a subsidiary of S-500 maker Almaz-Antey confirmed that multiple components of the next generation air defence system had been developed and tested, with the completed complex to start testing with the military later this year.

The S-500 is not just a conventional air and missile defence system, but an anti-space weapon whose introduction will fundamentally change Russia's air defence capabilities, says Col. (ret) Sergei Khatylev, former head of the anti-aircraft missile forces of the special forces command of the Russian Air Force.

"The system is capable of solving several tasks, for example, the detection and destruction of conventional aerodynamic targets, airplanes and helicopters, cruise missiles - anything that flies at speeds up to hypersonic. But besides this, the S-500 can shoot down ballistic targets, and not just during the downward portion of their flight, but at all other stages as well. And here the speeds are already cosmic - several km per second," Khatylev said, speaking to the Moskovskiy Komsomolets newspaper.

With its ability to take out targets at a range of up to 600 km and an altitude of nearly 200 km, the S-500 can effectively defend against targets in near space. In other words, "this is an anti-space weapon," Khatylev stresses. "The complex features a partition approach where one locator works on targets flying at maximum altitude, while the other is used for those flying near to the ground at altitudes up to 30 km," he explains.

According to the retired commander, the S-500's capabilities will fundamentally alter Russia's missile defences, which, going back to the days of the Cold War, have traditionally been concentrated around Moscow.

## Russia tests system to shoot down satellites

US Space Command says Russia tested missile system designed to shoot down satellites in low-earth orbit.

Contact Editor Arutz Sheva Staff , 15/04/20 23:51

Outer space

iStock

Russia has tested a system designed to shoot down satellites, the US Space Command announced Wednesday.

"Russia's DA-ASAT test provides yet another example that the threats to US and allied space systems are real, serious and growing," said Gen. John W. "Jay" Raymond, USSPACECOM commander and U.S. Space Force Chief of Space Operations. "The United States is ready and committed to deterring aggression and defending the Nation, our allies and US interests from hostile acts in space."

"This test is further proof of Russia's hypocritical advocacy of outer space arms control proposals designed to restrict the capabilities of the United States while clearly having no

# US Building Ground-Based Network of Offensive Weapons to Jam Russian Satellites - Report

by Staff Writers  
Moscow (Sputnik) Apr 17, 2020

The Space Force, the newest branch of the US military, has requested over \$15.3 billion in funding for operations, equipment and satellite equipment for fiscal year 2021.

Over the next seven years, the US Space Force is looking to amass dozens of ground-based weapons systems capable of jamming Russian or Chinese communication satellites en masse, Bloomberg has reported, citing military sources.

The arsenal is expected to consist of Counter Communications System (CCS) ground-based satellite communications jamming units, with 16 of these already delivered and 28 more on the way. This system is an upgrade of jamming weapon first introduced in the US Air Force in 2004, and has

undergone several new iterations, including additional frequency bands and technology refreshes.

In addition, L3Harris Technologies Inc., the defence contractor making the CCS, is also said to be putting the finishing touches on a new piece of equipment called the Meadowland, the next iteration of the CSS, with that system expected to be shrunk down in size, and to feature open

# Russia ready to talk hypersonic weapons with US

by Danielle Haynes  
Washington DC (UPI) Apr 16, 2020

Russian Foreign Minister Sergei Lavrov said Tuesday that Moscow is open to holding talks with the United States on the development of advanced weapons, including hypersonic missiles.

He said any discussions on the matter would include talks about the Comprehensive Nuclear Test Ban Treaty and on weapons in outer space.

"We are willing to engage in talks about new types of weapons, including hypersonic weapons, within the context of taking into account ... all the factors that have a bearing upon strategic stability," he said during a live stream briefing with the press.

"I refer in particular to the plans of placing weaponry in outer space. I refer to strategic weapons that are not equipped with nuclear warheads. I refer to the Comprehensive Nuclear Test Ban Treaty."

Lavrov's comments come amid a cooling of relations between Russia and the United States, in particular regarding arms control. President Donald Trump pulled the United States out of the Intermediate-Range Nuclear Forces Treaty in August, accusing Russia of violating the terms of the agreement.

Both countries have since ramped up the development of weapons outside the terms of that treaty. In March, the U.S. Army and Navy began testing a hypersonic glide body in Hawaii.

Hypersonic weapons can fly at speeds greater than five times the speed of sound and are highly maneuverable, enabling soldiers to strike targets hundreds or even thousands of miles away in a matter of minutes.

# Chinese aircraft carrier sails past Japan, Taiwan

by Ed Adamczyk  
Washington DC (UPI) Apr 13, 2020

A Chinese aircraft carrier passed through the East China Sea over the weekend, a maneuver keeping defense ministries in Japan and Taiwan on edge.

The aircraft carrier Liaoning, accompanied by five other vessels in its strike group -- two guided missile destroyers, two multi-role warships and a fast combat supply ship -- carried out what a People's Liberation Army spokesman called "routine" exercises.

The vessel traveled through the 155-mile-wide Miyako Strait, between Japan's Ryukyu Islands and the Bashi Channel, then east of Taiwan toward the South China Sea. Both Tokyo and Taipei announced that they were monitoring the progress of the Chinese convoy.

China has ongoing territorial claims on the islands of the area, and the show of force comes as two U.S. aircraft carriers in the Pacific region are debilitated by the effects of the coronavirus.

The USS Theodore Roosevelt is in port in Guam, with much of its crew undergoing quarantine. The U.S. Navy said that 585 of the ship's crew of about 4,800 have tested positive for the virus.

The USS Ronald Reagan, undergoing maintenance in Yokohama, Japan, is preparing for deployment, but currently has 1,000 members of its strike force in quarantine.

## In China, This Coronavirus App Pretty Much Controls Your Life

"Technology now plays a critical role in containing the pandemic."

VICTOR TANGERMANN | A DAY AGO

First, there was "flattening the curve."

For many parts of the world, that conversation is now shifting towards "contact tracing" — keeping track of those who tested positive, negative, and those who are at risk of being exposed — as governments grasp for a solution to reopening their economies in a post-peak coronavirus world.

But the threat of a resurgence is still top of mind. Open too quickly, and cases will surge. Too late, and the economic consequences will be even more devastating than they already are.

China has taken the lead with mobile technology that relies on scanning QR codes and an app. The goal is to curb the spread of the coronavirus by indicating who can go where, [CNN reports](#).

## China begins testing of digital currency

PTI | April 20, 2020 19:13 IST

By K J M Varma

Beijing, Apr 20 (PTI) China's central bank has started testing its official digital currency, pressing ahead with its plan to roll out a virtual money payment system, days after Facebook-backed Libra scaled back its ambitions to become a global currency.

The Digital Currency Research Institute of the People's Bank of China (PBC), China's central bank, said that the research and development work of China's official digital currency, dubbed as DC/EP, is proceeding steadily, and the internal pilot tests are carried out in four cities and will be carried out in scenarios of the 2022 Winter Olympics Games in Beijing.

China's official digital currency is undergoing testing and has not been officially released, official media reported on Monday.

Insiders said the trial run will be piloted within a small range of banks and end users, and spread to a wider range with an improved technology and system, the Global Times reported.

## Experts say it may be time for grocery stores to ban customers from coming inside because of COVID-19

by: **CNN Wire**

Posted: Apr 20, 2020 / 08:11 AM EDT / Updated: Apr 20, 2020 / 08:11 AM EDT

Dozens of grocery store workers have died from the coronavirus, despite masks, temperature checks and capacity restrictions to keep them safe. So far, supermarkets have resisted the most draconian policy: banning customers from coming inside.

However, some worker experts, union leaders and small grocery owners believe it has become too dangerous to let customers browse aisles, coming into close range with workers. Grocery stores are still flooded with customers, and experts say it's time for large chains to go **"dark" to the public** and convert to curbside pickup and home delivery for food and other essential goods.

"Careless customers" are "probably the biggest threat" to workers right now, according to Marc Perrone, president of the United Food and Commercial Workers' union. The union said 85% of its grocery store member workers reported that customers are not practicing social distancing in stores.

أيضا سبع نبوات عن إسرائيل في الأيام الأخيرة تتحقق امام اعيننا

**OPINION (Charisma)** – Not all signs related to the return of Christ are negative (as are wars, famines, earthquakes, and so on) in nature. Many are very encouraging and exciting. There are **seven events that have transpired and are continuing to unfold that are a part of the restitution and give evidence of the coming of Christ.** They are:

1. Israel would be restored as a nation in one day (Isa. 66:7-8; Zech. 3:9; Hos. 3:4-5).
2. The land would begin to blossom and be fruitful (Isa. 35:1-8; 27:6).
3. Water would break out in the desert for irrigation (Isa. 35:6-7; 41:18).
4. Jerusalem would be in Jewish hands and expand its borders (Ps. 102:16).
5. Jews from Gentile nations outside Palestine would return back to Israel (Isa. 43:5-6; Jer. 16:14-16).
6. The early and latter rains would return in the last days (Hos. 6:3; Joel 2:23; Amos 4:7).
7. The walls of Jerusalem would be rebuilt by strangers and the gates be open continually (Isa. 60:1-11).

## Are we about to see the end of Cash?

Apr 15, 2020 | 0 📖 | ★★★★★

**OPINION (ETH)** – The following question was just asked by Bloomberg. The bigger question is what does this mean and where is this all leading for the future? We are setting the stage for a cashless society that will buy, sell and trade with some type of system that will be cashless and convenient.

In the U.S., debit cards first beat out cash as the top way to pay in 2018, according to a Federal Reserve survey. As the coronavirus pandemic spread in early 2020, some merchants in Seattle and Sydney tried to stop accepting cash altogether, calling it unsanitary. (Some U.S. cities have made cashless stores illegal to prevent discrimination.) Still, **fear of contagion could accelerate the general trend to more digital payments**, according to the Bank of International Settlements.

## Traders flee U.S. oil as contract price plunges to negative \$40 a barrel

Reuters

Autoblog April 20, 2020

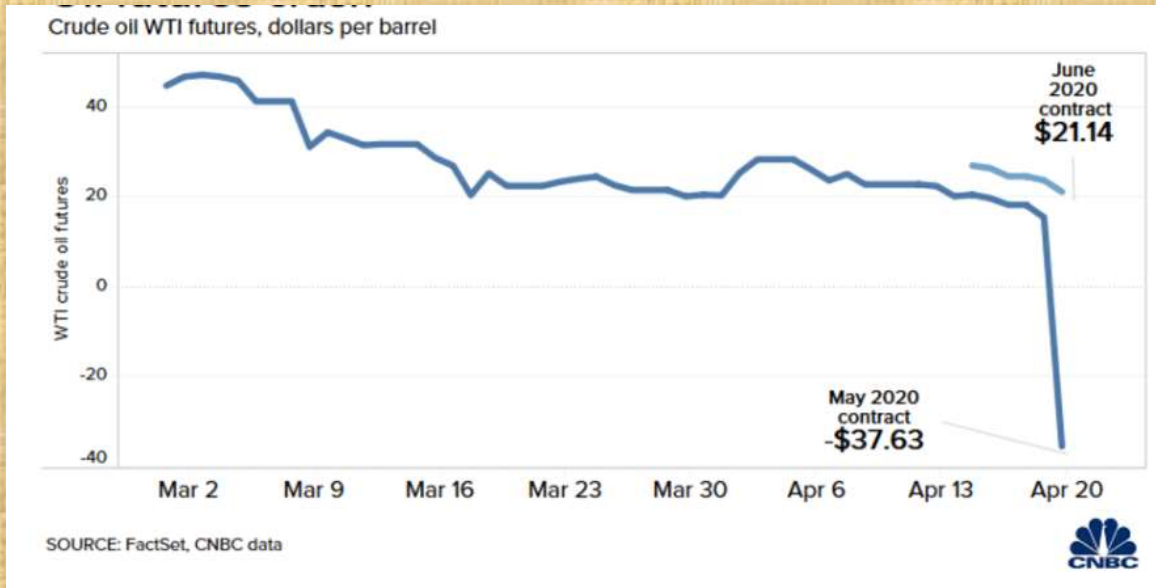

Traders fled from the expiring May U.S. oil futures contract in a frenzy on Monday, sending the contract into negative territory for the first time in history, as barely any buyers are willing to take delivery of oil barrels because there is no place to put the crude.

The May contract for U.S. West Texas intermediate crude oil plunged to below zero for the first time in history, settling on the day at minus \$37.63 a barrel, a decline of some 305%, or \$55.90 a barrel. Prices set a low of negative \$40.32.

Brent crude oil, the international standard price most often cited as the going price of a barrel of oil, also fell, down 5.27% to \$26.60 per barrel.

Karachi, Pakistan coronavirus lockdown food distribution

Reuters

International Christian Concern (ICC) reports Pakistani Christians were denied food aid amid the COVID-19 crisis in the fourth incident ICC has documented since Pakistan was placed on lockdown by authorities seeking to combat the pandemic.

According to a video post on Facebook, Christians were denied food aid on April 2 in a village situated on the Raiwind road, near Lahore. A local pastor confirmed the incident to ICC.

In the Facebook video, a young Christian man claims that a local mosque committee distributed food on April 2, however, village Christians

أي العالم يرفض التوبة بل يصر على فعل الشر أكثر امام عين الرب

فلهذا اطلب أن نصلي ونستعد ونعد زيت لمصاييحنا لاستقبال العريس بالصلاة والصوم وخدمة

أبناء الله وتنقية القلب والاستعداد بلبس العرس.

## رسالة بولس الرسول الي أهل رومية 13

13: 11 هذا وأنكم عارفون الوقت انها الان ساعة لنستيقظ من النوم فان خلاصنا الان أقرب مما

كان حين امنا

13: 12 قد تناهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلياقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيراً للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

بطرس الأولى 3: 14

وَلَكِنْ وَإِنْ تَأَلَّمْتُمْ مِنْ أَجْلِ الْبِرِّ، فَطُوبَاكُمْ. وَأَمَّا خَوْفُهُمْ فَلَا تَخَافُوهُ وَلَا تَضْطَرُّوْا،

بل نؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْتَضِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.».

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.

وأیضا استعدوا فقد تسلموا وديعتكم في أي وقت فهناك 150 ألف شخص يموتوا في اليوم الواحد

انت لا تعرف متى ستكون منهم

المسيح اقترب فاصنعوا ثمار تليق بالتوبة واستعدوا لاستقبال العريس.

والمجد لله دائما
