Holy\_bible\_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية.  
والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه لأننا نور العالم  
الذي أصبح مظلم وليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا  
مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة  
بأيمان عامل بالمحبة والتبشير وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان  
الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان  
وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك  
زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقرب فنكون مستعدين سواء جاء او نحن ان  
سلمنا وديعتنا عن أنى لا اقول انه اقرب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض  
ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي  
المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما  
انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

## سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُمْنُونَ.

ثالثا لنتنبه ونستعد

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْتَضِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.».

## The Mysterious Anomaly Weakening Earth's Magnetic Field Seems to Be Splitting

PETER DOCKRILL 26 MAY 2020

New satellite data from the European Space Agency (ESA) reveal that the [mysterious anomaly](#) weakening Earth's magnetic field continues to evolve, with the most recent observations showing we could soon be dealing with more than one of these strange phenomena.

انفجار شمسي أكبر من حجم الأرض بمراحل

**SOLAR MINIMUM, INTERRUPTED:** Yesterday, in the pits of the deepest Solar Minimum of the Space Age, the sun unleashed [a flurry of solar flares](#). One of them, an [M1-class](#) explosion, was the strongest flare in nearly 3 years. The source of the activity is now turning toward Earth as it rotates into view over the sun's northeastern limb:

The question now: What *is* it? [Early views](#) of the emerging active region suggest that it is a relatively small sunspot surrounded by a vast field of magnetic froth (plage). The magnetic polarity of the region marks it as a member of new Solar Cycle 25.

The sunspot might already be decaying. If so, the flares will subside just as the region turns toward Earth, and the quiet of Solar Minimum will resume. It is too soon to say for sure, however. Stay tuned for updates as the region emerges more fully in the hours ahead. **Aurora alerts:** [SMS Texts](#).

## Near Earth Asteroids

Potentially Hazardous Asteroids ([PHAs](#)) are space rocks larger than approximately 100m that can come closer to Earth than 0.05 AU. None of the known PHAs is on a collision course with our planet, although astronomers are finding [new ones](#) all the time.

On May 28, 2020 there were **2037** potentially hazardous asteroids.

## Southern California heat wave expected to bring triple-digit temperatures to some inland areas

by: Tony Kurzweil, Steve Kuzj, Henry DiCarlo

Posted: May 26, 2020 / 04:44 AM PDT / Updated: May 26, 2020 / 10:37 AM PDT

A heat wave is expected to hit Southern California over the next few days, driving temperatures above 100 degrees in some inland locations.

Forecasters have issued an [excessive heat warning](#) for the Antelope Valley from 11 a.m. Tuesday through 7 p.m. Thursday. Temperatures are expected to climb to between 100 and 105 degrees, according to the [National Weather Service](#).

A building high-pressure ridge will bring possible record-breaking temperatures to several inland areas of Southern California, forecasters said. The region's coasts will remain much cooler, but are expected to have above average highs.

Officials are warning that heat-related illnesses, especially for the elderly and very young, are possible with hotter weather.

The death toll from floods that have been pounding Kenya since April has risen to 285 and the number of people affected to 810 655, the government reported in a nationwide briefing on Wednesday, May 27, 2020.

Intense downpours caused havoc across the nation, leading to flash floods, landslides, and sinkholes, the government said.

Thousands of people have been displaced, numerous livestock have perished, and wide swaths of crops have been destroyed. The severe weather has also disrupted transportation, as well as fishing

## Developing system could be earliest 3rd tropical storm on record

By Ryan Adamson, AccuWeather meteorologist

Updated May. 30, 2020 2:40 AM

With Arthur and Bertha having already come and gone, Bernie Rayno takes a look at where the next named tropical system could develop.

An already active Atlantic hurricane season -- which hasn't officially begun yet -- could take a turn for the record books with a new disturbance that looks poised to strengthen. The season officially begins on June 1.

Forecasters are now monitoring an area of low pressure designated as Invest 92L, which was developing Friday morning about 700 miles southeast of Bermuda, and they say it could strengthen further in the coming days. Satellite images on Friday morning showed an area of showers and thunderstorms beginning to become better organized with a notable swirl of low pressure.

Something is seriously wrong with the Oslo Fjord and no one seems to fully understand why. Both fish and mussels have been disappearing, while the fjord's characteristic seabirds known as *ærfugl* (common eider) have been found dead from Agder in the south to Østfold farther north.

Newspaper *Dagsavisen* has reported that the dead birds are believed to have simply starved to death. Experts conclude that only one thing is certain: the Oslo Fjord's ecosystem has come under severe pressure despite massive efforts to clean up sewage and industrial pollution for decades.

Around 240 dead birds had been found as of mid-April. On Sunday, Norwegian Broadcasting (NRK) reported that around 400 have now been found lifeless along the shoreline. Per Espen Fjeld of the conservation agency *Statens naturoppsyn* (SNO) told *Dagsavisen* a month ago that he fears the real number is several thousand.

## French Intelligence Warned Of 'Catastrophic Leak' From Wuhan Lab

by Tyler Durden

Tue, 05/26/2020 - 18:55

Eleven years before the joint construction of the Wuhan Institute of Virology, French intelligence services warned Paris that China's reputation for poor bio-security could lead to a 'catastrophic leak,' according to the *Daily Mail*.

In 2004, the EU's chief brexit negotiator, Michael Barnier, ignored those warnings – signing off on the lab's construction when he was the French foreign minister.

According to the report, French intel also warned that Paris could lose control of the facility, **and that Beijing could even use it to make biowarfare weapons.** And in 2015, as the laboratory prepared to open, those concerns were realized after **the French architects of the project said the CCP had shut them out.** In fact, 50 French scientists were supposed to help the Chinese run the laboratory properly, but never ended up going.

## N. Korea discusses new policies for increasing 'nuclear war deterrence': KCNA

by Staff Writers  
Seoul (AFP) May 24, 2020

North Korea discussed new policies for increasing its "nuclear war deterrence" during a military meeting presided over by leader Kim Jong Un, state media reported Sunday.

The meeting was Kim's first reported public appearance in more than three weeks and came after US media said Friday that the Trump administration had discussed holding the first US nuclear test in decades.

Set forth at the meeting of the Central Military Commission were "new policies for further increasing the nuclear war deterrence of the country," the North's official KCNA news agency said, without giving further details.

"Crucial measures" were taken "for considerably increasing the firepower strike ability of the artillery pieces of the Korean People's Army", it added.

Discussions also centred on "putting the strategic armed forces on a high alert operation", in line with the "building and development of the armed forces of the country".

# Navy accuses Russia of third 'unsafe' intercept of U.S. plane in two months

by Ed Adamczyk  
Washington DC (UPI) May 27, 2020

The U.S. Navy accused the Russian military of unsafe flying during an interception of a Navy plane over the Mediterranean Sea for the third time in two months.

A P-8A flying in the Eastern Mediterranean over international waters was intercepted by two Russian Su-35 aircraft twice in 65 minutes on Tuesday, the Navy said in a statement.

"The intercept was determined to be unsafe and unprofessional due to the Russian pilots taking close station on each wing of the P-8A simultaneously, restricting the P-8A's ability to safely maneuver," Navy officials said.

The actions of the Russian pilots were called "unnecessary" and "inconsistent with good airmanship and international flight rules."

The P-8A Poseidon is a maritime patrol and reconnaissance aircraft carrying anti-ship missiles and other weapons. It is based on the Boeing 737-800ERX passenger plane.

The United States accused Russian pilots of similar unsafe maneuvers in two incidents in April.

The crew of a P-8A was put in jeopardy while a Russian plane performed a high-speed intercept maneuver on April 15 as the U.S. plane flew over the international waters of the Mediterranean Sea, officials said at the time.

# Russia says US making 'unacceptable' demands on Open Skies treaty

by Staff Writers  
Moscow (AFP) May 22, 2020

Russia will continue to observe a post-Cold War surveillance treaty even if the United States pulls out, officials said on Friday while accusing Washington of sowing discord and making "unacceptable" demands.

The Open Skies treaty allows its 34 full members across Europe, Canada and the former Soviet Union to carry out unarmed surveillance flights over other member countries at short notice.

But US President Donald Trump announced on Thursday he planned to pull out of the accord, the latest in a series of US withdrawals from major international agreements.

Washington accused Russia of failing to follow the treaty's rules by blocking flights -- claims denied by Moscow.

Deputy Foreign Minister Sergei Ryabkov said Washington has put forth unacceptable demands for Moscow to meet or it will pull out in six months.

## The Open Skies Treaty: NATO's eyes over Russia

Brussels (AFP) May 22, 2020 - The Open Skies Treaty, which the United States plans to quit, was agreed just after the Cold War to allow signatories to avoid nasty surprises by monitoring rival militaries.

It was signed in 1992 and came into force in 2002, allowing 35 countries -- including the United States and Russia -- to fly unarmed surveillance flights over each other's territory.

Moscow and Washington have long accused the other of breaching its terms, and last year President Donald Trump suggested that the United States might leave the treaty altogether.

# Russia begins building first stealth bomber

by Staff Writers  
Moscow (AFP) May 26, 2020

Russia has begun manufacturing the prototype of its first strategic stealth bomber, state news agency TASS reported on Tuesday, as the country presses ahead with the modernisation of its military.

Quoting defence industry sources, TASS said the state-controlled United Aircraft Corporation was overseeing the project.

It said material was being shipped for the project and that work had begun on the cockpit of the bomber, known as the PAK DA.

"The final assembly of the entire machine should be complete in 2021," one of the sources told TASS.

Stealth bombers are designed to evade radar detection while carrying large amounts of weaponry.

Russian officials have revealed few details of the project, though last year Deputy Defence Minister Alexei Krivoruchko said aircraft maker Tupolev -- which is part of United Aircraft Corporation -- was in charge.

Reached by AFP, United Aircraft Corporation spokesman Sergei Loktionov declined to comment on the report. Tupolev also did not immediately reply to a request for comment.

Reports have said the plane will feature a flying wing design similar to US stealth bombers, fly at subsonic speeds and carry strategic cruise missiles and hypersonic weapons.

The US Air Force's B-2 stealth bombers are among the world's most feared aircraft.

# Europeans, NATO urge Russia to work to save treaty dropped by Trump

By Didier LAURAS  
Paris (AFP) May 22, 2020

NATO and the EU on Friday urged Russia to comply with the 1992 Open Skies military surveillance treaty, as European nations scrambled to save the pact after US President Donald Trump said his country would withdraw.

Western allies are hoping to convince Washington to reverse the decision, which Trump said was due to Moscow not honouring the defence agreement.

NATO Secretary General Jens Stoltenberg said the US decision to quit the agreement will not come into effect for six months, leaving Moscow time to change course.

"All NATO allies are in full compliance with all provisions of the treaty," Stoltenberg said.

"Russia has for many years imposed flight restrictions inconsistent with the treaty, including flight limitations, over Kaliningrad and restricting flights in Russia near its border with Georgia.

## India and China Move In More Troops as Border Tensions Rise

Archana Chaudhary · Sudhi Ranjan Sen

Last Updated: May 28 2020, 2:20 PM

(Bloomberg) – India has moved additional troops along its northern border as it prepares for an extended conflict with neighbor China, after several rounds of talks failed to ease tensions between the nuclear-armed rivals.

China has already placed about 5,000 soldiers and armored vehicles within its side of the disputed border in the Ladakh region, an Indian government official said, asking not to be identified citing rules. India is adding a similar number of troops as well as artillery guns along the border to fend off the continuing incursions by Chinese army, the official said.

The standoff began on May 5, when troops clashed on the banks of Pangong Tso – a glacial lake at 14,000 feet in the Tibetan plateau – leaving scores of soldiers on both sides injured. Since then there has been a steady build up of troops amid continuing face-offs.

Both New Delhi and Beijing have signaled a lack of interest in Donald Trump involving himself in their affairs, after the US president suggested he could help resolve a territorial dispute between the two nations.

China and India have been engaged in a tense border dispute, with reports earlier this month of military build-up and clashes. Trump said earlier this week that he was *"ready, willing and able to mediate"* between the two countries – but it appears neither Beijing nor New Delhi are particularly enticed by his offer.

## Hong Kong police arrest hundreds and fire pepper pellets amid fresh unrest

**BBC NEWS** BBC • May 27, 2020

Police in Hong Kong have arrested about 300 people and fired pepper pellets amid new anti-mainland unrest.

Protesters were rallying against a bill on China's national anthem and Beijing's planned introduction of a national security law.

Police said the arrests were on suspicion of unauthorised assembly.

Protesters oppose the anthem bill, which would criminalise insulting it, and the security law, which they fear will strip Hong Kong of basic freedoms.

Brussels (AFP) May 22, 2020

The European Union on Friday urged China to respect Hong Kong's freedoms after Beijing proposed a new security law following pro-democracy protests in the semi-autonomous territory.

After consulting EU capitals, Brussels' diplomatic chief Josep Borrell issued a statement calling for "the preservation of Hong Kong's high degree of autonomy".

Earlier, Premier Li Keqiang had unveiled to China's National People's Congress (NPC) a proposed security law that would drastically reduce Hong Kong's separate legal status.

"The European Union has a strong stake in the continued stability and prosperity of Hong Kong under the 'One Country Two Systems' principle," Borrell said.

"It attaches great importance to the preservation of Hong Kong's high degree of autonomy, in line with the Basic Law and with international commitments," he added.

Under "One Country Two Systems", Hong Kong is part of China but governed as a "Special Administrative Region" under a Basic Law that came into effect when British rule ended in 1997.

Pro-democracy campaigners in Hong Kong have threatened to take to the streets to renew protests that rocked the territory for seven months last year, and drew Beijing's anger.

## A New Global Club Of 10 Nations - Precursor To The Beast Of Revelation?

BY PNW STAFF | JUNE 01, 2020

Share this article:

The United Kingdom has proposed a plan to create a new club of democratic nations to address the reliance of the world on Chinese technology partners for 5G.

The COVID-19 crisis has revealed the dangers of relying on outside sources for infrastructure needs but more importantly to many nations is the security risk associated with giving Chinese tech companies so much control over what many believe will be a new technology boom reaching every aspect of our lives.

5G technology will do much more than just give us faster download speeds and low latency. Through it's increased capacity and connectivity for billions of devices—especially in the areas

### KEY POINTS

- During the height of China's coronavirus epidemic, the use of digital barcodes or QR codes, became popular to track the health of citizens.
- Now Hangzhou has proposed a permanent health tracking system that would give residents of the city a score.
- That score would be based on various factors including electronic medical records, results of physical examinations and lifestyle choices such as how much a person drinks.

**PRESIDENT Donald Trump has threatened to 'close down' social media outlets he claims are "silencing conservative voices."**

Later in the day, the [president](#), locked in a growing feud with the social media giant Twitter, teased: "Big action to follow!"

In a pair of morning tweets, Trump said: "Republicans feel that Social Media Platforms totally silence conservatives voices. We will strongly regulate, or close them down, before we can ever allow this to happen."

"We saw what they attempted to do, and failed, in 2016. We can't let a more sophisticated version of that happen again."

## These three ancient discoveries could prove the Bible was right

Jun 1, 2020 | 0 | \*\*\*\*\*

**(OPINION) ETH** – Could recent archeological findings in the Mideast prove the validity of the Bible concerning the story of Samson? One Bible expert is claiming it does. This alleged Bible expert recently told [Express.co.uk](https://www.express.co.uk) there could be archaeological evidence to confirm some of the incredible stories penned in the Bible's Old Testament.

According to this Professor named Tom Meyer, who is a college professor at Shasta Bible College and Graduate School in California, there are three ancient discoveries that are directly linked to the tale of Samson. In the Old Testament, Samson whom the Bible declares one of the Heroes of the Faith was a powerful Israelite warrior who was used by the Lord the ward of the Philistines and was known for the strength in his long hair that was

Prices rise at grocery store amid food supply chain disruptions

May 25, 2020 at 9:09 AM EDT - Updated May 25 at 1:45 PM

ATLANTA (CNN) - Americans looking to get outside this holiday weekend, maybe fire up the grill, should be prepared to see high prices at grocery stores, especially cookout staples like ground beef and chicken.

The meat at the store is a little bit more expensive because of plants that are shutting down and causing a logjam in the food supply chain.

Just this past week, Tyson Foods confirmed that 570 of its employees at its poultry plant in Greensboro, N.C., tested positive for COVID-19. More than 2,200 of the employees were tested.

Christians go to church to worship, grow their faith, and feel safe - but religious freedom monitors say some churches and other houses of worship around the world are being turned into sites of bloodshed.

"It's very disheartening when you see a house of worship which should be a place of peace, a sanctuary, a place that honors God, and allows you to worship as you see fit - these are turning into houses of horrors," says Tony Perkins who serves as chairman of the US

## Not Even State-Approved Churches Are Safe in China Now

By **Jessica Mouser** - May 28, 2020

The Chinese government is ramping up its persecution of any church in China, even if it is a Three Self church, which is **approved by the state**. The reason the Chinese Communist Party (CCP) is oppressing the very churches it has endorsed seems to be that the party increasingly sees Christianity as inherently Western and therefore

فلهذا اطلب أن نصلي ونستعد ونعد زيت لمصاييحنا لاستقبال العريس بالصلاة والصوم وخدمة

أبناء الله وتنقية القلب والاستعداد بلبس العرس.

رسالة بولس الرسول الي أهل رومية 13

13: 11 هذا وأنكم عارفون الوقت انها الان ساعة لنستيقظ من النوم فان خلاصنا الان أقرب مما كان حين امنا

13: 12 قد تنهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلياقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيرا للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

بطرس الأولى 3: 14

وَلَكِنْ وَإِنْ تَأَلَّمْتُمْ مِنْ أَجْلِ الْبِرِّ، فَطُوبَاكُمْ. وَأَمَّا خَوْفُهُمْ فَلَا تَخَافُوهُ وَلَا تَضْطَرُّوْا،

**بل نؤمن**

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.».

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.

وأيضاً استعدوا فقد تسلموا وديعتكم في أي وقت فهناك 150 ألف شخص يموتوا في اليوم الواحد

انت لا تعرف متى ستكون منهم

المسيح اقترب فاصنعوا ثمار تليق بالتوبة واستعدوا لاستقبال العريس.

والمجد لله دائماً
