## والعلامات حتى 7 يولييه 2020

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية.  
والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه لأننا نور العالم  
الذي أصبح مظلم وليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا  
مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة  
بأيمان عامل بالمحبة والتبشير وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان  
الظلمة والضيقه اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقه لان  
وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك  
زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقرب فنكون مستعدين سواء جاء او نحن ان  
سلمنا وديعتنا عن أنى لا اقول انه اقرب لكيلا يقال عني كاذب وانشرا اشاعات او اخيف البعض  
ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي  
المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما  
انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

## سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَأَن تُوْمِنُونَ.

ثالثا لنتنبه ونستعد

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.».

**THE RAPID BRIGHTENING OF COMET NEOWISE:** Comet NEOWISE (C/2020 F3) is passing by the sun this week—and it's looking good. The comet just experienced a sharp increase in brightness recorded by coronagraphs onboard the Solar and Heliospheric Observatory (SOHO). [Click to play a 4-day movie](#) of the surge:

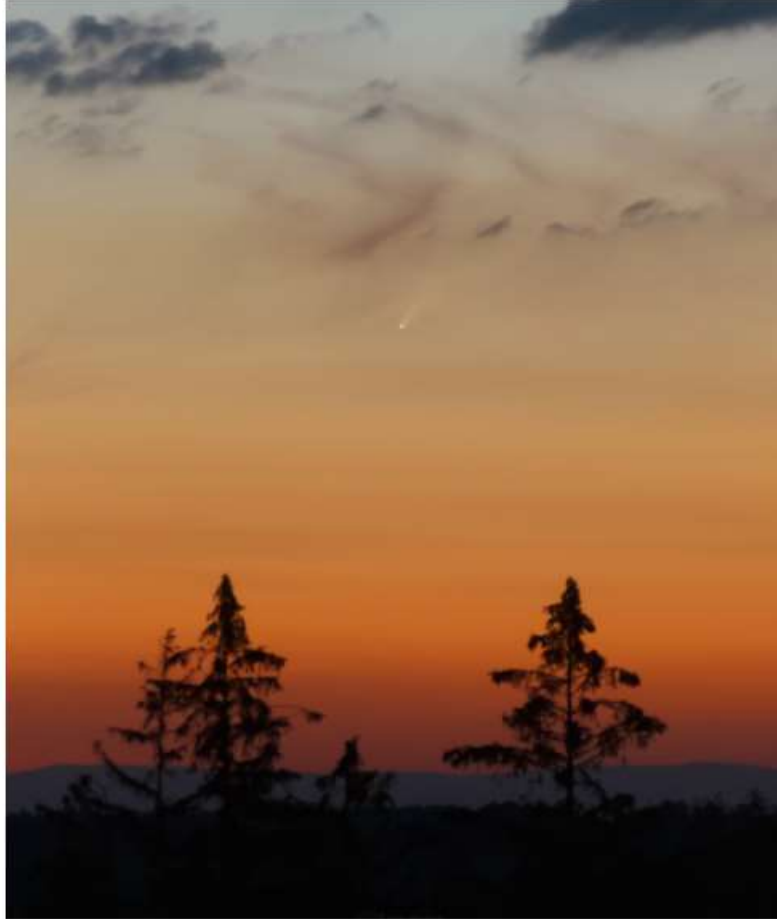

"During the transit, Comet NEOWISE increased in brightness from magnitude +4 to +1.8—an almost 8-fold jump," says planetary scientist Qicheng Zhang of Caltech, who analyzed the images. "If the comet maintains this brightness, it will be visible to the naked eye when it emerges from the sun's glare in July."

Zhang is a bit concerned, however, that the rapid brightening might be too much of a good thing. "When a comet brightens this quickly (2.2 magnitudes in only ~4 days) it could be a sign that the nucleus is unstable. Comet NEOWISE might yet disintegrate," he cautions.

**BRIGHT MORNING COMET:** Comet NEOWISE (C/2020 F3) is doing something very rare: Shining through the rosy glow of dawn. "How many times in your life can you say 'I saw a comet at dawn'--and really mean it?" asks Petr Horálek of the Czech Republic. "It happened to me this morning!" Horálek took this picture just before sunrise over Proseč u Chrudimi:

"Pretty clear skies allowed me to capture Comet NEOWISE from the ephemeral moment of its rising to the moment I was able to see it with naked eyes--even if still very hardly--on July 4th July," says Horálek.

Yesterday, July 3rd, Comet NEOWISE passed by the sun near the orbit of Mercury. Intense solar heating boosted its brightness to magnitude +1, allowing

MUMBAI: Heavy rainfall has been reported in some parts of the city since Saturday morning. The BMC officials said that they have not received any waterlogging complaints.

The IMD has issued a red alert — extremely heavy rainfall — in Mumbai for Saturday and BMC have kept all its emergency services on alert to handle the situation. BMC has also deployed its machinery at

lowline areas to clear accumulating rain water. BMC, also on high alert, is considering the fact that there will be 4.57 metres high tide around 11.38am.

At least 147 people have been killed by lightning strikes in India's northeastern state of Bihar in the past 10 days, with already severe monsoon weather intensifying and exposing farmers to fatal bolts from the blue.

Authorities reportedly recorded some 26 lightning-related deaths last Thursday, followed by 15 on Friday, and 21 on Saturday. A further 40 people have been injured as weather conditions favorable for farming prove to be a deadly, double-edged sword for local communities.

The death toll from lightning strikes in the area since the beginning of March has climbed to

The bodies of some 113 people have been recovered from the rubble following a landslide near a jade mine in Myanmar, the country's Fire Service Department has confirmed.

Heavy monsoon rains created a "muddy wave" which trapped workers and scavengers at the site at roughly 8am local time on Thursday in the jade-rich Hpakant area in the northern Kachin state.

Puerto Rico's governor has declared a state of emergency on Monday, June 30, 2020, due to worsening drought-- prompting the government to resort to water rationing that will leave 140 000 without access to running water. Drought conditions have rapidly expanded since May, with almost 60 percent of the country already under a dry spell as of June 23, according to the U.S. Drought Monitor.

21 out of 78 municipalities are suffering from moderate drought conditions, while 29 others are affected by a severe dry spell, governor Wanda Vasquez [said](#).

On May 12, a few areas were abnormally dry but there were no spots classified in drought. The conditions expanded as rainfall deficits in parts of the country are running 102 to 203 mm (4 to 8

For the first few months of the coronavirus pandemic, health and government officials assured the public that young people were at little or no risk of falling seriously ill from COVID-19. But many young people who have contracted the virus tell a very different story, one that should serve as a warning to young adults in the Southern and Western states where infections are surging.

July 2 (Reuters) - Florida shattered records on Thursday when it reported over 10,000 new coronavirus cases, the biggest one-day increase in the state since the pandemic started, according to a Reuters tally.

Outbreaks in Texas, California, Florida and Arizona have helped the United States break records and send cases rising at rates not seen since April.

In June, Florida infections rose by 168% or over 95,000 new cases. The percent of tests coming back positive has skyrocketed to 15% from 4% at the end of May.

Florida, with 21 million residents, has reported more new daily coronavirus cases than any European country had at the height of their outbreaks.

To contain the outbreak, Florida has closed bars and some beaches but the governor has resisted requiring masks statewide in public or reimposing a lockdown.

Only one other state has reported more than 10,000 new cases in a single day. New

Israel is currently in a "state of emergency," in the wake of the alarmingly high number of new coronavirus cases, PM Benjamin Netanyahu has said. The country has smashed past the 10,000 active cases mark and the growth continues.

Speaking during the weekly cabinet meeting on Sunday, Netanyahu called on the country's legislators to work faster on a new package of anti-coronavirus measures.

"We're in a state of emergency. We cannot delay the legislation – we must move forward with it to stop the spread," the PM stated, referring to the ongoing spike.

The University of Tennessee has become the first one to require students and faculty to receive vaccines for the flu and Covid-19 that is yet to be developed sparking "push back" from critics.

The mandate was pushed through as an emergency rule by the university's Board of Trustees, with the promise that it will soon become a permanent requirement.

*"There may be some push-back, but we believe this is in the best interest of our students," UT System President Randy Boyd said.*

The World Health Organization (WHO) has stopped the clinical trials of the anti-malarial drug hydroxychloroquine as well as the anti-HIV medication lopinavir/ritonavir in coronavirus patients, following preliminary results.

The United Nations health agency has said that the use of hydroxychloroquine – a drug once actively endorsed by the US President Donald Trump as a treatment against Covid-19 – should be discontinued, because it has little to no effect on halting the disease's progression.

### KEY POINTS

- White House coronavirus advisor Dr. Anthony Fauci said U.S. health officials are keeping an eye on a new strain of flu carried by pigs in China that has characteristics of the 2009 H1N1 virus and 1918 pandemic flu.
- The virus, which scientists are calling "G4 EA H1N1," has not yet been shown to infect humans but it is exhibiting "reassortment capabilities," Fauci told the Senate Health, Education, Labor and Pensions Committee during a hearing Tuesday.
- The H1N1 swine flu emerged in Mexico in April 2009, infecting 60.8 million people in the U.S. and at least 700 million worldwide. An estimated 151,700 to 575,400 people died from the virus across the globe, according to the CDC.

SHANGHAI/BEIJING (Reuters) - China's Ministry of Agriculture and Rural Affairs said on Saturday that the so-called "G4" strain of swine flu virus is not new and does not infect or sicken humans and animals easily, rebuffing a study published earlier this week.

That study, by a team of Chinese scientists and published by the U.S. journal Proceedings of the National Academy of Sciences (PNAS), warned that a new swine flu virus, named G4, has become more infectious to humans and could become a potential "pandemic virus".

However, China's agriculture ministry said in a statement that the study has been interpreted by the media "in an exaggerated and nonfactual way."

Russian voters on Wednesday approved changes to the constitution that will allow President Vladimir Putin to potentially hold power until 2036, but the weeklong plebiscite was tarnished by widespread reports of pressure on voters and other irregularities, *The Associated Press* reported.

With three-fourths of all precincts counted, 77.6% voted for the constitutional amendments, according to election officials.

For the first time in Russia, polls were kept open for a week to bolster turnout without increasing crowds casting ballots amid the coronavirus pandemic. The move was denounced by Kremlin critics as an extra tool to manipulate the outcome.

# Australia to revamp defences as China tensions rise

By Holly ROBERTSON  
Brisbane, Australia (AFP) July 1, 2020

Australia announced an assertive new defence strategy Wednesday, beefing up its long-range strike capabilities and cyber-warfare efforts amid escalating tensions with China.

Prime Minister Scott Morrison earmarked Aus\$270 billion (\$185 billion) for new and upgraded defence capabilities over the next decade -- a nearly 40 percent increase -- saying the defence force would significantly shift its focus to projecting military power across the Indo-Pacific.

"We must face the reality that we have moved into a new and less benign strategic era," Morrison said in a major policy speech, eyeing the end of unquestioned US hegemony and the rise of an increasingly assertive China.

"Even as we stare down the COVID pandemic at home, we need to also prepare for a post-COVID world that is poorer, that is more dangerous and that is more disorderly."

Australia's government has committed to spending at least two percent of GDP on defence -- as US President Donald Trump has angrily demanded of allies -- and plans to spend almost 40 percent more on weapons systems over the last defence review in 2016.

The country will acquire a more powerful strike capability that can hit targets thousands of kilometres from Australia, starting with the United States' AGM-158C Long Range Anti-Ship Missile.

It will also invest in newer platforms like drones, and boost research into hypersonic and direct energy weapons like lasers.

# Pentagon: China military exercises will 'further destabilize' S. China Sea

by Staff Writers  
Washington (AFP) July 3, 2020

The Pentagon said Thursday it was "concerned" about Chinese military exercises around a disputed archipelago in the South China Sea, noting the maneuvers will "further destabilize" the region.

"The Department of Defense is concerned about the People's Republic of China (PRC) decision to conduct military exercises around the Paracel Islands in the South China Sea on July 1-5," the Pentagon said in a statement.

The activities "further destabilize the situation" in the area claimed by China, Vietnam and Taiwan, it said.

Such exercises also violate Beijing's "commitments under the 2002 Declaration on the Conduct of Parties in the South China Sea to avoid activities that would complicate or escalate disputes and affect peace and stability."

The declaration, signed by the Association of Southeast Asian Nations (ASEAN) countries, said that all parties would "avoid activities that would complicate or escalate disputes and affect peace and stability."

The exercises "are the latest in a long string" of Chinese actions "to assert unlawful maritime claims and disadvantage its Southeast Asian neighbors in the South China Sea."

The Pentagon urged "all parties to exercise restraint and not undertake military activities that might aggravate disputes" in the region, and said it will continue to monitor Chinese military activity.

JERUSALEM, Israel – The Israel Antiquities Authority on Tuesday announced that it has uncovered remnants from Babylon's destruction of Jerusalem during the time of Ezra and Nehemiah.

Excavators uncovered a seal and a bullae – a seal impression use to sign documents or containers during ancient times – in the Givati Parking Lot Excavation of the City of David in Jerusalem. These two artifacts were found next to the rubble of a structure that was destroyed during the 6th century BC by the Babylonians.

f On June 30th, 2020, the Senate Banking Committee held a hearing on the future of the digital dollar. The pressures to create a digital USD are mounting as China recently began testing its own digital currency - the DCEP, which will be included in popular applications like WeChat and AliPay. Of particular concern is widespread adoption of a digital yuan in emerging markets and in international trade.

China Forces Birth Control on Uighurs to Suppress Population

By Associated Press

AP

Zumret Dawut, a Uighur from China's Xinjiang region, who holds documents she brought with her, at her new home in Woodbridge, Va., June 15, 2020, says she was forcibly sterilized for having a third child.

The Chinese government is taking draconian measures to slash birth rates among Uighurs and other minorities as part of a sweeping campaign to curb its Muslim population, even as it encourages some of the country's Han majority to have more children.

13: 12 قد تناهى الليل وتقارب النهار فلنخلع اعمال الظلمة ونلبس اسلحة النور

13: 13 لنسلك بلياقة كما في النهار لا بالبطر والسكر لا بالمضاجع والعهر لا بالخصام والحسد

13: 14 بل البسوا الرب يسوع المسيح ولا تصنعوا تدبيرا للجسد لأجل الشهوات

احترس ان لم تتمسك بالمسيح من الان قد لا تستطيع في المستقبل القريب بسبب الظلام.

وكما قلت هو اخبرنا لكي لا نخاف

افرحوا لان عريسنا قد اقترب مجيؤه. وانتبهوا الشيطان يريد أن نفقد سلامنا ولا ننال أكاليل.
