اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه لأننا نور العالم الذي أصبح مظلم وليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل بالمحبة والتبشير وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقرب فنكون مستعدين سواء جاء او نحن ان
سلمنا وديعتنا عن أنى لا اقول انه اقرب لكيلا يقال عني كاذب وانشرا اشاعات او اخيف البعض
ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي
المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما
انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَأَن تُوْمِنُونَ.

ثالثا لنتنبه ونستعد

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَأَنْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.».

Sun's Developing Coronal Mass Ejection May Hit Earth Thursday, NOAA Data Reveals

RESEARCHERS PREDICT A SURGE OF COSMIC RAYS: Cosmic rays are bad--and they're about to get worse. That's the conclusion of [a new study](#) just published in the research journal *Space Weather*.

"During the next solar cycle, we could see cosmic rays increase by as much as 75%," says lead author Fatemeh Rahmanifard of the University of New Hampshire's Space Science Center. "This will limit the amount of time astronauts can work safely in interplanetary space."

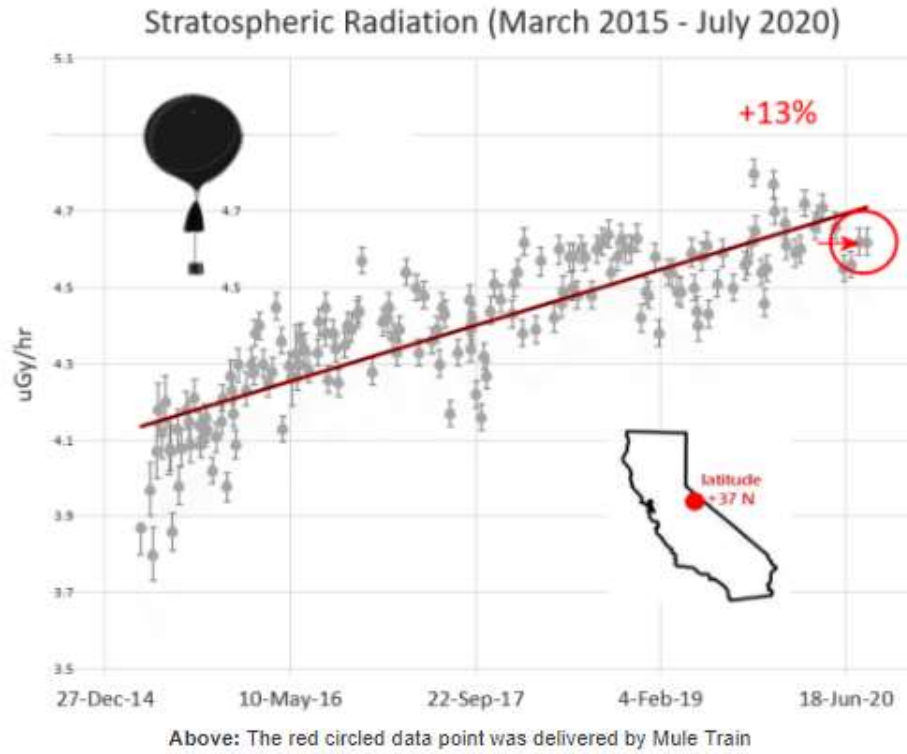

Cosmic rays are the bane of astronauts. They come from deep space, energetic particles hurled in all directions by supernova explosions and other violent events. No amount of spacecraft shielding can stop the most energetic cosmic rays, leaving astronauts exposed whenever they leave the Earth-Moon system.

Back in the 1990s, astronauts could travel through space for [as much as 1000 days](#) before they hit NASA radiation safety limits. Not anymore. According to the new research, cosmic rays could limit trips to as little as 290 days for 45-year old male astronauts, and 204 days for females. (Men and women have different limits because of unequal dangers to reproductive organs.)

Why are cosmic rays growing stronger? Blame the sun. The sun's magnetic field wraps the entire solar system in a [protective bubble](#), normally shielding us from cosmic rays. In recent decades, however, that shield has weakened--a result of the sputtering solar cycle.

وبالفعل تزايدت الاشعة بنسبة 13% عن العام الماضي

As we began to make our plans to hike in and get it--a 2 day, 60 mile expedition-- something strange happened. The payload started moving again. Little did we know at the time, it was on the back of a mule.

About 15 minutes after the payload came to rest in the Sierra backcountry, it was discovered by Will Ellis, a packer from Sierra Pack Station leading a train of mules along the John Muir trail. "It was only two feet from the trail," he says. "What are the odds?"

Will strapped the payload to the back of his lead mule, and proceeded to carry it almost 50 miles from the landing site to Red's Meadow, just outside Mammoth Lakes, California. From there, Will phoned Earth to Sky and returned the payload to some grateful young scientists.

If NASA Couldn't See The Asteroid That Just Whizzed By Us, What Else Can't They See?

August 19, 2020

Did you know that an asteroid just flew by our planet at an extremely close distance? The good news is that it was only about the size of a car, but the bad news is that NASA had absolutely no idea that it was coming. In fact, NASA only discovered it about six hours after it had passed us. If NASA could not see that asteroid coming straight at us, what else is heading toward us that they cannot see? It has been estimated that “about 17,000 big near-Earth asteroids remain undetected”, but the truth is that we don't really know how many giant space rocks are floating around out

A freshly detected asteroid has been put straight onto the European Space Agency's 'risk list' as calculations forecast that it could smash into Earth in 10 years.

The agency detected the space rock this week and immediately added it to the list of potentially hazardous near-Earth objects, as calculations predict that it may hit our planet on August 31, 2029.

The data indicates that the object, known as 2020 PG6, will be traveling at an average speed of over 46,000kph as it races towards Earth. Thankfully, if the asteroid does stray into

Scientists recently spotted an asteroid on a direct collision course to Earth — projected to hit a day before the presidential elections in November.

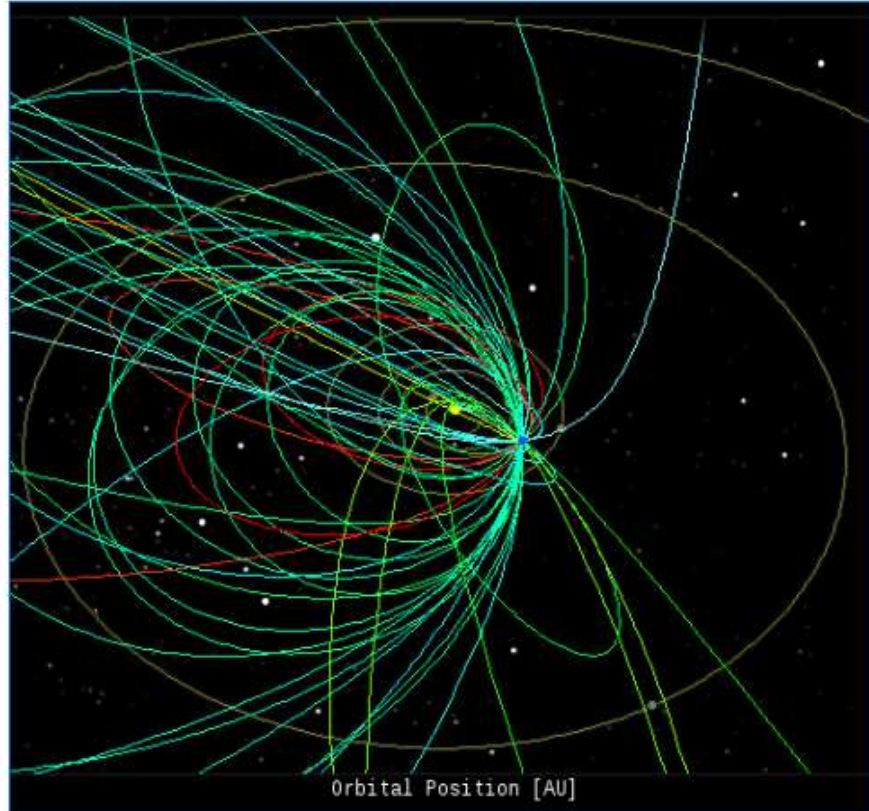

The flying space object, known as 2018VP1, is expected on Nov. 2, according to the Center for Near Objects Studies at NASA's Jet Propulsion Laboratory.

Every summer is hot, and every summer there are heatwaves, but what we are witnessing in 2020 is rewriting all of the rules. It has been blistering hot across the Southwest, and record after record is being broken. In a year when we have had a seemingly endless series of things go wrong, we definitely didn't need a historic heatwave to hit us, and it is causing all sorts of problems. Unfortunately, it doesn't look like we will be getting any relief for at least a few

Flooding in Neijiang, Sichuan province, has prompted authorities to move tens of thousands of residents out of the area. There are fears that the natural disaster may also damage an ancient statue of Buddha.

Heavy rainfall caused the Yangtze river, which runs through the province, to overflow, leaving countless people stranded by the rising floods. Beijing deployed the military to help evacuate residents and provide aid.

The state of California sure has been through a lot this year. The COVID-19 pandemic hit the state particularly hard, fear of the virus sent the unemployment rate soaring, civil unrest has ripped permanent scars in most of the major cities, and earlier this month a historic heatwave caused rolling blackouts all over the state for the very first time since 2001. So California certainly didn't need anything else to deal with in 2020, because it has just been one thing after another all year long. Unfortunately, it looks like the massive wildfires that have been roaring across the state over the last week are

Tropical Storm Laura May Threaten Florida, Gulf Coast Next Week

NOAA Hurricane Hunters aircraft confirm that Tropical Depression Thirteen has strengthened and has now been named Laura. It's the twelfth named storm of the Atlantic hurricane season.

At a Glance

- Two tropical systems are likely headed toward the mainland U.S. next week.
- It's not unusual for two storms to hit different parts of the Atlantic Basin at one time.
- It is very rare, however, for two storms or hurricanes to hit the mainland at the same time.

Some 90 people are believed to be trapped under rubble after a five-story residential building collapsed in a city south of India's financial capital Mumbai. Around 30 people have already been rescued from beneath the debris.

The building in Mahad, some 200km from the city of Mumbai, suddenly collapsed on Monday afternoon. The whole structure has effectively been reduced to dust and rubble, with footage from the scene showing that the building fell into its own footprint.

COVID-19 first showed up in Wuhan, China as a respiratory illness characterised by fever, cough and shortness of breath. However, soon it was apparent that the disease affects many organs of the body including the heart, kidneys and skin. It was also suggested to trigger new-onset diabetes and cause a condition called multisystem inflammatory syndrome in children.

Now, a study involving three patients in Italy indicates that the disease could also trigger an autoimmune condition called myasthenia gravis. The study was published in the journal [Annals of Internal Medicine](#).

The coronavirus can cause heart disease in some patients, even those who had relatively mild symptoms of COVID-19, a new study has found.

The study, published in the journal *JAMA Cardiology*, examined a group of 100 COVID-19 patients. Some were sick enough to have been hospitalized, and some had a mild enough illness that they were

discharged and left to recover at home.

Around 60 per cent of those patients had evidence of myocardial damage – inflammation of the heart muscle, which can be mild, or eventually increase the risk of serious cardiac problems like heart failure.

The Covid-19 crisis is unlikely to be over any time soon, the head of the World Health Organization (WHO) has indicated, in a not very optimistic prognosis, saying he "hopes" it'll be over in less than two years.

Given the developments of modern technology, the Covid-19 pandemic is likely to end faster than the deadly 1918 outbreak of the Spanish flu, WHO chief Tedros Adhanom Ghebreyesus said during a press conference in Geneva on Friday. However, the world has become significantly more global since then, which gives the coronavirus "a better chance of

'Ball in Russia's court' on nuclear treaty talks: US

by Staff Writers
Vienna (AFP) Aug 18, 2020

US officials said on Tuesday "the ball is in Russia's court" over the extension of a nuclear disarmament treaty between the two countries but admitted they remained "far apart" on a number of issues.

The New START treaty, which limits each side to 1,550 deployed nuclear warheads, is due to run out in February.

On Tuesday US and Russian delegations ended two days of talks in the Austrian capital Vienna as part of ongoing discussions over a replacement for the deal.

"There are some areas of convergence between Russia and the United States but we do remain far apart on a number of key issues," the leader of the US delegation Marshall Billingslea told reporters.

"The ball is now in Russia's court.

"We are willing to contemplate an extension of New START but such an extension will only occur if we can... address significant concerns we have with the Russian build-up of its unconstrained capabilities," Billingslea said, referring to weapons not covered by the current deal.

He also said verification and transparency measures in the deal would have to be improved.

Billingslea reiterated the US position that any future treaty would have to be multilateral with room to include China.

2020 Is An Economic Nightmare – And Things Just Got Even Worse

August 20, 2020

More than a million Americans were not supposed to be losing their jobs every week by the time we got to the middle of August. By now, vast hordes of unemployed Americans were supposed to be returning to their old jobs and economic activity was supposed to be returning to normal levels. But it hasn't happened that way. Instead, the U.S. economy continues to unravel at a steady pace. Every week more businesses go under, more layoffs are announced and more people get behind on their bills. What we have already been through has been far worse than anything that we experienced during the last recession, and it appears that this new economic downturn is entering yet another new phase. On [Thursday](#), we learned that another 1.106 million Americans filed new claims for unemployment benefits last week...

Kim Jong-Un Reportedly Orders North Koreans To Hand Over Pet Dogs So They Can Be Eaten

by Tyler Durden
Tue, 08/18/2020 - 22:29

Authored by Paul Joseph Watson via Summit News.

North Korean dictator Kim Jong-un has ordered citizens to hand over their pet dogs so they can be killed and eaten as a new famine threatens the country.

Heavy rain, widespread flooding and crop damages have left the country short of food supplies, leading the Stalinist regime to demand more wealthy North Koreans give up their dogs, which are considered "decadent" luxury and "a tainted trend by bourgeois ideology," according to South Korean news outlet Chosun Ilbo.

37 Christians Killed So Far This Month in Nigeria as World's Outcry Grows Louder

08-20-2020 - CBN News

As the world continues to condemn the violence against Christians in West Africa by Muslim Fulani extremists, reports indicate 37 Christians have been killed in Nigeria's Kaduna state so far this month.

As [CBN News reported](#), earlier this month at least 33 people were killed in attacks by Islamic extremists on five Christian communities in the southern Kaduna state of Nigeria over a two-day period.

In addition, Muslim Fulani militants in Kachia County on Aug. 17 killed four Christians and kidnapped their driver, Danlami Dariya, as their vehicle made its way from Katul village, area resident Zephaniah Bature
