التعليق على الاحداث الأسبوع الماضي تم حذفها من الفيس بوك وانذار بإغلاق الصفحة بالكامل وبهذا مهدد اغلاق الخدمة من قناة اليوتيوب وصفحة الفيس بوك أيضا، فأتمنى من حضراتكم في التعليقات ترجحوا برنامج أخر أنشئ عليه صفحة بديلة ونتقابل عليه لو تم اغلاق الاثنين. ولو وجدت الصفحة على الفيس أغلقت اتجه لليوتيوب أو العكس لترى الإعلان عن ما هو البديل. وربنا يدبر.

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه لأننا نور العالم الذي أصبح مظلم وليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل بالمحبة والتبشير وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذارى انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما انتقلوا

تعليق على الخبر السابق ادعاء أن الكائنات الفضائية تعلن عن نفسها وذكائها عن طريق ترتيب الكواكب في مداراتها حول النجوم بطريقة لا يمكن ان تحدث لوحدها في الطبيعة. وفعلا صدفة أن الكواكب تكون في مدارات هذه شبه مستحيلة لأنها اما لو كانت مسرعة شيء بسيط جدا لهربت من مدارها او ابطأ بشيء بسيط جدا لانجذبت للنجم واحترقت فاستمرار الكواكب في مساراتها يشهد على التصميم فهذا يعني بوضوح انهم يعترفوا ان الكواكب لا ترتب في مساراتها بهذه الدقة لوحدها في الطبيعة. إذا لا بد من وجود كيانات أو كيان غاية في الذكاء والقوة قادر على تصميم وترتيب الكواكب لتستمر بهذه الطريقة. إذا لماذا لا يعترفوا بوجود المصمم؟ لتعرفوا إنهم يخفى عليهم بإرادتهم 2بط 3:5 فهم متأكدين من إدلة التصميم ومع هذا يصروا بعدم الاعتراف بوجود خانق

Potentially Hazardous Asteroids (PHAs) are space rocks larger than approximately 100m that can come closer to Earth than 0.05 AU. None of the known PHAs is on a collision course with our planet, although astronomers are finding new ones all the time.

On May 13, 2022 there were 2279 potentially hazardous asteroids.

ABOUT THIS EPISODE

It feels like temperature records are being broken almost daily. We've seen heatwaves already this year in Texas and Mexico, with forecast highs of 50oC set to hit Pakistan and India. As we edge closer to breaking 1.5 degrees of global warming in the next 5 years, Rowan speaks to climate scientist Vikki Thompson from the University of Bristol, to find out how heatwaves are pushing at the limits of what humans can cope with.

Chemical computers have taken a step up. Lee Cronin and his colleagues at the University of Glasgow have upgraded their 2019 machine, and it's now fully programmable. The team discusses the project's ultimate goal, to make a chemical brain and even explain consciousness.

Ants have the power to heal. The team explains how Matabele ants, large ants found in sub-Saharan Africa, have evolved the ability to diagnose infected wounds in their nestmates using an antimicrobial medicine that they produce themselves.

North Korea reports first Covid cases, Kim orders national lockdown

By Cat Barton and Sunghee Hwang Seoul (AFP) May 12, 2022

North Korea confirmed its first-ever Covid cases Thursday and declared a "serious emergency", with leader Kim Jong Un appearing in a mask on television for the first time to order nationwide lockdowns.

The nuclear-armed country had never admitted to a case of Covid-19, and the government had imposed a rigid coronavirus blockade of its borders since the start of the pandemic in 2020.

But samples taken from patients sick with fever in Pyongyang "coincided with Omicron BA.2 variant", the official Korean Central News Agency reported.

Navy conducts historic test of new laser weapon system

The ground-based laser system homed in on the red drone flying by, shooting a high-energy beam invisible to the naked eye. Suddenly, a fiery orange glow flared on the drone, smoke poured from its engine and a parachute opened as the craft tumbled downward, disabled by the laser beam.

The February demonstration marked the first time the U.S. Navy used an all-electric, high-energy laser weapon to defeat a target representing a subsonic cruise missile in flight.

Ukrainians being taken 'against their will' into **Russia: Pentagon**

by AFP Staff Writers Washington (AFP) May 9, 2022

The Pentagon said Monday it has seen indications that Ukrainians caught up in Russia's invasion are being forcibly removed from their homeland and sent to Russia.

"I can't speak to how many camps or what they look like," Pentagon spokesman John Kirby told reporters when asked about statements from Kviv that some 1.2 million Ukrainians were being sent to Russia and placed in camps.

"But we do have indications that Ukrainians are being taken against their will into Russia," Kirby said. He called these actions "unconscionable" and "not the behavior of a responsible power."

US, China clash at UN Security Council over North Korea

by AFP Staff Writers United Nations, United States (AFP) May 11, 2022

The United States and China took opposing stances at the UN Security Council Wednesday on how to reduce tensions with North Korea, with Washington arguing for more sanctions against Pyongyang while Beijing called for their easing.

The emergency meeting of the body charged with global peace and security came amid fears that North Korea will resume nuclear testing in the coming weeks.

"It is time to stop providing tacit permission and start taking action," US ambassador to the UN Linda Thomas-Greenfield said. "We need to turn quickly to strengthening the... sanctions regime, not considering sanctions relief."

Chinese military deeply alarmed over Starlink's dualuse capabilities

SpaceX's plans to increase the constellation of Starlink internet satellites from 12,000 to 42,000 "should put the international community on high alert," China Military Online, a news site affiliated with the Central Military Commission, the PRC's top national defence organ, has warned.

n 1902, Britain broke out of what had been its longstanding policy of non-alignment, what it termed "splendid isolation," and created its first alliance with a foreign power, the Japanese Empire. It subsequently renewed and expanded the treaty twice more, in 1905 and 1911. The alliance was meant to serve as a deterrent to Russian expansion in China and Korea. Soon enough, Japan would find itself at war with Russia, which it defeated in 1905.
