اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه لأننا نور العالم الذي أصبح مظلم وليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل بالمحبة والتبشير وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذارى انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما انتقلوا

ملخص للتقرير الذي سمح الكونجريس بنشره وهو 520 صفحة: أولا يؤكد فعلا ان الكوفيد خرج من المعمل اوهان في الصين. فعلا الفيروس نتيجة تجارب جينية لأكاسب الفيروس صفات جديدة. بالفعل أمريكا بسلطة فاوتشي دعمّت ماديا هذا الأبحاث فهذه الأبحاث التي نتيجتها وفاة الملايين تمت بأموال دافعي الضرائب الامريكية. بالفعّل اتضح ان أعضاء صينيين في الحزب الشيوعي متواجدين في الحكومة الأمريكية ومتواجدين في منظمة الصحة العالمية هم الذين تمكنوا من تغطية هذا. بالفعل مثبت جينيا الكوفد هو أصلا فيروس يشبه فيروس سارس وتم إضافة قطع جينية وخواص لا تتم بطريقة طبيعية بل إضافة جينية عن عمد ليجعله يصيب البشر أكثر. هذه ليست اول مرة يقوم معمل اوهان بتجارب من هذه النوعية. تم منع أي موظف في اوهان من التكلم بما فيهم الذين أصيبوا اخر سنة 2019. اتضح أن المعمل كانوا يتدربوا على كيفية القدرة على إخفاء وصعوبة تتبع هذه الإضافات الجينية. فاوتش كان على علم بمصدر الفيروس ولكنه من الشخصيات الأساسية الذي فرض ادعاء ان مصدره طبيعي وبهذا منع أي شخص يقول ان مصدره من معمل اوهان واصبح يتهم بانه ينشر معلومات خطأ ونظرية مؤامرة (ورايتم ما فعلته الميديا).

وفوتشي ليس كذب فقط عن مصدر الفيروس ولكن كذب في ادعاء ان NIAID الامربكية تحت قيادته لم تدعم اوهان ماليا ولم تشترك ولا تعرف شيء عن هذه التجارب. أيضا اتضح ان تايوان في ديسمبر 2019 مدت منظمة الصحة العالمية (تيداروس) بمعلومات عن ظهور فيروس جديد خرج من معمل اوهان وطلبت من منظمة الصحة العالمية سرعة التحقيق والتدخل وتيداروس عن عمد رفض التحقيق وتجاهل التحذير التيواني. أيضا التقرير اظهر ان تيداروس كان يتلقى أوامر من النظام الصيني الذي فعل كل شيء لإخفاء مصدر الفيروس. وأخيرا التقرير يظهر مدى تواطء النظام الصحي العالمي وتدخل العنصر السياسي به ونتائج كل ما حدث في جعل المواطنين يفقدون الثقة في نظام الصحة العالمي.

Mpox response: use of digital and analytics tools webinar

5 December 2024 | Departmental update |Reading time: 4 min (956 words)

Over 120 countries reported cases of mpox between January 2022 to October 2024. This multicountry outbreak of mpox has impacted all WHO regions. In September 2024, public health professionals came together to share lessons learned and best practices gathered over the last two years on the use of digital and analytic tools for mpox. The practice of information sharing has proven to be critical in promoting collaboration and improving both processes and outcomes. The health professionals were brought together at a webinar organized by the GOARN Operational Support Team, the World Health Organization (WHO) Hub for Pandemic and Epidemic Intelligence and the mpox Incident Management Support Team.

The mpox outbreak was declared a public health emergency of international concern (PHEIC) by WHO in 2022. Though the PHEIC status was lifted in 2023 following a sustained drop in the number of cases globally, in recent months, the number of mpox cases began to increase. This upsurge of Mpox cases in the Democratic Republic of the Congo (DRC) and a growing number of countries in Africa led WHO Director-General Dr Tedros Adhanom Ghebreyesus to <u>declare a PHEIC</u> in August 2024, marking the second such declaration in two years concerning this disease.

Following the PHEIC declared in 2022, numerous countries and organizations employed innovative approaches and tools to support the outbreak response. These technologies have facilitated and supported the response, and valuable insights have been gained throughout this process.

Given the increasing number of reported cases and geographic spread in recent months, it was important to reflect on the experiences and to share insights and lessons learned to optimize future uses of these tools in outbreak responses.

WHO announces first pregualification of a tuberculosis diagnostic test

4 December 2024 | News release | Geneva |Reading time: 1 min (405 words)

The World Health Organization (WHO) has granted pregualification to the molecular diagnostic test for tuberculosis (TB) called Xpert® MTB/RIF Ultra. It is the first test for TB diagnosis and antibiotic susceptibility testing that meets WHO's pregualification standards.

Tuberculosis is one of the world's leading infectious disease killers, causing over a million deaths annually and imposing immense socioeconomic burdens, especially in low- and middle-income countries. Accurate and early detection of TB, especially drug-resistant strains, remains a critical and challenging global health priority.

"This first pregualification of a diagnostic test for tuberculosis marks a critical milestone in WHO's efforts to support countries in scaling up and accelerating access to high-guality TB assays that meet both WHO recommendations and its stringent quality, safety and performance standards," said Dr Yukiko Nakatani, WHO Assistant Director-General for Access to Medicines and Health Products. "It underscores the importance of such groundbreaking diagnostic tools in addressing one of the world's deadliest infectious diseases."

WHO pregualification of this test is expected to assure guality of diagnostic tests used to improve access to early diagnosis and treatment. It complements WHO's endorsement approach, which is grounded in emerging evidence, diagnostic accuracy, and patient outcomes alongside considerations for accessibility and equity, with pregualification requirements on guality, safety, and performance.

WHO's assessment for pregualification is based on information submitted by the manufacturer, Cepheid Inc., and the review by Singapore's Health Sciences Authority (HSA), the regulatory agency of record for this product.

البيت الأبيض يقول انه لن يسمح بعودة الأسلحة النووية لاوكرانيا

Based on data from the American Institute for the Study of War (ISW), AFP has just revealed the Russian army's major advance into Ukrainian territory.

A total of 725km2 in November. The most significant advance, in just one month, since March 2022.

In November, Putin's men gained an area the size of Singapore, even more than in October, which already marked an unprecedented advance of 610km2 since the start of the conflict.

The Russian army is advancing by leaps and bounds in eastern Ukraine.

As L'Indépendant reports, the Donetsk region alone accounted for almost 90% of Russian advances in November (629km2). The Ukrainian army now controls less than a third of this area, compared with over 40% on January 1, 2024.

In 2024, Kremlin troops gained over 3,500km2, six times more than in 2023.

بوتين في نوفمبر حقق تقدم كبير فاستولى على 725 كم2 وهذا رقم لم يسجل من مارس 2022 واكثر مما حققه في أكتوبر عندما استولى على 610 كم2 وبهذا استولى بوتن على 3500 كم2 في سنة 2024 وشبه سيطر على إقليم دونتسك ويستمر تقدم الجيش الروسي بسرعة في أوكرانيا

Former Ukrainian President Pyotr Poroshenko has accused his country's military commanders of using soldiers as "meat" to hide their lapses from superiors.

Speaking on Thursday at an event hosted by the Atlantic Council, a pro-NATO think tank, Poroshenko said Kiev's military leadership "should stop using the people of Ukraine as an instrument for the meat storm operation."

"Stop giving the order for their offensive operation now!" he added, speaking in English. "We can do that but the price for that is enormous."

Joe Biden's departing administration is trying to leave its mark on the war in Ukraine before it cedes power to Donald Trump's team on January 20th. Trump has three plans for Ukraine – Reuters

All proposals include Kiev ceding land and giving up its NATO aspirations, the media outlet has claimed

Donald Trump's advisers have presented him with three plans for resolving the conflict between Russia and Ukraine, Reuters has reported, citing several sources close to the US president-elect.

Despite certain differences, all of the proposals include Kiev ceding territory to Moscow and giving up on its aspiration to join NATO, the agency said in an article on Wednesday.

A former Trump national security official, involved in the ongoing government transition in the US, has told Reuters that one of the plans came from the president-elect's incoming Russia-Ukraine envoy, retired Army Lieutenant-General Keith Kellogg.

The other two were authored by Vice President-elect J.D. Vance and Trump's former acting intelligence chief, Richard Grenell, respectively, according to the official.

France and UK discuss sending troops to Ukraine – US state media

France and Britain are considering whether to deploy troops to the front line in Ukraine, CIAfounded news outlet Radio Free Europe/Radio Liberty has reported.

The two countries could send military personnel to Ukraine in the event that Moscow and Kiev engage in peace talks, the Ukrainian branch of the US propaganda network said on Monday, citing a high-ranking NATO official who spoke on condition of anonymity.

Putting Western boots on the ground would help European NATO members to have a say in the outcome of the conflict after US President-elect Donald Trump is sworn in in January, the source claimed.

Trump has said he could resolve the Ukraine

British Army would last 'six months' in war official

The UK is not prepared for Ukraine-level casualty rates, Alistair Carns has said

File photo: UK Minister for Veterans and People Alistair Carns. October 29, 2024 @ Finnbarr Webster/Getty Images

In case of an actual conflict, the UK would run out of soldiers in six months to a year, the British Ministry of Defence official in charge of personnel, Alistair Carns, has said.

Carns is the under-secretary of State for veterans and people in the country's defense ministry. He raised concerns about the size of the British Army during an event at the Royal United Services Institute (RUSI) think tank on Wednesday.

"In a war of scale - not a limited intervention. but one similar to Ukraine — our army, for example, on the current casualty rates would be expended — as part of a broader multinational coalition — in six months to a vear," Carns said.

He based this calculation on questionable Ukrainian claims that Russia was taking 1,500 casualties every day, which Moscow has described as closer to Kiev's actual losses.

القصة باختصار انه الرئيس المنتخب لكوربا الجنوبية يحكم مرة واحدة مدتها 5 سنين. انتخابات 2022 كانت منافسة شديدة بين مرشح الحزب الديموقراطي وبين الرئيس يونج سوك الذي انتخب والذي كسب بفارق لا يذكر ولبرالي مؤيد من الغرب. ولكن بعد انتخابه مباشرة شعر الشعب انه لم يكون صادق في وعوده وبخاصة وعد انه يقف امام كوريا الشمالية. وبعد اتفاق كوريا الشمالية مع روسيا اتضح أن كل وعوده فارغة. ومن هذا الوقت اصبح حزب المعارضة اقوى في البرلمان. وبخاصة انه كان يؤيد الموقف ضد بوتين ولم يستطع أن يجعل بوتين حيادي بين الكوربتين. وأيضا قراراته اللبرالية اضعفت الاقتصاد. فتزايد كره الشعب له ووصل تأييده الى 19% فقط. فبدات المظاهرات ولكن كانت بسيطة ففجأة بدون توقع اعلن الاحكام العرفية ليلغي المعارضة متهمهم انهم مؤيدين لكوريا الشمالية ونشر الجيش وادخله البرلمان ليمنع جلسة البرلمان ولكن البرلمان كان صوت ضد الاحكام العرفية بعد ساعات من إعلانها وبهذا نغيت.

The ship, identified by Denmark as the Yi Peng 3, severed the cables last week when it dragged its anchor along the seabed for over 100 miles.

A probe into the severing of the cables along the Kattegat strait between Sweden and Denmark was promptly launched following the incident on November 17 and 18.

The Philippines said a China Coast Guard ship fired a water cannon at its vessel, while a Chinese Navy ship did "dangerous" moves around a disputed South China Sea shoal.

The Philippine Coast Guard and the Bureau of Fisheries and Aquatic Resources encountered "aggressive actions" from Chinese vessels while on a routine patrol around Scarborough Shoal on Wednesday, coast guard spokesperson Jay Tarriela said in a <u>post</u> on X.

China Coast Guard spokesperson Liu Dejun said in a statement that it implemented control measure after Philippines ships "dangerously approached" its patrol vessels.

Turkish President Recep Tayyip Erdogan has voiced support for the jihadist insurgency in Syria, urging the Islamists to continue their march to Damascus, various media outlets reported on Friday.

تعليق على هذا الامر من ناحية النبوات: أولا بالطبع سورية سقوط النظام هي خسارة فادحة لكثيرين ليست للشعب السوري فقط وهو الأهم بل أيضا لروسيا وإيران فروسيا لديها قواعد هامة جدا جدا في سورية وإيران بهذا تتعرى اكثر وتصبح مقطوعة الأذرع. فغريب انهم ينسحبوا ولكن الاثنين مستنهكين. فالتالي هو فقط احتماليات لو اقترب وقت تحقيق نبوات سورية، للأسف الفصائل بعد ان تقضي على نظام الأسد هم مسلمين لا يعرفوا ان يعيشوا في سلام فقد تتناحر وستخرب دمشق او بأي طريق اخر ستخرب دمشق أكثر وتزال وتتحقق نبوات مثل إشعياء 17 وحزقيال 27 وارميا 49 وغيرها. لكن هذا متوقع لأننا نشعر باقتراب حرب حزقيال 38 وسورية ليست طرف في هذه الحرب. فما سيحدث بعد سقوط سورية هو سيكون فيه استفزاز من إسرائيل اكثر لروسيا وإيران وبالطبع بقية الدول المذكورة في حزقيال 38 ليقوموا عليها. ولكن أيضا في إشعياء 17 يوجد إشارة إلى أن يعقوب يذل فهل ما يحدث في سورية سيؤثر سلبا على إسرائيل أيضًا؟ الصورة ستظهر أكثر قريبا.

Ground zero: why soil health is integral to beating climate change

Nov 22, 2024

Agriculture faces a generational challenge: Roughly 95% of all food supply relies on healthy soils, yet nearly a third of global agricultural land is degraded. As the pressure to harvest more land intensifies, there is an essential need to reconcile agriculture with nature and use it as a natural means to remove CO2. At the centre of this reconciliation is soil health and customization. Improving soil health is key to enhancing plant-driven carbon sequestration, increasing crop yields, and restoring the negative impact traditional intensive agriculture has had on the environment.

While total U.S. print book sales were up less than 1% this year through the end of October, Bible sales surged 22% compared to the same period last year, according to book tracker Circana BookScan. But is this a cause for celebration among Christians?

BookScan data show that in 2023, 14.2 million Bibles were sold in the U.S., while in the first 10 months of this year sales reached 13.7 million.

Publishers suggested in a recent Wall Street Journal report that rising anxiety, a search for hope, or highly focused marketing and designs are possible reasons fueling the spike in demand for the

EU nation 'found a way' to get gas from Russia – foreign minister

Budapest and Moscow have already worked out solutions to most of the problems created by US sanctions against Gazprombank, Hungarian Foreign Minister Peter Szijjarto has said.

Washington's announcement of sanctions at the end of November resulted in the blockade of payments for Russian natural gas and transit fees, causing disruptions in supplies for Hungary and Slovakia.

"We have found solutions to three of the four issues," Szijjarto told the Hungarian Parliament on Tuesday. "In one case, we already have a legal basis for two different structures, and will pick out the best one."

SURABAYA, Indonesia (Morning

Star News) - Authorities in Indonesia are allowing two years of uncollected garbage to pile up next to a church building and a Catholic university, sources said.

The unhygienic and foul-smelling garbage - bagged, spilling out of broken bags or unbagged - in Yogyakarta city, capital of the Special Region of Yogyakarta, Central Java Province that has not been collected for two years is becoming increasingly unhealthy for members of St. Antonius Padua Catholic Church and those at the nearby Jesuit campus of Sanata Dharma Catholic University.

"The garbage problem has been around for a long time, since the 1980s, causing disturbing stench during the rainy season, when the garbage mixes with rainwater to become mud," congregation member Susi Sasmita told Morning Star News by phone. "This situation has worsened in the last few years and is very disturbing to the congregation. Imagine if this case happened at a mosque - the situation could be chaotic."

LAHORE, Pakistan (Christian

Daily International-Morning Star News) - A pastor and his family have gone into hiding after a Muslim neighbor who raped his 14-year-old daughter tried to kidnap her and force her to convert to Islam and marry him, he said.

The daughter of Pastor Aslam Masih of Muridke, Sheikhupura District, Punjab Province, was on her way to school on Oct. 31 when Suleman Azhar blocked her way with his motorcycle and forced her to board it, the pastor said. The panicked girl, whose name is withheld as a rape victim, freed herself and ran back home.

"When I confronted Suleman, he threatened me, saving I should do whatever I could to protect my daughter. I did not know then that he had already assaulted her once."

Christians Under Threat After Syria's Second City Falls Into Islamist Hands

Aleppo, Syria's second-largest city, has been captured by a jihadist group as part of its offensive against the government of Bashar al-Assad. The regime lost control of the territory—<u>for the first time since the</u> <u>start of the civil war in 2011</u>—on Sunday, December 1st. This prompted fears of a new refugee crisis, while Syria's Christians are once again likely to be the main target of the Islamist troops.

The civil war in Syria has brought several distinct forces into direct conflict: the government army, the Kurds, Daesh (a.k.a ISIS/ISIL), and a conglomerate of so-called rebel forces from the jihadist

WASHINGTON — Dueling rallies competed outside the U.S. Supreme Court on Wednesday as justices heard arguments in a potentially landmark case concerning trans procedures for minors.

Hundreds of people endured a bitterly cold day in the nation's capital to express their opinions regarding United States v. Skrmetti, which will decide whether Tennessee can ban puberty blockers and body-mutilating surgeries from being performed on youth who exhibit gender dysphoria.

Controversy is brewing in France over the reform of its national sex education curriculum, which would be introduced in state schools and any schools under contract with the state. The proposed curriculum promotes gender theory and violates the privacy of the very young, prompting family and religious associations to mobilise against it.

Even the deputy minister for education is concerned that the programme is unsuitable for children, although the Left is now criticising the 'conservative offensive' against the project.
