هدف هذه الخدمة

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه لأننا نور العالم الذي أصبح مظلّم وليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل بالمحبة والتبشير وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافى من الان لن يجد زيت في الضيقة لان وقتها جميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذارى انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشرا اشاعات او اخيف البعض ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما انتقلوا

السيد المسيح قال بعض العلامات مثل

انجيل لوقا أصحاح 21

10 ثُمَّ قَالَ لَهُمْ: «تَقُومُ أُمَّةٌ عَلَى أُمَّةٍ وَمَمْلَكَةٌ
عَلَى مَمْلَكَةٍ، 11 وَتَكُونُ زَلَزِلُ عَظِيمَةٌ فِي
أَمَاكِنَ، وَمَجَاعَاتٌ وَأَوْبَةٌ. وَتَكُونُ مَخَافٌ
وَعَلَامَاتٌ عَظِيمَةٌ مِنَ السَّمَاءِ.....

وَتَكُونُ عَلَامَاتٌ فِي الشَّمْسِ وَالْقَمَرِ وَالنُّجُومِ،
وَعَلَى الْأَرْضِ كَرْبٌ أُمَمٌ بِحَيْرَةٍ. الْبَحْرُ
وَالْأَمْوَاجُ تَضِجُ، 26 وَالنَّاسُ يُغْشَى عَلَيْهِمْ مِنْ
خَوْفٍ وَانْتِظَارٍ مَا يَأْتِي عَلَى الْمَسْكُونَةِ، لِأَنَّ
قُوَّاتِ السَّمَاوَاتِ تَتَزَعَزَعُ. 27 وَحِينَئِذٍ
يُبْصِرُونَ ابْنَ الْإِنْسَانِ آتِيًا فِي سَحَابَةٍ بِقُوَّةٍ
وَمَجْدٍ كَثِيرٍ.

السيد المسيح قال بعض العلامات مثل

سفر اعمال الرسل اصحاح 2

19 وَأُعْطِيَ عَجَائِبَ فِي السَّمَاءِ مِنْ فَوْقُ وَآيَاتٍ عَلَى الْأَرْضِ مِنْ أَسْفَلُ: دَمًا وَنَارًا وَبُخَارَ دُخَانٍ.

20 تَتَحَوَّلُ الشَّمْسُ إِلَى ظُلْمَةٍ وَالْقَمَرُ إِلَى دَمٍ، قَبْلَ أَنْ يَجِيءَ يَوْمُ الرَّبِّ الْعَظِيمِ الشَّهِيرِ.

21 وَيَكُونُ كُلُّ مَنْ يَدْعُو بِاسْمِ الرَّبِّ يَخْلُصُ.

لماذا قال السيد المسيح بعض العلامات؟

أولا لكي لا نرتاع

انجيل متى 24 : 6

وَسَوْفَ تَسْمَعُونَ بِحُرُوبٍ وَأَخْبَارِ حُرُوبٍ.
أَنْظُرُوا، لَا تَرْتَاعُوا. لِأَنَّهُ لَا بُدَّ أَنْ تَكُونَ هَذِهِ
كُلُّهَا، وَلَكِنْ لَيْسَ الْمُنْتَهَى بَعْدُ.

لماذا قال السيد المسيح بعض العلامات؟

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى
مَتَى كَانَ تُؤْمِنُونَ.

لماذا قال السيد المسيح بعض العلامات؟

ثالثا لنتنبه ونستعد

انجيل لوقا 21: 28

وَمَتَّى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَاَنْتَصِبُوا
وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.

وَالنُّجُومُ تَسْقُطُ مِنَ السَّمَاءِ، وَقُوَّاتُ
السَّمَاوَاتِ تَتَزَعَّعُ.....

متى 24 : 29

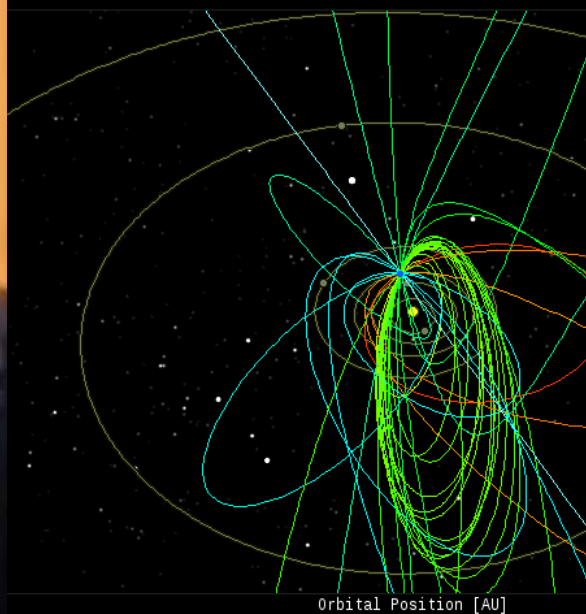

وَنُجُومُ السَّمَاءِ سَقَطَتْ إِلَى الْأَرْضِ...

رؤيا 6 : 13

وَتَكُونُ مَخَاوِفٌ وَعَلَامَاتٌ عَظِيمَةٌ مِنَ
السَّمَاءِ..... وَتَكُونُ عَلَامَاتٌ فِي الشَّمْسِ
وَالْقَمَرِ وَالنُّجُومِ..... لِأَنَّ قُوَّاتِ
السَّمَاوَاتِ تَتَزَعَّعُ...

Hidden magma discovered beneath dormant Cascade Range volcanoes

By Rishika Yadav • Wednesday, January 29, 2025 •

[Follow us on Google News](#)

New research has found magma reservoirs beneath dormant volcanoes in the Cascade Range remain intact for thousands of years, challenging the long-standing belief that magma bodies dissipate over time after eruptions and reshaping understanding of volcanic activity. Previously, large magma bodies were thought to indicate an increased likelihood of eruption, but the study suggests they are a persistent feature of volcanic systems rather than a sign of imminent activity.

- Magma reservoirs beneath dormant Cascade volcanoes remain intact for thousands of years, challenging previous assumptions that magma dissipates over time after eruptions.
- Seismic imaging of 6 Cascade Range volcanoes revealed persistent magma bodies at depths of 5 to 15 km (3 to 9 miles), regardless of eruption history.

Avian influenza: EU agencies track virus mutations and analyse response strategies

Published: 29 January 2025 | 3 minutes read

Share: 

Avian influenza viruses pose an increasing threat, with the potential to adapt to humans and trigger future pandemics. Employing a One Health approach, the European Centre for Disease Prevention and Control (ECDC) and the European Food Safety Authority (EFSA) have issued scientific advice that assesses avian influenza virus mutations and the potential of these viruses to spread to humans, along with recommendations for the animal and public health sectors. The work of the two Agencies draws on extensive data, including genetic analyses, human case studies, and antibody presence to outline current risks and mitigation strategies.

REMINDER: LDWF Warns Public of Potential Fish Kills Due to Freezing Temperatures

JANUARY 24 2025

RECREATIONAL FISHING

Rene LeBreton • Baton Rouge, La.

The Louisiana Department of Wildlife and Fisheries warns the public of potential fish kills throughout coastal Louisiana due to freezing water temperatures.

If fish kills do occur, evidence of such could be delayed as fish may not be visible for a week or more after a cold kill.

Coastal species commonly impacted by low water temperatures are Sand Seatrout (a.k.a. White Trout), Red Drum, Black Drum, and Spotted Seatrout.

"Typically, water temperatures below 40 degrees Fahrenheit for more than a day cause problems for Spotted Seatrout, whereas Red Drum are slightly more tolerant and will begin to experience problems when temperatures dip into the mid-30s," explained LDWF fisheries biologist Jason Adriance.

"The rate at which the water cools is also important. If fish have a chance to acclimate and move, the potential for survival is higher."

Inland fisheries biologists are not expecting severe impacts to freshwater sport fishes, although fish kills may occur in inland waters. There is the potential for small isolated mortality of shad due to the colder-than-normal water temperatures, but this should not pose a significant impact to the populations.

WHO statement on potential global threat to people living with HIV

28 January 2025 | Statement | Reading time: 1 min (375 words)

The World Health Organization (WHO) expresses deep concern about the implications of the immediate funding pause for HIV programmes in low- and middle-income countries. These programmes provide access to life-saving HIV therapy to more than 30 million people worldwide. Globally, 39.9 million people were living with HIV at the end of 2023.

A funding halt for HIV programmes can put people living with HIV at immediate increased risk of illness and death and undermine efforts to prevent transmission in communities and countries. Such measures, if prolonged, could lead to rises in new infections and deaths, reversing decades of progress and potentially taking the world back to the 1980s and 1990s when millions died of HIV every year globally, including many in the United States of America.

For the global community, this could result in significant setbacks to progress in partnerships and investments in scientific advances that have been the cornerstone of good public health programming, including innovative diagnostics, affordable medicines, and community delivery models of HIV care.

POLTAVA, Ukraine, Feb 1 (Reuters) - Russia launched a barrage of drones and missiles on [Ukraine](#) on Saturday, killing 15 people and damaging dozens of residential buildings as well as energy infrastructure across the country, Ukrainian officials said.

In the central city of Poltava, Ukraine's Emergency Services said a Russian missile had struck a residential building, killing 11 people and wounding 16, including four children.

They said 22 people were rescued from rubble and emergency crews worked well into the night. Rescue teams carried out the dead on stretchers.

Ukraine, Russia accuse each other of deadly strike on boarding school in Kursk region

KYIV, Feb 2 (Reuters) - Ukraine and Russia traded blame for a deadly missile strike on Saturday that killed at least four people in the dormitory of a boarding school situated in a part of Russia's Kursk region held by Kyiv forces.

Some of the war's fiercest battles in recent months have been taking place in the Kursk region that borders Ukraine, where Kyiv forces have held swathes of the land since staging a major cross-border incursion last August.

Ukraine's Armed Forces said on the Telegram messaging app that Russia had launched an aerial bomb from Russian territory that struck a boarding school in Sudzha, killing at least four. The boarding school housed people preparing for evacuation.

As of 10 p.m. (2000 GMT) on Saturday, 84 people had been rescued or received medical assistance, the statement said. Four of the injured were in a serious condition. Rescue efforts to clear rubble were proceeding.

A Ukrainian defense manufacturer has suggested dispersing military production across civilian sites, including to school facilities, to protect its weapons-making operations from Russian strikes. Aleksey Polonchuk proposed that students assemble drones in school workshops as part of a decentralized production strategy.

Polonchuk, who owns a defense company specializing in electronic warfare equipment, made his remarks in an interview with Dignitas Fund, a nonprofit focused on raising funds for Kiev's military. The interview was published on the NGO's YouTube channel on Wednesday.

To safeguard drone production from Russian long-range attacks, Polonchuk emphasized

the need to scatter manufacturing locations across the country.

Ukrainian MP calls for Putin's murder at Council of Europe

Such rhetoric would supposedly help Kiev get more aid from its Western backers, Aleksey Goncharenko believes

Ukrainian MP Aleksey Goncharenko has openly called on EU lawmakers to support the idea of assassinating Russian President Vladimir Putin and of promoting it among ordinary people. On Friday the legislator published a video on Telegram of himself making controversial statements at the Parliamentary Assembly of the Council of Europe (PACE).

According to Goncharenko, Kiev could ramp up support for its cause in the West amid a continuing conflict with Moscow by appealing to the most basic and easily understandable urges of people. To do this, Ukraine needs to draw a clear parallel between the Russian leader's demise and the benefits each and every EU citizen could get from it, he claimed.

Russia's top MP calls for probe into Carlson's claim US tried to kill Putin

Plotting to assassinate the Russian president is a direct path to nuclear war, Vyacheslav Volodin has said

The claim by American journalist Tucker Carlson that the previous US administration of President Joe Biden wanted to assassinate Russian leader Vladimir Putin should be thoroughly investigated, Russia's most senior MP, Vyacheslav Volodin, has said.

During an interview on Monday, Carlson claimed former US Secretary of State Antony Blinken "was pushing so hard for a real war [between Washington and Moscow], trying to kill Putin, for example." He did not provide details of the alleged plot, but insisted that "the Biden administration did [it], they tried to kill Putin."

The journalist denounced the purported plan as "insane" and "demented," considering the power vacuum it could create in Russia and

the potential for the country's vast nuclear arsenal to end up in the wrong hands.

Today, the Commission has adopted the fifth annual Work Programme under the [European Defence Fund \(EDF\)](#), allocating over €1 billion to defence collaborative research and development projects.

With the 2025 EDF Work Programme, the Commission unlocks significant additional funding to support the development of critical defence technologies and capabilities. The Work Programme allocates around €100 million each in critical fields such as ground combat, space, air and naval combat, as well as energy resilience and environmental transition.

Supporting European collaborative defence R&D projects

The EDF25 Work Programme supports the development of critical defence technologies and capabilities required in line with the EU capability priorities agreed by Member States and further elaborated in the Strategic Compass. It launches 9 competitive calls for proposals addressing 31 topics (more information in a factsheet). This includes 15 topics to support research actions, 15 topics to support development actions and 1 topic in support of the EDF National Focal Points network. 14 of the proposed call topics support the objectives of the [Strategic Technologies for Europe Platform \(STEP\)](#) in the field of digital technologies and deep-tech innovation, clean and resource-efficient technologies and biotechnologies. Projects meeting the eligibility requirements of this call will be

CAIRO, Jan 29 (Reuters) - Egypt will not participate in the displacement of Palestinians, an "act of injustice" that would threaten Egyptian security, President Abdel Fattah Al-Sisi said on Wednesday in his first public response to U.S. President Donald Trump's call for Cairo to take in residents of the Gaza Strip.

Speaking at a press conference with visiting Kenyan President William Ruto, Sisi said Egypt would work with Trump to reach peace between Israel and Palestinians based on a two-state solution.

Syrian authorities ask Russia for 'compensation' – media

The request was reportedly made when diplomats from Moscow visited Damascus to meet the new government

Syria's new leadership is seeking compensation from Russia to "restore trust" between the two nations, state-owned news agency Sana has reported.

The comments were reportedly made to Russian diplomats on Wednesday, during their first trip to Damascus since the fall of Bashar Assad's government in December. Russia supported Assad in the war against the insurgency which enveloped Syria in 2011.

Now led by the Islamist Hayat Tahrir-al-Sham (HTS) movement, the Syrian government has said that Moscow should take into account "past mistakes" and respect the will of the Syrian people," according to the outlet.

The Russian delegation "confirmed its support for the positive changes," in Syria and emphasized Moscow's role in "rebuilding trust with the Syrian people through concrete measures such as compensation, reconstruction, and restoration."

Damascus also allegedly demanded the extradition of former President Assad, who fled Syria following the fall of his government in late 2024, and was granted asylum in Russia.

Following the meeting, Russian Deputy Foreign Minister Mikhail Bogdanov, who led the delegation, said Moscow and Damascus intend to maintain their historically stable and mutually beneficial relationship.

UK retail crime hits record high – survey

At 55,000 incidents a day, theft and violence are “out of control,” according to latest industry report

© Getty Images

Retail crime in the UK has reached unprecedented levels, with soaring losses from theft and rising violence against workers, the British Retail Consortium (BRC) has reported.

According to its latest annual crime [survey](#), shoplifting in the country has reached an all-time high, with more than 20 million incidents committed last year as of August 31, which equates to 55,000 a day. This cost retailers a total £2.2 billion (\$2.7 billion), adding further pressure to the mounting costs retailers already face.

Violence and abuse against retail staff also spiked, with daily incidents exceeding 2,000, up from 1,300 reported the previous year. This

marks a more than threefold increase from 2020, when the daily average was just 455. Weapon-related incidents doubled, reaching 70 per day.

EU accused of enabling migrant slave trade in Africa

Asylum seekers in Tunisia have been sold to Libyan traffickers for as little as \$12, according to human rights groups

A coalition of humanitarian organizations has alleged that sub-Saharan African migrants in Tunisia are being apprehended and sold to Libyan traffickers, and that the process is facilitated by agreements with the European Union and Italy, according to a [report](#) released on Tuesday. It claims they are detained by authorities, held in detention centers, and subsequently sold off for as little as \$12 each.

The report, titled *"State Trafficking: Expulsion and Sale of Migrants from Tunisia to Libya,"* is based on months of research in North Africa's shanty camps and desert detention centers. It includes testimonies from 30 people from countries such as Cameroon, Chad, Sudan, Guinea, and Ivory Coast, who recounted being sent from Tunisia to Libya between June 2023 and November 2024.

"They sold us to the Libyans. I really mean buying and selling, like for objects, they sold us like slaves," one migrant stated in the report.

Meta's popular messaging platform WhatsApp has alerted nearly 100 journalists and civil society members to potential device breaches involving spyware from Israeli firm Paragon Solutions, a company official told Reuters on Friday.

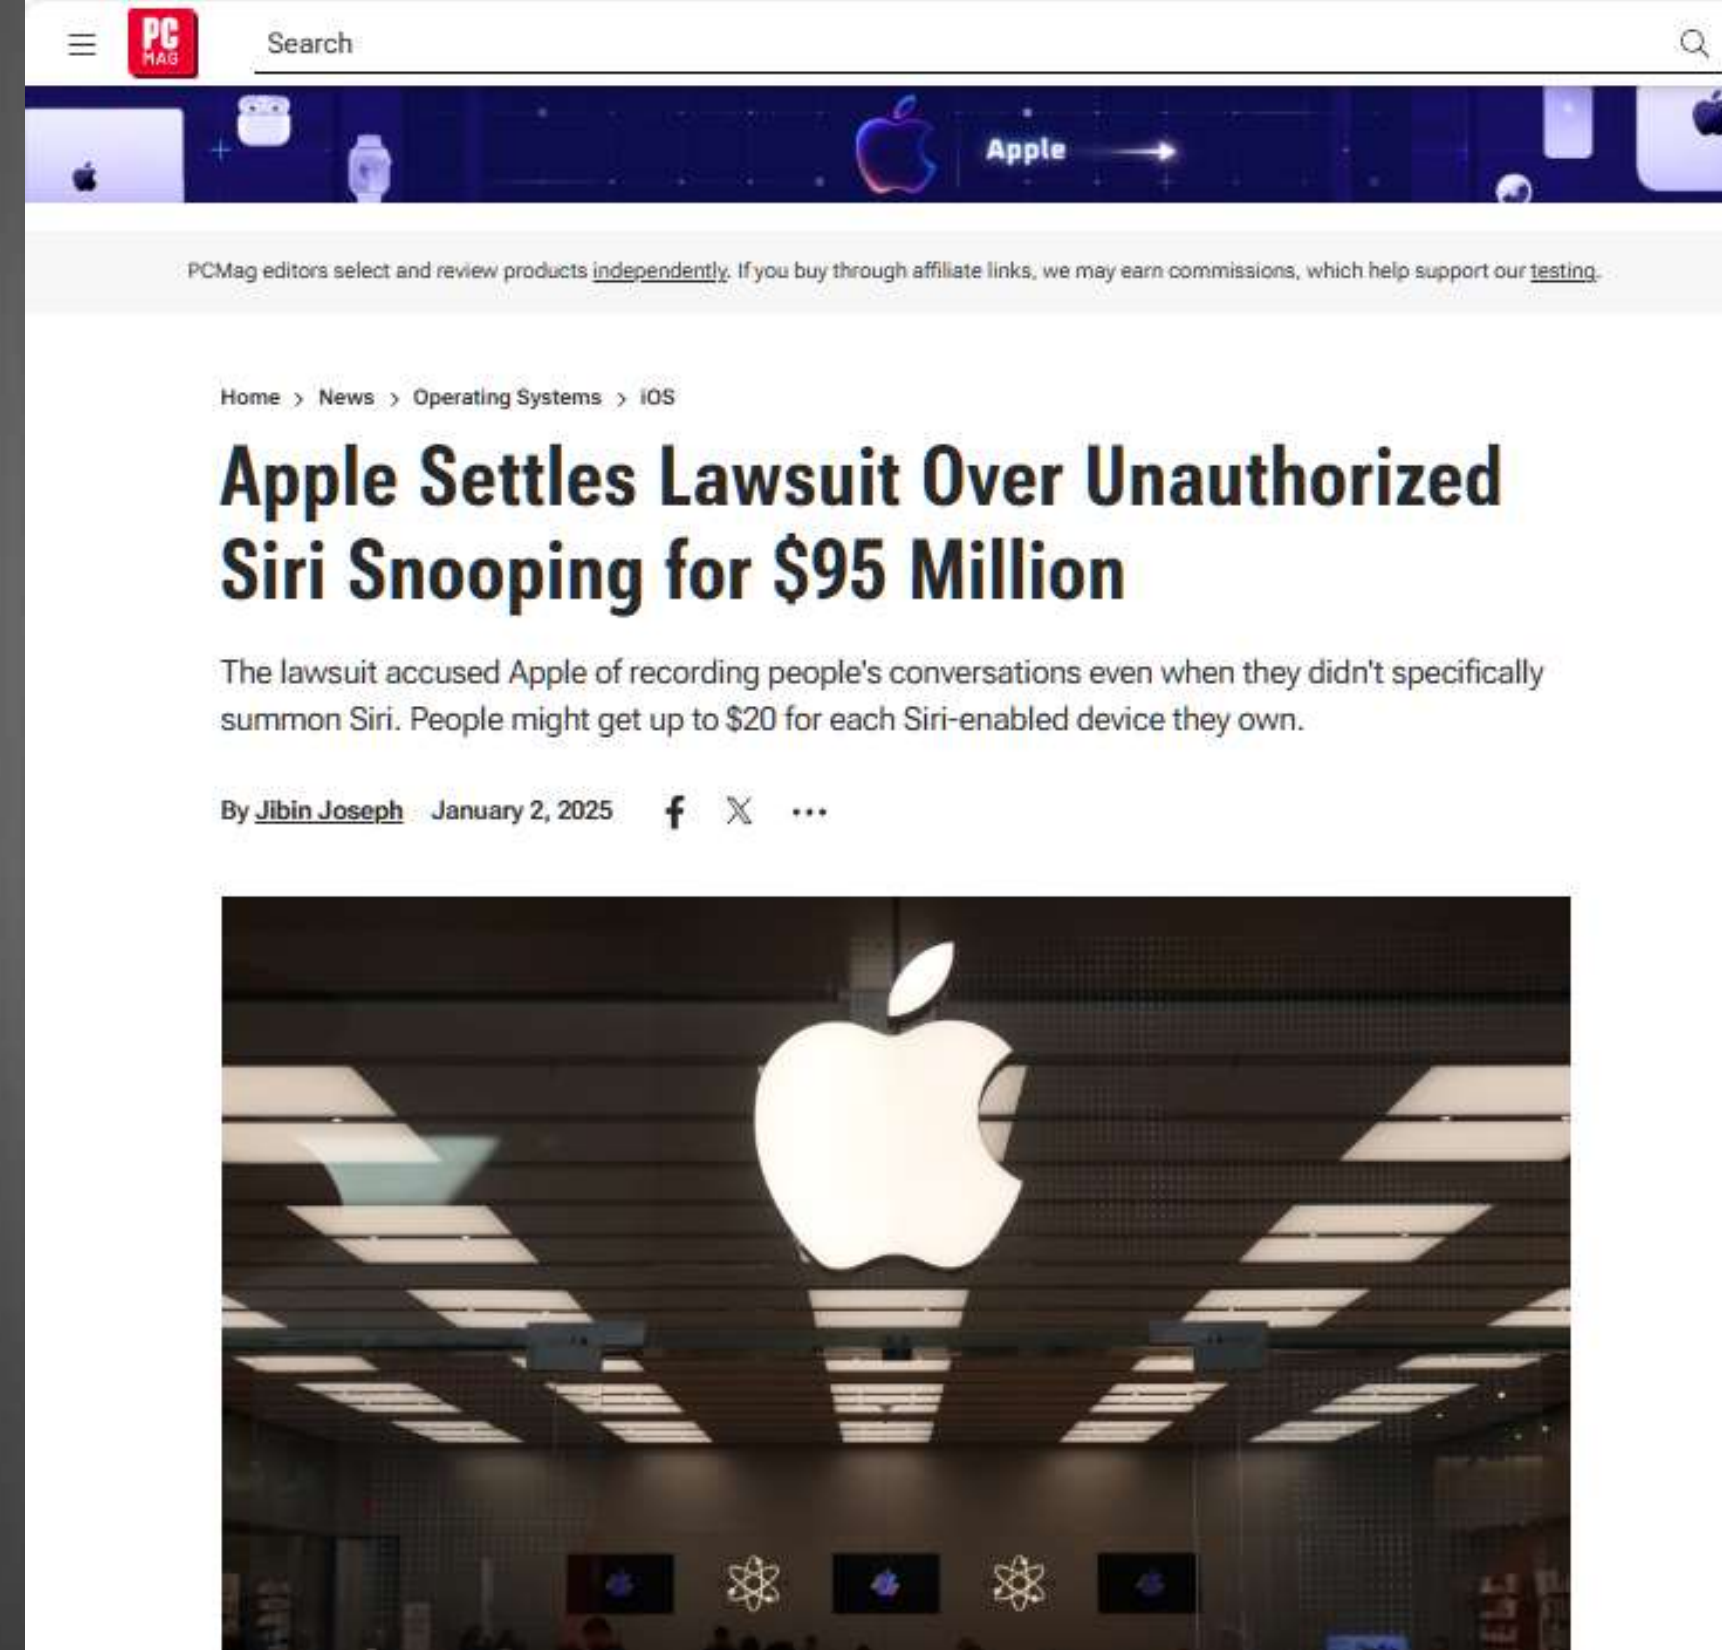

These individuals have likely been compromised through a zero-click attack, possibly initiated via a malicious PDF sent in group chats, according to WhatsApp.

The identity of the attackers remains unknown, though Paragon's software is typically used by government clients. After detecting and disrupting the hacking effort, WhatsApp issued a cease-and-desist letter to Paragon. The incident has been reported to

law enforcement and Citizen Lab, a Canadian internet watchdog.

Paragon declined to comment on the accusations, according to Reuters.

Vatican Warns AI Could Undermine 'Foundations Of Society'

The Vatican published a new text on artificial intelligence (AI) Tuesday, warning the tool could destroy the trust on which societies are built, while humans become "cogs in a machine".

Pope Francis, regularly a victim of fake news and doctored photographs, cautioned earlier this month that AI could be "misused to manipulate minds". The Vatican text elaborates on his thinking.

"AI-generated fake media can gradually undermine the foundations of society," read the text, written by two Vatican departments and approved by the 88-year-old pontiff.

"As deepfakes cause people to question everything and AI-generated false content erodes trust in what they see and hear, polarisation and conflict will only grow", it said.

Top AI Investor warns goal is to crash human wages in order to bring

(OPINION) Marc Andreessen, cofounder of the massive venture capital firm Andreessen Horowitz — which has its fingers in pretty much every pie in tech — has revealed an eyebrow-raising detail in his "techno-optimist" vision of the future.

In a recent tweet, the American billionaire investor casually proclaimed that AI must "crash" everyone's wages before it can deliver us an economic utopia — one that'll definitely happen, and certainly not create a permanent underclass of have-nots.

BRICS member states have no plans to create a common currency but are actively discussing joint investment platforms to enhance economic cooperation, Kremlin spokesman Dmitry Peskov has stated.

Speaking to journalists on Friday, Peskov addressed recent remarks by US President Donald Trump, who has threatened to hit the BRICS countries with tariffs should they create a joint currency to replace the dollar.

"BRICS is not considering the creation of a common currency. This has neither been discussed in the past nor is it currently on the agenda," Peskov clarified. "Instead, BRICS is focused on establishing new joint investment platforms that will facilitate investments in third countries, as well as mutual investments

Watch: Canada's PM announces tariffs of 25% on US goods

Canada has announced retaliatory tariffs against the US, in a move that marks the beginning of a trade war between the neighbouring countries.

Prime Minister Justin Trudeau set out "far-reaching" tariffs of 25%, affecting 155bn Canadian dollars' worth (\$106.6bn; £86bn) of American goods ranging from beer and wine, to household appliances and sporting goods.

China vowed to retaliate against the US but stopped short of imposing tariffs, after President Donald Trump announced a 10% levy on imports from the world's No. 2 economy.

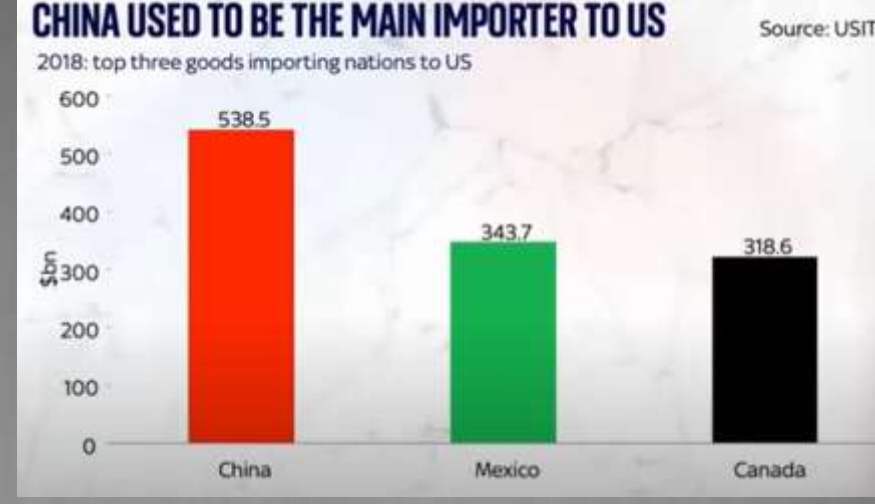

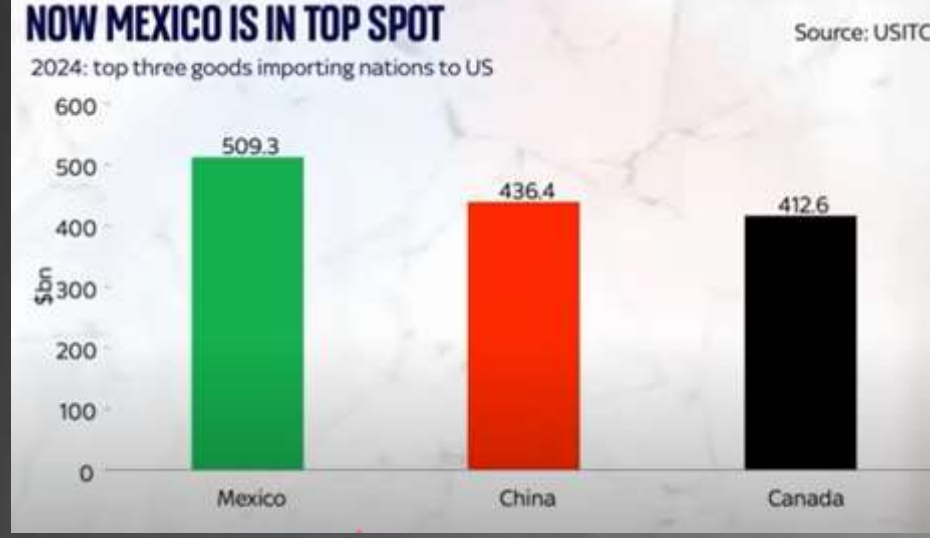

الصين تتعهد برد فعل وسترفع قضية على ترامب

تعليق صغير على موضوع الجمارك: ما يكرهه ترامب هو فتح الحدود وان دولة تصدر لأمريكا أكثر مما تستورد من أمريكا فتسبب عجز فهو يريد ان كل دولة على الأقل تستورد من امريكا بنفس قيمة ما تصدر ولكن عجز مع الصين 25 بليون والمكسيك 15 وكندا 5 والباقي تقريبا موجب. هو بفرض الرسوم الجمركية فان البضائع التي تستوردها دولة مثل أمريكا ستضع عليها جمارك فالشيء الذي كان ثمنه 10\$ سيصبح 12.5\$ ولكن 2.5\$ هذا دخل حكومي يدخل للدولة ولكن يدفعه المواطن الأمريكي فسيبحث عن الارخص او تقل قوته الشرائية الا لو ترامب عوض هذا بتقليل الضرائب كما وعد. فالمستورد الأمريكي سيبحث عن بدائل ارخص او يزيد الإنتاج المحلي لأنه بدل ما كان أكثر تكلفة لغلو العمالة من المستورد فهو الان يستطيع ان ينافس فيتزايد اقتصاد الدولة والإنتاج المحلي الارخص يعوض غلو سعر المستورد. هذا لو يوجد إمكانية انتاج محلي يعوض. او يضطر المصنع الخارجي ان يفتح مصنعه في أمريكا لكي لا يخسروا سوق عملاق كأمريكا يمثل متوسط 45% من السوق العالمي. وترامب بهذا يحقق ثلاث أشياء يقلل العجز الذي قيمته قرب 4 ترليون ويزيد الإنتاج المحلي فاقتصاد افضل ويزيد الدخل الحكومي فيزيل الضرائب التي وعد بإزالتها ويضغط على الدول تفعل ما يريد.

ولكن للأسف أسوأ شيء عندما يكون عدوك غبي ولا يفهم اشاراتك. ترامب تاجر يطلب القمر ليحصل على نصيب جيد في قطعة أرض. أي يغالي في طلباته ولكنه في النهاية يقبل باقل كثير مما كان يطلب. ولكن عندما يكون الخصم غبي فانه يصر ان يبدأ حرب بانك تطالب بالقمر ولا يتفهم الإشارات التي تلمح بها. فترامب في موضوع الجمارك هو يريد حماية اكثر للحدود وهذا المفروض انه امر سهل، واتفاقيات تبادل تجارية يكسب منها بدل ما ان هذه الدول تتاجر اكثر مع الصين. فبدل من ان يبدؤا الفصال معه يدخلوا الحرب التي لن يكسب منها احد ولكن هم سيخسرون اكثر من أمريكا بكثير. النتيجة المواطن الأمريكي سيدفع اكثر في البضائع ولكن سيوفر الكثير في الضرائب ولهذا التوقع ان التأثير سيكون 0.15% فقط على المواطن الامريكي. اما المواطن الكندي والمكسيكي سيدفع اكثر ثمن بضائع ولن يوفر شيء فلن تخلصم الحكومات من الضرائب وستقل الإنتاج والتجارة فخسائر من كل جانب وقد تصل خسارتهم لنسبة 15%. البعض يتساءل لماذا المكسيك وكندا لم يدخلوا في اتفاقيات مع ترامب؟ اعتقد سيجبروا ان يدخلوا في اتفاقيات. رغم أن أموال الجمارك ستذهب الى الحكومات التي تريد أموال اكثر حتى لو خسر الشعب وتدهور حاله. ولكن اعتقد حكومة المكسيك وكندا ستسعى بسرعة لعقد اتفاق مع ترامب.

اضيف بعد اخر وهو لماذا الصين 10% فقط؟ لان الذي لا يدركه الكثيرون ان 25% على كندا وعلى المكسيك هو أيضا بطريقة غير مباشرة على الصين. كيف؟ في فترة ترامب الأولى هو فرض جمارك على الصين وفيتنام. ولماذا فيتنام لان الصين تستخدمها كباب خلفي للتصدير لأمريكا أي بضائع صينية ولكن تصدر لأمريكا من خلال فيتنام. ووقتها كان المشكلة وعجز الميزانية هي الصين التي كانت تصدر لأمريكا أكثر مما تستورد. ففرض ترامب جمارك على الصين والتي ابقى عليها بايدن. ولكن الان أمريكا تستورد من المكسيك وكندا أكثر من الصين لماذا؟ لان الصين فعلت امر خبيث. هي بدأت بدل ما تصدر لأمريكا مباشرة وطبق عليها جمارك. فالصين أصبحت تصدر للمكسيك وكندا ومنهم لأمريكا لانهم اقل نسبة جمارك من أمريكا. فبتطبيق ترامب لهذه الجمارك هو يغلق الباب على الصين بطريقة غير مباشرة. فبالفعل يوجد تنوع ولكن النسبة الأعلى هي صناعات بلاستيكية وأجهزة وسيارات وقطع غيار. فلماذا لم يضع الا 10% لأنها مطبقة عليها جمارك كثيرة بالفعل وايضا لان الصين لن تستطيع ان تطبق جمارك عكسية على أمريكا لأنها لا تريد تقليل الاستيراد من أمريكا من المواد التكنولوجية فلماذا لجأت الصين لرفع قضايا.

LAHORE, Pakistan ([Christian Daily International–Morning Star News](#)) – Police in Pakistan this week arrested a mentally challenged Christian on blasphemy charges despite being aware of his condition, sources said.

In Sahiwal, Punjab Province, Ghala Mandi police on Monday (Jan. 26) arrested Farhan Javed Masih, 28, after a local villager, Muhammad Bilal Khan, accused him of speaking against Islam and the religion's sacred figures, said the suspect's mother, Parveen Javed.

“We were at home when Bilal and some other Muslims came and told us that Farhan had committed blasphemy,” Javed told Christian Daily International-Morning Star News. “I pleaded with them to forgive him keeping in mind his mental state, but they did not listen to me and called the police, which arrested him.”

Christian Prayer App 'Hallow' Banned in Europe

1/29/2025 Europe (International Christian Concern) — Alex Jones, CEO and Co-Founder of the Christian prayer app Hallow, **took to X** (formerly Twitter) yesterday, announcing that the European Union (EU) would no longer allow its citizens access to the app.

Jones explained that “over-regulation” targeting all religious apps would make it impossible for Hallow to be available in the EU. This news comes shortly after China removed Hallow from its app store in July 2024.

In his post, Jones expressed his heartbreak over the news as Hallow was in the works of expanding its content to Polish, French, Italian, and German audiences. Since its launch in December 2018, Hallow has seen more than **18 million downloads** across 150 countries, making its worldwide reach and influence significant.

Preacher to appeal after arrest for criticising Islam

28 January 2025

In a concerning setback to the right to free speech, the High Court has rejected the appeal of a Christian preacher who was arrested outside Southwark Cathedral for displaying placards which protested Islam in the wake of the London Bridge, Westminster, and Manchester Arena terrorist attacks.

Ian Sleeper, 58, was arrested outside Southwark Cathedral on 23 June 2017 under controversial section 5 of the Public Order Act 1986 for causing “harassment, alarm and distress”, for displaying a sign which read: “*Love Muslims, Hate Islam, Jesus is love and hope.*”

The arrest was captured on police body cam footage. Sleeper was held in a police cell for 13 hours.

Weeks earlier, on 7 June 2017, on London Bridge and at Borough Market, which is adjacent to Southwark Cathedral where Sleeper was protesting, Islamic terrorist attacks had taken place, killing eight people and injuring 48.

Mr Sleeper was later released without charge. He then sued the police for wrongful arrest and false imprisonment. He failed in his original action against the police but was given permission to appeal.

America's Gender Obsession: Why Russia has been smarter this time

Our country refused to embrace this particular diversity experiment – and thank God for that

By **Anastasia Mironova**, writer, publicist

FILE PHOTO. © Getty Images/Vladimir Vladimirov

Trump has banned 72 genders. Where will he put transgender people? Where is he going to put the trans toilets, the trans athletes, and what will happen to the transitions of children?

There are few occasions when we can genuinely rejoice in being smarter than the Americans. And it is crucial for us to know that we are smarter. For almost a hundred years, Russia and America have been locked in an invisible competition: who is smarter, taller, and prettier. When Donald Trump signed the bill to return to two genders, I realized: here it is! We've been bloody clever! Clever enough not to collapse into the wave of madness that the unstable, the exalted, and the outright crazy have brought upon themselves.

I cannot fathom how the Americans let this happen. And worse, they dragged dozens of developed countries along with them into counting genders and opening new toilet cubicles. But here, we stand as the winners. We never bought into it. For us, it's laughable. For Americans, not so much. Most of their people are normal. They don't go into others' toilets, wear women's underwear under their jackets, or petition for the right to bring vibrating anal plugs to work.
