هدف هذه الخدمة

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه لأننا نور العالم الذي أصبح مظلّم وليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل بالمحبة والتبشير وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافى من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذارى انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشرا اشاعات او اخيف البعض ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما انتقلوا

السيد المسيح قال بعض العلامات مثل

انجيل لوقا أصحاح 21

10 ثُمَّ قَالَ لَهُمْ: «تَقُومُ أُمَّةٌ عَلَى أُمَّةٍ وَمَمْلَكَةٌ
عَلَى مَمْلَكَةٍ، 11 وَتَكُونُ زَلَزِلُ عَظِيمَةٌ فِي
أَمَاكِنَ، وَمَجَاعَاتٌ وَأُوبَّةٌ. وَتَكُونُ مَخَاوِفُ
وَعَلَامَاتٌ عَظِيمَةٌ مِنَ السَّمَاءِ.....

وَتَكُونُ عَلَامَاتٌ فِي الشَّمْسِ وَالْقَمَرِ وَالنُّجُومِ،
وَعَلَى الْأَرْضِ كَرْبٌ أُمَمٌ بِحَيْرَةٍ. الْبَحْرُ
وَالْأَمْوَاجُ تَضِجُ، 26 وَالنَّاسُ يُغْشَى عَلَيْهِمْ مِنْ
خَوْفٍ وَانْتِظَارٍ مَا يَأْتِي عَلَى الْمَسْكُونَةِ، لِأَنَّ
قُوَّاتِ السَّمَاوَاتِ تَتَزَعَزَعُ. 27 وَحِينَئِذٍ
يُبْصِرُونَ ابْنَ الْإِنْسَانِ آتِيًا فِي سَحَابَةٍ بِقُوَّةٍ
وَمَجْدٍ كَثِيرٍ.

السيد المسيح قال بعض العلامات مثل

سفر اعمال الرسل اصحاح 2

19 وَأُعْطِيَ عَجَائِبَ فِي السَّمَاءِ مِنْ فَوْقُ وَآيَاتٍ عَلَى الْأَرْضِ مِنْ أَسْفَلُ: دَمًا وَنَارًا وَبُخَارَ دُخَانٍ.

20 تَتَحَوَّلُ الشَّمْسُ إِلَى ظُلْمَةٍ وَالْقَمَرُ إِلَى دَمٍ، قَبْلَ أَنْ يَجِيءَ يَوْمُ الرَّبِّ الْعَظِيمِ الشَّهِيرِ.

21 وَيَكُونُ كُلُّ مَنْ يَدْعُو بِاسْمِ الرَّبِّ يَخْلُصُ.

لماذا قال السيد المسيح بعض العلامات؟

أولا لكي لا نرتاع

انجيل متى 24 : 6

وَسَوْفَ تَسْمَعُونَ بِحُرُوبٍ وَأَخْبَارِ حُرُوبٍ.
أَنْظُرُوا، لَا تَرْتَاعُوا. لِأَنَّهُ لَا بُدَّ أَنْ تَكُونَ هَذِهِ
كُلُّهَا، وَلَكِنْ لَيْسَ الْمُنْتَهَى بَعْدُ.

لماذا قال السيد المسيح بعض العلامات؟

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى
مَتَى كَانَ تُؤْمِنُونَ.

لماذا قال السيد المسيح بعض العلامات؟

ثالثًا لنتنبه ونستعد

انجيل لوقا 21: 28

وَمَتَّى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَاَنْتَصِبُوا
وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.

وَالنُّجُومُ تَسْقُطُ مِنَ السَّمَاءِ، وَقُوَّاتُ
السَّمَاوَاتِ تَتَزَعَّعُ.....
متى 24 : 29

وَنُجُومُ السَّمَاءِ سَقَطَتْ إِلَى الْأَرْضِ...
رؤيا 6 : 13

وَتَكُونُ مَخَاوِفُ وَعَلَامَاتُ عَظِيمَةٌ مِنَ
السَّمَاءِ..... وَتَكُونُ عَلَامَاتُ فِي الشَّمْسِ
وَالْقَمَرِ وَالنُّجُومِ..... لِأَنَّ قُوَّاتِ
السَّمَاوَاتِ تَتَزَعَّعُ...

Evidence of rain and snow on ancient Mars

By Reet Kaur • Saturday, April 26, 2025 •

Geologists from the University of Colorado Boulder report that extensive valley networks on Mars were likely formed by widespread precipitation, challenging previous theories that attributed their formation to runoff from melting ice caps. Using landscape evolution models and topographic data from NASA missions, the researchers found that valley head elevations across Mars' southern highlands are more consistent with rain or snowmelt than with localized ice melting.

Researcher Looks Into Yellowstone's Magma Chamber to Assess Eruption Risk

العلماء يدرسوا سمك طبقة الحمم المتكونة في منطقة بركان يولوستون ليقدروا
احتمالية الانفجار

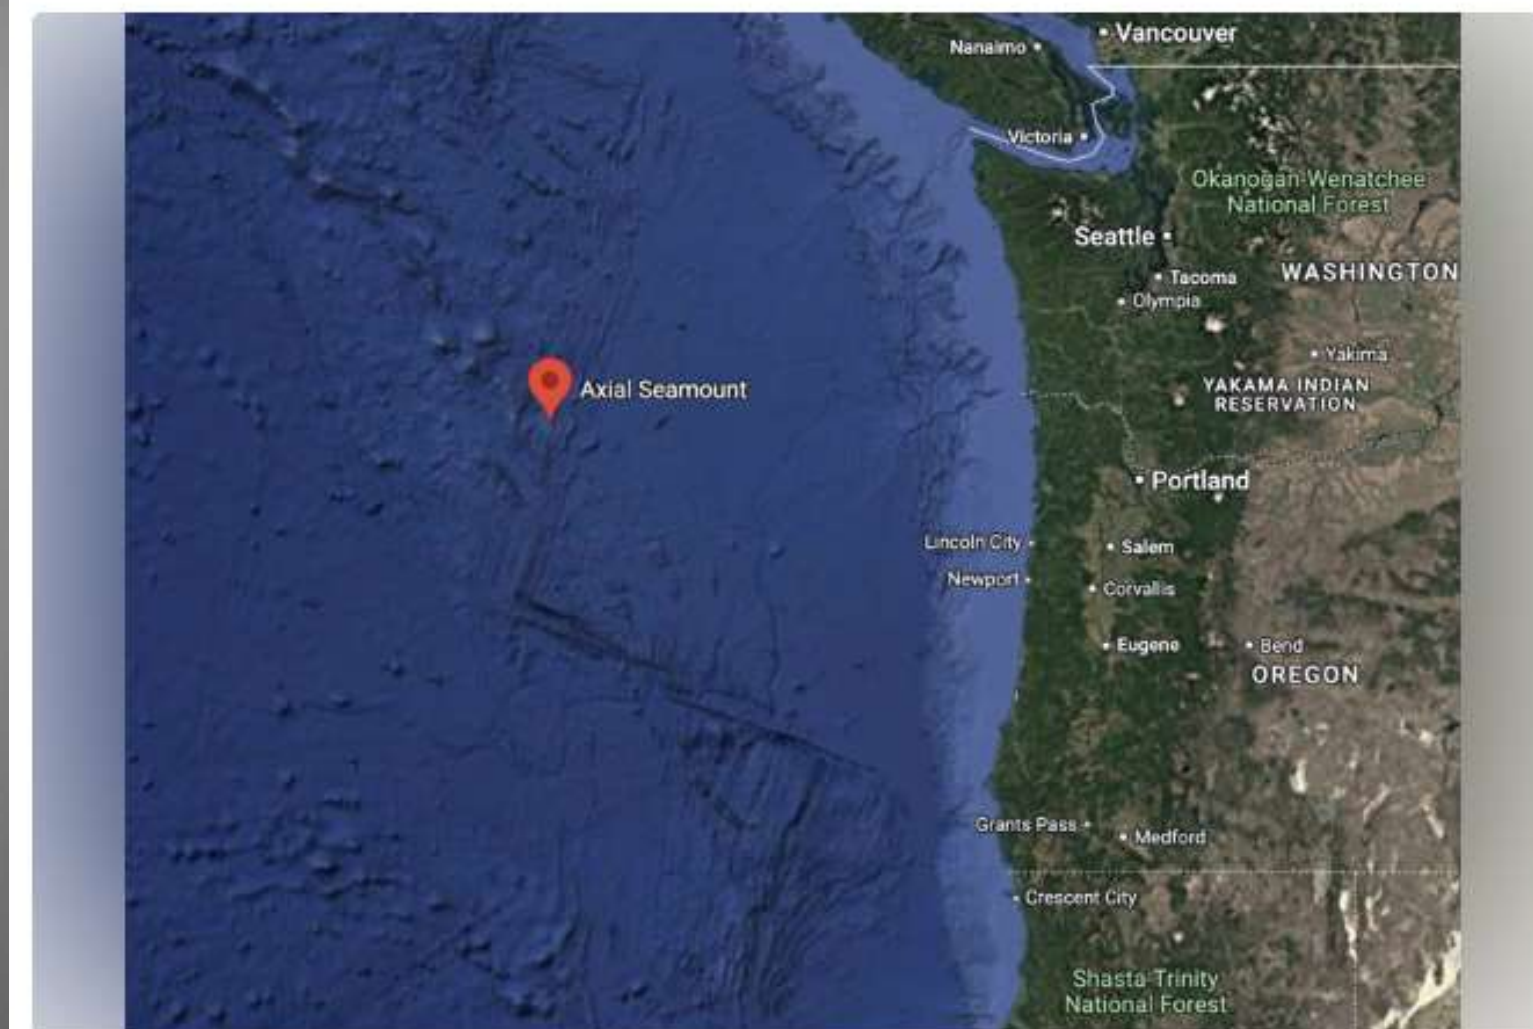

An underwater volcano situated 300 miles off the US coast could erupt "any day now", scientists have warned.

The [Axial Seamount](#) sits 300 miles west of Oregon and more than 4,900 feet below the surface of the Pacific Ocean.

It is the most active volcano in the Pacific Northwest and, with magma building to critical levels, is getting closer to erupting for the first time in a decade.

When the Axial Seamount last erupted in 2015, it triggered 8,000 [earthquakes](#) and caused the bottom of the ocean to sink nearly eight feet.

The Axial Seamount sits 300 miles west of Oregon (Google Maps)

"Over time, the volcano inflates due to the build up of magma beneath the surface," William Wilcock, a marine geophysicist and professor at the University of Washington, said.

"Some researchers have hypothesised that the amount of inflation can predict when the volcano will erupt, and if they're correct it's very exciting for us, because it has already inflated to the level that it reached before the last three eruptions.

New Hampshire May Experience Winter Fish Kills as Ice Melts

CONTACT:

March 31, 2025

Concord, NH – Fish kills, where large numbers of fish die in a short period of time, are not an uncommon occurrence in the early spring. As the ice recedes, especially from many smaller Granite State waterbodies, there may be dead fish, and most of these occurrences are due to natural processes. Ponds that are shallow, particularly those with relatively high levels of nutrients and aquatic plants, are generally more susceptible. Dead fish may become visible under the ice during late winter ice fishing events or as the ice melts.

China finally reveals how Covid originated after being accused of a lab leak cover-up

Story by Cassidy Morrison Senior Health Reporter For Dailymail.Com • 3h • 3 min read

- **READ MORE: Trump launches new Covid site blaming China for pandemic**

The Chinese government published a report on the Covid pandemic Wednesday claiming that the pandemic-causing [coronavirus](#) originated in the US, not [China](#) as many Americans argue.

The white paper released by China's State Council Information Office argued that the virus likely originated in the US and caused infections well before the outbreaks in China began in earnest.

Officials said: 'The US government, instead of facing squarely its failure in response to Covid-19 and reflecting on its shortcomings, has tried to shift the blame and divert people's attention by shamelessly politicizing SARS-CoV-2 origins tracing.

'A thorough and in-depth investigation into the origins of the virus should be conducted in the United States. The United States should respond to the reasonable concern of the international community, and give a responsible answer to the world.'

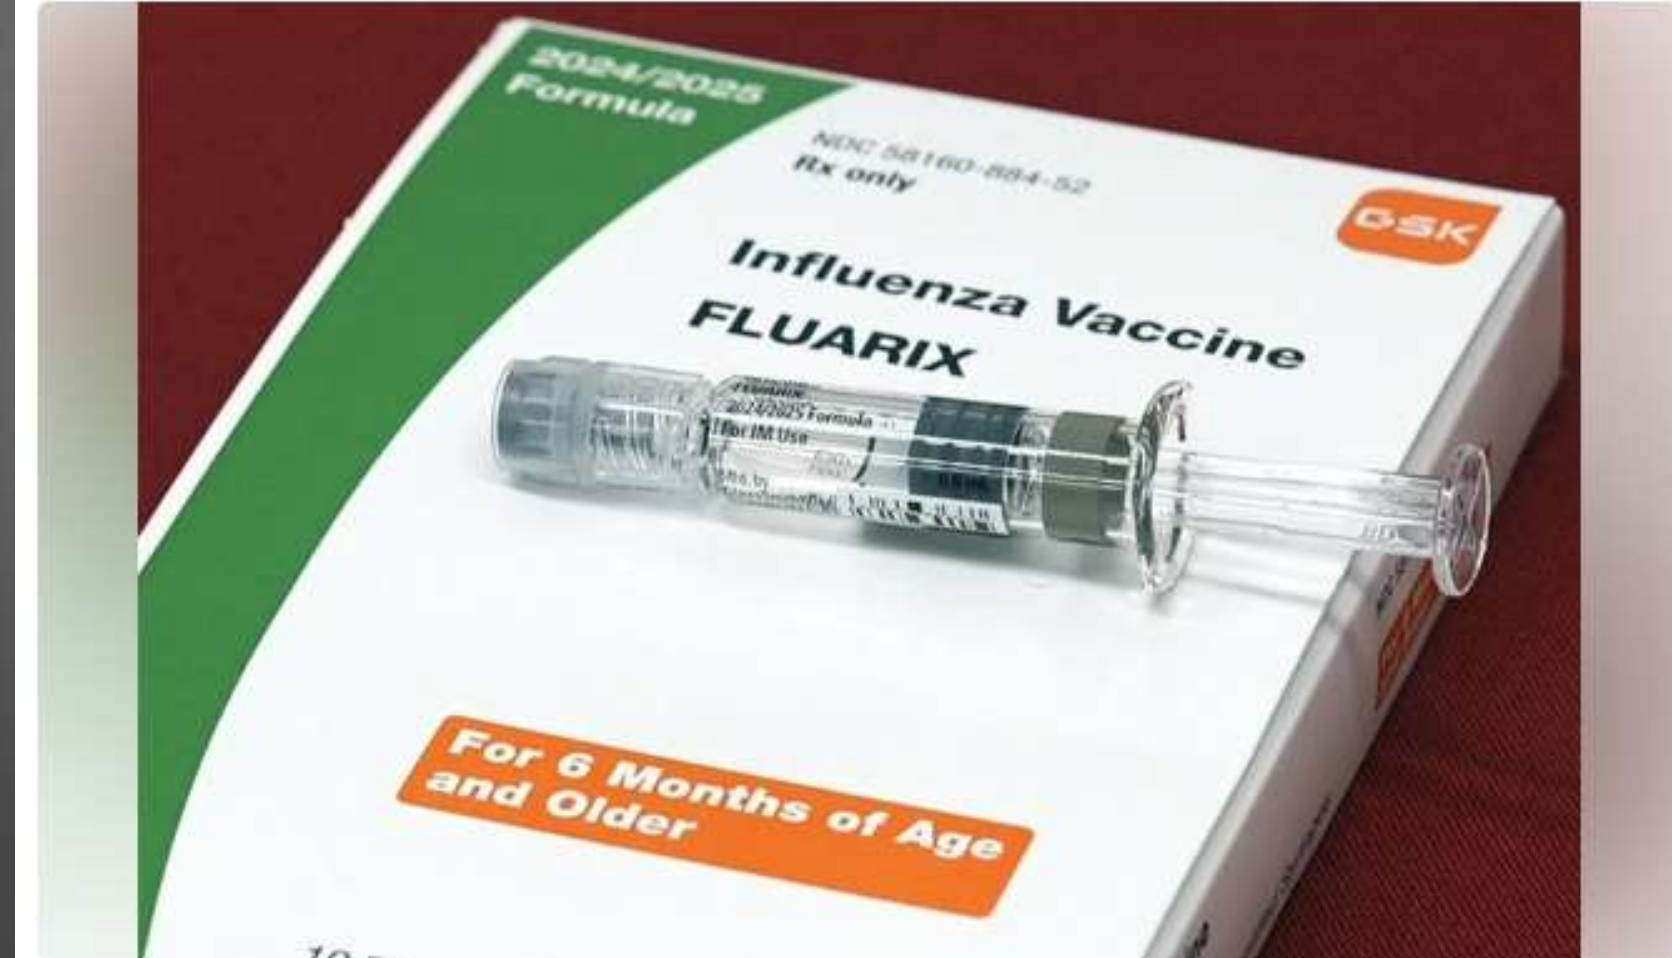

Several US agencies, including the CIA, maintain that evidence [points to a lab](#) at the [Wuhan](#) Institute of Virology in China as the source of the virus, which they argue leaked from the lab either accidentally or on purpose.

The CIA has said it had 'low confidence' in its assessment and noted that both lab origin and natural origin remain plausible. The [FBI](#) and the Energy Department have also posited that the virus escaped from the WIV, though also with 'low confidence.'

The Trump administration has announced two key vaccine maneuvers in an effort to **increase safety and reduce the number of injections given to Americans**.

The Department of Health and Human Services (HHS) will now require all new vaccines to be tested in placebo-controlled trials before they're approved for use.

This means some people in the study will receive the vaccine while others receive a benign substance such as saline before the results are compared.

HHS boss Robert F Kennedy said the move will increase trust in vaccines and boost transparency — but some experts fear it could lead to unethical practices.

Tuberculosis (TB), long overshadowed by modern pandemics like COVID-19, remains the world's deadliest infectious disease.

Despite decades of global efforts to control it, TB killed an estimated 1.3 million people in 2022, according to the World Health Organization (WHO)—more than HIV/AIDS and malaria.

Now, health experts warn that the United States may be facing a potential resurgence of this ancient killer.

A new study reveals that 14–17 % of global cropland, roughly 242 million ha (598 million acres), is contaminated with toxic metals, affecting food safety for up to 1.4 billion people. The contamination, driven by metals like cadmium and nickel, poses risks to agriculture and human health worldwide.

U.S. and Ukraine sign landmark minerals deal after months of fraught negotiations

Story by Sam Meredith • 2h •  2 min read

- The U.S. and Ukraine have signed a long-awaited minerals deal, providing Washington with preferential access to Kyiv's natural resources in exchange for the formation of a reconstruction investment fund.
- The agreement, long coveted by U.S. President Donald Trump, comes more than three years since the start of Russia's full-scale invasion of Ukraine.
- Yulia Svyrydenko, Ukraine's minister of economic development and trade, said on Wednesday that the economic deal is capable of delivering success for both the U.S. and Ukraine.

Ukraine can't reclaim lost territory – Rubio

Kiev is not able to force the Russian army to retreat to the 2014 borders, according to the US secretary of state

Ukraine will not be able to reclaim its 2014 borders from Russia, US Secretary of State Marco Rubio has said.

Ukraine's Vladimir Zelensky has publicly stated he will never recognize the lost territories, including Crimea, as Russian. The peninsula voted overwhelmingly to join Russia in 2014, shortly after the US-backed armed coup in Kiev. Kherson, Zaporozhye, Donetsk and Lugansk regions held their own referendums in 2022 to become part of Russia.

Earlier this week, US President Donald Trump's special envoy Keith Kellogg told Fox News that Kiev has expressed a willingness to cede land de facto, if not de jure, as part of a

peace deal.

"Ukraine can't push the Russians all the way back to where they were in 2014," Rubio said in an interview with Fox News on Thursday.

The Russian military repelled a series of Ukrainian drone raids overnight on Thursday, downing a total of 121 UAVs, the Defense Ministry has said. In a statement on Friday, officials reported no damage to the port city of Sevastopol, home to Russia's Black Sea Fleet, following the attack.

The majority of the aircraft-type drones – 89 in total – were intercepted over Crimea, and another 23 over the Black Sea, according to the statement.

In mainland Russia, four drones were downed over Krasnodar Region, two over Oryol Region, one over Bryansk Region, and one over Belgorod Region. Another drone was intercepted over the Sea of Azov.

Kim Jong-un demands nuclear navy

The North Korean leader has said the move would help defend state and maritime sovereignty

North Korean leader Kim Jong-un has called to accelerate arming the country's navy with nuclear weapons, the Korean Central News Agency (KCNA) reported on Wednesday.

Kim made the statement while attending a weapons system test of the DPRK's Choe Hyon multi-mission destroyer ship. After witnessing the demonstration, he is said to have noted that the warship's firepower still relies on conventional weaponry and *"cannot be called a reliable means of maritime defense."*

It is *"high time to make a responsible option for accelerating the nuclearization of the Navy in order to defend the state and its maritime sovereignty from existing and future threats,"* Kim announced, according to KCNA.

Russia has also pledged to help protect North Korea if such a need arises. Kremlin Spokesman Dmitry Peskov told reporters earlier this week that the defense agreement between Moscow and Pyongyang is still *"in effect."* The deal obligates both parties to provide immediate military assistance to each other if necessary.

Modi gives army ‘freedom’ to respond to Kashmir carnage – media

The Indian leader has authorized the military to decide the mode and timing of any armed response to Pakistan

Indian Prime Minister Narendra Modi on Tuesday gave the country’s armed forces “full operational freedom” to determine the mode, targets, and timing of India’s response to the recent terrorist attack in Jammu and Kashmir, which killed 26 people, Indian media has reported citing sources.

The message was delivered at a high-level security meeting attended by Indian Defense Minister Rajnath Singh, National Security Advisor Ajit Doval, and Chief of Defense Staff General Anil Chauhan.

NDTV reported that during the meeting, Modi reiterated New Delhi’s resolve to “deal a crushing blow to terrorism” and that he has “complete faith and confidence” in the Indian military.

India must send a 'serious message' to Pakistan – ex-foreign secretary

Kanwal Sibal has told RT that Islamabad has a policy of denying its role in terrorist attacks

Former Indian Foreign Secretary Kanwal Sibal in an interview with RT. © RT

New Delhi must send a much stronger signal to Pakistan over its support of terrorist activities, former Indian Foreign Secretary Kanwal Sibal has told RT.

Sibal's comments come after several high-level Pakistani officials claimed that India was planning an imminent strike in the wake of last week's terrorist attack in the Indian Union Territory of Jammu and Kashmir, which claimed the lives of 26 people, mostly tourists.

"India does not want war, but this can't carry on," Sibal said. "At some stage, this situation has to be handled in a way where Pakistan gets a serious message that it has to change its ways and has to give up the option of using

terrorism as an instrument of state policy."

US President Donald Trump says he is open to meeting Iran's supreme leader or president as the two countries began talks on Iran's nuclear program.

Following a meeting last week to outline a framework for a potential nuclear deal, which a US official describes as yielding "very good progress," Trump tells Time magazine, in an April 22 interview published today: "I think we're going to make a deal with Iran."

Asked whether he is open to meeting Supreme Leader Ali Khamenei or President Masoud Pezeshkian, Trump replies: "Sure."

Trump, who in 2018 pulled the US out of a 2015 nuclear agreement between Tehran and world powers, has warned of military action against Iran unless a new deal is swiftly reached to prevent it from developing nuclear weapons.

UK joins US air strikes against Houthis in Yemen

The joint strike comes after an alleged US attack on a detention center holding African migrants that reportedly killed dozens

The UK has begun to support the US in attacking Yemen's Houthi militia. The British Ministry of Defense said on Wednesday its forces had conducted joint airstrikes against what it claimed was a Houthi-controlled military facility.

The development came against the backdrop of Houthi-linked reports stating that another US attack hit a migrant detention center, resulting in dozens of civilian deaths. At least 68 African migrants were killed in the strike on the facility on Monday, the militia's Al Masirah TV Channel reported, adding that 47 people were injured. A US defense official said that the nation's military were aware of the claims about civilian casualties.

US President Donald Trump launched a large-scale air and naval strike campaign against Yemen-based Houthi targets last month to protect shipping in the Red Sea from Houthi attacks.

The Israel Defense Force (IDF) has launched a drone strike against an “*extremist group*” in Syria. In a joint statement Prime Minister Benjamin Netanyahu and Defense Minister Israel Katz called the attack a “*warning operation*” aimed at preventing violence against a Syrian Druze minority.

The strike targeted a “*gathering of an extremist group that was preparing to continue its attack on the Druze population*” in Syria, according to the Times of Israel. IDF Chief of Staff Lieutenant General Eyal Zamir has reportedly ordered troops to further target Syrian government sites “*if the violence against the Druze does not stop.*”

Clashes between the Syrian government-linked armed groups and Druze fighters have erupted around Damascus, according to AFP.

Senate Passes Bill To Protect Floridians from Geoengineering and Weather Modification
SB 56 by Senator Ileana Garcia prohibits chemical releases into the air, promotes public health

Tallahassee—The Florida Senate today passed Senate Bill 56, Geoengineering and Weather Modification Activities, by Senator Ileana Garcia (R-Miami). The bill prohibits the injection, release, or dispersion, by any means, of a chemical, a chemical compound, a substance, or an apparatus into the atmosphere within the borders of Florida for the express purpose of affecting the temperature, weather, climate, or intensity of sunlight.

“Through this bill we are addressing modern environmental concerns brought forward by our constituents and eliminating any ambiguity regarding the legality of weather modification,” said Senator Garcia. “Currently there is no system in place to track reports and concerns our residents have regarding geoengineering and weather modification. The bill creates a system to log, track, investigate and mitigate if necessary, so residents can separate fact from fiction and have a better understanding of what is happening in their communities.”

“I am grateful to Senator Garcia for bringing forward a great piece of legislation that address real

- China said it is evaluating the possibility of starting trade negotiations with the U.S.
- Senior U.S. officials have reached out recently "through relevant parties multiple times," hoping to start tariff negotiations, China's commerce ministry said.
- While Beijing appears to signal its readiness to engage in talks with the Trump administration, analysts cautioned that reaching a comprehensive deal will be a complex and time-consuming endeavor.

Banks could be extinct in 10 years – Eric Trump

Blockchain technology can perform financial transactions more efficiently, the president's son has said

Banks could face extinction within a decade if they fail to embrace blockchain technologies, US President Donald Trump's second son Eric, a crypto entrepreneur, has warned.

In an interview with CNBC on Wednesday, Eric Trump lambasted what he described as the slowness and inefficiency of the traditional banking system.

"The modern financial system is broken, it's slow, it's expensive," he told the business news channel.

Trump, who launched a bitcoin mining company called American Bitcoin in March, said he turned to digital currencies and decentralized finance when he realized that *"our banking system favors the ultra-wealthy"* and *"was weaponized against the vast majority of people in our country."*

ABUJA, Nigeria (Christian Daily International-Morning Star News) — Boko Haram terrorists on Monday (April 28) attacked a predominantly Christian community in Borno state, northeast Nigeria, killing seven Christians and setting homes and church buildings ablaze, residents said.

The militants attacked Kwaple village in Chibok County, said area resident James Musa.

“Kwaple village in Chibok Local Government Area is under attack from Boko Haram terrorists. Please pray for God’s intervention,” Musa said, echoing text messages to Christian Daily International-Morning Star News from other residents.

Resident Ibrahim Adamu said seven Christian mourners at a wake were slain and several others severely injured by suspected Boko Haram insurgents. Modu Mustapha, chairman of the Chibok Local Government Council, confirmed the attack.

Truck Ramming into Easter Procession in Nigeria Ruled Intentional

Six participants lost their lives, officials say.

April 30, 2025 By Christian Daily International-Morning Star News - [Leave a Comment](#)

ABUJA, Nigeria (Christian Daily International-Morning Star News) – Investigators have concluded that a trailer truck driver intentionally crashed into an Easter procession in Nigeria, killing six Christians, sources said.

More than 30 Christians were hospitalized when the truck on April 21 rammed an Easter Monday procession in Billiri, Gombe state, northeast Nigeria, officials said.

Police initially attempted to attribute the incident to brake failure, but a committee formed by Gombe state officials concluded that the driver deliberately ploughed into the procession. Witnesses reportedly said it neither slowed nor honked before slamming through the procession, then had no trouble coming to a halt.

The ad-hoc committee chairman, Rambai Ayala, [told reporters](#) that 18 of the injured were still receiving treatment at hospitals in Gombe. He identified the Christians killed as Grace David, Clement Lakason, Ephraim Ibrahim, Faida P. Uslas, Rejoice Mela and Praise Ayuba.

Andele Tadi and David Yohanna, two Billiri community leaders, said in a press statement that the 18-wheel trailer truck full of grain bore down on the Christians from behind at the Tashan Gona junction.

NEW DELHI (Morning Star News)

— A Christian charged under India's anti-conversion law after Hindu nationalists attacked a church is seeking anticipatory bail from the Supreme Court of India.

Rajesh Sharma said his plea for anticipatory bail was rejected in Chhattisgarh state's lower and high courts. Sharma and the others were booked after a mob of 70 to 100

hardline Hindus led by members of the Hindu nationalist Bajrang Dal cut the electrical power of the 120-member Church of God in Raipur and attacked them during their March 9 worship service.

"The mob was accompanied by few policemen, and they attacked in the presence of police — who stood there as mere spectators, as they were very few in numbers," said 66-year-old Senior Pastor Praveen Lawrence of the Church of God in Raipur.

The Hindu mob shouted slogans like "Jai Jai Shri Ram [Praise lord Rama]," "Stop conversions" and "Get rid of those carrying out conversions," including derogatory words in Hindi not included in these translations.

Record Number of Blasphemy Cases Recorded in Pakistan

Rights watchdog cites widespread abuse of notorious law.

 May 1, 2025 By Christian Daily International-Morning Star News - [Leave a Comment](#)

LAHORE, Pakistan (Christian Daily International-Morning Star News) – A rights watchdog chronicled a record 344 new blasphemy cases in Pakistan in 2024, highlighting increased abuse of the country’s condemned blasphemy laws.

Table 7. Forced Conversion & Abduction in 2024: Victims by Religion

Religion/Community	Abduction/Forced Conversion	Abduction	Total	Percentage
Hindu	47	6	52	63 %
Christian	21	9	31	37 %
Total	68	15	83	100 %

Forced conversions and abductions in Pakistan in 2024 were recorded in the Annual Human Rights Observer report on blasphemy accusations. (Center for Social Justice chart)

Of the 344 new blasphemy cases, 70 percent of the accused were Muslims, 6 percent were Christians, 9 percent Hindus and 14 percent Ahmadis, according to the Annual Human Rights Observer report issued by Center for Social Justice (CSJ).

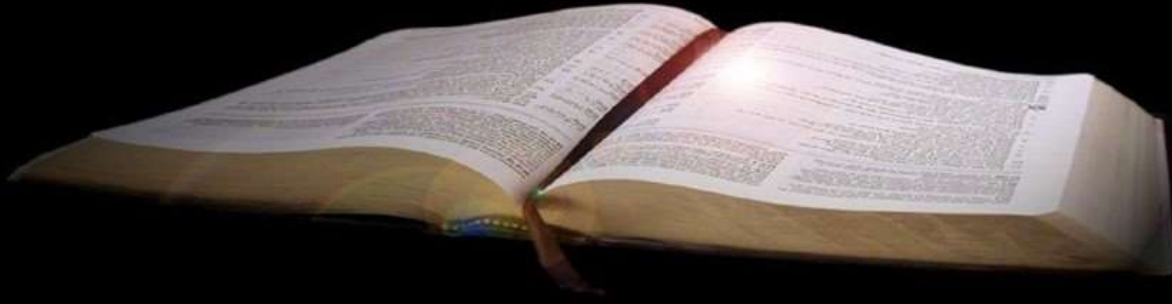

“The blatant weaponization of blasphemy laws continued to enable persecution, religious intolerance and widespread human rights violations,” the report stated.

Section 298-A of the blasphemy statutes, which relates to disrespect of holy personages, including the family, wives and companions of Islam’s prophet, Muhammad, and the four caliphs and is punishable with up to 10 years in prison, was the most used section. Last year 128 people were charged under this section.
