هدف هذه الخدمة

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه لأننا نور العالم الذي أصبح مظلّم وليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل بالمحبة والتبشير وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذارى انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشرا اشاعات او اخيف البعض ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما انتقلوا

السيد المسيح قال بعض العلامات مثل

انجيل لوقا أصحاح 21

10 ثُمَّ قَالَ لَهُمْ: «تَقُومُ أُمَّةٌ عَلَى أُمَّةٍ وَمَمْلَكَةٌ
عَلَى مَمْلَكَةٍ، 11 وَتَكُونُ زَلَزِلُ عَظِيمَةٌ فِي
أَمَاكِنَ، وَمَجَاعَاتٌ وَأَوْبَةٌ. وَتَكُونُ مَخَافٌ
وَعَلَامَاتٌ عَظِيمَةٌ مِنَ السَّمَاءِ.....

وَتَكُونُ عَلَامَاتٌ فِي الشَّمْسِ وَالْقَمَرِ وَالنُّجُومِ،
وَعَلَى الْأَرْضِ كَرْبٌ أُمٌّ بِحَيْرَةٍ. الْبَحْرُ
وَالْأَمْوَاجُ تَضِجُ، 26 وَالنَّاسُ يُغْشَى عَلَيْهِمْ مِنْ
خَوْفٍ وَانْتِظَارٍ مَا يَأْتِي عَلَى الْمَسْكُونَةِ، لِأَنَّ
قُوَّاتِ السَّمَاوَاتِ تَتَزَعَزَعُ. 27 وَحِينَئِذٍ
يُبْصِرُونَ ابْنَ الْإِنْسَانِ آتِيًا فِي سَحَابَةٍ بِقُوَّةٍ
وَمَجْدٍ كَثِيرٍ.

السيد المسيح قال بعض العلامات مثل

سفر اعمال الرسل اصحاح 2

19 وَأُعْطِيَ عَجَائِبَ فِي السَّمَاءِ مِنْ فَوْقُ وَآيَاتٍ عَلَى الْأَرْضِ مِنْ أَسْفَلُ: دَمًا وَنَارًا وَبُخَارَ دُخَانٍ.

20 تَتَحَوَّلُ الشَّمْسُ إِلَى ظُلْمَةٍ وَالْقَمَرُ إِلَى دَمٍ، قَبْلَ أَنْ يَجِيءَ يَوْمُ الرَّبِّ الْعَظِيمِ الشَّهِيرِ.

21 وَيَكُونُ كُلُّ مَنْ يَدْعُو بِاسْمِ الرَّبِّ يَخْلُصُ.

لماذا قال السيد المسيح بعض العلامات؟

أولا لكي لا نرتاع

انجيل متى 24 : 6

وَسَوْفَ تَسْمَعُونَ بِحُرُوبٍ وَأَخْبَارِ حُرُوبٍ.
أَنْظُرُوا، لَا تَرْتَاعُوا. لِأَنَّهُ لَا بُدَّ أَنْ تَكُونَ هَذِهِ
كُلُّهَا، وَلَكِنْ لَيْسَ الْمُنْتَهَى بَعْدُ.

لماذا قال السيد المسيح بعض العلامات؟

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى
مَتَى كَانَ تُؤْمِنُونَ.

لماذا قال السيد المسيح بعض العلامات؟

ثالثا لنتنبه ونستعد

انجيل لوقا 21: 28

وَمَتَّى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَاَنْتَصِبُوا
وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.

وَالنُّجُومُ تَسْقُطُ مِنَ السَّمَاءِ، وَقُوَّاتُ
السَّمَاوَاتِ تَتَزَعَّعُ.....
متى 24 : 29

وَنُجُومُ السَّمَاءِ سَقَطَتْ إِلَى الْأَرْضِ...
رؤيا 6 : 13

وَتَكُونُ مَخَاوِفُ وَعَلَامَاتُ عَظِيمَةٌ مِنَ
السَّمَاءِ..... وَتَكُونُ عَلَامَاتُ فِي الشَّمْسِ
وَالْقَمَرِ وَالنُّجُومِ..... لِأَنَّ قُوَّاتِ
السَّمَاوَاتِ تَتَزَعَّعُ...

All Sky Fireball Network

Every night, a network of [NASA all-sky cameras](#) scans the skies above the United States for meteoritic fireballs. Automated software maintained by NASA's Meteoroid Environment Office calculates their orbits, velocity, penetration depth in Earth's atmosphere and many other characteristics. Daily results are presented here on Spaceweather.com.

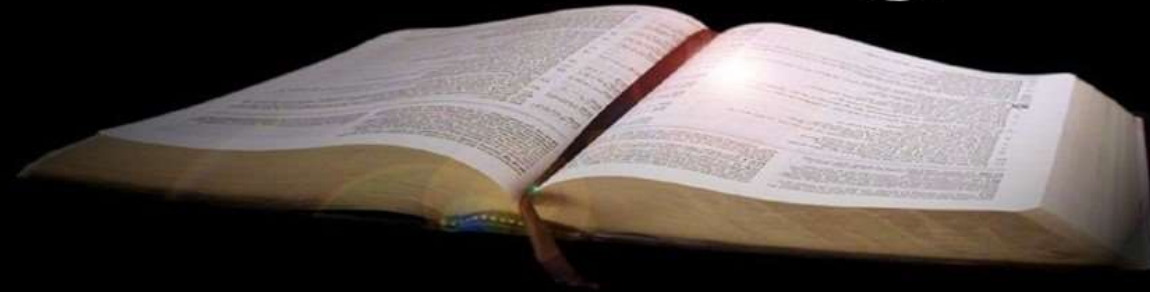

On May 10, 2025, the network reported **11** fireballs.

Natural disaster losses surpass USD 110 billion in Q1 2025, closing in on twice the 10-year average

By Harsh Vardhan • Friday, May 9, 2025 •

Natural disaster-related losses in the first quarter of 2025 have surged to over USD 110 billion, nearly double the decade-long average. While insurers absorbed a substantial portion of these damages, nearly half of the losses remain uninsured. With the US facing mounting risks from severe storms and wildfires, the protection gap remains a growing concern.

A severe hailstorm struck Beijing on May 13, 2025, producing hailstones up to 4 cm (1.6 inches) in diameter that caused widespread vehicle damage, disrupted traffic, and led to flight cancellations. The storm triggered multiple alerts from the Beijing Meteorological Observatory and impacted 13 districts. Events of this magnitude are uncommon in Beijing, where hailstorms typically produce smaller hail and are more localized.

Funding cuts threaten HIV response efforts in South Africa

Official statistics show that viral load testing declined by up to 21% among key groups in the last two months

© Getty Images/jarun011

Funding cuts, particularly from the United States' President's Emergency Plan for AIDS Relief (Pepfar), have been cited as a reason behind South Africa's startling decline in viral load testing.

Earlier this year, President Donald Trump withdrew funding from the Pepfar. This meant suspending some of the United States' funding for HIV and TB programmes in African countries for 90 days.

During his State of the Nation Address, President Cyril Ramaphosa said the US funding represents about 17% of South Africa's HIV spend.

Reuters on Wednesday reported that data from the National Health Laboratory Service, a government entity, showed that viral load testing declined by up to 21% among key groups in the last two months.

Statement on the antigen composition of COVID-19 vaccines

15 May 2025 | Statement | Reading time: 7 min (1810 words)

Key points

- Vaccination remains an important public health countermeasure against COVID-19. As per the WHO Director General's [standing recommendations for COVID-19](#), Member States are recommended to continue to offer COVID-19 vaccination based on the recommendations of the [WHO Strategic Advisory Group of Experts on Immunization \(SAGE\)](#).
- SARS-CoV-2 continues to undergo sustained evolution since its emergence in humans, with important genetic and antigenic changes in the spike protein.
- The objective of an update to COVID-19 vaccine antigen composition is to enhance vaccine-induced immune responses to circulating SARS-CoV-2 variants.
- The WHO [Technical Advisory Group on COVID-19 Vaccine Composition \(TAG-CO-VAC\)](#) advises manufacturers that **monovalent JN.1 or KP.2** vaccines remain appropriate vaccine antigens; **monovalent LP.8.1** is a suitable alternative vaccine antigen.
- In accordance with WHO SAGE policy, vaccination should not be delayed in anticipation of access to vaccines with an updated composition.

Ukrainian attacks kill six civilians during Victory Day ceasefire – Moscow

Kiev intensified its strikes on border regions ahead of the 72-hour pause, a high-ranking Russian official has said

Six Russian civilians were killed and 23 others wounded in Ukrainian attacks during the 72-hour Victory Day ceasefire, top Russian diplomat Rodion Miroshnik has said.

Russian President Vladimir Putin declared a unilateral truce from May 7-8 to May 10-11 to mark the 80th anniversary of Soviet victory over Nazi Germany and to encourage unconditional peace talks with Kiev. However, Ukraine's Vladimir Zelensky declined to support the ceasefire, dismissing it as a Russian ploy and an *"attempt at manipulation."*

Miroshnik, who is the Russian Foreign Ministry's ambassador-at-large tasked with documenting Kiev's alleged war crimes, told TASS on Monday that ahead of the start of

the truce *"the Ukrainian Nazis not only failed to reduce the intensity of attacks on civilian targets, but increased the number of such strikes by almost a quarter,"* compared to previous days.

Ukraine catching men ‘like dogs on the street’ – Putin

Russia, on the contrary, experiences no shortage of army volunteers, the president has said

Ukrainian recruitment officials have been catching would-be soldiers “like dogs” in the country’s streets, Russian President Vladimir Putin has said.

Putin made the remarks on Tuesday during a meeting with members of ‘Business Russia,’ during which he noted that Russia has been enjoying a steady flow of volunteers to fight against Ukraine.

“While the Kiev authorities are engaged in forced mobilization – people are caught like dogs on the street, then our guys go voluntarily, they go themselves... They are catching 30 thousand people there now, and we have 50-60 thousand a month enlisting willingly,” Putin said.

Ukraine launched a general mobilization following the escalation of the conflict with Russia in early 2022, barring most men aged between 18 and 60 years old from leaving the country and setting the conscription age at 27. Last year, faced with mounting losses and manpower shortages, Kiev lowered the limit to 25, while introducing stricter penalties for draft dodgers and simplifying other mobilization rules.

It looks like that could actually happen this week. If both leaders show up, peace negotiations will start in Turkey on Thursday. But will these negotiations lead to peace, or will they lead to World War 3?

Vladimir Zelensky's regime enjoys relative stability only because of the conflict with Russia, and so may be reluctant to seal a peace agreement with Moscow, former director-general of the United Nations Office at Geneva, Sergey Ordzhonikidze, has told RT.

The untrustworthiness of the Ukrainian leadership will loom large for the Russian delegation during an expected meeting in Istanbul, Türkiye, on Thursday, the veteran diplomat predicted on Tuesday.

The talks were originally proposed last week by Russian President Vladimir Putin, who offered to resume direct negotiations between Moscow and Kiev without any preconditions to reach a lasting settlement to the Ukraine

conflict.

Moscow and Kiev exchange remains of fallen soldiers – MP

Russia has handed 909 bodies to Ukraine in exchange for the remains of 34 of its own, a lawmaker has said

FILE PHOTO: Russian volunteers gather Ukrainian soldiers' remains for exchange with Kiev © Sputnik

Moscow and Kiev have exchanged the remains of fallen servicemen, Russian MP Shamsail Saraliev has told RBK media outlet. The lawmaker is a member of the parliamentary commission overseeing the country's military operation against Ukrainian forces.

According to Saraliev, the Russian Defense Ministry returned 909 bodies to Ukraine and received the remains of 34 Russian soldiers in exchange.

Ukraine's Coordination Headquarters for the Treatment of Prisoners of War confirmed the swap in a Telegram post, saying Kiev had received the bodies of 909 servicemen. It did not disclose how many of Russia's fallen soldiers were handed over. The operation

involved the Ukrainian military as well as the domestic security service, the SBU, and was coordinated with the International Committee of the Red Cross, it added.

Comer Applauds President Trump’s Executive Order Banning Dangerous, Taxpayer-Funded Gain-of-Function Research

Evidence shows U.S. funded gain of function research on bat coronaviruses in Wuhan, China ignited deadly pandemic

WASHINGTON—House Committee on Oversight and Government Reform Chairman James Comer (R-Ky.) today applauded President Donald Trump’s executive order banning federal funding for gain-of-function research:

“A two-year investigation by the Select Subcommittee on the Coronavirus Pandemic exposed how the Biden Administration and Dr. Anthony Fauci allowed taxpayer dollars to fund risky and secretive gain-of-function research around the world, including at the Wuhan Institute of Virology in China. Every American should be outraged that their hard-earned tax dollars were used by mad scientists to engineer more deadly and transmissible coronaviruses. I applaud President Trump for banning taxpayer-funded gain-of-function research government-wide. This administration is working to ensure the health and safety of all Americans, and this decisive action could prevent the next pandemic from spilling out of a lab. COVID-19 has shown us that laboratories are not immune to accidents or leaks, and the potential consequences of another such incident could be catastrophic. The American people ultimately deserve science that protects them, not taxpayer-funded experiments that put all their lives at risk,” said Chairman Comer.

The WHITE HOUSE

Q

THE ORIGIN

"The Proximal Origin of SARS-CoV-2" publication — which was used repeatedly by public health officials and the media to discredit the lab leak theory — was prompted by Dr. Fauci to push the preferred narrative that COVID-19 originated naturally.

1.

The virus possesses a biological characteristic that is *not found in nature*.

2.

Data shows that all COVID-19 cases stem from *a single introduction into humans*. This runs contrary to previous pandemics where there were multiple spillover events.

3.

Wuhan is home to China's foremost SARS research lab, which has a history of conducting gain-of-function research (gene altering and organism supercharging) at inadequate biosafety levels.

1. AI economic gains could outweigh emissions cost – IMF

Artificial intelligence will deliver significant economic benefits that exceed its environmental impact, according to a report from the International Monetary Fund (IMF) released at its annual Spring Meetings with the World Bank Group.

The IMF projects [AI will boost global GDP by approximately 0.5%](#) annually between 2025 and 2030, with economic gains surpassing the costs of increased carbon emissions from energy-hungry data centres.

"Despite challenges related to higher electricity prices and greenhouse gas emissions, the gains to global GDP from AI are likely to outweigh the cost of the additional emissions," the IMF said, as reported by *Reuters*.

"The social cost of these extra emissions is minor compared with the [expected economic gains from AI](#), yet it still adds to the worrisome buildup of emissions."

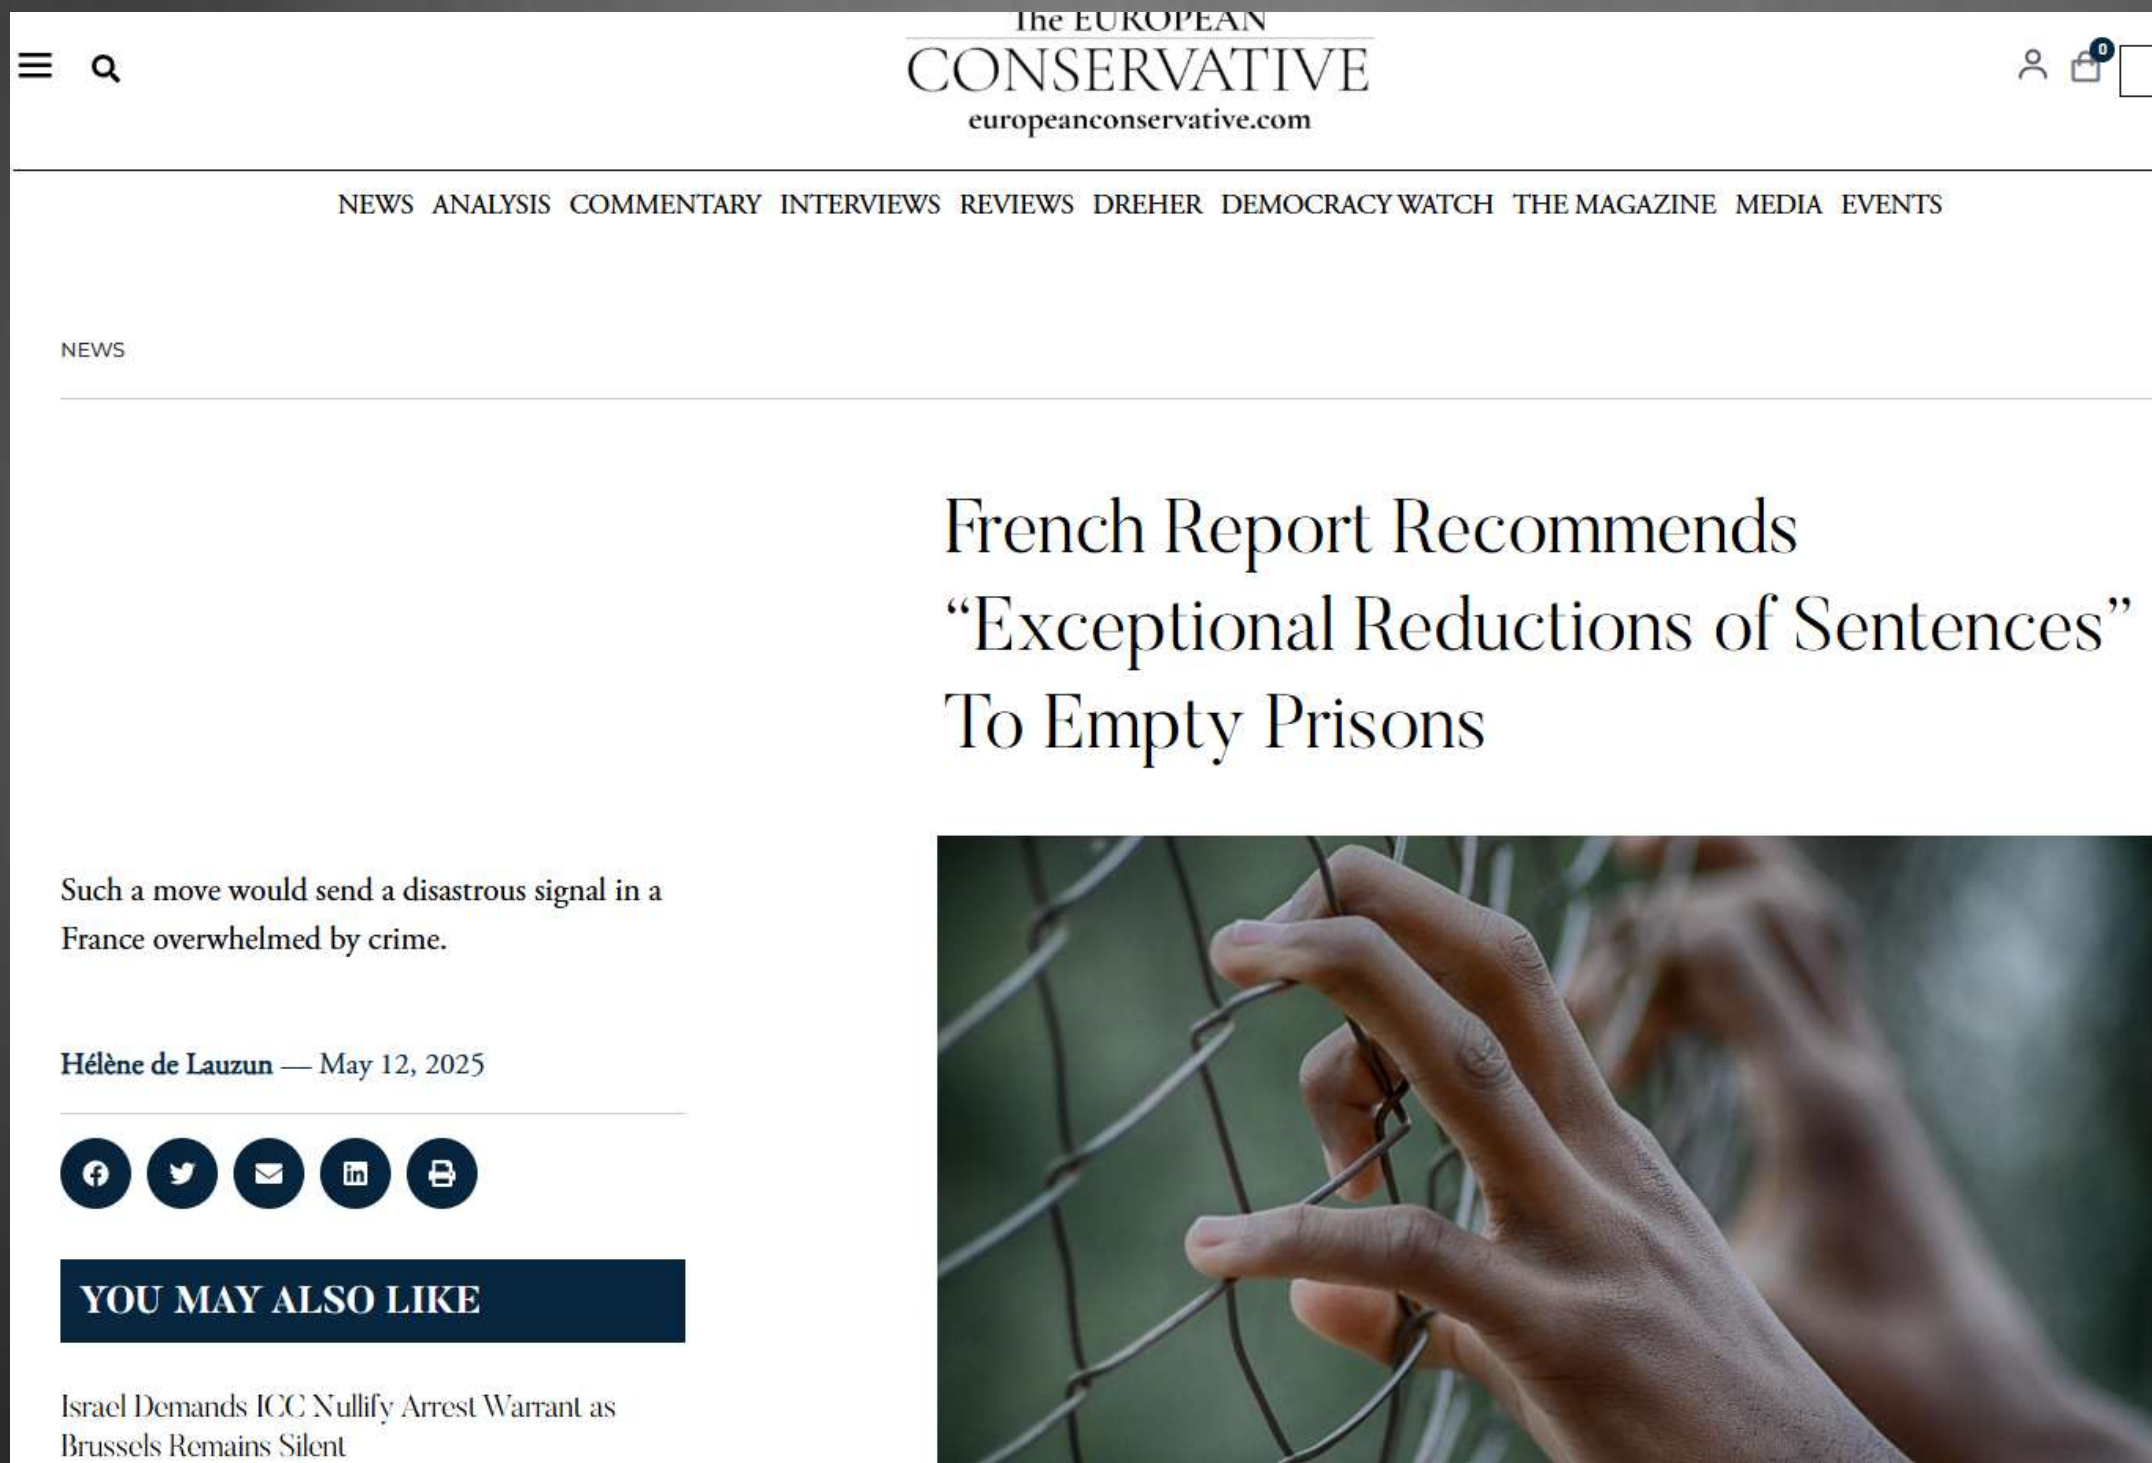

The IMF has plotted the emissions impacts of expansion in the IT sector, below, with the left axis showing the total increase in greenhouse gas emissions in metric tons of carbon dioxide (MtCO₂e) from 2025-2030 from IT sector expansion. The right axis shows the total increase in global emissions in 2030 relative to the baseline emissions as a result of this expansion.

Engineers have discovered 'kill switches' embedded within Chinese-manufactured parts in American solar farms, raising fears that Beijing could manipulate power supplies or even 'physically destroy' grids across the US, UK and Europe. Energy officials are now assessing the risks posed by small communication devices discovered inside power inverters - an integral component of renewable energy systems that connects them to the power grid. While inverters are built to allow remote access for updates and maintenance, the utility companies that use them typically install firewalls to prevent direct communication back to China.

China has installed kill switches in solar panels sold to the West

Story by David Averre and Reuters • 7h

تعلقا على هذا الخبر لو تتذكروا كنت كلمت حضراتكم ان الصين عندها كنترول علي كثير من المحولات الكهربائية في امريكا والغرب، الخبر هذا يؤكد انهم أيضا علي تحكمهم في الألواح الشمسية لتوليد الطاقة ده بالإضافة لمعظم كاميرات المراقبة والروتر. وملاحظة ان اخ عزيز يعمل في شركة تصنف من اكبر شركات الطاقة في العالم، أخبرني ان الذي يصنع الباسوردات من أجل التحكم عن بعد في كل منتجات هذه الشركة من مشغلات التحكم في الطاقة النووية و توزيع الغاز والبتترول هو فرع الشركة في الصين. والعكس غير مقبول بمعنى لما تصنع هذه الشركة منتجات عالية التعقيد في امريكا وترسلها للصين يرفضوا ان تضاف للمنتج اى وسيلة للتحكم عن بعد وهذا أكد له ان الصين عندها امكانية تعمل شلل في الطاقة بكل مصادرها لو قامت اي منازعات. فالسؤال لماذا الغرب يقبل هذا؟

Scientists turn lead into gold for 1st time, but only for a split second

The Large Hadron Collider created 89,000 gold atoms per second.

Why gold prices are hitting an all time high ABC News' Alexis Christoforous joins "GMA" to take a look at why some Americans are looking to purchase the precious metal.

In a breakthrough that would make medieval alchemists envious, scientists at [Europe's Large Hadron Collider](#) have successfully transformed lead into gold, producing 89,000 atoms per second.

The Large Hadron Collider (LHC) is a giant particle accelerator that smashes atoms together at super-high speeds. Scientists there have found a way to knock three tiny

The emergence of four-legged animals known as [tetrapods](#) was a key step in the evolution of many species today – including humans.

Our new discovery, [published today in *Nature*](#), details ancient fossil footprints found in Australia that upend the early evolution timeline of all tetrapods. It also suggests major parts of the story could have played out in the southern supercontinent of Gondwana.

This fossil trackway whispers that we have been looking for the origin of modern tetrapods in the wrong time, and perhaps the wrong place.

The first feet on land

Tetrapods originated a long time ago in the [Devonian period](#), when strange lobe-finned fishes began to haul themselves out of the water, probably around 390 million years ago.

This ancestral stock later split into two main evolutionary lines. One led to modern amphibians, such as frogs and salamanders. The other led to amniotes, whose eggs contain amniotic membranes protecting the developing foetus.

Noah's Ark site's 'fully preserved' secrets discovered in radar scans: 'Not what you'd expect to see'

By Ben Cost

Published May 13, 2025, 4:34 p.m. ET

American researchers claim to have cracked one of the Bible's enduring mysteries — after using radar technology to map the possible remains of Noah's Ark.

"It is exactly what you'd expect to find if this were a man-made boat, consistent with the biblical specifications of Noah's Ark," Andrew Jones, an independent researcher, told the [Christian Broadcasting Network](#), while revealing the results of his multi-year project.

Jones works with Noah's Ark Scans, which he described as a "loose organization of individuals interested in pursuing scientific work and promoting" the site of the ark.

Jones and his team were attempting the solve the age-old question of whether the legendary vessel is buried in the mountains of eastern Turkey — roughly 18 miles south of Mount Ararat, which the Bible describes as the boat's final resting place.

US, China announce reduced tariffs for 90 days after trade talks

Story by Landon Mion • 2h • 1 min read

The U.S. and China announced on Monday that tariffs against one another will be reduced for an initial 90-day period after officials held trade negotiations in Geneva.

The White House said the tariffs President Donald Trump announced against China on April 2 will be cut by 24 percentage points for this temporary period while retaining the remaining ad valorem rate of 10% from that announcement.

China made the same agreement, adding that it will "adopt all necessary administrative measures to suspend or remove the non-tariff countermeasures taken against the United States since April 2," a White House announcement stated.

China lashes out at PM's trade deal with Trump complaining it is designed to damage them

🌈 Summarize

China has lashed out at the UK-US trade deal - complaining that it is designed to damage them.

Beijing warned the pact broke 'basic principles' after it featured a commitment to 'address non-market policies of third countries'.

That is understood to mean preventing the UK becoming a 'backdoor' for China to export into America.

The intervention underlines the headaches for **Keir Starmer** in navigating tensions between major economic powers.

Fulani herdsmen kill 12 church members in Benue state.

ABUJA, Nigeria (Christian Daily International-Morning Star News) – Fulani herdsmen killed two Christians in central Nigeria on Wednesday (May 7) after killing 10 others in the same area the previous month, sources said.

The herdsmen killed two Christian farmers in Otabi-Alpa village, in Benue state's Otukpo County, said Marvis Ejeh, a member of the Agatu Local Government Council; the two Christians were from Agatu County, though their farms are in Otukpo County, he said.

One of the slain Christians was Tony Adejoh, village head of predominantly Christian Odugbeho community, and Ejeh identified the other victim as Jerry John.

"Both were working on their farms in the Otobi-Akpa when they were ambushed and killed by armed herdsmen," Ejeh told Christian Daily International-Morning Star News.

Area resident Noah Unogwu also attributed the killings to Fulani herdsmen.

Muslims Torture Christian to Death in Pakistan, Brother Says

Accused former police officer arrested.

May 14, 2025 By Christian Daily International-Morning Star News - [Leave a Comment](#)

LAHORE, Pakistan (Christian Daily International-Morning Star News) – Muslims in Pakistan, including a former police officer, on Monday (May 12) tortured a Christian laborer to death over a theft accusation, the victim's brother said.

Riyasat Masih of Mohalla Jamalpur in Jamkay Cheema village, Sialkot District, Punjab Province, said that his brother Kashif Masih, a 35-year-old Catholic, worked on the agricultural property of former police inspector Malik Irfan for the last three years.

At about 2:30 a.m. on Monday (May 12), two relatives of Irfan – Areeb Babar and Ijaz Ikramullah – forced their way into the home where the Masih brothers lived, Riyasat Masih said.

"They alleged that my brother Kashif had stolen a cell phone from their outhouse," Masih told Christian Daily International-Morning Star News. "They conducted a thorough search of our house and left after finding nothing there. They did not tell us at that time that Kashif was in their custody since the evening of May 11, Sunday."

Christians Driven from Homes in India Threatened with Death

Tribal religion followers terrify church members.

May 13, 2025 By Our India Correspondent - [Leave a Comment](#)

NEW DELHI (*Morning Star News*) –

Villagers practicing tribal religion who assaulted Christian families and drove them from their homes in central India for practicing their faith have threatened to kill them if they return, sources said.

In Sukma District, Chhattisgarh state, the Christian families were assaulted, threatened and forcibly expelled from their homes for their faith on April 24. About 45 members from 10 Christian families fled Durandarbha village, in Konta tehsil, and scattered to nearby hills and forests. They spent the night in the open air before taking refuge at a church in Chintalnar, 11 miles away.

On April 28, the Christians sent two women to Durandarbha to gauge residents' attitudes. They returned terrified, reporting the villagers had threatened to kill them all if they returned still following Christ.

Baptist Preacher Says There's 'No Biblical Basis' for Abstaining From Premarital Sex

May 14, 2025 | By Janna Firestone

Megachurch Baptist preacher, Dr. Delman Coates, referenced "problematic translations" of the Bible as he argued against the teaching that **sex before or outside of marriage** is a sin. In a sermon series that aimed to "clarify what has been distorted and misunderstood by the church for millennia," Coates fully supported consensual premarital sex.

"I'm acutely aware that today's message is one that you ain't never heard preached in the church," admitted Coates.
