اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه لأننا نور العالم الذي أصبح مظلم وليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل بالمحبة والتبشير وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذارى انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما انتقلوا

### **Rikki Loftus**

Earth might be able to witness a once-in-five-thousand-year event on the moon and it is coming sooner than you think.

When Asteroid 2024 YR4 was first found in December 2024, it was determined that there was a remote possibility of it hitting Earth.

That was because it was placed at Level 3 on the Torino impact scale, which measures the likelihood of a collision and the scale of the threat and damage.

An extremely rare gigantic jet, powerful bolt of upward lightning, was captured from the International Space Station as it soared above a thunderstorm over northern Mexico and the U.S. Southwest on July 3, 2025. The striking image, taken by NASA astronaut Nichole Vapor Ayers, shows the jet piercing into the ionosphere, offering a rare glimpse of one of Earth's most elusive atmospheric phenomena.

### Hundreds of earthquakes detected at Washington's Mt. Rainier

Story by Scott Sistek • 5h • ① 2 min read

VANCOUVER, Wash. - A swarm of hundreds of small earthquakes has been detected rumbling deep below Mt. Rainier in Washington State early Tuesday morning, though geologists stress there is no cause for concern.

The quakes began just before 1:30 a.m. and have been occurring at a rate of several times per minute, said officials with the U.S. Geological Survey at the Cascade Volcano Observatory.

All the quakes have been occurring between 1.2 and 3.7 miles beneath the summit, and have been small in magnitude. The largest quake measured so far is 1.7, and none have been felt at the surface.

### Alaskan volcano rumbling despite being dormant for over 100 years, scientists say

Story by Julia Jacobo • 18h • 🝈 2 min read

An Alaskan volcano that has been inactive for more than 100 years is showing signs of rumbling, according to scientists.

However, there's a chance that the activity could be signs of a pending avalanche, rather than a volcanic eruption, NASA said.

MORE: Eruption at Hawaii's Kilauea volcano sends lava shooting 1,000 feet in air The Iliamna volcano, located near the Cook Inlet in southern Alaska, last erupted in 1867, but would still rumble every few years due to avalanches large enough to register on nearby seismic and infrasound instruments, according to NASA.

The region has recently experienced a "flurry of shaking," according to the Alaska Volcano Observatory.

## World leaders recognized for championing the WHO **Pandemic Agreement**

### 11 July 2025 | News release | Geneva |Reading time: 1 min (303 words)

The World Health Organization has formally recognized the pivotal role of a number of heads of state and government in securing the adoption of the WHO Pandemic Agreement by the Seventy-eighth World Health Assembly in May 2025.

At a special event at WHO Headquarters in Geneva on 10 July 2025, plagues were presented to the representatives of two countries whose former and current presidents, His Excellency Sebastián Piñera, former President of Chile, and His Excellency Kais Saied, President of Tunisia, advocated for the Agreement from the outset. Certificates were also awarded to leaders of 25 other countries for their guidance and commitment throughout the negotiation process.

"The adoption by the World Health Assembly of the Pandemic Agreement was a historic moment in global health," said Dr Tedros Adhanom Ghebreyesus, WHO Director-General. "But we would not have reached that moment without sustained political advocacy from the highest levels".

Countries whose current or former presidents or prime ministers were also recognized include Albania, Costa Rica, Croatia, Fiji, France, Germany, Greece, Indonesia, Italy, Kenya, Republic of Korea, Netherlands, Norway, Portugal, Romania, Rwanda, Senegal, Serbia, South Africa, Spain, Thailand, Trinidad and Tobago, Ukraine, and the United Kingdom of Great Britain and Northern Ireland.

As AI continues to advance, speculation about the timeline for achieving Artificial General Intelligence (AGI) is intensifying. The aggressive recruitment strategies of leading companies suggest a race to unlock AGI's fantastic potential. While the exact timeline remains uncertain, the pursuit of AGI underscores the profound possibilities that lie ahead for AI and its role in shaping the future.

#### Court in Pakistan Denies Custody of Christian Girl to Muslim

LAHORE, Pakistan (Christian Daily International-Morning Star News) - In a significant development, a court in Pakistan refused to hand custody of a Catholic girl to a Muslim who abducted and forcibly converted/married her, noting that as a minor she could not go with him even if she said she was willing to do so, sources said.

Burewala Magistrate Tajamal Hussain on Thursday (July 3) recorded the claim of 14-year-old Elishba Adnan that she had converted to Islam and married Babar Mukhtar of her own free will.

"In her statement recorded under her alleged Islamic name 'Fatima Bibi,' Elishba claimed that she had married Mukhtar on June 12 and wanted to live with him," rights activist Albert Patras told Christian Daily International-Morning Star News. "However, the magistrate took note of her birth certificate presented by her parents, which showed that she was a minor, therefore her alleged marriage to a man twice her age was illegal under Punjab's anti-child marriage laws."

Patras said that their lawyer also told the court that the accused had committed statutory rape under Section 375 of the Pakistan Penal Code, which bars sexual relations with a girl under the age of 16 even in the guise of marriage.

A Hungarian official has taken aim at progressive activists within the European Union, accusing them of authoring a report that attacks Christianity and seeks to diminish its influence.

The European Parliamentary Forum for Sexual and Reproductive Rights (EPF) has published a report claiming that Europe is suffering from a rise in religious "anti-feminist" groups. The report was funded by the Bill & Melinda Gates Foundation and George Soros.

Hungarian Ministerial Commissioner, Bernadett Petri, said the report was yet more evidence of the EU's slide into godlessness. Speaking to Hungary Today, she described it as "an openly anti-Christian piece of work."
