هدف هذه الخدمة

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه لأننا نور العالم الذي أصبح مظلّم وليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل بالمحبة والتبشير وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذارى انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترّب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترّب لكيلا يقال عني كاذب وانشّر اشاعات او اخيف البعض ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما انتقلوا

السيد المسيح قال بعض العلامات مثل

انجيل لوقا أصحاح 21

10 ثُمَّ قَالَ لَهُمْ: «تَقُومُ أُمَّةٌ عَلَى أُمَّةٍ وَمَمْلَكَةٌ
عَلَى مَمْلَكَةٍ، 11 وَتَكُونُ زَلَزِلُ عَظِيمَةٌ فِي

وَعَلَامَاتٌ عَظِيمَةٌ مِنَ السَّمَاءِ.....

وَتَكُونُ عَلَامَاتٌ فِي الشَّمْسِ وَالْقَمَرِ وَالنُّجُومِ،
وَعَلَى الْأَرْضِ كَرْبٌ أُمٌّ بِحَيْرَةٍ. الْبَحْرُ
وَالْأَمْوَاجُ تَضِجُ، 26 وَالنَّاسُ يُغْشَى عَلَيْهِمْ مِنْ

يُبْصِرُونَ ابْنَ الْإِنْسَانِ آتِيًا فِي سَحَابَةٍ بِقُوَّةٍ
وَمَجْدٍ كَثِيرٍ.

السيد المسيح قال بعض العلامات مثل

سفر اعمال الرسل اصحاح 2

19 وَأُعْطِيَ عَجَائِبَ فِي السَّمَاءِ مِنْ فَوْقُ وَآيَاتٍ عَلَى الْأَرْضِ مِنْ أَسْفَلُ: دَمًا وَنَارًا وَبُخَارَ دُخَانٍ.

20 تَتَحَوَّلُ الشَّمْسُ إِلَى ظُلْمَةٍ وَالْقَمَرُ إِلَى دَمٍ، قَبْلَ أَنْ يَجِيءَ يَوْمُ الرَّبِّ الْعَظِيمِ الشَّهِيرِ.

21 وَيَكُونُ كُلُّ مَنْ يَدْعُو بِاسْمِ الرَّبِّ يَخْلُصُ.

لماذا قال السيد المسيح بعض العلامات؟

أولا لكي لا نرتاع

انجيل متى 24 : 6

وَسَوْفَ تَسْمَعُونَ بِحُرُوبٍ وَأَخْبَارِ حُرُوبٍ.
أَنْظُرُوا، لَا تَرْتَاعُوا. لِأَنَّهُ لَا بُدَّ أَنْ تَكُونَ هَذِهِ
كُلُّهَا، وَلَكِنْ لَيْسَ الْمُنْتَهَى بَعْدُ.

لماذا قال السيد المسيح بعض العلامات؟

ثانيا لنؤمن

إنجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى
مَتَى كَانَ تُؤْمِنُونَ.

لماذا قال السيد المسيح بعض العلامات؟

ثالثا لنتنبه ونستعد

انجيل لوقا 21: 28

وَمَتَّى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَاَنْتَصِبُوا
وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.

وَالنُّجُومُ تَسْقُطُ مِنَ السَّمَاءِ، وَقُوَّاتُ
السَّمَاوَاتِ تَتَزَعَّعُ.....
متى 24 : 29

وَنُجُومُ السَّمَاءِ سَقَطَتْ إِلَى الْأَرْضِ...
رؤيا 6 : 13

وَتَكُونُ مَخَاوِفُ وَعَلَامَاتُ عَظِيمَةٌ مِنَ
السَّمَاءِ..... وَتَكُونُ عَلَامَاتُ فِي الشَّمْسِ
وَالْقَمَرِ وَالنُّجُومِ..... لِأَنَّ قُوَّاتِ
السَّمَاوَاتِ تَتَزَعَّعُ...

4 Recently Discovered Green Comets Are Racing Through Our Solar System At The Exact Moment In Human History When Global Events Are About To Go Absolutely Nuts

Have you ever heard of 4 giant green comets roaring through our solar system at the same time? In all my years, I have never seen anything like this. ATLAS, LEMMON, and SWAN are all visible from Earth right now, and interstellar visitor 3I/ATLAS will be visible from our planet again soon once it swings around the Sun. The vast

Astronomers discover mysterious object that's a million times larger than the sun — and completely invisible

By Ben Cost

Seeing is not believing when it comes to dark matter.

Scientists have blown stargazers' collective minds after discovering a massive dark object in space that's completely invisible to the naked eye, per an awe-inspiring study in the journal *Nature Astronomy*.

Unusual nickel and cyanide emissions detected around interstellar object 3I/ATLAS

By Teo Blašković • Thursday, October 16, 2025 • [Follow us on Google News](#)

Spectroscopic observations with the Keck II telescope in Hawaii revealed distinct nickel and cyanide emissions surrounding the interstellar object 3I/ATLAS, extending several hundred kilometers from its nucleus. The data, presented by Hoogendam et al. (2025) and summarized by astrophysicist Avi Loeb, show an anomalous concentration of nickel and an absence of iron lines — behavior unseen in known comets. These results, together with earlier Hubble images showing an anti-tail oriented toward the Sun, further reinforce the object's unusual nature.

Interstellar object 3I/ATLAS continues to exhibit strange behavior leaving astronomers baffled

Oct 11, 2025

Astronomers have found that the interstellar comet 3I/ATLAS is ejecting water vapor at an astonishing rate.

This object, believed to originate from another star system potentially tens of millions of light-years away, is blasting out water equivalent to about 88 pounds per second—comparable to a fire hose operating at full capacity.

South Atlantic Anomaly, weak spot in Earth's magnetic field, expanding steadily since 2014

New data from the European Space Agency's Swarm mission show that the South Atlantic Anomaly, a weak region in Earth's magnetic field over the South Atlantic Ocean, has expanded steadily since 2014, now covering nearly 1% of the planet's surface. The 11-year record marks the most detailed satellite observation of the field's uneven weakening to date.

Since **highly pathogenic avian influenza, or** H5N1 – better known as bird flu – was first detected in **the U.S.** in 2022, it has wreaked havoc on the natural world, tearing through delicate populations of wild birds and spreading to mammals, killing some species in devastating numbers.

Meanwhile, the disease is also acutely felt by **poultry farmers**, who see avian influenza as a terrifying new threat to their livelihoods. At the same time, the soaring costs are ultimately passed on to consumers as egg prices have been destabilized.

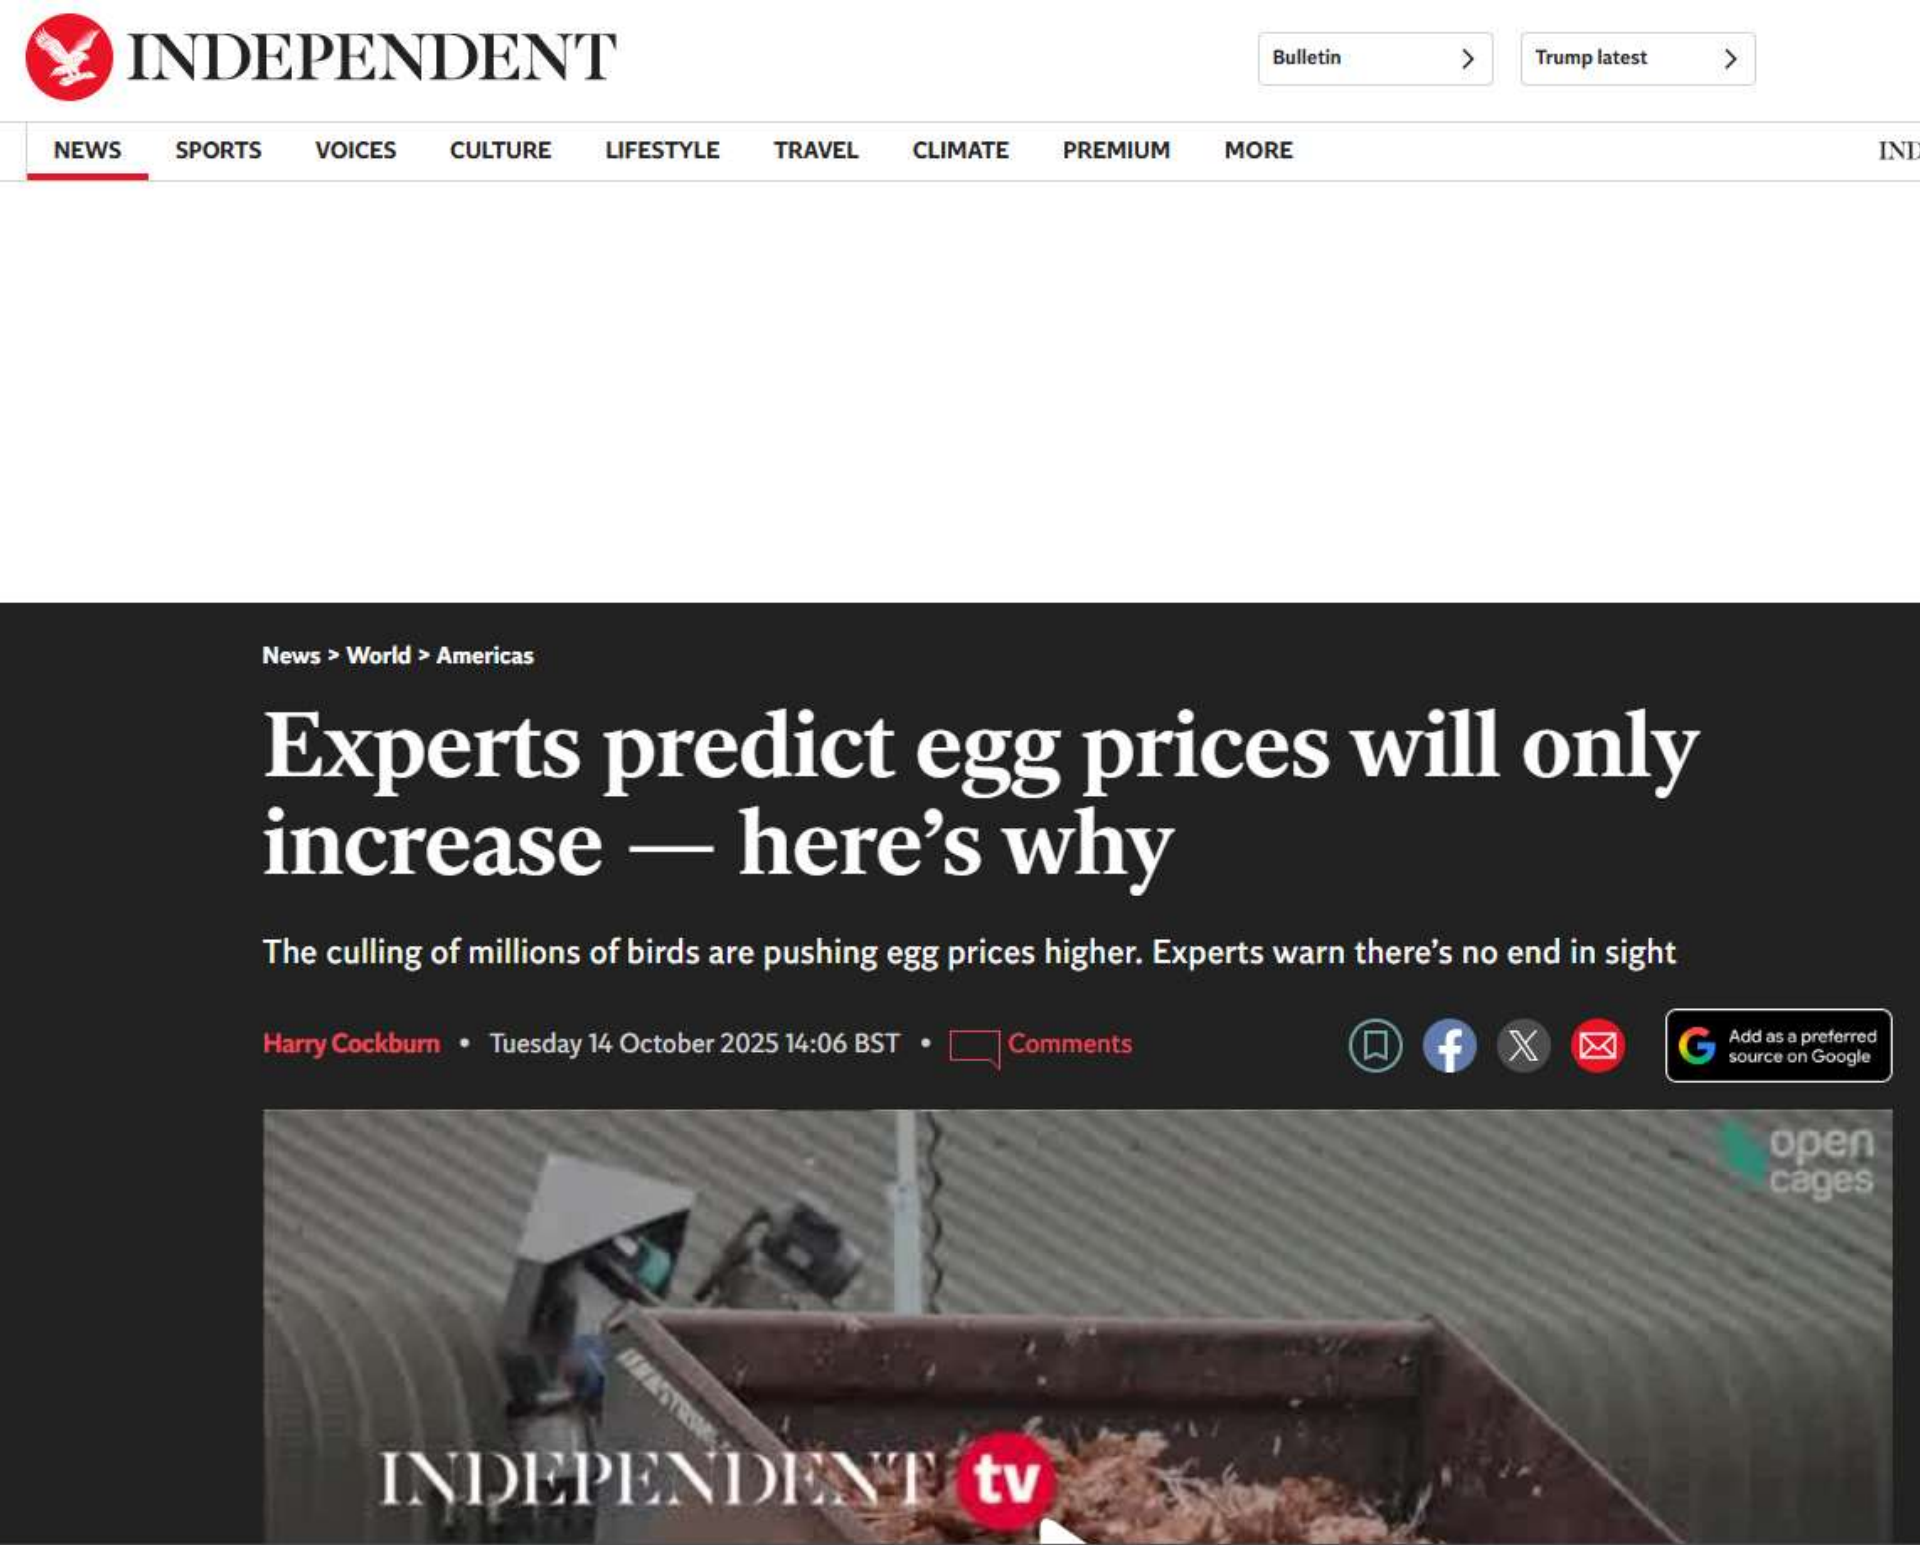

This year, cases are **reportedly** spiking earlier than experts predicted, sparking major industry concerns over the scale of culls of infected poultry and how this will affect egg production and prices.

Many people are concerned about the outbreak of avian influenza, or bird flu, that began in 2022 and has affected domestic poultry, waterfowl, raptors, shorebirds, other species of birds, and some mammals in many parts of the world. Because the current strain (H5N1) causes heavy losses to poultry, it is referred to as highly pathogenic avian influenza, or HPAI.

A team of researchers at the Changchun Veterinary Research Institute in China has zeroed in on a specific strain of [the influenza virus](#), known as D/HY11, which emerged in cattle in northeast China in 2023.

Their laboratory analysis indicated that this strain was [capable of replicating](#) in human airway cells and in animal tissue, raising concerns that the variant could already be spreading among humans.

The study further demonstrated that the virus could be transmitted efficiently through the air between cows and ferrets, a standard model for estimating transmission potential in humans.

Blood tests revealed 74 percent of people in Northeast China had been exposed to the virus, based on an analysis of archived blood samples, proving it has jumped from animals to humans. The rate rose to 97 percent in those with respiratory symptoms; however, it remains unknown whether it can spread between people or if these were all isolated infections from animals.

The team concluded: 'In summary, it is likely that IDV outbreak has metastasized into an ongoing problem for cattle and humans.'

Renewed pandemic fears are escalating in [China](#), where a new [flu](#) variant is causing widespread chaos.

Scientists are tracking the evolution of a cattle flu variant, warning that its continued spread raises the prospect of a new pathogen adapted to circulate among humans.

A new study, led by a team of researchers in China, has identified that the Influenza D virus (IDV), a variant seen to primarily infect in livestock, is accumulating changes that could potentially enable it to transition from an animal-only pathogen to being able to spread among humans.

Ukrainian 'terrorism' impossible without Western support – Kremlin

The complexity of Kiev's attacks on Russia indicate that they could not have acted alone, Dmitry Peskov has said

Ukraine could not have carried out terrorist attacks against Russian critical energy sites without support from Western intelligence agencies, Kremlin spokesman Dmitry Peskov told Izvestia on Thursday.

At the 'Russian Energy Week' (REW) forum in Moscow, Peskov was asked to comment on Federal Security Service (FSB) Director Aleksandr Bortnikov's claims that British operatives were involved in Ukrainian strikes on Caspian Pipeline Consortium (CPC) assets.

The complexity of the Kiev regime's "acts of terrorism against critical energy infrastructure" indicates "that the Ukrainians themselves couldn't have carried them out," Peskov said.

Trump denies Ukraine Tomahawk missiles, urges both sides to 'stop the war immediately'

Story by Laura Sharman, CNN • 4h • 3 min read Summarize

Ukrainian President Volodymyr Zelensky failed to obtain Tomahawk missiles for strikes on Russia from a meeting with Donald Trump on Friday, with the US president later calling for both sides to cease fighting and accept current battle lines.

Zelensky had traveled to Washington hoping to receive the long-range cruise missiles, which he believes could deliver a decisive blow to the Kremlin's war economy by enabling targeted strikes on oil and energy facilities deep inside Russia.

However, during opening remarks at a White House working lunch, Trump expressed [hopes to resolve the war](#) "without thinking about Tomahawks," adding that the weapon is one America "needs."

Germany plans to spend €10 billion (\$10.8 billion) in the coming years to massively expand its fleet of military drones, Defense Minister Boris Pistorius has said.

The plan comes amid EU discussions of a “*drone wall*” – a proposed network of air defense and surveillance systems to counter alleged Russian threats. The German UAV acquisitions are part of a broader militarization drive across the bloc, with Berlin taking a leading role.

Speaking to reporters on the sidelines of the NATO defense ministers' meeting in Brussels on Wednesday, Pistorius pledged that Germany will take a greater role in EU air defense. Recently, several Western officials have accused Russian aircraft and drones of violating EU airspace, labeling the incidents as part of an alleged “*hybrid war*” by Moscow. Hamas carries out public executions after returning to the streets of Gaza

Story by Samy Magdy and Joseph Krauss • 1h • 4 min read

Summarize

Hamas security forces have returned to Gaza's streets, clashing with armed groups and killing alleged gangsters in a bid to restore law and order where Israeli troops withdrew.

This show of force, welcomed by some Palestinians after months of lawlessness, could now threaten the fragile ceasefire, especially as all living hostages from Hamas's 7 October 2023 attack have been released.

Israeli prime minister Benjamin Netanyahu has repeatedly said the war will not end until Hamas has been dismantled, and US president Donald Trump's ceasefire plan calls for Hamas to disarm and hand power over to an internationally supervised body that has yet to be formed.

Meta has rolled out an opt-in AI feature to its US and Canadian Facebook users that claims to make their photos and videos more “shareworthy.” The only catch is that the feature is designed for your phone’s camera roll — *not* the media you’ve already uploaded to Facebook. If you opt in, Meta’s AI will comb through your camera roll, upload *your unpublished photos* to Meta’s cloud, and surface “hidden gems” that are “lost among screenshots, receipts, and random snaps,” the company says. At that time, the company claimed unposted, private photos were not being used to train Meta’s AI, but it declined to rule out whether it would do so in the future.

If it's worrying that high school kids are outsourcing their brains to AI, it's downright alarming to imagine US military leaders — the commanders of the most well-equipped armed forces in history — doing the same.

Unfortunately, that scenario is no longer the stuff of cold war fiction. As first reported by *Business Insider*, Major General William “Hank” Taylor, commander of the 8th Field Army in South Korea, told reporters that “Chat[GPT] and I” have become “really close lately.”

تطورات الصراع الأمريكي الصيني: بعد صراعات الجمارك في مايو ويونية ومضاعفة ترامب لجمارك الصين تم عقد اتفاق في يونية بين أمريكا والصين على أن الصين لا تحتكر المعادن النادرة وتسمح بتصديرها لأمريكا فترامب ازال كثير من جمارك الصين. ولكن الصين كعادتها لم تحترم هذه المعاهدة وبدأت في اول أسبوع في أكتوبر تفرض قيود تمنع بها تصدير المعادن النادرة وتحتكرها التي تدخل في كل الصناعات التكنولوجية والحربية المتطورة وتحتكرها وليس من الصين فقط للشركات الأمريكية بل أيضا في كل العالم فهي تمنع أي دولة تستخدم تكنولوجيا صينية في استخراج أو استخدام هذه المعادن ولو بنسبة 0.1% من تصديرها ألا بموافقة الصين وهذا عكس المعاهدة تماما فترام أعاد من أسبوع مضى جمارك على الصين بمقدار 100% فوق ما هو مطبق ولغى لقاءه المرتقب مع الرئيس الصيني شي. ولكن يبدو أن الصين تظهر استسلام وتحاول تهدئة الموقف فترامب وافق على ان يقابل شي في مؤتمر APEC. ولكن لا يزال الامر محتدم ولو أصرت الصين على قرارها لاحتكار المعادن النادرة هذا سيضر الصناعات في كل العالم.

Russia's Crude Flows Surge to the Highest in More Than Two Years

(Bloomberg) -- Russia's seaborne crude shipments rose to a 28-month high in the past four weeks, amid rising production and Ukrainian attacks on refineries that are forcing the diversion of supplies to export terminals.

Four-week average shipments from the country's ports were 3.74 million barrels a day to Oct. 12, according to vessel-tracking data compiled by Bloomberg, the highest since June 2023. The average provides a clearer picture of underlying trends than more volatile weekly figures.

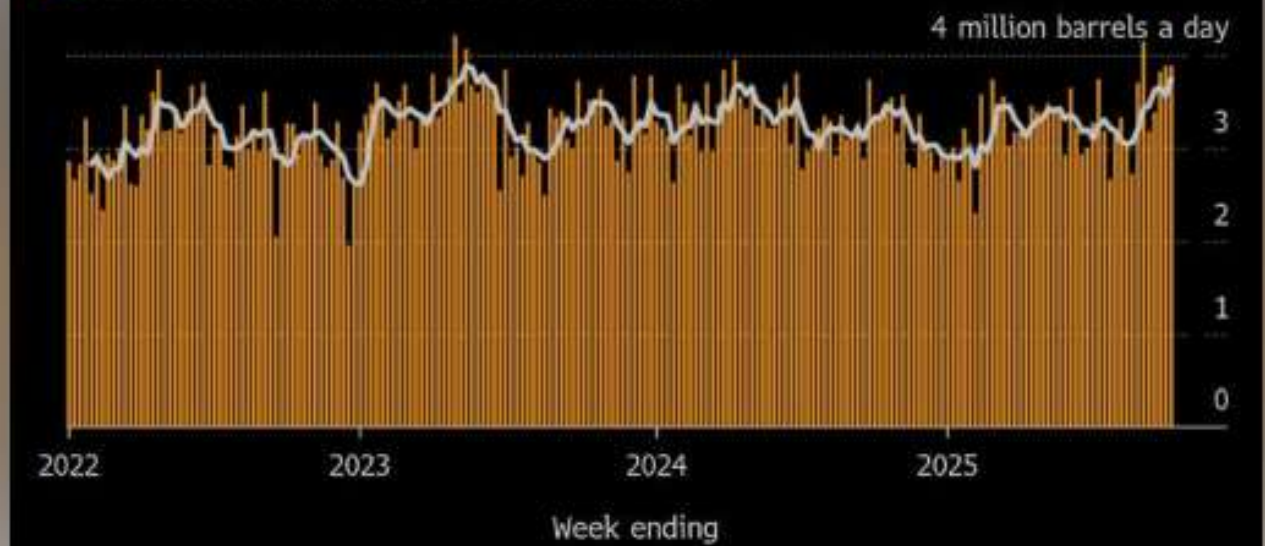

Moscow has been slowly boosting its crude production [in line with](#) a rising target under a months-long drive by the OPEC+ producer group to return supplies to the market. Since March, before the move began, Russia's production target has increased by more than 500,000 barrels a day.

The amount of crude available for export has also been swelled in recent weeks by intensifying Ukrainian [drone strikes](#) on Russian oil refineries. At least 28 attacks have been launched since the start of August, compared with a total of 21 in the first seven months of the year.

Crude that can't be processed as a result of the strikes is likely being diverted for export through Russia's Baltic and Black Sea ports. Shipments from Primorsk, Ust-Luga and Novorossiysk averaged 2.3 million barrels a day in the latest four-week period. That could leave very little effective [spare capacity](#) at the terminals, particularly with the approach of winter when adverse weather conditions can impact loading operations.

اضطهاد المسيحيين

Oct 12, 2025

This trend, often overlooked amid discussions about younger generations, represents a significant loss for churches in terms of attendance, financial support, and spiritual depth.

As Thom S. Rainer, founder and CEO of Church Answers, highlights in his article, "Senior adults are leaving the Church in alarming numbers," this exodus is not marked by drama but by a subtle fading away.

Senior adults are leaving the Church in alarming numbers

By Thom S. Rainer, Op-ed Contributor | Sunday, October 12, 2025

For years, church leaders have sounded the alarm about the departure of younger generations. We've analyzed the data on millennials. We've debated how to reach Gen Z. Entire conferences are devoted to the "next church must do to keep them engaged."

All of that is needed. But there is another exodus taking place in our churches, one that rarely makes the headlines and seldom finds its way into our strategy sessions. It is the quiet departure of

Turkey has been deporting hundreds of foreign Christians and blocking their return by labeling them national security threats, according to an international legal advocacy group.

ADF International Legal Officer Lidia Rieder told a gathering of the Organization for Security and Co-operation in Europe's Human Dimension Conference in Warsaw, Poland, on Monday that such designations are issued through internal security codes and have left local Protestant communities without leadership.
